PACIFIC RAILWAY COMPANY CANADIAN REVENUES, EXPENSES, ETC.

1923 - 1943

Statistics of the Constinu Facific Saliney Company, including its leased steem railway lines, for the twenty-one years, 1923-1943, are presented in this report on a basis comparable throughout with the consolidated reports, including all these leased lines, made since 1932. Prior to that date a consolidated report could not readily be compiled from the published data without duplicating certain facts, because separate reports were submitted for several of such railways which were operated separately. The dates from which each of these leased lines was included in the Canadian Pacific Railway Company's reports are shown in a foot note to Table 2. New leases were concluded during the period covering the lines of the Lacombe and North Western and Algome Eastern Railway Companies and the operating results thereof are included from March 1, 1928, and July 1, 1951, respectively.

Table 1 shows the capital of the Canadian Pacific Railway Company outstanding on December 31 of each year, 1922 to 1945. In order to arrive at the aggregate capital invested in the System it is necessary to add to the amounts in Table 1 the capital of leased railways on which the Canadian Pacific pays rental to others and also the Dominion, Provincial and Municipal subsidies in aid of construction.

The Canadian Pacific operated a total mileage of 17,037.9 at December 31, 1943. Of this, 7,050.5 miles were operated under lease or contract. The latter mileage may be classified into four main groups, A to D.

Group A - In this group are the leased railways, all the interest bearing securities of which are owned by the Canadian Pacific and whose capitalization is therefore indirectly embraced in Table 1.

Group B - In the following cases the rental paid for leased railway properties represents an amount equal to interest on securities or dividends on capital stock of the lessor companies. The principal amount of such securities and per value of such capital stock outstanding with the public is shown in addition to particulars of mileage and rental.

⁽¹⁾ Bonds amounting to \$273,700 matured and were paid during year.

Group C - In the following cases the rental paid for leased railway properties is a fixed rental.

Total	181.5	403,785

^{# 5.1} miles of yard track.

Group D - In the following cases the rental paid is based on gross or net earnings.

C	181.5	403,785
D	190.5	182,790
Total	3,611.6	3,539,948

In computing a total capitalization of the system it would be quite appropriate to add to the total shown in Table 1 the outstanding capital of group B and an estimate of the capital of groups C and D based on the annual rental; the fluctuations in group D, due to variations in earnings, would be a small percentage of the total.

Cash Subsidies.— The Canadian Pacific and subsidiary lines received subsidies from the Dominion Government and from the provinces and municipalities as shown in the following table. It is not contended that the Canadian Pacific Railway received the aid granted to leased and acquired lines. In some cases the lease was made, or line acquired, years after the aid was granted and there was no connection between them, but in others the construction of the line was financed by the Canadian Pacific and in such cases the railway is practically a part of the system although legally it is a separate entity. Also, no value has been computed for the land grants to the railways.

⁽¹⁾ See Group B. Rental is a fixed rent plus interest on securities.

(2) Revised.

The Canadian Pacific has guaranteed the principal of the following outstanding obligations of companies owning railway lines operated under lease, the rental of which includes the interest on these obligations.

The Canadian Pacific Railway has also guaranteed interest on the following securities of companies controlled but not operated.

 ⁽³⁾ Includes \$262,006 in sinking fund and \$10,714 in treasury.
 (4) Includes \$80,000 in treasury.
 (5) Includes \$1,897,500 owned by C.P.R. Company and \$12,500,000 pledged as collateral for notes, all of which except \$10,500 are owned by C.P.R. Company.

In addition to the foregoing, the Canadian Pacific is bound jointly and equally with the Canadian National to indemnify the Province of Alberta against liability under its guarantee of principal on \$2,420,000 of obligations assumed by the Northern Alberta Railways Company. The Canadian Pacific, Michigan Central, New York Central, and Canada Southern are bound jointly and severally to make up to Toronto, Hamilton and Buffalo Railway Company any interest which it is unable to provide with respect to its $4\frac{1}{2}$ per cent Consolidated Mortgage Bonds, amounting to \$2,000,000, of which \$128,000 principal amount is held in the treasury of the issuing company.

adjusted, as explained in foot note (2), to be comparable throughout with data prepared for and presented in the "Duff Report" which put the Canadian Pacific and Canadian National accounts on bases as nearly similar as possible. Consequently, operating revenues and expenses will not agree with these accounts as shown in the annual reports. The Minneapolis, St. Paul and Sault Ste. Marie Railway Company (Soo Line) being unable to discharge its obligations, and having filed a petition for reorganization under Section 77 of the Bankruptcy Laws of the United States on December 31, 1937, the Canadian Pacific, as guarantor, has paid interest since that date, on the First Consolidated Mortgage Bonds of that Company to their maturity on July 1, 1938, and is currently paying interest on the Second Mortgage Bonds and the First Refunding Mortgage Bonds. Prior to these proceedings, the Soo Line had borrowed funds from the Canadian Pacific to enable it to meet bond interest, and beginning with 1932 the Canadian Pacific has from time to time made appropriations from Profit and Loss to provide a reserve for possible losses on such investments. (See note 6).

Table 3 shows year by year the receipts from issue of securities and net income from operation.

Table 4 shows the disposal of the moneys received, as covered by Table 5. The difference in these tables and in Table 3 of the Canadian National Report is that here "Net change in working capital - other balance sheet accounts" is included in Table 4 instead of Table 5. It is unimportant whether they are treated as receipts or expenditures as only net changes are shown. This table has been revised since the 1925-42 report.

Table 5 shows the principal operating statistics of the system. Consolidated pay roll data for 1925, 1924 and 1925 were not available, but all other data are on a comparable basis throughout and also are generally comparable with corresponding data for the Canadian National Railways. Employees include railway employees and also express, news, and commercial telegraph employees, but exclude those of hotel and other outside operations, and the total pay roll data apply to these employees. Pay roll charged to operating expenses does not include pay roll charged to capital but includes total Stores Department pay roll. In the latter respect it varies from the figure shown in the Canadian National Report.
