MOTOR VEHICLE TRAFFIC ACCIDENTS

JULY - SEPTEMBER 1968-67

The motor vehicle traffic accidents referred to in this report are those occurring on public roads and streets, including boulevards and paths adjacent to the travelled portions of streets and highways. Non-traffic accidents are those occurring on private property or elsewhere not on a public way and are excluded from this report. The information contained in this series is based on police records. When only property damage is sustained in a traffic accident, any accident with a minimum of \$100 damage is reported by every province and territory.

For comparing yearly totals with traffic deaths reported in DBS "Vital Statistics", please see the explanation in the January-March 1968 Motor Vehicle Traffic Accidents report.

During the third quarter of 1968, motor vehicle traffic accidents in Canada numbered 118,202 of which 1,440 were fatal accidents, 32,997 were non-fatal injury accidents and 83,765 resulted in property damage only. The number of accidents reported for the third quarter of 1968 was less in Nova Scotia, New Brunswick and Saskatchewan and greater in the remaining provinces than the number reported for the same period in 1967. The value of property damage from all accidents (Quebec estimated), amounted to \$71.9 million.

The number of persons killed during the period totalled 1,743. Prince Edward Island, Nova Scotia, Quebec and Manitoba reported increases in fatalities compared with the third quarter of 1967. Persons injured in all provinces numbered 51,502, with all reporting authorities showing increases from the previous year, except Nova Scotia, New Brunswick, Quebec and Saskatchewan which reported decreases in the number of persons injured over the July-September 1967 period.
