C A R L O A D I N G S

(Twenty-third Week ended June 11th, 1932)

Total car loadings for the week ended June 11 amounted to 43,686 cars, which was an increase over the previous week's of 1,072 cars. Two factors affecting this increase were the holiday in the previous week, on June 3, and the haste of the western farmers to deliver wheat to the elevators in time to collect the Dominion Government bonus of 5 cents per bushel. The second factor was probably the more important as the increase in grain loading was 1,370 cars over the previous week's shipments and 1,009 cars over shipments during the twenty-third week last year. The index number was 70.19 as against 67.49 for the previous week and 71.05 for the twenty-first week.

In the eastern division lumber, pulpwood, pulp and paper, other forest products and ore all showed increases over the previous week's loadings, but other commodities decreased, reducing the total loadings by 50 cars.

In the western division total loadings increased by 1,122 cars and the index number rose from 79.06 to 85.21, a new high for the year. Grain accounted for 1,379 cars of the increase and changes in other commodities were small, a decrease of 141 cars in miscellaneous freight being the greatest change.
