## AUTOMOBILE STATISTICS FOR CANADA

## JANUARY 1932

According to a statement issued by the Dominion Burasu of Statistics at Ottawa, the production of automobiles in Canada during January was 3,731 cars as compared with 2,432 cars in December. The upturn at the beginning of the year followed the usual trend in motor car manufacture as December is normally a quit month in the industry. In January, 1931, the output totalled 6,496 cars.

Customs' records for January showed that 202 care were imported into Canada and that 582 cars were exported during the same period. These figures represent a marked decline in the number of both incoming and outgoing machines from the corresponding period of a year ago when importa were given at 915 cars and exports at 3,095 cars.

Of the January output, 3,403 cars were made for sale in Canada and the balance of 328 cars was intended for export. The apparent consumption of automobiles during the month, as deter-: mined by adding the 3,403 car made for sale in Canada to the 202 cars imported, amounted to 3,605 car. Comparative figures in s showing the number of cars made available for Canadian use during the previous month totalled 2,068 cars and in January of last year it amounted to 5,037 .
