SYMBOLS

The following standard symbols are used in Statistics Canada publications:

- ... figures not available.
- ... figures not appropriate or not applicable.
- nil or zero.
- amount too small to be expressed.
- P preliminary figures.
- r revised figures.
- x confidential to meet secrecy requirements of the Statistics Act.

SIGNES CONVENTIONNELS

Les signes conventionnels suivants sont employés uniformément dans les publications de Statistique Canada:

- . . . nombres indisponibles.
- . . . n'ayant pas lieu de figurer.
- néant ou zéro.
- nombres infimes.
- P nombres provisoires.
- r nombres rectifiés.
- x confidentiel en vertu des dispositions de la Loi sur la statistique relatives au secret.

ABBREVIATIONS

n.e.s.: Not elsewhere specified.

S.I.C.: Standard Industrial Classification.

ABRÉVIACTIONS

n.c.a.: Non classé(e)s ailleurs.

C.T.I.: Classification type des industries (titre français du système de classification industrielle de 1960).

C.A.E.: Classification des activités économiques (titre français du système de classification industrielle de 1970).

NOTES TO USERS

1. "Explanatory Notes" on selected statistical terms may be found at the back of this publication. These notes are based on the detailed "Concepts and Definitions" which are available free of charge from the Manufacturing and Primary Industries Division of Statistics Canada.
2. Principal statistics of establishments classified by size group, based on total employed, were omitted from industry reports for the years 1968-1971 and principal statistics of establishments by type of organization were last published in the 1967 industry reports. However, this information is available on request from the Manufacturing and Primary Industries Division. In the case of an extensive request, involving a large number of industries or years, it may be necessary to levy a charge.
3. Users interested in obtaining the value of production (manufacturing activity) can do so by adding cost of materials and supplies used (manufacturing activity), cost of fuel and electricity, and value added (manufacturing activity).

NOTES AU LECTEUR

1. On trouvera à la fin de la présente publication l'explication de certains termes statistiques. Ces explications se fondent sur les "Concepts et définitions" détaillés que l'on peut se procurer gratuitement à la Division des industries manufacturières et primaires de Statistique Canada.
2. Les tableaux renfermant les statistiques principales des établissements par tranche de taille mesurée par les effectifs ont été supprimés des publications de 1968 à 1971. Les statistiques principales des établissements selon la forme juridique ont été données pour la dernière fois dans les publications de 1967. On peut toutefois obtenir ces renseignements en s'adressant à la Division des industries manufacturières et primaires. Les demandes élaborées visant un grand nombre d'industries ou d'années pourront entraîner la facturation des frais.
3. Il suffit au lecteur qui désire connaître la valeur de la production (activité manufacturière) d'additionner le coût des matières et fournitures utilisées (activité manufacturière), le coût du combustible et de l'électricité, et la valeur ajoutée (activité manufacturière).

1973

For statistical purposes this industry covers establishments primarily engaged in producing machine parts and equipment, other than complete machines, for the trade. It also includes machine shops providing custom and repair services.

A comparison of the 1972 and 1973 principal statistics for this industry indicates that the value of shipments decreased by 2.9%, the total cost of materials used in the manufacturing process by 1.4% and the value of production by 3.3%. The ratio of cost of materials used to value of production was 34.4% in 1973 and the ratio of production wages to value of production was 31.2%.

Some of the products manufactured and reported by firms classified to this industry were tools and dies, rebuilt engines, motor vehicle and aircraft parts, sawmill machinery, conveyors, mining machinery and petroleum field equipment. Custom machining and repair services accounted for approximately 56% of the shipments of establishments which provided detailed production figures.

Aux fins de la statistique, cette branche d'activité comprend les établissements qui s'occupent principalement de la fabrication pour le commerce d'éléments et de pièces détachés de machines et d'appareils, mais non les machines complètes. Cette industrie comprend aussi les ateliers qui font la réparation à façon.

La comparaison des statistiques principales de cette industrie pour 1972 et 1973 révèle que la valeur des livraisons a baissé de 2.9 %, le coût total des matières utilisées dans la fabrication de 1.4 % et la valeur de la production de 3.3 %. Le rapport du coût des matières utilisées à la valeur de la production était de 34.4 %, tandis que celui des salaires de la production à la valeur de la production était de 31.2 %.

Quelques-uns des produits manufacturés et déclarés par les établissements classifiés dans cette industrie étaient des outils et des matrices, des moteurs reconditionnés, des pièces de véhicule automobile et d'aéronefs, des machines de serries, des convoyeurs, des machines d'extraction minière, du matériel de forage de puits de pétrole. L'usinage à façon et les services de réparations représentaient environ 56 % des livraisons des établissements qui ont rapporté en détail les chiffres de leur production.

Heavy fuel oil (Nos. 4, 5 and 6) — Mézouts lourds (Nos. 4, 5 et 6)	"			86,791
Liquefied petroleum gases (propane, butane, etc.) — Gaz de pétrole liquéfiés (propane, butane, etc.)	"	42,144	14	60,625
Electricity purchased (include service charge) — Électricité achetée (y compris le coût de service)	kwh. — '000 — kWh	50,523	1,180	55,295
Other fuel (include steam purchased) — Autres combustibles (incluant vapeur achetée)	1	...	1,048
Fuel and electricity — Total — Du combustible et de l'électricité	2,449	...	2,236

TABLE 6. MATERIALS AND SUPPLIES - MANUFACTURING ACTIVITY, 1973
TABLEAU 6. MATERIÈRES ET FOURNITURES - ACTIVITÉ MANUFACTURIÈRE, 1973

Description	1973		
	Quantity	Cost	
	Quantité	Coût	\$'000
Large establishments reporting detail - Grands établissements déclarant en détail:			
Materials used - Matières utilisées:			
Steel hot or cold rolled - Acier laminé à chaud ou à froid:			
Bars, cold finished - Barres finies à froid:			
Carbon - Carbone	ton - tonne	4,037	1,564
Alloy - Alliage	"	2,038	757
Stainless - Inoxydable	"	616	447
Other - Autres	"	750	266
Bars, hot rolled - Barres laminées à chaud:			
Carbon - Carbone	"	2,276	795
Alloy - Alliage	"	1,574	607
Stainless - Inoxydable	"	320	197
Other - Autres	"	430	221
Plates (3/16 in. and thicker) - Tôles fortes (3/16 de pouce et plus d'épaisseur)	"	6,188	1,801
Sheets and strips, plain - Tôles minces et feuillards ordinaires:			
Hot rolled - Laminés à chaud	"	2,682	825
Cold rolled - Laminés à froid	"	460	181
Galvanized (incl. prepainted) - Galvanisées (y compris prépeintes)	"	1,812	572
Tinplate - Étamées	"	-	-
Other plated sheets - Autres tôles minces plaquées	"	237	147
Structural shapes, unfabricated (channels, angles, etc.) - Profilés de charpente non-ouvrés (en U, cornières, etc.)	"	4,714	1,616
Wire - File	"	269	256
Scrap iron and steel, purchased - Ferraille de fer et acier, achetée	"	876	82
Scrap iron and steel, own make - Ferraille de fer et d'acier, de votre fabrication	"	10	2
Pipe and tubes, iron and steel - tuyaux et tubes, fer et acier	"	...	1,051
Other iron and steel - Autre fer et acier	"	...	889
Ferro alloys - Ferro-alliages	ton - tonne	31	13
Castings (rough and semi-finished received from foundry) - Moussages (bruts et semi-finis reçus de la fonderie):			
Iron (gray and malleable) - Fonte (grise et malléable)	"	649	248
Steel - Acier	"	2,048	921
Mild iron, all grades - Fonte en gueuses, toutes qualités	"	605	50
Non-ferrous metals in all forms (including scrap) - Métaux non ferreux, toutes formes (y compris déchets):			
Aluminum - Aluminium:			
Casting - Moussages	lb. - liv.	67,577	61
Extrusions - Pièces refoulées	"	58,863	49
Ingots - Lingots	"	12,000	10
Sheets - Tôles minces	"	199,857	185
Other forms - Autres formes	"	112,441	103
Babbitt metal and solders - Métal antifriction et soudures	"	90,626	103
Brass and bronze - Laiton et bronze:			
Bars and rods - Barres et tiges	"	465,751	492
Castings - Moussages	"	312,865	394
Ingots - Lingots	"	91,800	94
Pipe and tubing - tuyaux et tubes	"	118,115	118
Plates, sheets and strips - Tôles fortes, tôles minces et feuillards	"	34,491	35
Scrap - Déchets	"	2,800	2
Wire - File	"	1,200	1
Other forms - Autres formes	"	40,520	41
Copper - Cuivre:			
Bars and rods - Barres et tiges	"	43,771	48
Ingots - Lingots	"	1,100	1
Pipe and tubing - tuyaux et tubes	"	27,814	34
Plates, sheet and strip - Tôles fortes, tôles minces et feuillards	"	15,603	13
Wire - File	"	...	--
Other forms - Autres formes	"	18,750	20
Lead, pure - Plomb pur	"	4,095	3
Lead, antimonial - Plomb antimonisé	"	15,235	8
Magnesium, all forms - Magnésium, toutes formes	"	260	1
Nickel	"	3,113	19
Nickel alloys (inconel, monel, nickel-silver, etc.) - Alliages de nickel (inconel, monel, nickel-argent, etc.)	"	10,298	33
Tin - Étain	"	280	1
Titanium-bar - Barres de titane	"	2,506	5
Incl:			
Ingots and slabs - Lingots et brames	"	103,440	18
Sheets - Tôles minces	"	-	-
Other forms - Autres formes	"	400	-
Other non-ferrous metals - Autres métaux non ferreux	"	1,300	7

TABLE 6. MATERIALS AND SUPPLIES - MANUFACTURING ACTIVITY, 1973 - Concluded
 TABLEAU 6. MATIÈRES ET FOURNITURES - ACTIVITÉ MANUFACTURIÈRE, 1973 - fin

Description	1973	
	Quantity - Quantité	Cost - Coût \$'000
Large establishments reporting detail - Concluded - Grands établissements déclarant en détail - fin:		
Materials used - Concluded - Matières utilisées - fin:		
Other materials and supplies - Autres matières et fournitures:		
Paints and varnishes - Peintures et vernis	ton - tonne	77
Foundry coke (used in cupola) - Coke métallurgique (utilisé dans le cubilote)	ton - tonne	229
Foundry sand (including core and moulding sands) - Sables de fonderie (y compris sables à noyaux et de moulage)	"	211
Plumbago and graphite - Plombagine et graphite	lb. - liv.	1,670
Lumber - Bois d'œuvre	M ft. b.m. - M p.m.p.	54
Firebricks and cupola blocks - Brique réfractaire et blocs de cubilote		4
Fireclay - Argile réfractaire	ton - tonne	1
Core oil - Huile à noyaux	gallon (Imp.)	15
Sulphuric acid, 100% - Acide sulfurique, 100 %	lb. - liv.	887
All other - Tous autres		151,358
		46,343
Small establishments not reporting detail - Petits établissements ne déclarant pas en détail		9,328
Containers and other packaging materials and supplies used - Conteneurs et autres matières et fournitures d'emballage utilisées:		
Corrugated boxes and cartons - Boîtes et cartons en carton ondulé		174
Folding and set-up boxes, paperboard - Boîtes pliantes et montées en carton		74
Lumber - Bois d'œuvre		31
Skids and pallets - Palettes et traîneaux		30
Steel strapping - Bandes métalliques		9
Wooden boxes, crates, barrels and kegs - Boîtes, caisses, barils et barillets en bois		32
All other - Tous autres		55
Operating, maintenance and repair supplies used (excluding fuel) - Fournitures d'exploitation, d'entretien et de réparation (sauf le combustible)		5,175
Amount paid out to others for work done on materials owned by establishments - Somme versée à d'autres pour travail effectué sur des matières appartenant aux établissements		2,432
Total		73,782

TABLE 7. SHIPMENTS OF GOODS OF OWN MANUFACTURE, 1972 AND 1973
TABLEAU 7. LIVRAISONS DE PRODUITS DE PROPRE FABRICATION, 1972 ET 1973

Description	1972		1973	
	Quantity — Quantité No. — nomb.	Value — Valeur \$'000	Quantity — Quantité No. — nomb.	Value — Valeur \$'000
Large establishments reporting detail — Grands établissements déclarant en détail:				
Products — Produits:				
Automatic screw machine products — Produits de machines à tarauder et à fileter automatiques	258	...	246
Dies (metal working) — Matrices (travail des métaux)	19	726	...	449
Jigs and fixtures — Gabarits et pièces fixes	9	1,312	...	312
Moulds — Moules	—	...	55
Tools (metal working) — Outils (travail des métaux)	402	1,225	...	628
Machinery:				
Agriculture machinery — Machines agricoles	761	...	168
Conveyors — Convoyeurs	440	...	671
Mining machinery and equipment — Machines et matériel d'extraction minière	2,088	...	728
Petroleum field equipment — Matériel de forage de puits de pétrole	1,218	...	986
Sawmill machinery — Machines de scieries	11	4,476	...	492
Other machinery, n.e.s. — Autres machines, n.c.a.	19,721	...	11,193
Engines rebuilt — Moteurs reconstruits:				
Automotive, diesel — Automobiles, diesel	1,865	..	1,596
Automotive, gasoline — Automobiles, essence	21,135	..	23,514
Other, diesel — Autres, diesel	459	..	478
Other, gasoline — Autres, essence	784	..	698
Other products — Autres produits:				
Snow blowers — Souffleuses à neige	437	394	(1)	(1)
Snow plows — Chasse-neige	(1)	(1)	(1)	(1)
Aircraft parts — Pièces d'aéronef	522	..	750
Parts for chainsaws — Pièces pour scies à chaîne	(1)	..	(1)
Stampings — Pièces embouties	344	..	270
Street light standards — Réverbères	—	—	—	—
All other products — Tous autres produits	47,620	..	42,487
Amount received in payment for work done on materials and products owned by others — Montant reçu en paiement de travail effectué sur des matières et produits appartenant à d'autres				
92,454	...	107,468	...	
Less adjustment for value of sales taxes, excise duties and outward transportation charges which could not be deducted from individual commodity items described above — Moins rectification pour tenir compte de la valeur des taxes de vente, des droits d'accise et des frais de transport vers l'extérieur qui n'ont pu être déduits de chacun des produits décrits ci-dessus				
(2,190)	...	(1,697)	...	
Adjusted value of shipments and work done — Valeur rectifiée des livraisons et du travail exécuté

EXPLANATORY NOTES

The following abbreviated notes deal only with salient points or selected inclusions or exclusions which might not be self-evident. Detailed "Concepts and Definitions" are available on request; see "Notes to Users".

Establishment – Smallest operating unit capable of reporting certain specified input and output data; usually a plant or mill.

Large Establishments

Cost of materials and supplies, fuel and electricity – Generally, consumption of purchased items only, at laid-down cost. Includes inter-company and intracompany transfers, contract work by others, fuel used by vehicles.

Value of shipments of goods of own manufacture – Goods made by reporting establishment, or for its account, from its own materials, net of discounts, returns, allowances, sales tax, excise taxes and duties, returnable containers, common or contract carriers' charges for outward transportation (but not of own carriers' delivery expense). Includes repair and custom revenue, transfers to reporting units of same firm, all exports, book value of own products shipped on rental basis. Unsold domestic consignment shipments are included in inventory. In fabricated structural metal industry, aircraft and aircraft parts manufacturers, railroad rolling stock industry and shipbuilding and repair, value of production is shown in place of shipments in tables on principal statistics. Integrated smelters' work on own ore valued at imputed charge to mine.

Value added – Net output as measured by gross output less purchased commodity inputs used and contract work by others.

(a) Value added, manufacturing activity: Value of shipments of goods of own manufacture plus net change in inventory of goods in process and finished goods, less cost of materials and supplies used, fuel and electricity.

(b) Value added, total activity: Consists of (1) value added, manufacturing activity and (2) value added, non-manufacturing activity. The latter is calculated by subtracting relevant commodity inputs from non-manufacturing revenues or outputs; these commodity inputs are net of the change in inventories of goods purchased for resale. Non-manufacturing revenues include depreciable fixed assets produced by own work force for own use, revenue from product rentals, etc., but exclude non-operating revenue such as real property rentals, dividends, interest.

Employees, salaries and wages – Salaries and wages are reported before deductions for income tax and employee benefits and comprise all man-hours paid (for regular work, overtime and paid leave) as well as bonuses, commissions, etc., paid to regular employees. Where shown, production and related workers classified to non-manufacturing activity include separately reported loggers, employees on construction for own use: beginning with the 1970 Census outside pieceworkers formerly included for certain industries are excluded from all employment totals and their remuneration treated as contract work done by others. Sales and distribution employees include all personnel charged to selling expense, certain drivers, etc.

Inventories – Book value of owned inventory held in Canada, including goods in transit and on consignment.

Small Establishments

For establishments filing "short forms", beginning with 1970 data, "cost of materials, supplies and services" includes all purchased services, and "total revenue excluding interest and dividends received" is used for both shipments of goods of own manufacture and gross output, total activity; value added is calculated using these figures and net change in total inventory, and is thus identical for manufacturing and total activity. Numbers of employees are imputed from reported salaries and wages.

Head offices, sales offices and auxiliary units – Included in the individual industry of the company's largest activity. (The allocation of some such units to the major industry group level was discontinued with the 1970 data).

NOTES EXPLICATIVES

Les notes succinctes ci-après s'arrêtent uniquement aux points saillants et à certaines extensions ou restrictions pouvant nécessiter une explication. Sur simple demande, on pourra obtenir les "Concepts et définitions" détaillés; se reporter aux "Notes au lecteur".

Établissement – Plus petite unité exploitante en mesure de fournir certaines données sur ses facteurs de production (entrées) et sur sa production (sorties); en général: usine ou fabrique.

Grands établissements

Cout des matières et fournitures, du combustible et de l'électricité – De manière générale, concerne uniquement la consommation de produits achetés, au prix franco. Comprend les transferts entre filiales et établissements d'une société, les travaux exécutés par d'autres aux termes d'un contrat et la consommation de carburant, par les véhicules.

Valeur des livraisons de produits de propre fabrication – Concerne les produits fabriqués par l'établissement enquêté, ou pour son compte, à partir de matières lui appartenant, déduction faite des rabais, des retours de marchandises, des renvois, des taxes de ventes, des taxes et des droits d'accise, des emballages consignés, des frais de livraisons payés à des transporteurs publics ou sous contrat (mais non des frais de livraisons de l'établissement même). Comprend les recettes de réparations et de contrats, les transferts à d'autres unités enquêtées de la même firme, les exportations, la valeur comptable des produits donnés en location par l'établissement. Les livraisons sans vente en consignation au Canada sont prises en compte dans les stocks. En ce qui concerne l'industrie de la fabrication d'éléments de charpente métallique, les fabricants d'aéronefs et de pièces, les fabricants de matériel ferroviaire roulant ainsi que l'industrie de construction et réparation de navires, la valeur de la production remplace les livraisons dans les tableaux relatifs aux statistiques principales. Pour déterminer la valeur du travail effectué par une fonderie intégrée sur du minerai lui appartenant, on calcule le coût qu'il faudrait imputer à la mine.

Valeur ajoutée – Sortie nette, soit sortie brute moins consommation de biens achetés et travaux exécutés par d'autres sous contrat.

(a) **Valeur ajoutée, activité manufacturière**: valeur des livraisons de produits de propre fabrication, plus variation nette des stocks de produits en cours et de produits finis, moins coût des matières et des fournitures utilisées, du combustible et de l'électricité.

(b) **Valeur ajoutée, activité totale**: comprend (1) la valeur ajoutée par l'activité manufacturière et (2) la valeur ajoutée par l'activité non manufacturière. Cette dernière s'obtient en soustrayant les entrées de marchandises des recettes ou des sorties provenant de l'activité non manufacturière, après avoir soustrait de ces entrées la variation des stocks de produits achetés pour la revente. Les recettes provenant de l'activité non manufacturière comprennent les éléments d'actif amortissable produits par la main-d'œuvre de l'établissement pour son usage propre, les recettes de location de produits, etc., mais non les recettes hors-exploitation, comme les loyers d'immeubles, les dividendes, les intérêts.

Salariés, traitements et salaires – Les traitements et salaires sont pris en compte avant les retenues au titre de l'impôt sur le revenu et des avantages sociaux des employés; ils comprennent les heures-hommes payées (heures normales, supplémentaires et congés payés) ainsi que les gratifications, commissions, etc. versées aux salariés. Les travailleurs de la production et assimilés classés dans l'activité non manufacturière comprennent les bûcherons, les ouvriers de la construction pour le compte de l'établissement, etc., lorsqu'ils ont été déclarés séparément; à partir du recensement de 1970, les ouvriers à la pièce de l'extérieur, autrefois classés dans certaines industries, ne sont plus compris dans la statistique de l'emploi et leur rémunération a été prise en compte au titre des travaux sous contrat exécutés par des tiers. Les employés à la vente et à la distribution comprennent tout le personnel imputé aux frais de vente, certains chauffeurs, etc.

Stocks – Valeur comptable des stocks détenus en toute propriété au Canada, y compris les marchandises en transit ou en consignation.

Petits établissements

Pour les établissements qui remplissent une "formule abrégée", le coût des matières, fournitures et services" comprend, à partir des données de 1970, tous les services achetés, et le "total des recettes, sauf sous forme d'intérêts et de dividendes" vaut à la fois pour les livraisons de marchandises de propre fabrication et pour la production brute de l'activité totale; la valeur ajoutée est calculée à partir de ces chiffres et de la variation nette des stocks et est donc identique pour l'activité manufacturière et pour l'activité totale. Le nombre de salariés est déterminé à partir des rémunérations déclarées.

Sièges sociaux, bureaux de vente et unités auxiliaires – Classés avec l'industrie qui représente l'activité principale de la société. (Le classement de certaines de ces unités au niveau des groupes a cessé à partir des données de 1970).
