MOTOR VEHICLE TRAFFIC ACCIDENTS

OCTOBER - DECEMBER 1968

The motor vehicle traffic accidents in this report are those occurring on public roads and streets, including boulevards and paths adjacent to the travelled portions of streets and highways. Non-traffic accidents are those occurring on private property or elsewhere not on a public way and are excluded from this report. The information contained in this series is based on police records. When only property damage is sustained in a traffic accident, any accident with a minimum of \$100 damage is reported by every province and territory.

For comparing yearly totals with traffic deaths reported in DBS "Vital Statistics", please see the explanation in the January-March 1968 Motor Vehicle Traffic Accidents report.

During the fourth quarter of 1968, motor vehicle traffic accidents in Canada numbered 146,731 of which 1,172 were fatal accidents, 30,790 were non-fatal injury accidents and 114,769 resulted in property damage only. The number of accidents reported for the fourth quarter of 1968 was less in Newfoundland and Saskatchewan and greater in the remaining provinces than the number reported for the same period in 1967. The value of property damage from all accidents (Quebec estimated), amounted to \$81.9 million.

Persons killed during the period totalled 1,378. New Brunswick and the Yukon and Northwest Territories reported an increase in fatalities compared to the fourth quarter of 1967.

Persons injured in all provinces totalled 45,974 with all provinces reporting decreases over the October-December 1967 period except Prince Edward Island, Ontario, Alberta, British Columbia and the Yukon and Northwest Territories.
