FOR
WEEK ENDED APRIL 3RD, 1926.

The decrease in car loadings in Canada during last week was due to the holiday on Good Friday and although the loadings were 1,214 cars below those for the week ended April 4, 1925, they were 4,965 cars over the loadings for Easter week last year. The holiday caused reductions from the previous week's loading in practically every commodity in both the eastern and western divisions, coal and ore in the west showing the only increases.
