CONSUMTION, PRODUCTION AND INVENTORIES OF RUBBER NOVEMBER, 1949

The statistics made available monthly in this report are considered only to represent clearly and accurately (a) the new domestic production of synthetic and reclaim rubber, and the inventories of firms reporting this production, and (b) the total consumption of all types of rubber, natural, synthetic and reclaim, whether foreign or domestic, by broad end product use groupings, together with inventories, receipts and sales of rubber by consuming manufacturers in all industries. The addition of the two inventories gives the total stocks held by industry.

It is regretted that comparable export-import data cannot be secured each month, and that, therefore, the total available supply is not accurately known. However, the data given in (b) do ultimately account for the total consumption of rubber in Canada, and should be capable of being correlated with new production and export-import data (as compiled by the External Trade Branch, D.B.S.) over a period of months,

Consumption of rubber in November, 1949 as compared with October, 1949 shows a decrease in natural of 32,615 pounds, a decrease in synthetic of 28,863 pounds, and a decrease in reclaim of 203,915 pounds, the total decrease being 265,393 pounds. Considering the situation in terms of end product use, it may be noted that the consumption of all rubber in the production of tires and tubes, including tire repair materials, decreased by 107,918 pounds, consumption in rubber footwear decreased by 115,549 pounds, in wire and cable increased by 64,306 pounds, and in other products decreased by 106,232 pounds, making the total decrease of 265,393 pounds mentioned above.

CONSUMTION, PRODUCTION AND INVENTORIES OF RUBBER Section A. Summary Data.

This section includes summary data on natural, synthetic and reclaim rubber, showing stocks, domestic production and domestic consumption. For more detailed data of consumption by specific types and by end products classifications, whereever possible, see Section B, Natural Rubber; Section C, Synthetic Rubber; and Section D, Reclaim Rubber.

Table 1. - Summary Statement of all Rubber Stocks, Domestic Production, Domestic Consumption showing Monthly Averages, 1939 - 1947, and Actual Monthly Totals, January 1948 - November 1949.

Weights are given in Long Tons (2,240 pounds)

Section B, Natural Rubber

The October 1949 and November 1949 consumption of Natural Rubber, showing crude rubber and natural latex separately, and arranged according to end products classifications is shown in Tables 6 (a) and 6 (b).

Summary Data, by months, November 1948 to November 1949, are shown in Table 5, and 1939 - 1948 yearly totals, monthly averages and percentages of natural rubber to all rubber consumed, are given in Table 4. Crude rubber and natural latex do not appear separately in summary tables, but are combined under the heading "Natural". For summary data on Synthetic, Natural and other rubber stocks, domestic production and domestic consumption, expressed in long tons, see Table 1.

Section C. Synthetic Rubber

The October 1949 and November 1949 consumption of Synthetic Rubber is shown by type, and by end products classification, in Table 10.

Summary data, by months, are shown in Tables 8 and 9, while 1943-1948 yearly totals and monthly averages are given in Table 7. For summary data on Synthetic and other rubber stocks, domestic production and domestic consumption, expressed in long tons, see Table 1.

Table 7. - Consumption of Synthetic Rubber in Total, showing Monthly Averages, 19431948, and Percentages of Synthetic Rubber to All Rubber Consumed.

Section D. Reclaim Rubber

Tables 11 and 12 give the consumption of Reclaim in total for the years 1939-1948 with monthly averages for each year and broken down into Dispersions and Other than Dispersions, by actual months, November 1948 to November 1949. Consumption of Reclaim, in total only, by end product classification is given in Tables 3 (a) and 3 (b) for October 1949 and November 1949. For summary data on Reclaim, Synthetic, and other rubber stocks, domestic production and domestic consumption, expressed in long tons, see Table 1.

Table 11. - Consumption of Reclaim Rubber in Total, and by Monthly Averages, 1939-1948, showing also percentages of Reclaim to All Rubber Consumed.

Year	Total	Monthly Average	Percentage To All Rubber
	Pounds	Pounds	
1939	16,826,880	1,402,240	19.2
1940	18,896,640	1,574,720	18.6
1941	21,208,320	1,767,360	15.1
1942	28,008,960	2,334,080	22.9
1943	31,342,080	2,611,840	29.8
944	28,277,760	2,356,480	26,9
1945	34,298,880	2,858,240	26.8
1946	31,673,600	2,639,467	26.6
1947	36,566,628	3,047,219	21.0
1948	30,661,557	2,555,130	18.1

Table 12. - Consumption of Reclaim Rubber, by Types and by Months, November 1948 to November 1949, showing percentages of Reclaim to All Rubber Consumed.

Month	Dispersions	Other than Dispersions	Total	Percentage To All Rubber
	Pounds	Pounds	Pounds	Per cent
1948 - November .	104,549	2,589,231	2,693,780	17.5
December .	88,865	2,554,448	2,643,313	17.6
1949 - January	78,752	2,349,279	2,428,031	17.4
February .	91,674	2,227,480	2,319,154	16.9
