DOMINION BUREAU OF STATISTICS
OTTAWA - CANADA

Published by Authority of the Rt. Hon. C. D. Howe, Minister of Trade and Commerce

Vol. 8, No. 1 January, 1954

Price: \$2.00 per year

CONSUMPTION, PRODUCTION AND INVENTORIES OF RUBBER

The statistics made available monthly in this report are considered to represent clearly and accurately (a) the new domestic production of synthetic and reclaim rubber, and the inventories of firms reporting production and (b) the total consumption of all types of rubber, natural, synthetic and reclaim, whether foreign or domestic, by broad end product use groupings, together with inventories, receipts and sales by consuming manufacturers in all industries. The addition of the two inventories gives the total stocks held by industry.

It is regretted that comparable export-import data cannot be secured each month, and that, therefore, the total available supply is not accurately known. However, the data given in (b) do ultimately account for the total consumption of rubber in Canada, and should be capable of being correlated with new production and export-import data (as compiled by the External Trade Branch, D.B.S.) over a period of months.

Consumption of rubber in January 1954 as compared with December 1953 shows a decrease in natural of 735,423 pounds, a decrease in synthetic of 347,368 pounds and a decrease in reclaim of 461,820 pounds, the total decrease being 1,544,611 pounds. Considering the situation in terms of end products use, it may be noted that the consumption of all rubber in the production of tires and tubes, including tire repair materials, decreased by 1,159,020 pounds, consumption in rubber footwear increased by 97,651 pounds, in wire and cable decreased by 27,318 pounds and in other products decreased by 455,924 pounds, making the total decrease of 1,544,611 pounds mentioned above.

Prepared in General Manufactures Section, Industry and Merchandising Division.

CONSUMPTION, PRODUCTION AND INVENTORIES OF RUBBER

Section A. Summary Data

This section includes summary data on natural, synthetic and reclaim rubber showing stocks, domestic production and domestic consumption. For more detailed data of consumption by specific types and by end products classification, where-
ever possible, see Section B, Natural Rubber; Section C, Synthetic Rubber; and
Section D, Reclaim Rubber.

Table 1. - Summary Statement of all Rubber Stocks, Domestic Production and
Domestic Consumption Showing Monthly Averages, 1939-1953, and
Actual Monthly Totals, January 1954.

Weights are given in Long Tons (2,240 pounds)

	Stocks, End of Period			Domestic Production		Consumption

CONSUMPTION, PRODUCTION AND INVENTORIES OF RUBBER

Section B. Natural Rubber

The January 1954 consumption of Natural Rubber, showing crude rubber and natural latex separately and arranged according to end products classification, is shown in Table 5. Summary data, by months, January 1953 to January 1954 are shown in Table 6. For summary data on Natural and other rubber stocks, domestic production and domestic consumption, expressed in long tons, see Table 1.

Table 5 - Consumption of Natural Rubber, by Types and by End Product Classification, January 1954.

End Products	Natural Rubber (excluding Latex)	Latex	Total Natural
	pounds	pounds	pounds

Section D. Reclaim Rubber

Table 10 gives the consumption of Reclaim in total only, by end product classification January 1953 to January 1954. Of the 2,502,539 pounds consumed in January 1954, 41,934 pounds were consumed in the form of dispersions and 2,460,605 pounds as other than dispersions. For summary data on Reclaim and other rubber stocks, domestic production and domestic consumption expressed in long tons, see Table 1.
