## OTTAWA - CANADA

### MEMORANDUM

Published by Authority of the Hon. Gordon Churchill, Minister of Trade and Commerce

Vol. 2, No. 1

January, 1959

Price \$1.00 per year, 10 cents per copy.

### PULPWOOD PRODUCTION, CONSUMPTION AND INVENTORIES

This memorandum covers production, consumption and inventories of pulpwood. All roundwood cut for making pulp, whether in tree lengths or in short bolts and with or without bark, is converted to rough cord (i.e. unbarked or unpeeled wood) equivalents by means of appropriate factors. Mill residues, such as pulp chips, slabs and edgings, etc., are excluded.

Pulpwood is produced either for domestic consumption or for export. The figures given below are compiled from monthly returns by pulp-mills to D.B.S. and by exporters to the Department of Trade and Commerce. Occasional duplications have been corrected. Both series were initially started by Timber Control during World War II.

The figures for inventories cover all cut or purchased pulpwood in land or water storage, (i.e. mill block-pile, rivers and lakes, road side, etc.) at the end of each period, whether intended for domestic consumption or for export. The provincial consumption and inventory figures include imports from other provinces or countries.

Under each heading the memorandum gives comparable data by months and cumulative totals for logging season (ending May 31).
