Price \$2.00 per year.

CONSUMPTION, PRODUCTION AND INVENTORIES OF RUBBER

June, 1951

The statistics made available monthly in this report are considered only to represent clearly and accurately (a) the new domestic production of synthetic and reclaim rubber, and the inventories of firms reporting production and (b) the total consumption of all types of rubber, natural, synthetic and reclaim, whether foreign or domestic, by broad end product use groupings, together with inventories, receipts and sales of rubber by consuming manufacturers in all industries. The addition of the two inventories gives the total stocks held by industry.

It is regretted that comparable export-import data cannot be secured each month, and that, therefore, the total available supply is not accurately known. However, the data given in (b) do ultimately account for the total consumption of rubber in Canada, and should be capable of being correlated with new production and export-import data (as compiled by the External Trade Branch, D.B.S.) over a period of months.

Consumption of rubber in June, 1951 as compared with May, 1951 shows a decrease in natural of 2,697,674 pounds, a decrease in synthetic of 699,313 pounds, and a decrease in reclaim of 891,698 pounds, the total decrease being 4,288,685 pounds. Considering the situation in terms of end product use, it may be noted that the consumption of all rubber in the production of tires and tubes, including tire repair materials, decreased by 3,273,552 pounds, consumption in rubber footwear decreased by 378,703 pounds, in wire and cable increased by 11,402 pounds and in other products decreased by 647,832 pounds, making the total decrease of 4,288,685 pounds mentioned above.

Prepared in General Manufactures Section.

CONSUMPTION, PRODUCTION AND INVENTORIES OF RUBBER

Section A, Summary Data

This section includes summary data on natural, synthetic and reclaim rubber showing stocks, domestic production and domestic consumption. For more detailed data of consumption by specific types and by end products classifications, wherever possible, see Section B, Natural Rubber; Section C, Synthetic Rubber; and Section D, Reclaim Rubber.

Table 1. - Summary Statement of all Rubber Stocks, Domestic Production, Domestic Consumption showing Monthly Averages, 1939-1950, and Actual Monthly totals, June 1950 to June 1951.

Weights are given in Long Tons (2,240 pounds)

CONSUMPTION, PRODUCTION AND INVENTORIES OF RUBBER

Section B, Natural Rubber

The June 1951 consumption of Natural Rubber, showing crude rubber and natural latex separately and arranged according to end products classifications, is shown in Table 5. Summary data, by months, June 1950 to June 1951, are shown in Table 6. For summary data on Natural and other rubber stocks, domestic production and domestic consumption, expressed in long tons, see Table 1.

Table 5. - Consumption of Natural Rubber, by Types and by End Product Classification, June 1951.

End Products	Natural Rubber (excluding latex)	Latex	Total Natural
	Pounds	Pounds	Pounds
1. Tires, tubes and tire repair materials .....	5,223,163	37,967	5,261,130

Section D. Reclaim Rubber

Table 10 gives the consumption of Reclaim, in total only, by end product classification, June 1950 to June 1951. Of the 2,775,638 pounds consumed in June 1951, 67,158 pounds were consumed in the form of dispersions and 2,708,480 pounds as other than dispersions. For summary data on Reclaim and other rubber stocks, domestic production and domestic consumption, expressed in long tons, see Table 1.
