

SALES OF MANUFACTURED AND NATURAL GAS

August, 1960

NOV 1 1959

PROPERTY OF THE
LIBRARY

Sales of natural gas during August, 1960 totalled 17,053,362 MCF, an increase of 17.9 per cent above the 14,464,100 MCF recorded in the same period last year. Revenue from sales rose 23.0 per cent to \$8,719,062 from \$7,090,971, and the number of customers using natural gas increased 8.6 per cent to 1,138,746 from 1,048,395.

For the eight months ended August 31, 1960 sales of natural gas amounted to 216,034,875 MCF, 19.7 per cent more than the 180,449,982 reported in the previous year.

For the twelve-month period ended August 31, 1960 sales of natural gas amounted to 315,998,661 MCF, 12.7 per cent more than the total of 280,413,768 for the twelve months ended December 31, 1959.

Natural gas sales to industrial consumers amounted to 13,184,716 MCF, increasing 19.6 per cent above the August, 1959 total of 11,025,597. Sales to domestic customers rose 11.2 per cent to 2,419,861 from 2,177,049 in the same period of the preceding year and sales to commercial customers increased 15.0 per cent to 1,446,444 MCF from 1,258,073.

Sales in Alberta during the month under review totalled 7,801,083 MCF, 45.7 per cent of the total for Canada. Alberta accounted for 35.0 per cent of the domestic sales, 48.0 per cent of the industrial sales and 43.1 per cent of the commercial sales. Ontario, however, received the greatest revenue from sales obtaining 44.6 per cent of the total for Canada, 40.0 per cent of the revenue from domestic sales, 48.3 per cent of the revenue from industrial sales and 45.5 per cent of the revenue from commercial sales.

N.B. In order to facilitate early compilation of these reports, the current monthly statistics contained herein include some preliminary estimates. However, actual figures, upon becoming available, are substituted for estimates in the cumulative totals. Hence, the addition of monthly totals may not agree with the cumulative figures.

In order to ensure that statistics are presented on a uniform basis, gas utilities have been asked, as of January 1960, to report MCF sold at 14.73 p.s.i. a., 60°F. and 1,000 BTU (for natural gas) or 500 BTU (for manufactured gas). In past years there have been some slight differences among companies regarding pressure, temperature and heat value conditions at which gas volumes were reported. Therefore, the volume of gas sold during 1958 and 1959 was recalculated at the specified standards and was published in the February, 1960 report. For comparison purposes, August, 1959 data are shown herein on the revised basis.

Prepared in the Public Utilities Section,
Public Finance and Transportation Division.
