MANUFACTURES OF ONTARIO

1926

Ottawa, November, 1928.- A report on the manufacturing industries of the Province of Ontario is herewith presented for the calendar year 1926. A comparison of the principal statistics of industry for 1925 and 1926 is given in the following summary table showing the increase or decrease of each principal statistical item. Other tables of the report dealing with various phases of industrial activity appear in the following order:-

- Table 1.- Forty leading industries of the Province of Ontario, 1926.
Table 2.- Principal statistics by groups of industries, 1925 and 1926.
Table 3.- Principal statistics of industries in each group, 1926, *see pages 10-15*
Table 4.- Capital investment by groups of industries, 1926.
Table 5.- Fuel consumption by groups of industries, 1926.
Table 6.- Power installed by groups of industries, 1926.
Table 7.- Principal statistics of the cities, towns and villages of the province in order of value of production, 1926.

Principal Statistics, Province of Ontario compared, 1925 and 1926.

Principal Statistics		1926 ^{1/}	1925 ^{1/}	Increase or Decrease
Establishments reporting	No.	9,457	9,386	+ 71
Capital invested	\$	1,985,165,921	1,925,593,482	+59,572,439
Employees on salaries -				
Male	No.	33,575	31,644	+ 1,931
Female	No.	10,635	10,515	+ 120
Total salaries	\$	82,705,144	77,806,238	+ 4,898,906
Employees on wages -				
Male	No.	184,410	171,564	+ 12,846
Female	No.	51,733	48,760	+ 2,973
Total wages	\$	252,459,095	229,497,769	+22,961,326
Outside piece-workers -				
Male	No.	368	494	- 126
Female	No.	1,502	1,707	- 205
Total amount paid	\$	320,970	316,557	+ 4,413
Cost of fuel	\$	29,392,012	28,025,118	+ 1,366,894
Primary power equipment	H.P.	2,020,299	2,015,016	+ 5,283
Cost of materials	\$	908,044,673	828,939,668	+79,105,005
Gross value of products	\$	1,677,933,504	1,527,154,660	+150,778,844
Net value of products	\$	769,888,831	698,214,992	+71,673,839

1/ The statistics throughout the tables of the 1925 and 1926 reports include the smelting of non-ferrous metals which in previous years were included in the report on mineral production.

MANUFACTURES OF ONTARIO - Continued.

Forty Leading Industries of Ontario.

The principal statistics of the forty leading industries of the province of Ontario are presented in table 1 for the calendar year 1926. The automobile industry which in 1924 had been exceeded by the flour milling industry again takes first position among the industries of the province with flour mills second, slaughtering and meat packing third, pulp and paper fourth, rubber goods including footwear, fifth, butter and cheese sixth and electric light and power plants in seventh place. Viewed from the point of capital investment the same industries continue to maintain their relative positions as in 1922, 1923, 1924 and 1925 as follows: (1) Electric light and power, (2) pulp and paper, (3) automobiles, and (4) agricultural implements. The total value of production in the forty leading industries represented 80.05 per cent of the total value of production in the province. The table also shows the relation that the forty leading industries bear to the total of all industries in the province by percentages and they are higher in some respects and show little or no variation in the others as compared with 1925.

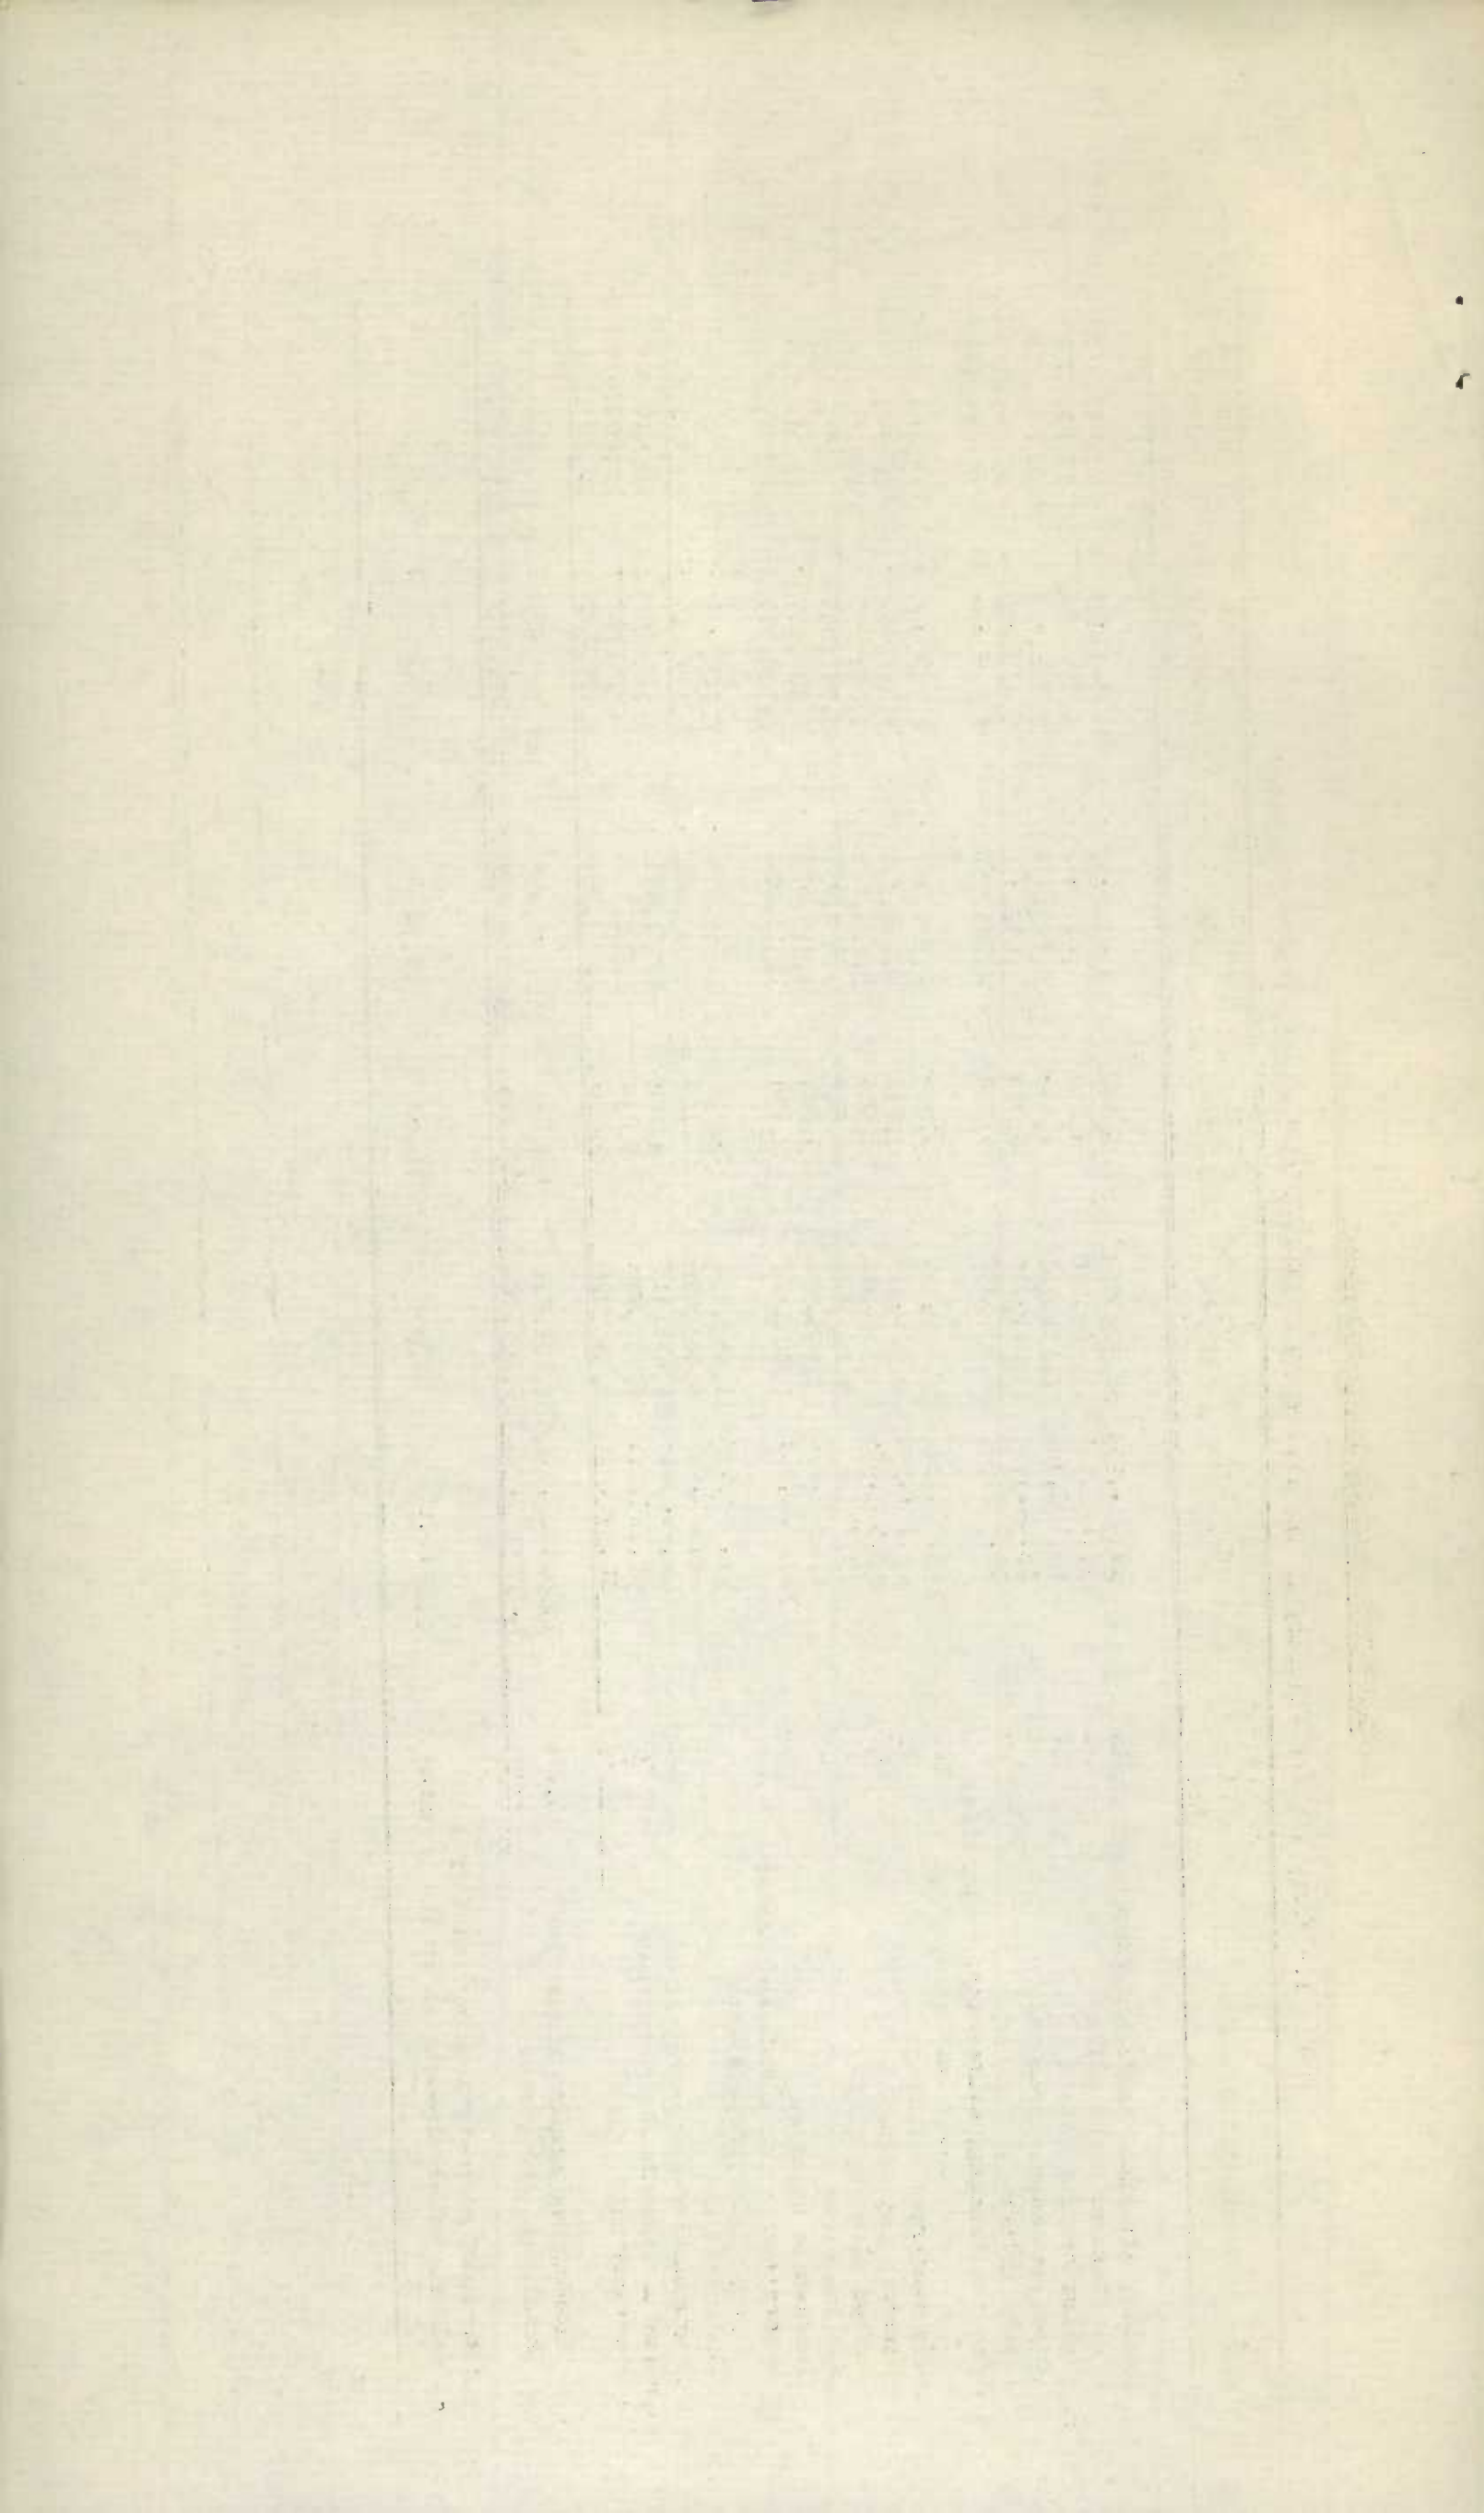

Table 1.- Forty leading Industries in the province of Ontario, 1926.

Industries	Establish- ments No.	Capital \$	Employees No.	Salaries and Wages \$	Cost of Materials \$	Value of Products \$
Automobiles	11	82,791,968	11,905	19,650,804	89,372,095	133,598,456
Flour and gristmill products	676	29,008,355	3,180	3,472,875	92,865,617	105,437,330
Slaughtering and meatpacking	24	29,695,800	5,322	7,016,627	79,433,820	95,611,311
Pulp and paper	45	167,788,862	10,312	15,621,863	34,191,363	80,900,073
Rubber goods (including footwear)	28	51,861,615	9,419	11,133,388	42,918,894	70,555,752
Butter and cheese	1,038	19,087,999	6,004	6,001,755	47,309,613	60,933,703
Electric light and power	423	359,452,904	6,306	10,011,436	-	56,332,508

MANUFACTURES OF ONTARIO - Continued

Ontario Manufactures by groups of Industries, 1925 and 1926

Table 2 gives the principal statistics of manufactures in the ten groups into which industry has been divided. The Iron and Steel group occupies first place in value of production in 1926 whilst the vegetable products group and the Wood and Paper group now occupy second and third places respectively. In employment the Iron and Steel group leads by 7,128 over the Wood and Paper group, with the Textile Group in third place. In capital investment the iron and steel group leads, with the wood and paper group in second place and the central electric station group in third place.

Table 2. - Principal Statistics by groups of Industries, Province of Ontario, 1925 and 1926

MANUFACTURES OF ONTARIO - Continued

Capital Investment

The statistics of capital investment in the manufacturing industries of the province of Ontario in 1926 are presented in table 4 by groups of industries. The statistics relating to capital are presented under two main heads: (1) Fixed capital which includes lands, buildings, machinery and tools, and (2) working capital which includes (a) materials and stocks on hand, fuel, miscellaneous supplies and finished products on hand, and (b) cash, trading and operating accounts and bills receivable. Fixed capital represented 62 per cent of the total investment in 1926 and working capital 38 per cent. Comparing capital investment since 1921 a steady increase will be noted; in 1921 the total investment amounted to \$1,613,486,222, in 1922 it had increased to \$1,696,738,996, in 1923 to \$1,775,493,340, in 1924 to \$1,836,269,551, in 1925 to \$1,925,593,482 and in 1926 to \$1,985,165,921, being an increase in the six year period of \$371,679,699 or an average annual increase of over \$61,946,616. Measured by average capital per establishment it advanced from \$172,942 in 1921 to \$180,735 in 1922, to \$185,935 in 1923, to \$194,242 in 1924, to \$205,156 in 1925 and to \$209,915 in 1926, an increase in the six year period of \$4,759 per establishment or over 2.32 per cent. The groups showing the highest capital investment were in order (1) the iron and steel group (\$414,309,556); (2) the wood and paper group (\$371,895,081); (3) the central electric stations group (\$359,452,904); and (4) the vegetable products group (\$220,061,046). The province of Ontario supplied nearly 50 per cent of the total capital invested in the industries of the Dominion in 1926.

Table 4. - Capital invested in Ontario by Groups of Industries, 1926

Groups of Industries	Fixed Capital		Working Capital		Total Capital
	Land, buildings, machinery and tools		Materials & stocks on hand, fuel, & miscellaneous supplies	Cash, trading and operating accounts & bills receivable	
	\$		\$	\$	\$
Vegetable products	124,233,688		57,180,202	38,647,156	220,061,046
Animal products	48,719,686		32,859,417	22,469,785	104,048,888

FUEL CONSUMPTION

Table 5 presents statistics of fuel consumption in the manufacturing industries of Ontario for the calendar year 1926, according to the ten groups into which industry has been divided. Bituminous coal was the principal fuel, constituting 64 per cent of the total cost of all fuel used and is shown also by tonnage in column (1) of the table. Gas, artificial and natural, used as fuel occupied second place in cost value, coke was third followed in order by fuel oils and wood. The group showing the highest cost of fuel used was the non-metallic mineral group with an expenditure of \$6,244,162. The wood and paper group which includes pulp and paper mills, sawmills, planing mills and other woodworking plants being second with \$6,212,195, the iron and steel group third with \$5,572,951 and the vegetable products group fourth with \$3,143,100.

There was an increase in the total cost of fuel consumption as compared with 1925 amounting to \$1,366,894, to which bituminous coal contributed \$1,083,893, gas, natural and artificial, \$576,411, fuel oils \$510,351, wood \$32,670 and gasoline \$33,968. On the other hand, the cost of coke used decreased by \$369,024, anthracite coal by \$65,400 and other fuels by \$409,215.

Table 5. - Value of fuel consumed by classes and by groups of industries, 1926.

	Bituminous coal		Anthracite coal	Lignite coal	Coke	Gasoline	Oils (fuel)	Wood	Gas	All other Fuel	Total Cost of all fuel

Power Equipment in the Industries of Ontario

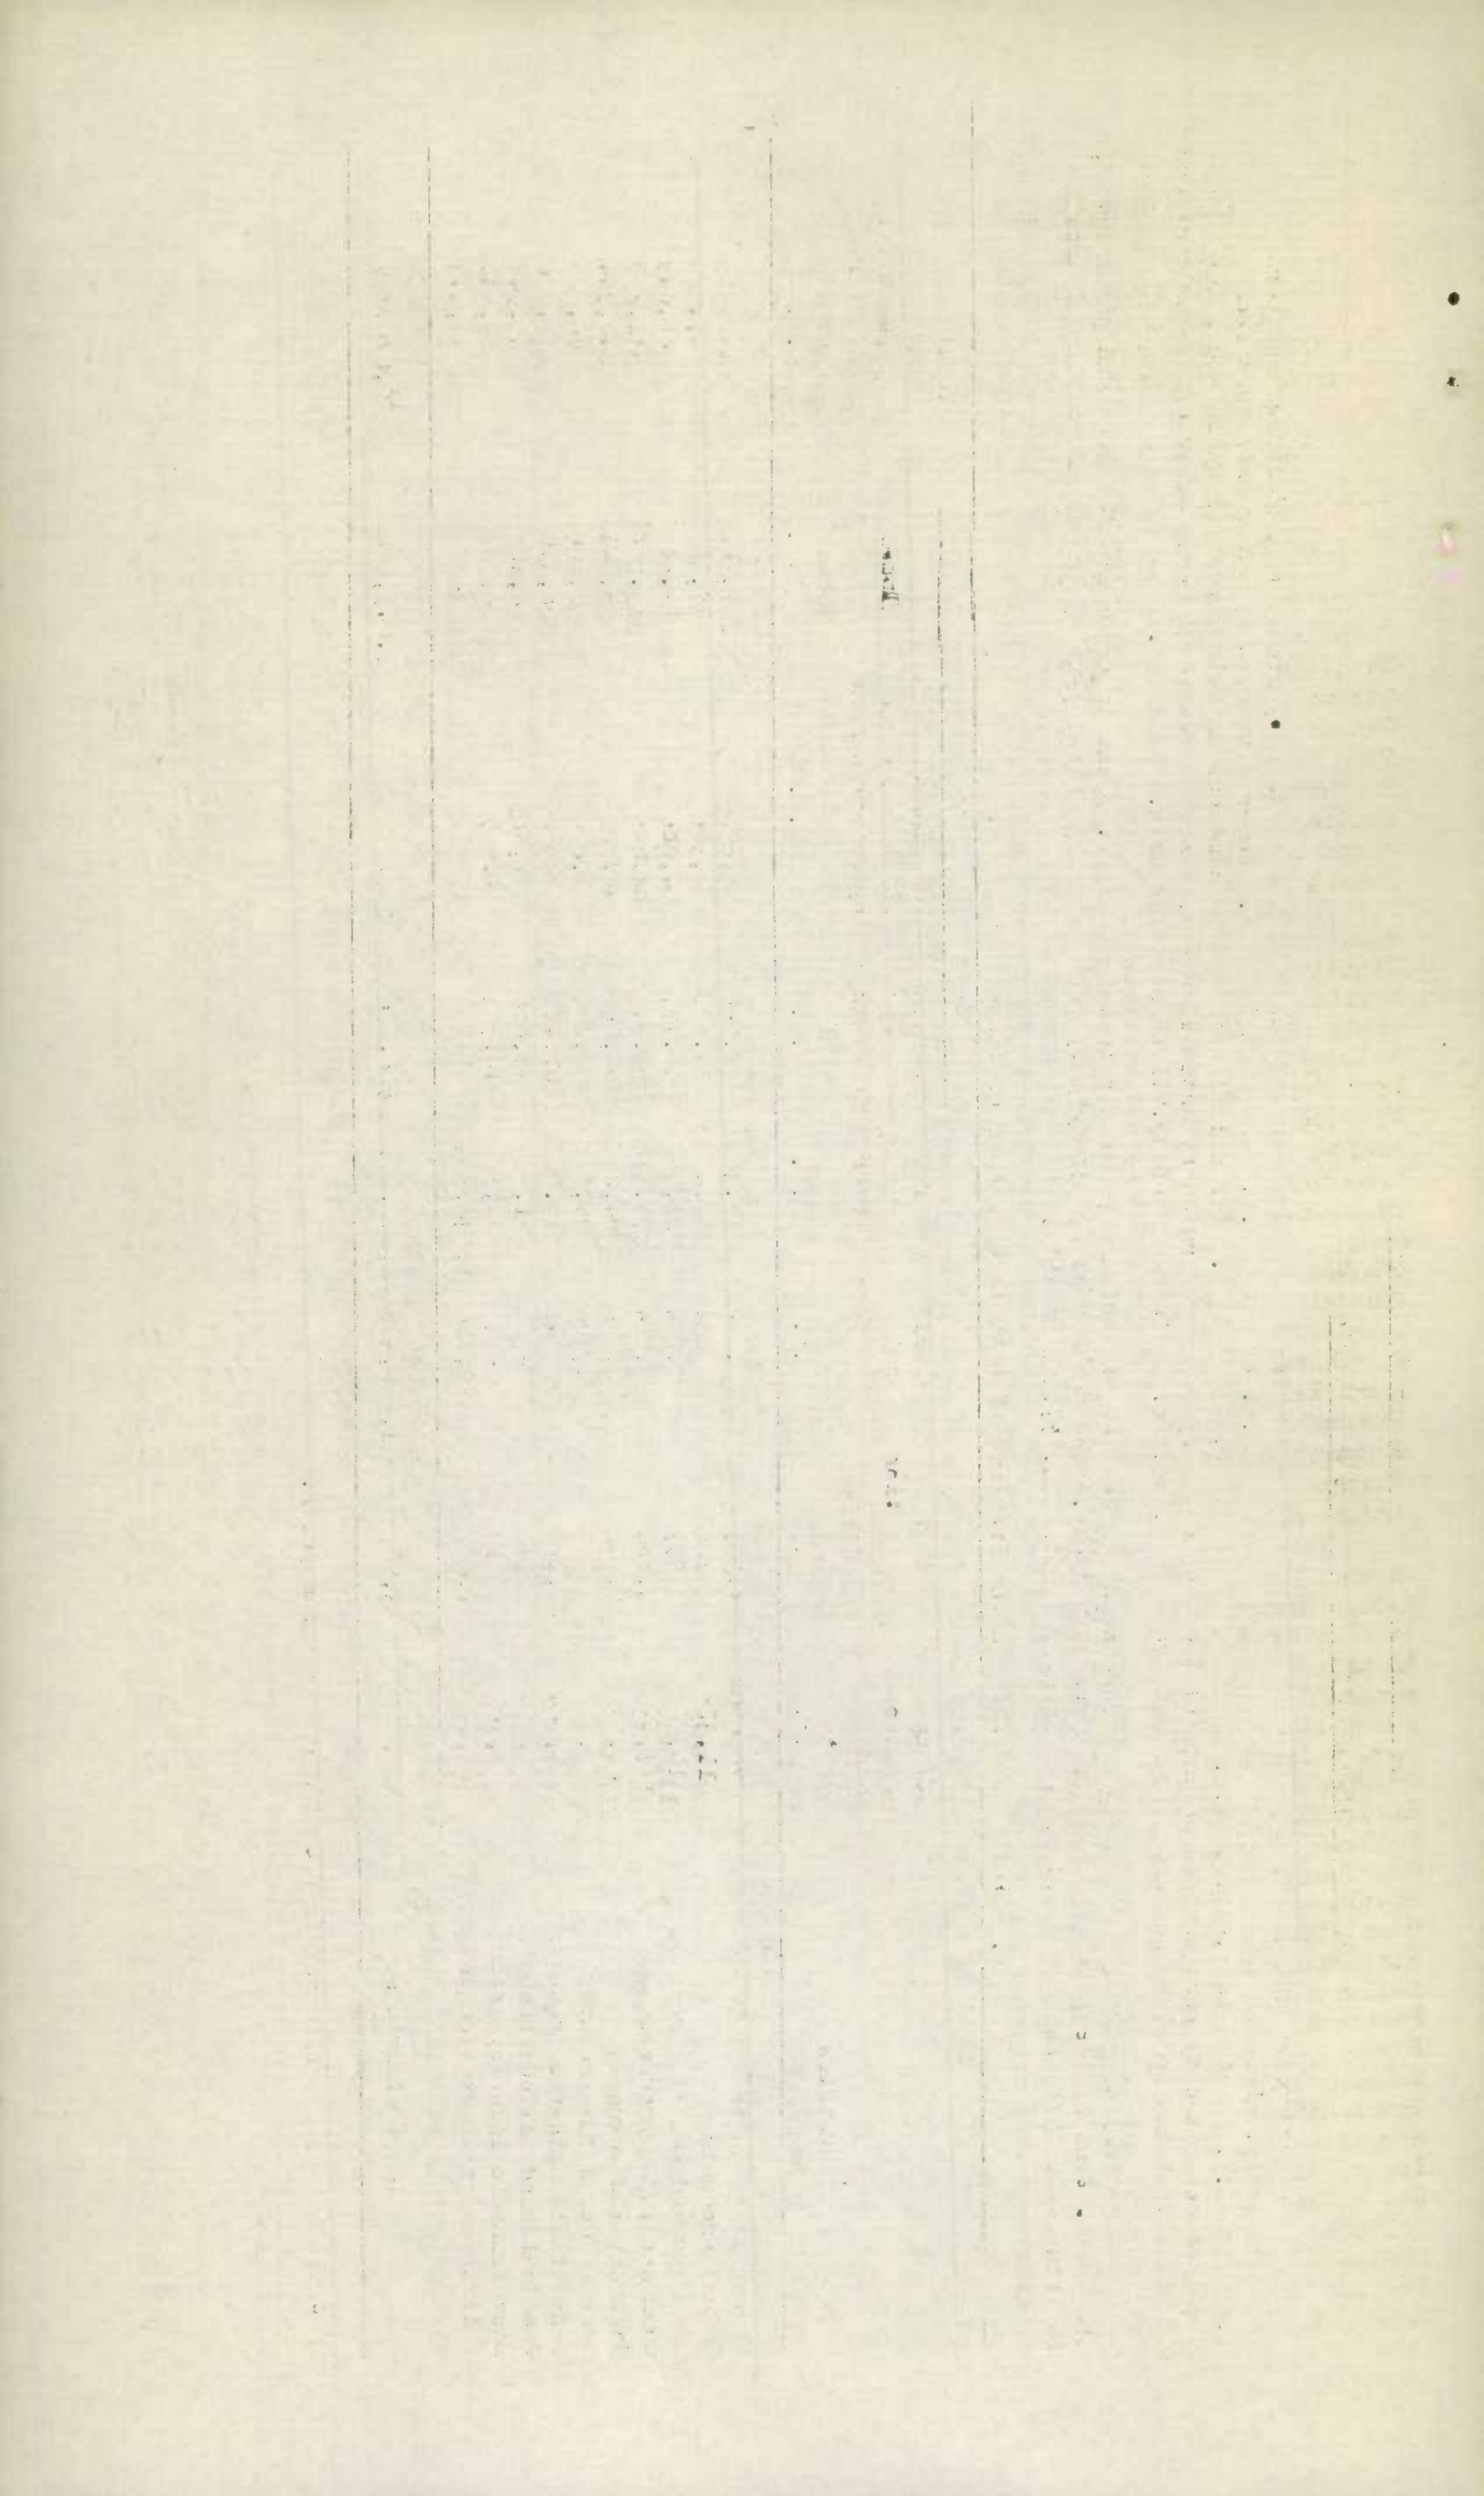

The power equipment installed in the industries of the Province of Ontario in 1926 is shown in table 6 by groups of industries and horse power capacity. Power developed by steam aggregated 328,025 h.p. or 5,071 h.p. more than in 1925. Power developed by water increased from 1,475,536 h.p. in 1924 to 1,659,092 h.p. in 1925 and to 1,658,327 in 1926. Installation of electric motors in this report is shown under two heads (a) those operated by purchased power and (b) those operated by power generated by establishments. In 1925 the total horse power of electric motors was 1,009,957 and in 1926 the horse power had grown to 1,049,868, an increase of 39,911 horse power or 3.9 per cent.

The central electric station industry accounted for most of the primary power development in 1926. Next in order are the wood and paper group, the iron and steel group and the vegetable products group. The total cost of electricity purchased during the year by the manufacturing industries of Ontario in 1926 totalled \$11,963,848 as compared with \$10,577,121 in 1925.

Table 6. - Power Equipment in the Province of Ontario by groups of Industries, 1926.

Groups of Industries	Steam engines and turbines H.P.	Internal combustion engines H.P.	Hydraulic turbines or water-wheels H.P.	Total Primary power H.P.	Electric motors			Total Power equipment for manufacturing purposes H.P.

Principal Statistics of Cities, Towns and Villages of Ontario, 1926.

Table 7 shows the principal industrial statistics for all cities, towns and villages whose production totalled one million dollars or over during 1926. The total gross value of production in the 114 urban centres amounted to \$1,528,208,909, in a total for the entire province of \$1,677,933,504, representing approximately 91.1 per cent. The value of manufactured products of the City of Toronto was 29.2 per cent of the total for the province.

MANUFACTURES OF ONTARIO - CONTINUED

The principal statistics of each industry comprising the main groups is shown in Table 3. The group showing the largest gross value of production was the iron and steel groups. The other principal groups following in order named, the vegetable group, the wood and paper group, the animal products group and the textile group. The individual industries showing the greatest value of production were (1) automobiles, (2) flour and feed mills, (3) slaughtering and meatpacking, (4) pulp and paper mills, (5) rubber goods including footwear, (6) butter and cheese. Compared with preceding year there was an increase in each of the statistical items except in the number of outside pieceworkers. (See page 1) Capital investment increased by 3.1 per cent, total employment by 6.62 per cent, salaries and wages by 9 per cent, cost of materials by 9.5 per cent and value of products by 9.9 per cent.
