AUTOMOBILE STATISTICS FOR CANADA AUGUST 1932.

Production of 4,067 motor cars and trucks in Canada during August was, with the exception of January, the lowest figure reported for any month of the year to date. The number of cars made was 46 per cent under the 7,472 cars in the previous month and 10 per cent less than the 4,544 cars in August of a year ago. Compared by types of cars the August figures show that trucks advanced to 901 from 699 in July, but this gain was not sufficient to offset the decline in passenger cars to 3,166 from 6,773.

Customs' records show that the number of cars imported into Canada during August dropped to 86 from 114, while during the same period exports advanced to 1,566 from 1,540. The export figure for August was the highest for any month of this year to date.

Of this month's output 2,312 cars were made for sale in Canada, leaving a balance of 1,755 cars intended for export. The apparent consumption of cars during the month as determined by adding the 2,312 cars made for sale in Canada to the 86 imported, amounted to 2,398 cars. During the next preceding month the apparent consumption, thus computed, was 4,887 cars and in August, 1931, it totalled 4,140 cars.
