MANUFACTURES OF ONTARIO

1 9 2 4

Ottawa, October 26th, 1926.— A report on the manufacturing industries of the Province of Ontario is herewith presented for the calendar year 1924. A comparison of the principal statistics of industry for 1923 and 1924 is given in the following summary table showing the increase or decrease of each principal statistical item. Other tables of the report dealing with various phases of industrial activity appear in the following order:—

- Table 1.— Forty leading industries of the Province of Ontario, 1924.
Table 2.— Principal statistics by groups of industries, 1923 and 1924.
Table 3.— Capital investment by groups of industries, 1924.
Table 4.— Fuel consumption by groups of industries, 1924.
Table 5.— Power installed by groups of industries, 1924.
Table 6.— Principal statistics of the cities and towns of the province in order of value of production, 1924.

Principal Statistics, Province of Ontario compared, 1923 and 1924.

Principal Statistics		1 9 2 3	1 9 2 4	- Decrease / Increase
Establishments reporting	No.	9,549	9,453	- 96
Capital invested	\$	1,775,493,340	1,836,269,551	+60,776,211
Employees on salaries -				
Male	No.	33,205	31,663	- 1,542
Female	No.	10,405	10,128	- 277
Total salaries	\$	78,990,006	77,490,023	- 1,499,983
Employees on wages -				
Male	No.	172,244	164,768	- 7,476
Female	No.	46,916	46,037	- 879
Total wages	\$	228,876,308	219,018,890	- 9,857,418
Outside piece-workers -				
Male	No.	334	306	- 28
Female	No.	2,710	1,956	- 754
Total amount paid	\$	570,221	341,588	- 228,633
Cost of fuel	\$	29,215,731	28,299,379	- 916,352
Primary power equipment	H.P.	2,219,860	1,827,307	- 392,553
Cost of material	\$	779,943,613	754,469,838	-25,473,775
Gross value of products	\$	1,451,883,308	1,397,873,744	-54,009,564
Net value of products	\$	671,939,695	643,403,906	-28,535,789

MANUFACTURES OF ONTARIO - Continued

Forty Leading Industries of Ontario.

The principal statistics of the forty leading industries of the province of Ontario are presented in table 1 for the calendar year 1924. The flour milling industry which in 1923 had been supplanted by the Automobile Industry again resumes first position among the industries of the province with Automobiles second, Slaughtering and Meat Packing third, Pulp and Paper fourth, Butter and Cheese fifth, Electric Light and Power Plants sixth, and Rubber Goods, including footwear, in seventh place. Viewed from the point of capital investment the same industries continue to maintain their relative positions as in 1922 and 1923, as follows: (1) Electric Light and Power, (2) Pulp and Paper, (3) Agricultural Implements and (4) Automobiles. The total value of production in the forty leading industries represented 79.8 per cent of the total value of production in the province. The table also shows the relation that the forty leading industries bear to the total of all industries in the province by percentages and they are higher in every respect, but the cost of materials, than in 1923.

Table 1.- Forty Leading Industries in the Province of Ontario, 1924.

INDUSTRY	No. of Establishments	Capital	Employees	Salaries and Wages	Cost of Materials	Value of Products
	No.	\$	No.	\$	\$	\$
1. Flour and grist mill products	655	32,357,902	3,455	3,045,028	38,735,361	106,141,210
2. Automobiles	12	60,766,886	9,293	14,219,137	64,148,581	80,480,418
3. Slaughtering and meat packing	25	33,171,386	5,260	6,839,812	63,429,281	77,684,373
4. Pulp and paper	46	167,068,282	9,874	14,232,005	32,367,814	73,153,265
5. Butter and cheese	982	15,047,026	4,879	4,728,490	39,599,913	50,888,695
6. Electric light and power	410	333,012,019	6,389	9,649,570	-	46,681,024
7. Rubber goods, including footwear	28	46,182,427	7,210	8,544,703	20,087,928	44,422,379
8. Electrical apparatus and supplies	87	52,490,372	8,992	10,340,488	17,065,907	40,733,382
9. Castings and forgings	187	58,642,514	11,646	14,267,698	15,113,659	40,048,339
10. Sawmills	720	53,039,659	8,828	8,007,631	23,080,845	38,285,598
11. Hosiery and knit goods	109	34,912,754	10,351	8,362,120	18,319,911	32,914,867
12. Clothing, women's factory	178	13,368,684	8,439	8,708,833	15,305,866	28,107,684
13. Bread and other bakery products	848	14,931,187	5,663	6,615,140	13,461,803	25,999,114
14. Agricultural implements	44	80,244,785	6,322	7,774,221	11,269,935	25,269,205
15. Biscuits and confectionery	171	23,059,279	6,194	7,839,133	12,556,004	24,785,230
16. Printing and publishing	306	21,730,656	6,116	8,042,946	6,437,349	24,267,502
17. Leather tanneries	39	25,480,379	3,168	3,658,457	14,426,573	22,006,100
18. Planing mills, sash and door factories	360	26,628,815	5,217	6,004,108	12,805,215	21,994,168
19. Steel and rolled products, pig iron, etc.	12	47,619,607	2,246	4,206,126	11,246,410	20,276,153
20. Furniture and upholstering	235	27,285,223	6,860	7,435,767	7,372,451	20,232,014
21. Sheet metal products	62	17,186,178	3,722	4,430,965	10,930,472	19,735,767
22. Acids, alkalies, salts and compressed gases	18	23,550,127	1,646	2,390,247	9,884,928	19,248,712
23. Petroleum	3	14,521,904	1,603	2,453,082	14,236,840	18,181,162
24. Printing and bookbinding	369	19,403,212	5,464	7,114,226	5,451,494	17,769,600

MANUFACTURES OF ONTARIO - Continued

Ontario Manufactures by Groups of Industries, 1923 and 1924.

Table 2 gives the principal statistics of manufactures in the nine groups into which all industry has been divided. The Vegetable Products group occupies first place in value of production in 1924 displacing both the Iron and Steel group and the Wood and Paper group which now occupy second and third places respectively. In employment the Wood and Paper group leads by 4,495 over the Iron and Steel group, with the Textile Group in third place. In capital investment the miscellaneous group, which includes the production of electric power, leads, with Iron and Steel group in second place and Wood and Paper group in third place.

Table 2.- Principal Statistics by groups of Industries, Province of Ontario, 1923 and 1924.

Groups of Industries	Establishments No.	Capital \$	Employees		Salaries \$	Employees on Wages		Wages \$	Cost of Materials \$	Value of Products \$

Capital Investment

The statistics of capital investment in the manufacturing industries of the province of Ontario in 1924 are presented in table 3 by groups of industries. The statistics relating to capital are presented under two main heads: (1) Fixed capital which includes lands, buildings, machinery and tools, and (2) Working capital which includes (a) materials and stocks, fuel, miscellaneous supplies and finished products on hand, and (b) cash, trading and operating accounts and bills receivable. Fixed capital represented 62.3 per cent of the total investment in 1924 and working capital 37.7 per cent. Comparing capital investment since 1921 a steady increase will be noted; in 1921 the total investment amounted to \$1,613,486,222, in 1922 it had increased to \$1,696,738,996, in 1923 to \$1,775,493,740 and in 1924 to \$1,836,269,551, being an increase in the four year period of \$222,783,329 or an average annual increase of over \$55,000,000. Measured by average capital per establishment it advanced from \$172,942 in 1921 to \$180,735 in 1922, to \$185,935 in 1923 and to \$194,242 in 1924, an increase in the four year period of \$21,270 per establishment or over 12 per cent. The groups showing the highest capital investment were in order (1) the miscellaneous group which includes central electric stations (\$383,337,288); (2) the iron and steel group (\$382,039,627); (3) the wood and paper group (\$369,919,764); and (4) the vegetable products group (\$207,363,254). The province of Ontario supplied 51.9 per cent of the total capital invested in the industries of the Dominion in 1924.

Table 3.- Capital invested in Ontario by Groups of Industries, 1924.

Groups of Industries	Fixed Capital	Working Capital	Total Capital
	Land, buildings, machinery and tools	Materials & stocks on hand, fuel and miscellaneous supplies	
Vegetable products	\$ 122,533,670	\$ 47,444,995	\$ 37,384,589
Animal products	46,156,421	31,470,816	23,764,997
Textiles and textile products	67,972,231	43,735,408	32,111,733
Wood and paper products	226,929,533	85,665,353	57,324,878
Iron and its products	202,188,275	94,058,406	85,792,946
Non-ferrous metal products	38,439,921	21,006,662	19,708,521
Non-metallic mineral products	78,373,135	15,741,726	10,977,587
Chemicals and allied products	35,675,558	13,756,971	14,717,931
Miscellaneous industry products	326,894,043	23,872,334	32,570,911
Total of groups	1,145,162,787	376,752,671	314,354,093
			1,836,269,551

FUEL CONSUMPTION

Table 4 presents statistics of fuel consumption in the manufacturing industries of Ontario for the calendar year 1924, according to the nine Groups into which all industry has been divided. Bituminous coal was the principal fuel, constituting 69 per cent of the total cost of all fuel used and is shown also by tonnage in column (1) of the table. Gas, artificial and natural was second in cost value followed in order by fuel oils and coke. The group showing the highest cost of fuel used was the non-metallic with an outlay of \$6,577,268 and including such industries as illuminating and fuel gas, petroleum, cement, clay products and glass. The iron and steel group was second with an expenditure of \$6,663,216, the wood and paper group third with \$6,216,964 and the vegetable products group fourth with \$3,116,036.

There was a decrease in the total cost of fuel consumption as compared with 1923 amounting to \$916,352, due to a fall in the price of coal. Bituminous coal of all grades which in 1923 averaged \$7.16 per ton fell to \$6.06 per ton in 1924 and anthracite coal of all grades from an average of \$0.84 per ton in 1923 to \$8.30 in 1924.

Table 4. - Value of fuel consumed by classes and by groups of industries, 1924.

Groups of Industries	Bituminous coal		Anthracite Coal	Lignite Coal	Coke	Gasoline	Oils (fuel)	Wood	Gas	All	
	Quantity tons	Value \$								Other Fuel	Total cost of all fuel \$

Power Equipment in the Industries of Ontario

The power equipment installed in the industries of the Province of Ontario in 1924 is shown in table 5 by groups of industries and horse power capacity. Power developed by steam aggregated 319,300 h.p. or 33,262 h.p. more than in 1923. Power developed by water increased from 1,287,647 h.p. in 1923 to 1,475,536 h.p. in 1924 or an increase of 187,889 h.p. Internal combustion engines also show an increase in h.p. capacity from 20,359 in 1923 to 32,471 h.p. in 1924. Installation of electric motors in this report is shown under two heads (a) those operated by purchased power and (b) those operated by power generated by establishments. In 1923 the total horse power of electric motors was 625,816 and in 1924 the horse power had grown to **896,330** an increase of **270,514** horse power or **43** per cent.

The miscellaneous group of industries which includes the central electric stations industry accounted for most of the primary power development in that group. Next in order are the wood and paper group, the iron and steel group, the non-metallic mineral group and the vegetable products group. The total cost of electricity purchased during the year by the manufacturing industries of Ontario totalled \$21,990,346. This includes power purchased by central electric stations for resale amounting to \$12,753,406.

Table 5.- Power Equipment in the Province of Ontario by groups of Industries, 1924.

Groups of Industries	Steam engines and turbines H.P.	Internal combustion engines H.P.	Hydraulic turbines or water-wheels H.P.	Total primary power H.P.	Electric motors			Total power equipment for manufacturing purposes H.P.
					Operated by purchased power H.P.	Operated by power generated by establishment H.P.	Total H.P.

Principal Statistics of Cities and Towns of Ontario, 1924.

Table 6 shows the principal industrial statistics for all cities and towns whose production totalled two million dollars or over during 1924. The total gross value of production in the 76 urban centres amounted to \$1,201,361,754 in a total for the entire province of \$1,397,873,744 representing approximately 86 per cent. The manufactured products of the City of Toronto were 28.7 per cent of the total for the province.
