PRODUCTION AND SALES OF RADIO RECEIVING SETS IN CANADA

JULY, AUGUST AND SEPTEMBER, 1934.

Sales of radio receiving sets in Canada during July, August and September numbered 42,695 units with a factory selling price of \$1,740,021. Volume of sales during the quarter under review exceeded that of the previous quarter by 143 per cent and the corresponding period of a year ago by 45 per cent. Of the total third quarter sales 24,069 worth \$806,832 were standard broadcast band, 16,148 sets at \$742,773 were multi or selective wave and 2,478 sets at \$190,416 were all wave.

Inventories of radio receivers in the hands of the manufacturers totalled 32,533 sets on September 30, 1934, as against corresponding inventories of 27,054 sets on June 30, 1934, and 31,189 sets on September 30, 1933.

Sales figures for the third quarter of 1934 when compared with similar data for the third quarter of 1933 showed a very definite increase in the number of sets sold. The gains in Manitoba, Saskatchewan and Alberta were close to 100 per cent. In the Maritimes actual sales advanced to 2,647 from 1,763, in Quebec to 6,778 from 5,304, in Ontario to 15,463 from 11,589, in Manitoba to 5,063 from 2,635, in Saskatchewan and Alberta to 8,455 from 4,366 and in British Columbia to 4,289 from 3,709.
