Government of Canada

ON CONSUMPTION, PRODUCTION AND INVENTORIES OF RUBBER SEPTEMBER, 1949

DOMINION BUREAU OF STATISTICS DEPARTMENT OF TRADE AND COMMERCE

MONTHLY REPORT ON CONSUMPTION, PRODUCTION AND INVENTORIES OF RUBBER SEPTEMBER, 1949

Published by Authority of the Rt. Hon. C. D. Howe Minister of Trade and Commerce

Prepared in the General Manufactures Section, of the Industry and Merchandising Division, Dominion Bureau of Statistics, Ottawa

CONSUMPTION, PRODUCTION AND INVENTORIES OF RUBBER

SEPTEMBER, 1949

The statistics made available monthly in this report are considered only to represent clearly and accurately (a) the new domestic production of synthetic and reclaim rubber, and the inventories of firms reporting this production, and (b) the total consumption of all types of rubber, natural, synthetic and reclaim, whether foreign or domestic, by broad end product use groupings, together with inventories, receipts and sales of rubber by consuming manufacturers in all industries. The addition of the two inventories gives the total stocks held by industry.

It is regretted that comparable export-import data cannot be secured each month, and that, therefore, the total available supply is not accurately known. However, the data given in (b) do ultimately account for the total consumption of rubber in Canada, and should be capable of being correlated with new production and export-import data (as compiled by the External Trade Branch, D.B.S.) over a period of months.

Consumption of rubber in September, 1949 as compared with August, 1949 shows an increase in natural of 1,850,792 pounds, an increase in synthetic of 459,215 pounds, and an increase in reclaim of 473,215 pounds, the total increase being 2,783,222 pounds. Considering the situation in terms of end product use, it may be noted that the consumption of all rubber in the production of tires and tubes, including tire repair materials, increased by 2,240,676 pounds, consumption in rubber footwear decreased by 75,937 pounds, in wire and cable increased by 18,160 pounds, and in other products increased by 600,323 pounds, making the total increase of 2,783,222 pounds mentioned above.

CONSUM TION, PRODUCTION AND INVENTORIES OF RUBBER Section A, Summary Data.

This section includes summary data on natural, synthetic and reclaim rubber, showing stocks, domestic production and domestic consumption. For more detailed data of consumption by specific types and by end production classifications, wherever possible, see Section B, Natural Rubber; Section C, Synthetic Rubber; and Section D, Reclaim Rubber.

Table 1. - Summary Statement of all Rubber Stocks, Domestic Production, Domestic Consumption showing Monthly Averages, 1939 - 1947, and Actual Monthly Totals, January 1948 - September 1949.

Weights are given in Long Tons (2,240 pounds)

CONSULTION, PRODUCTION AND INVENTORIES OF RUBBER Section B, Natural Rubber

The August 1949 and September 1949 consumption of Natural Rubber, showing crude rubber and natural latex separately, and arranged according to end products classifications, is shown in Tables 6 (a) and 6 (b).

Summary Data, by months, September 1948 to September 1949, are shown in Table 5, and 1939 - 1948 yearly totals, monthly averages and percentages of natural rubber to all rubber consumed, are given in Table 4. Crude rubber and natural latex do not appear separately in summary tables, but are combined under the heading "Natural". For summary data on Synthetic, Natural and other rubber stocks, domestic production and domestic consumption, expressed in long tons, see Table 1.

Table 4. - Consumption of Natural Rubber in Total, showing Monthly Averages 1939-1948 and percentages of Natural to All Rubber Consumed.

	Total	Monthly Average	Percentage to all Rubber

CONSUMITION, PRODUCTION AND INVENTORIES OF RUBBER

Section C, Synthetic Rubber

The August 1949 and September 1949 consumption of Synthetic Rubber is shown by type, and by end products classification, in Table 10.

Summary data, by months, are shown in Tables 8 and 9, while 1943 - 1948 yearly totals and monthly averages are given in Table 7. For summary data on Synthetic and other rubber stocks, domestic production and domestic consumption, expressed in long tons, see Table 1.

Table 7. - Consumption of Synthetic Rubber in Total, showing Monthly Averages, 1943-1948, and Percentages of Synthetic Rubber to All Rubber Consumed.

Year	Total	Monthly Average	Percentage

CONSUMPTION, PRODUCTION AND INVENTORIES OF RUBBER Section D. Reclaim Rubber

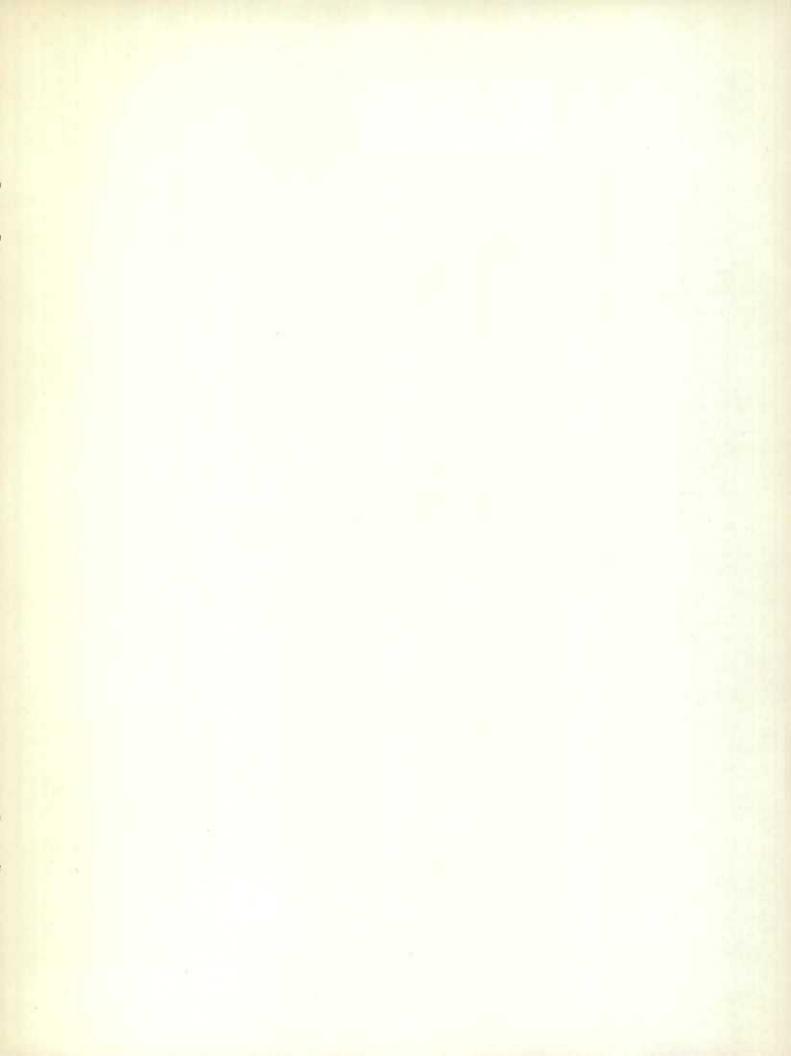

Tables 11 and 12 give the consumption of Reclaim in total for the years 1939-1948 with monthly averages for each year and broken down into Dispersions and Other than Dispersions, by actual months, January 1948 to September 1949. Consumption of Reclaim, in total only, by end product classification is given in Tables 3 (a) and 3 (b) for August 1949 and September 1949. For summary data on Reclaim, Synthetic, and other rubber stocks, domestic production and domestic consumption, expressed in long tons, see Table 1.

Table 11. - Consumption of Reclaim Rubber in Total, and by Monthly Averages, 1939-1948. showing also percentages of Reclaim to All Rubber Consumed.

Year		Total		Monthly Average		Percentage To All Rubber
1939		16,826,880	pounds	1,402,240	pounds	19.2
1940		18,896,640	11	1,574,720	11	18.6
1941		21,208,320	11	1,767,360	11	15.1
1942		28,008,960	H	2,334,080	Ħ	22.9
