NOTICE

The annual reports prepared by the Industry and Merchandising Division of the Bureau of Statistics are divided into 3 volumes, as follows: **Volume I** — The Primary Industries, including mining, forestry and fisheries; **Volume II** — Manufacturing; **Volume III** — Merchandising and Services. The volumes are made up of parts, and the parts in turn are subdivided according to the industries or provinces which they comprise.

Volume II consists of the following parts, the first two of which deal with manufacturing as a whole and the balance with the major manufacturing groups.

- I — General Review of the Manufacturing Industries
- II — The Manufacturing Industries of Canada, (7 sections, as follows:)
 - Section A. Summary for Canada
 - Section B. Atlantic Provinces
 - Section C. Quebec
 - Section D. Ontario
 - Section E. Prairie Provinces
 - Section F. British Columbia
 - Section G. The Manufacturing Industries of Canada, Regional Distribution
- III — Foods and Beverages
- IV — Tobacco and Tobacco Products
- V — Rubber Products
- VI — Leather Products
- VII — Textile Mills
- VIII — Knitting Mills
- IX — Clothing
- X — Wood and Paper Products
- XI — Printing Trades
- XII — Iron and Steel Products
- XIII — Transportation Equipment
- XIV — Non-ferrous Metal Products
- XV — Electrical Apparatus and Supplies
- XVI — Non-metallic Mineral Products
- XVII — Products of Petroleum and Coal
- XVIII — Chemicals and Allied Products
- XIX — Miscellaneous Manufactures

The present report belongs in Part XVI, Non-metallic Mineral Products. It is punched to permit of filing in a ring binder along with others of the group. The reports in this group are:

- A — General Review
- B — The Artificial Abrasives Industry
- C — The Asbestos Products Industry
- P — The Cement Manufacturing Industry (also in Mining)
- D — The Concrete Products Industry
- E — The Glass and Glass Products Industry
- K — The Gypsum Industry (also in Mining)
- Q — The Clay and Clay Products Industry (also in Mining)
- R — The Lime Industry (also in Mining)
- M — The Salt Industry (also in Mining)
- T — The Stone Industry (also in Mining)
- G — The Miscellaneous Non-metallic Mineral Products Industry

Prices of most reports released after January 1, 1959 have been increased. Information on the new prices of particular issues is available on request from the Information Services Division of the Dominion Bureau of Statistics.

THE CONCRETE PRODUCTS INDUSTRY

1957

Factory shipments of manufactured concrete products in Canada during 1957 were valued at \$181,897,684 compared with \$155,369,190 during 1956.

A total of 649 plants operated in this industry during 1957, there being 273 in Ontario, 220 in Quebec, 56 in British Columbia, 40 in Alberta, 22 in Saskatchewan, 12 in New Brunswick, 10 in Manitoba, 9 in Nova Scotia, 5 in Newfoundland and 2 in Prince Edward Island. The Ontario plants accounted for 45 per cent of the total shipments; establishments in Quebec contributed 29 per cent; works in Alberta and British Columbia accounted for 11 per cent and 9 per cent respectively with the

remaining 6 per cent being distributed among the other provinces. Products included ready-mixed concrete worth \$82,755,860; concrete pipe of all kinds worth \$18,967,237; gravel blocks at \$24,492,308; cinder blocks at \$3,237,337; other light aggregate blocks at \$5,506,534; artificial stone at \$4,591,785; concrete bricks at \$4,692,108 and other items such as laundry tubs, burial vaults, chimney blocks, etc.

Data for this industry cover manufacturing only and do not include figures for cement work done on the building of bridges, dams, foundations, etc., the latter type of work has been covered in the annual survey of construction.

¹ Due to lack of inventory data, figures for value added by manufacture prior to 1954 were obtained by subtracting the cost of materials used, including fuel and electricity, from the total value of factory shipments. In 1954 and 1955 the "Value added" adjustment incorporated the increase or decrease to shipments values resulting from changes in the value of inventories over the period. For these two years, the adjustments that were made used only the change in finished product inventory owned by manufacturers. Beginning with 1956 the calculation of the "Value added" figure was further adjusted to take into account the "Goods in process" as well as the finished goods held at plant or plant warehouse.

Note: Profits or losses cannot be calculated from above figures as data are not available for general expense items, such as interest, rent, depreciation, taxes, insurance, advertising, etc.

¹ (a) Book value of all manufacturing inventories owned and held at plant and plant warehouses.

(b) Beginning with 1954, information on the value of year-end inventory holdings at plant and plant warehouses is being collected as part of the annual Census of Industry. These data were formerly collected by a separate survey. The summarized results for the Concrete Products Industry for the year under review are shown in the above table.

(c) The opening inventory for 1957 does not necessarily agree with the closing inventory for 1956 because of the addition of new plants, the transfer of plants to other industries, plants going out of business, etc. However, the value added figures for the previous year have not been recalculated to allow for the changes mentioned above.
