CONSUMPTION, PRODUCTION AND INVENTORIES OP RUBBER
JUNE, 1952

The statistics made available monthly in this report are considered to represent clearly and accurately (a) the new domestic production of synthetic and reclaim rubber, and the inventories of firms reporting production and (b) the total consumption of all types of rubber, natural, synthetic and reclaim, whether foreign or domestic, by broad end product use groupings, together with inventories, receipts and sales of rubber by consuming manufacturers in all industriss. The addition of the two inventories gives the total stocks held by industry.

It is regretted that comparable export-import data cannot be secured each month, and that, therefore, the total available supply is not accurately known. However, the data given in (b) do ultimately account for the total consumption of rubber in Canada, and should be capable of being correlated with new production and export-import data (as compiled by the External Trade Branch, D.B.S.) over a period of months.

Consumption of rubber in June, 1952, as compared with May, 1952, shows a decrease in natural of 468,868 pounds, a decrease in synthetic of $1,026,064$ pounds, and a decrease in reclaim of 311,981 pounds, the total decrease being 1,806,913 pounds. Considering the situation in terms of end products use, it may be noted that the consumption of all rubber in the production of tires and tubes, including tire repair materials, decressed by $1,241,206$ pounds, consumption in rubber footwear decreased by 167,812 pounds, in wire and cable decreased by 141,444 pounds and in other products decreased by 256,451 pounds, making the total decrease of $1,806,913$ pounds mentioned above.

Section A. Summary Data
This section includes sumary data on natural, synthetic and reclaim rubber showing stocks, domestic production and domestic consumption. For more detailed data of consumption by specific types and by end products classification, wherever possible, see Section B, Natural Rubber; Section C, Synthetic Rubber; and Section D, Reclaim Rubber.
