## REVENUE CAR LOADINGS FOR WEEK ENDED JUNE 12TH, 1926

Car loadings for the week ended June 12 showed a slight increase over the previous week. In the eastern division total loadings were heavier by 1,081 cars, gains being recorded in all commodity classes except miscellaneous and coal which fell off 233 cars and 377 cars respectively, and grain and coke which also showed small declines. In the western division there was little change, the total being 238 cars less than the previous week and the only change of any size being a decrease of 269 cars in other forest products.

The large increase in coal loadings due to labour traubles in 1925 and in grain due to the larger crop in 1925 than in 1924, also heavier loading of forest products classes, an increase of 1,123 cars of merchandise and an increase of 2,843 cars of miscellaneous freight made a total increase of 12,477 cars over the corresponding week in 1925.
