CANADIAN PACIFIC RAILWAY COMPANY

REVENUES, EXPENSES, ETC.

1923 - 1938

Statistics of the Canadian Pacific Railway Company, including its leased steam railway lines, for the sixteen years, 1923-1938, are presented in this report on a basis comparable throughout with the consolidated reports, including all these leased lines, made since 1932. Prior to that date a consolidated report could not readily be compiled from the published data without duplicating certain facts, because separate reports were submitted for several of such railways which were operated separately. The dates from which each of these leased lines was included in the Canadian Pacific Railway Company's reports are shown in a foot note to Table 2. New leases were concluded during the period covering the lines of the Lacombe and North Western and Algoma Eastern Railway Companies and the operating results thereof are included from March 1, 1928, and July 1, 1931, respectively.

Table 1 shows the capital of the Canadian Pacific Eailway Company outstanding on December 31 of each year, 1922 to 1938. The mileage operated by the Canadian Pacific as at December 31, 1938, totalled 17,187.0 miles of line, of which 7,125.0 miles were operated under lease or contract. Of the latter mileage rental is payable to others in respect of companies owning 3,604.7 miles of line, or 21 per cent of the total mileage. In some cases the annual rental represents the interest on the bonds or dividends on stock outstanding, exclusive of Canadian Pacific holdings; in others it is a fixed amount; in others it is a percentage of the gross or net earnings, and in other cases it is a combination of these. The tables below have divided these into three groups:

A - In the following cases the rental paid for leased railway properties represents an amount equal to interest on securities or dividends on capital stock of the lessor companies. The principal amount of such securities and par value of such capital stock outstanding, including that held in the Insurance Fund of the Company, is shown in addition to particulars of mileage and rental.

In computing a total capitalisation of the system it would be quite appropriate to add to the total shown in Table 1 the outstanding capital of group A and an estimate of the capital of groups B and C based on the annual rental; the fluctuations in group C, due to variations in earnings, would be a small percentage of the total.

Cash Subsidies.- The Canadian Pacific and subsidiary lines received subsidies from the Dominion Government and from the provinces and municipalities as shown in the following table. It is not contended that the Canadian Pacific Bailway received the aid granted to leased and acquired lines. In some cases the lease was made, or line acquired, years after the aid was granted and there was no connection between them, but in others the construction of the line was financed by the Canadian Pacific and in such cases the railway is practically a part of the system although legally it is a separate entity. Also, no value has been computed for the land grants to the railways.

(1) Dominion Government book value at time of transfer including costs of surveys, etc.

(2) Includes aid to Massawippi Valley, St. John Bridge and Railway Extension, and St. Stephen and Milltown railways. The Canadian Pacific Railway Company owns all the stock of the St. John Bridge and Railway Extension and leases the entire mileage of the other two railways.

The Canadian Pacific has guaranteed the principal of the following outstanding obligations of companies owning railway lines operated under lease, the rental of which includes the interest on these obligations.

(3) Includes \$188,956 in sinking fund.

(4) Includes \$12,500,000 as collateral for notes, all of which except \$11,000.00, are owned by the Canadian Pacific Railway Company. In addition to the foregoing, the Canadian Pacific is bound jointly and equally with the Canadian National to indemnify the Province of Alberta against liability under its guarantee of principal and interest on \$9,420,000 of obligations assumed by the Northern Alberta Railways Company and to pay, on June 1st, 1939, the final instalment of \$5,580,000.00 on purchase price. Thus, the contingent liability of the Canadian Pacific Railway Company with respect to the principal of these obligations is \$7,500,000. The interest on \$15,000,000 of obligations above referred to, forms part of the Fixed Charges of the Northern Alberta Railways Company and one-half of the income deficit of that Company is taken up currently in the Income Account of the Canadian Pacific. The Canadian Pacific, Michigan Central, New York Central, and Canada Southern are bound jointly and severally to make up to Toronto. Hamilton and Buffalo Railway Company any interest which it is unable to provide with respect to its $\frac{14}{3}$ per cent Consolidated Mortgage Bonds, amounting to \$2,000,000, of which \$128,000 principal amount is held in the treasury of the issuing company. The Canadian Pacific also guarantees payment to Trustees of a rental sufficient to pay interest on and retire principal of \$586,000 First Mortgage 5% Bonds of the South Shore Dock Company, maturing serially to 1945, and is jointly and severally responsible with James Playfair (deceased) for principal and interest of 5% construction loan owing by Midland Simcoe Elevator Company, Limited, amounting to \$515,000.

Table 2 shows the operating results of the system for the sixteen years, 1923 to 1938, adjusted, as explained in foot note (2), to be comparable throughout with data prepared for and presented in the "Duff Report" which put the Canadian Pacific and Canadian National accounts on bases as nearly similar as possible. Consequently, operating revenues and expenses will not agree with these accounts as shown in the annual reports. The Minneapolis, St. Paul and Sault Ste. Marie Railway Company (Soo Line) being unable to discharge its oblirations, and having filed a petition for reorganization under Section 77 of the Bankruptcy Laws of the United States on December 31, 1937, the Canadian Pacific, as guarantor, has paid interest due since that date on certain obligations of that Company. Prior to these proceedings, the Soo Line had borrowed funds from the Canadian Pacific to enable it to meet bond interest, and in each year from 1932 to 1937 the Canadian Pacific made appropriations from Profit and Loss to provide a reserve for possible losses on such investments.(See note 6.)

Table 3 shows year by year the receipts from issue of securities and net income from operation.

Table 4 shows the disposal of the moneys received, as covered by Table 3. The difference in these tables and in Table 3 of the Canadian National Report is that here "Net change in working capital - other balance sheet accounts" is included in Table 4 instead of Table 3. It is unimportant whether they are treated as receipts or expenditures as only net changes are shown.

Table 5 shows the principal operating statistics of the system. Consolidated pay roll data for 1923. 1924 and 1925 were not available, but all other data are on a comparable basis throughout and also are generally comparable with corresponding data for the Canadian National Railways. Employees include railway employees and also express, news, and commercial telegraph employees, but exclude those of hotel and other outside operations, and the total pay roll data apply to these employees. Pay roll charged to operating expenses does not include pay roll charged to capital but includes total Stores Department pay roll. In the latter respect it varies from the figure shown in the Canadian National Report.

NOTES:

- (1) The published statements of operating revenues, expenses, etc., of the Canadian Pacific Railway Company since January 1, 1932, have included Dominion Atlantic, Esquimalt and Nanaimo, Montreal and Atlantic, and Quebec Central Railways; since July 1, 1931, Fredericton and Grand Lake Coal and Railway and New Brunswick Coal and Railway; and since January 1, 1931, Kettle Valley Railway. Figures for all years prior to dates cited have been restated for the purpose of uniformity to include these subsidiaries which were previously separately operated.
- (2) Includes gross of commercial telegraphs, news and express; excludes ocean traffic commission,
- (3) Includes full pension disbursements; excludes ocean traffic expenses.
- (4) This figure is derived as follows: Surplus Revenue December 31, 1922, as per balance sheet \$129,506,628, undistributed balance of Special Income included in Surplus in Other Assets December 31, 1922, \$15,827,414, net surplus of subsidiaries and pension fund not consolidated in general balance sheet December 31, 1922, \$4,429,938, less dividends declared account 1922 and paid April 1, 1923, \$8,113,639.
- (5) Provision made for depreciation of ocean and coastal steamships was deducted from Income in all years except 1933 and 1934 when such provision was charged to Profit and Loss (See Note 6). Amounts provided from Income in subsequent years were as follows: 1935, \$3,550,996; 1936, \$3,567,151; 1937, \$3,894,469; 1938, \$3,781,990.

(1) The published statements of operating revenues, expenses and statistics of Canadian Pacific Railway Company since January 1, 1932, have included Dominion Atlantic, Esquimalt and Manaimo, Montreal and Atlantic, and Quebec Central Railways; since July 1, 1931, Fredericton and Grand Lake Coal and Railway and New Brunswick Coal and Railway; and since January 1, 1931, Kettle Valley Railway. Figures for all years prior to dates cited have been restated for the purpose of uniformity to include these subsidiaries which were previously separately operated. Figures for all years include gross of commercial telegraphs, news and express; ocean traffic commission excluded from operating revenues, ocean traffic expenses from operating expenses and ocean traffic payroll from payroll charged to operating expenses.

(2) Duplications within the system, 1923-1931, not eliminated.

(3) Revenue and non-revenue freight.
