Acting Chief, General Manufactures Branch: A. Cohen, B.Com.

MANUFACTURING INDUSTRIES OF THE PROVINCE OF ONTARIO, 1934.

The value of manufactured products, which totalled \$1,255,325,701 in 1934, represents an increase of 24.9 per cent as compared with the previous year. Reports were received from 10,322 manufacturing establishments with a capital investment in fixed and current assets of \$2,063,721,375. The number of persons employed totalled 259,621, and the salaries and wages paid \$270,834,102, while the cost of materials used and value added by manufacture were \$610,485,807 and \$611,303,863 respectively.

The turning point of the depression was reached in the summer of 1933. The increases in the latter part of the year were not, however, sufficiently pronounced to offset the losses of the beginning of the year. The result was that the principal statistics for 1933 were the lowest since 1929. Considerable improvement was reported for 1934. Compared with the previous year, there was an increase of 10.1 per cent in the number of employees, with an even greater increase in the amount paid out in salaries and wages, viz., 15.5 per cent. The increase in the value of production was 24.9 per cent, and in the value added by manufacture 20 per cent.

In analysing the improvement by major industrial groups, it is found that non-ferrous metal products with an increase of 66 per cent in the gross value of production recorded the greatest gain. Iron and its products with an increase of 57 per cent was next in order, followed by miscellaneous industries 20 per cent, vegetable products 17 per cent, chemicals 17 per cent, textiles 15 per cent, wood and paper 14 per cent, non-metallic mineral products 14 per cent, animal products 11 per cent and central electric stations 8 per cent.

Ontario is the most important manufacturing province in the Dominion. This favourable position is not of recent growth, but has been maintained over a long period of years. In spite of the rapid industrial development in recent years in other provinces, such as Quebec, British Columbia and Manitoba, Ontario is maintaining a manufacturing production almost equal to that of the remainder of the Dominion. Ontario also has the greatest diversification of manufacturing production of any province. Outstanding among the industries in which the Province of Ontario is pre-eminent is that of automobile manufacturing which is carried on practically in this Province alone. Other important industries in which Ontario leads with the percentage which the production of each bears to that of the Dominion total in 1934 are as follows: agricultural implements 95 per cent, leather tanneries 88 per cent, rubber goods, including footwear, 81 per cent, furniture 61 per cent, fruit and vegetable preparations 69 per cent, electrical apparatus and supplies 79 per cent, castings and forgings 65 per cent, primary iron and steel 62 per cent, flour and feed mills 53 per cent, and hosiery and knitted goods 65 per cent.

Table 3 compares the principal statistics of the industrial groups for the years 1933 and 1934. From the standpoint of gross value of production, the vegetable products group again headed the list with an output valued at \$239,965,241. Other groups in order of their importance were: iron and its products \$215,875,094,

MANUFACTURING INDUSTRIES OF THE PROVINCE OF ONTARIO, 1934.

wood and paper products \$165,326,811, non-ferrous metal products \$150,327,372, textiles \$146,049,045, and animal products \$139,289,540.

Table 4 reviews the principal statistics of the forty leading industries of Ontario in 1934. In value of production, non-ferrous metal smelting heads the list with an output valued at \$85,989,197. Other leading industries in the order of their importance are: automobiles \$75,649,429, slaughtering and meat packing \$51,513,133, flour and feed mills \$50,659,130, pulp and paper \$47,298,680, rubber goods, including footwear, \$44,937,204, central electric stations \$43,498,715, and butter and cheese \$40,905,534. Some significant changes took place in the ranking of some of the leading industries. Flour and feed mills dropped from first place in 1933 to fourth place in 1934, while non-ferrous metal smelting, automobiles and slaughtering and meat packing each advanced one step.

Table 5 reviews the principal statistics of the individual industries which make up the various groups shown in table 3.

Table 6 covers the principal statistics of all cities and towns that have three or more establishments. It will be observed that the City of Toronto with a production valued at \$357,706,747 accounted for 29.5 per cent of the entire output of the Province exclusive of central electric stations. Hamilton is next with a production of \$100,272,872 or 8.3 per cent. These two cities accounted for 37.8 per cent of the entire production of the Province in 1934.

Details of capital investment by industrial groups are shown in table 9 for 1934. Of the total capital of \$2,063,721,375, \$1,457,200,544 represents land, buildings, machinery and tools and is a decrease of \$16,383,105 from the corresponding figure for 1933. The decrease in fixed assets is in part due to charges for depreciation. Inventory value of finished products on hand amounted to \$140,127,668, while raw materials, stocks in process, fuel and miscellaneous supplies on hand were valued at \$160,440,477. The corresponding figures for these two items in 1933 were \$129,934,204 and \$164,550,544 respectively. Cash, bills and accounts receivable, prepaid expenses, etc., amounted to \$305,952,686 in 1934 as compared with \$319,004,016 the previous year.

Statistics of power equipment and fuel consumption are shown in tables 10 and 11.

Table 1. - Principal Statistics, Province of Ontario, 1926 to 1934.

Year	Estab- lish- ments	Capital Invested	Em- ployees	Salaries and Wages	Cost of Materials Used	Gross Value of Products

MANUFACTURING INDUSTRIES OF THE PROVINCE OF ONTARIO, 1934.

Table 1. - Principal Statistics, Province of Ontario, 1926 to 1934. - (Concl'd.)

Year	Estab-	Capital Invested	Em- ployees	Salaries and Wages	Cost of Materials	Gross Value of Products
	lish- ments				No.	\$
1933	10,158	2,087,072,413	235,810	234,391,900	465,106,584	1,005,233,502
1934	10,322	2,063,721,375	259,621	270,834,102	610,485,807	1,255,325,701

1/ The large decrease in the number of employees since 1931 is not entirely due to the decline in manufacturing production. The decrease is in part due to the change in method of computing the average annual employment of wage-earners. Between 1925 and 1930 the average was obtained by summing the averages of individual plants, based on the number of months in actual operation, and not by dividing by twelve the sum of the monthly employment figures. In 1931, however, a change was made to the old method whereby the aggregate of the monthly figures is divided by twelve. This method gives the man year that each plant operates. The change in method, therefore, affects the average annual employment as well as the average wages paid in seasonal industries, such as fruit and vegetable canning, fish canning, sawmills, etc.

Table 2 . - Principal Statistics Compared, 1933 and 1934.

Items	1933	1934	Increase	
			+	-
Establishments reporting ... No.	10,158	10,322	+ 164	
Capital invested \$	2,087,072,413	2,063,721,375	- 23,351,038	
Employees on salaries -				
Male	No. 36,122	38,239	+ 2,117	
Female	No. 11,790	12,479	+ 689	
Total salaries	\$ 80,160,819	84,805,090	+ 4,644,271	
Employees on wages -				
Male	No. 141,420	160,172	+ 18,752	
Female	No. 46,478	48,731	+ 2,253	
Total wages	\$ 154,231,081	186,029,012	+ 31,797,931	
Cost of fuel	\$ 17,492,991	19,930,555	+ 2,437,564	
Primary power equipment H.P.	2,623,798	3,727,620	+ 1,103,822	
Cost of materials used \$	465,106,584	610,485,807	+ 145,379,223	
Gross value of products \$	1,005,233,502	1,255,325,701	+ 250,092,199	
Net value of products \$	510,578,550	611,303,863 ^x	+ 100,725,313	

^xIn accordance with the recommendations of the Conference of British Commonwealth Statisticians, 1935, the net value of production is now computed by subtracting the cost of materials, as well as the value of fuel and electricity, from the gross value of products. Prior to this only the cost of materials was deducted.

All other vegetable products	7	6,355,090	237	337,412	1,260,247	3,186,869
All other textiles and textile products	4	1,791,854	319	436,258	862,336	1,440,927
All other wood and paper products	7	396,469	93	112,993	258,729	514,221
All other iron and steel products	8	22,576,800	1,432	1,742,246	1,260,039	2,763,486
All other chemical products	6	2,110,922	138	191,602	507,802	963,666
All other miscellaneous products	10	965,943	189	205,376	435,948	1,040,510
TOTAL	2,627	392,080,083	81,629	89,569,170	174,820,861	357,706,747

The item "all other vegetable products" includes: 1 distillery, 1 ice cream cones, 1 linseed oil and oil cake, 2 macaroni, vermicelli, etc., and 2 malt and malt products.

The item "all other textiles and textile products" includes: 1 cordage, rope and twine, 1 cotton thread and 2 miscellaneous textiles.

The item "all other wood and paper products" includes: 2 blue printing, 1 carriages, wagons, etc., 2 excelsior, 1 lasts, trees and shoe findings, and 1 roofing paper, etc.

The item "all other iron and steel products" includes: 2 agricultural implements, 2 automobiles, 2 bridge and structural steel, and 2 railway rolling stock.

The item "all other chemical products" includes: 2 acids, alkalies and salts, 2 coal tar distillation, 1 explosives, ammunition, etc., and 1 fertilizers.

The item "all other miscellaneous products" includes: 2 auto accessories, 2 motion pictures, 2 store display accessories, 2 umbrellas, 1 animal oils and fats and 1 abrasive products.

TOTAL	494	174,755,759	24,072	25,772,958	44,548,853	100,272,872		

The item "all other vegetable products" includes: 1 brewery, 1 flour and feed mill, 2 miscellaneous foods, 1 ice cream cones, 1 macaroni, vermicelli, etc., 2 rubber goods, including footwear, and 2 wineries.

The item "all other animal products" includes: 1 leather belting, 1 other dairy products, 1 leather boots and shoes, 1 leather tannery, and 1 sausage and sausage casings.

The item "all other textiles and textile products" includes: 2 cotton and jute bags, 2 carpets, mats and rugs, 1 cordage, rope and twine, 1 cotton thread, 1 dyeing and finishing of textiles, 2 woollen goods, n.e.s., and 1 woollen yarn.

MANUFACTURING INDUSTRIES OF THE PROVINCE OF ONTARIO, 1934.

The item "all other wood and paper products" includes: 1 blue printing, 2 wooden boxes, 2 coffins and caskets, 2 copperage, 2 Lithographing, 2 miscellaneous wooden products, 1 roofing paper, etc., 2 sporting goods, 2 trade composition, 2 woodenware and 1 wood turning.

The item "all other iron and steel products" includes: 2 agricultural implements and 1 bridge and structural steel work.

The item "all other non-ferrous metal products" includes: 2 aluminum products, 1 lead, tin and zinc products and 2 miscellaneous non-ferrous metal products.

The item "all other non-metallic mineral products" includes: 2 abrasive products, 2 asbestos products, 2 cement products, 2 imported clay products, 1 lime, 2 miscellaneous non-metallic mineral products, and 2 petroleum products.

The item "all other chemical products" includes: 1 acids, alkalies and salts, 1 coal tar distillation, 1 fertilizers, 1 compressed gases, 1 medicinal and pharmaceutical preparations and 1 toilet preparations.

The item "all other miscellaneous products" includes: 2 mattresses and springs, 2 scientific and professional equipment, 1 electric signs, and 2 stamps and stencils.

MANUFACTURING INDUSTRIES OF THE PROVINCE OF ONTARIO.

Table 9. — Capital Invested in the Manufacturing Industries of Ontario, by Groups of Industries, 1928-1934.

Groups of Industries	Fixed Capital		Working Capital		\$
