CANADIAN PACIFIC RAILWAY COMPANY 1923 - 1957

REVENUES, EXPENSES, ETC.

This report presents a thirty-five year statistical history of the Canadian Pacific Railway Company and its leased railway lines for the years 1923-1957. These data are presented on a basis comparable throughout with the consolidated reports made since 1932. Prior to that date a consolidated report could not readily be compiled from the published data without duplicating certain facts, because individual reports were submitted for several railways which were operated separately. The dates from which each of these leased lines was included in the Canadian Pacific Railway Company's reports are shown in a footnote to Table 2. New leases were concluded during the period covering the lines of the Lacombe and North Western and Algoma Eastern Railway Companies and the operating results thereof are included from March 1, 1928, and July 1, 1931. respectively.

Table 1 shows the capital of the Canadian Pacific Railway Company outstanding on December 31st of each year, 1922 to 1957. In order to arrive at the aggregate capital invested in the System it is necessary to add to the amounts in Table 1 the

capital of leased railways on which the Canadian Pacific pays rental to others and also the Federal, Provincial and Municipal subsidies in aid of construction.

The Canadian Pacific operated a total road mileage of 17,096.5 at December 31, 1957. Of this number, 4785.1 miles or 28.0 per cent were operated under lease or contract. The latter mileage may be classified into the following five groups:

A-In this group are the leased railways whose interest bearing securities are owned by the Canadian Pacific and whose capitalization is therefore indirectly embraced in Table 1.

B—For the railways presented in the table below rentals paid for leased railway properties represent an amount equal to interest on securities or dividends on capital stock of the lessor companies. The principal amount of such securities and capital stock outstanding with the public is shown in addition to particulars of mileage and rental.

In computing a total capitalization of the system it would be quite appropriate to add to the total shown in Table 1 the outstanding capital of group B and an estimate of the capital of groups C and D based on the annual rental; the fluctuations in group D, due to variations in earnings, would be a small percentage of the total.

Subsidies — The Canadian Pacific Railway and other companies now comprising the system were granted subsidies from the federal government, provinces and municipalities in the form of cash and expenditures on construction. These are summarized in the following table. Amounts shown under the caption "Canadian Pacific Railway Company" are those taken to account by the Company, while amounts under the heading "Other Companies" represent aid received by others than the Canadian Pacific Railway.

No value has been computed for land grants, which are listed in acres.

Minneapolis, St. Paul & Sault Ste. Marie Railway Company ¹	51/2	\$ 1, 211, 399

¹ Predecessor of Minneapolis, St. Paul and Sault Ste. Marie Railroad Company. This issue payable in United States currency.

The Minneapolis, St. Paul and Sault Ste. Marie Railway Company (Soo Line), was reorganized during 1944. Under the authority of the plan of reorganization approved by the Interstate Commerce Commission and the Court, the reorganization managers created a new company, the Minneapolis, St. Paul and Sault Ste. Marie Railroad Company to take over the property of the Minneapolis, St. Paul and Sault Ste. Marie Railway Company as from September 1, 1944.

In accordance with the plan, the Canadian Pacific received in bonds and stock of the new company, at the values ascribed to them by the Interstate Commerce Commission in the distribution of the new capitalization, a total of \$18,975,296; in stocks of affiliates of the old company, \$1,750,000; in bonds of the Wisconsin Central Railway Company, \$5,732,291; and in cash, \$1,564,494. Investments in the old company of \$18,409,642 and advances of \$24,618,041 were surrendered or written off resulting in a net reduction in book valuation of \$15,005,602. This was chartered against the Investment Reserve built up in prior years to provide for this contingency. (See note 6).

Reorganization of the Duluth, South Shore and Atlantic Railway Company and Mineral Range Railroad Company was effected as from November 1, 1949. The new company, named Duluth, South Shore and Atlantic Railroad Company, was formed, under the plan of reorganization approved by the Interstate Commerce Commission and the Court, under the laws of the State of Minnesota.

The initial capitalization of the new company consisted, in accordance with the plan, of \$5 million First Mortgage 4% Income bonds and \$10.5 million Common Stock, represented by 210,000 shares of a

stated value of \$50 per share. The Canadian Pacific Railway Company received \$4,141,200 of the bonds, all of the stock, and \$1,161,102 in cash. The new stock and bonds were recorded in the accounts of the company at \$13,572,136, that being the remaining book value of investments in, and advances to, the old companies after credit was given for the amount of the above mentioned cash payment.

The Wisconsin Central Railway Company was reorganized in 1954 and a new company named The Wisconsin Central Railroad Company was formed. Allotted to the Canadian Pacific Railway Company were \$1,575,000 First Mortgage Bonds, \$10,345,000 General Mortgage Income Bonds, 84,841 shares of the new common stock and \$777,000 in cash. The Interstate Commerce Commission granted the Canadian Pacific Railway Company authority to assume control of the reorganized company on May 27, 1954.

Table 2 shows the operating results of the system during the thirty-five year period, 1923 to 1957, adjusted, as explained in footnote 2, to be comparable throughout with data prepared for and presented in the "Duff Report" (1931-2), and in accordance with the new Uniform Classification of Accounts for Class 1 Common Carriers by Railway which was adopted for use from January 1, 1956. Thus the accounts of the Canadian Pacific and Canadian National Railways are stated on bases as nearly similar as possible.

Table 3 shows year by year the receipts from issue of securities and net income from operation.

Table 4 shows the disposal of the money received, as covered by Table 3. The difference between these tables and Table 3 of the Canadian

National Report is that in the Canadian Pacific Report "Net change in working capital—other balance sheet accounts" is included in Table 4 instead of in Table 3. It is unimportant whether they are treated as receipts or expenditures as only net changes are shown.

Table 5 shows the principal operating statistics of the system. Consolidated payroll data for 1923, 1924 and 1925 were not available, but all other statistics are on a comparable basis throughout and also generally comparable with corresponding

data for the Canadian National Railways. Employees include railway employees and also express, news, commercial communications, and, from 1956, highway transport (rail) employees (but exclude those of hotel and other outside operations) and total pay roll data apply to these employees. Pay roll charged to operating expenses does not include pay roll charged to capital but does include total "Stores Department" pay roll. In the latter respect it varies from the figure shown in the companion study of the Canadian National Railways for the period 1923-1957.

NOTES

TABLE 2.

- 1. The published statements of operating revenues, expenses, etc. of the Canadian Pacific Railway Company since January 1, 1932, have included the Dominion Atlantic, The Esquimalt and Nanaimo, the Montreal and Atlantic and Quebec Central Railways; since July 1, 1931 The Fredericton and Grand Lake Coal & Railway and New Brunswick Coal & Railway; and since January 1, 1931 The Kettle Valley Railway. Figures for all years prior to dates cited have been restated for the purpose of uniformity to include these subsidiaries, which were previously separately operated.
- 2. Includes gross of news, express and commercial communications throughout, and gross of highway transport (rail) operations from 1956. Excludes ocean traffic commission.
- 3. Includes expenses of news, express and commercial communications throughout, and highway transport (rail) operations from 1956. According to the new Uniform Classification of Accounts which was adopted for use as of January 1, 1956, equipment rents, joint facility rents and railway tax accruals are charged to operating expenses. Rents and taxes have, however, been excluded from the 1956 and 1957 expense data and treated as deductions from net operating revenue as in former years, in order to maintain comparability throughout the period shown in this report.
- 4. Details of Retained Income credits and debits for the year 1957 are: Net Proceeds from Sales of Lands and Townsites—Cr. \$7,561,504; Gain on Redemption of £1,300,000 Debenture Stock of Atlantic and North-West Railway Company—Cr. \$2,853,490; Excess of considerations received for sales of properties over book values and miscellaneous items—Net Cr. \$1,259,493.
- 5. This figure is derived as follows: Surplus Revenue December 31, 1922, as per balance sheet \$129,506,628, undistributed balance of Special Income included in Surplus in Other Assets, December 31, 1922, \$15,827,414, net surplus of subsidiaries and pension fund not consolidated in general balance sheet December 31, 1922, \$4,429,938, less dividends declared account 1922 and paid April 1, 1923, \$8,113,639.
- 6. Includes interest on the 20 year 41/2% Sinking Fund Note Certificates previously charged Land Surplus.
 - 7. Charged to Profit and Loss in 1944.
- 8. Includes dividend of 3% (\$10,050,000) on the Ordinary Stock declared from the earnings for the year but not paid until the following year.
- 9. Effective January 1, 1956, the balances of the accounts Land Surplus (\$101,685,263) and Profit and Loss (\$314,929,852) were combined in the new account Retained Income (Balance) in conformity with the Uniform Classification of Accounts of the Board of Transport Commissioners for Canada.

TABLE 3.

- 1. Includes amount of installations paid in on new Ordinary Capital Stock in years in which received.
- 2. Includes \$5,000,000 Perpetual 4% Consolidated Debenture Stock held in Treasury as at December 31, 1922; subsequently sold.

TABLE 4.

- 1. As of 1956 capital expenditures on Great Lakes Steamships are included in the column headed "Steamships."
- 2. Includes reduction of \$9,452,380 in cash and \$39,956,612 in securities held as at December 31, 1922 for retirement of \$52,000,000 par value 6% note certificates which were called for payment July 10, 1923.
- 3. In addition, \$2,319,340 net earnings of Hotels previously credited Hotel Investment, were transferred to Hotel Depreciation Reserve.
- 4. In addition, \$48,134,205 was added to rolling stock investment to bring it up to the cost of units presently in service.
- 5. In addition, credits totalling \$74,728,521 which had been appropriated from surplus during the years 1904-1913 and applied in reduction of property investment as well as debits totalling \$33,715,531 for net discount on early issues of capital stock were transferred to Reserve for Depreciation—Road and Premium on Capital and Debenture Stock respectively.

NOTES - Concluded

Table 4 - Concluded:

6. Subsequent to the end of the year, a dividend of 3% (\$10,050,000) on the Ordinary Stock was declared from the earnings for the year.

TABLE 5.

- 1, 5 and 6 Same as notes 1, 2 and 3 for Table 2.
- 2. Duplications within the system, 1923-1931, not eliminated.
- 3. Charges for pick-up and delivery service were charged to operating expenses and not deducted from freight revenue for 1938 and subsequent years.
 - 4. Passenger train revenue includes gross express revenue.
 - 7. Revenue and non-revenue freight.
 - 8. Excludes ocean traffic payroll.
