Chief, General Manufacturing Statistics:	A. Cohen

SECTION I. - MANUFACTURING INDUSTRIES OF THE MARITIME PROVINCES, 1945

A report on the manufacturing industries of the Maritime Provinces for the year 1945 is presented herewith.

The report is divided into four sections. Section I deals with the three provinces as a group and the tables included therein show the principal statistics, statistics of the leading industries and statistics of the twenty leading cities and towns. Section 2 deals with the Province of Prince Edward Island, Section 3 with the Province of Nova Scotia and Section 4 with the Province of New Brunswick.

As was to be expected, the ending of the war in 1945 resulted in an immediate decline in the level of production in the Maritime Provinces as well as in the rest of Canada. Compared with the previous year there was, therefore, a decline of 4,985 in the number of persons employed, \$8,189,749 in the salaries and wages paid and \$8,289,253 in the net value of production. Due to the rise in prices, however, the gross value of production was slightly higher.

As compared with the rest of Canada, the Maritime Provinces as a unit, did not at first receive as great a share of the increased production resulting from the demands created by the war. Between 1942 and 1944, however, the increase was greater than for Canada as a whole, while the decline during 1945 was not as severe. Compared with the previous year there was a decrease of 7.9 per cent in the number of employees, and 8.7 per cent in the salaries and wages paid while the gross value of production was .2 per cent higher. The corresponding changes for Canada as a whole were declines of 8.5 per cent in the number of employees, 9.1 per cent in the salaries and wages paid and 9.1 per cent in the gross value of production.

Percentage Variation, 1945 as Compared with 1944

	Number of Employees	Salaries and Wages Paid	Gross Value of Products
CANADA .....	- 8.5	- 9.1	- 9.1
Prince Edward Island .....	+ 3.6	- 0.9	+ 8.2
Nova Scotia .....	- 11.6	- 13.7	- 2.3
New Brunswick .....	- 2.9	+ 0.2	+ 3.0

On referring to Table 2 which gives the combined principal statistics of the Maritime Provinces, it will be noted that in 1945 there were 2,420 establishments employing 57,777 persons who received \$85,790,505 in salaries and wages. The gross output was valued at \$367,991,308, while the cost of materials used amounted to \$203,338,835 and the value added by manufacture totalled \$150,916,698.

Fish curing and packing with an output valued at \$42,995,750 was again the leading industry, having displaced the shipbuilding industry which occupied the premier position during the war years. The production of pulp and paper ranked second with a value of \$41,522,671, followed by shipbuilding and repairs with \$33,699,314, sawmills \$26,443,777, primary iron and steel \$24,418,793, butter and cheese \$12,789,080, miscellaneous foods \$10,563,740, etc. Sugar and petroleum refining are also important in the Maritimes. Statistics for these cannot, however, be published as there are less than three establishments in each industry.

MANUFACTURING INDUSTRIES OF THE MARITIME PROVINCES, 1945

Manufacturing in Nova Scotia is to a considerable extent dominated by the steel and forest products industries, although there is also a large sugar and petroleum refinery. The production of iron and steel products constitutes the main industrial group and accounted for \$75,706,067 or 37.8 per cent of the entire output of the Province. Wood and paper normally comes second, but in 1945 was outranked by the animal products group with a value of production of \$36,333,363. Wood and paper came third with \$27,166,180, followed by non-metallic mineral products with \$25,952,948, vegetable products \$19,466,381, textiles and textile products \$10,524,187, etc.

The forest products industries dominate the manufacturing field in New Brunswick. Production of wood and paper products again led all groups by a wide margin, the gross value of production being \$61,915,277. The vegetable products group followed with an output of \$37,485,690. Animal products with a value of production of \$23,337,762 came third, followed by iron and its products with \$16,703,161, textiles and textile products \$7,319,349, etc.

Principal statistics of the leading cities and towns are given in Table 4. Saint John, N.B. with an output valued at \$43,779,905 was again the leading manufacturing city. Halifax, N.S. with \$42,074,965 came second, followed by Sydney, N.S. with \$34,272,316, Trenton, N.S. \$17,569,746, Moncton, N.B. \$14,786,851, etc.

1944	2,459	Not Collected	62,762	93,980,254	194,450,232	159,205,951	367,241,885
1945	2,420	" "	57,777	85,790,505	203,338,835	150,916,698	367,991,308

x A change in the method of computing the number of wage-earners in the years 1925 to 1930 increased the number somewhat over that which the method otherwise used would have given. In 1931, however, the method in force prior to 1925 was re-adopted. The figures for 1931 and later years are, therefore, comparable with those for 1924 and earlier years.

x For explanation of large decrease in employment, see note on page 3.

Table 15. - Principal Statistics of the Province of Nova Scotia, Compared for 1944 and 1945

Items		1944	1945	+ Increase - Decrease
Establishments reporting .....	No.	1,281	1,297	+ 16
Employees on salaries -				
Male .....	No.	3,357	2,909	- 448
Female .....	No.	1,393	1,133	- 260
Total salaries .....	\$	8,038,033	7,059,034	- 978,999
Employees on wages -				
Male .....	No.	28,059	25,176	- 2,883
Female .....	No.	5,003	4,205	- 798
Total wages .....	\$	51,902,378	44,644,211	-7,258,167
Power equipment .....	H.P.	193,060	200,144	+ 7,084
Cost of fuel and electricity .....	\$	7,581,903	7,556,449	- 25,454
Cost of materials used .....	\$	103,463,123	107,860,539	+4,397,416
Net value of products (1) .....	\$	93,376,638	84,358,189	-8,988,449
Gross value of production .....	\$	204,421,664	199,775,177	-4,646,487

(1) Gross value of products less cost of materials and fuel and electricity used.
