WATER TRANSPORT

Catalogue number	Title	Price
Periodical		
54-001	Summary of Canal Statistics. Monthly — April to December. (6 pp.) Vessel passages, registered net tonnage, and tonnage of freight for all canals; tonnages of freight transported through the St. Lawrence Canals and Welland Canal, by commodity, by direction, and by type of cargo; tonnages of freight transported through the Sault Ste. Marie Canals by commodity and by direction. December monthly includes a brief summary for the season of navigation.....	10¢, \$1.00 a year
54-002	Shipping Statistics. Monthly. (9 pp.) Cargoes loaded and unloaded, by selected commodities and geographic area; number and registered net tonnage of vessels arrived and departed; cargoes loaded and unloaded at selected ports, by selected commodities	20¢, \$2.00 a year
Annual		
54-201	Canal Statistics. (approx. 80 pp.) Location and description of all canals; historical summary; traffic, by kind of vessel, by registry of vessel, by length of vessel; number and tonnage of vessels, by direction, by origin and destination; number and tonnage of vessels, by registry and rig, by kind and length, by kind and draft; cargo tons, by direction, by country of origin and destination; cargo tons, by direction, by registry of vessel; cargo tons, by kind, by gross tonnage, and by number of vessels: commodities, by direction, by country of origin and destination; freight charges for wheat, barley, oats, flax, and rye	\$1.00
54-202	Shipping Report: Part I, International Seaborne Shipping (by Country). (approx. 200 pp.) Cargoes loaded and unloaded, by country of origin or destination, by commodity, by registry of vessel, and by geographic area; cargoes loaded and unloaded, by commodity and geographic area; number and registered net tonnage of, and tons of cargo carried by, vessels arrived and departed, by registry of vessel and geographic area.....	2.00
54-203	Shipping Report: Part II, International Seaborne Shipping (by Port). (approx. 75 pp.) Cargoes loaded and unloaded, by port and commodity; number and registered net tonnage of vessels departed, by province and size of vessel, and by rig; number and registered net tonnage of vessels arrived and departed with cargo or in ballast, by port; shipping between Great Lakes ports and foreign countries via the St. Lawrence River; number and gross tonnage of tugs departed, by port	1.00
54-204	Shipping Report: Part III, Coastwise Shipping. (approx. 150 pp.) Cargoes loaded and unloaded, by port and commodity; cargoes loaded and unloaded, by commodity and geographic area; number and registered net tonnage of vessels arrived and departed with cargo or in ballast, by port; number and registered net tonnage of vessels departed, by province and size of vessel, and by rig; number and gross tonnage of tugs departed, by port; tonnage of cargo unloaded in inter- and intra-provincial trade, by province; cargo loaded and unloaded by vessels of foreign registry, with number of vessels and registered net tonnage	1.50
54-206	Shipping Report: Part IV, Origin and Destination for Selected Ports. (approx. 200 pp.) Cargoes loaded and unloaded at Halifax, Saint John, Montreal, Quebec, Hamilton, Port Arthur-Fort William, Toronto, and Vancouver, by country or port of origin or destination, and by commodity. <i>Note:</i> Similar data, available on request, have been tabulated for Bell Island, and Corner Brook, Nfld.; Hantsport and Sydney, N.S.; Baie Comeau, Port Cartier, Port Alfred, Sept-Îles, Sorel and Trois Rivières, P.Q.; Port Colborne, Sarnia, Sault Ste. Marie and Windsor, Ont.; New Westminster, Victoria and Powell River, B.C. Corresponding information for all other Canadian ports can be tabulated upon request	2.00
54-207	Shipping Report: Part V, Origin and Destination for Selected Commodities. (approx. 55 pp.) Tonnage of wheat, other grain, pulpwood, iron ore, bituminous coal, gypsum, newsprint, and fuel oil, loaded and unloaded, by country or port of origin or destination75
54-208	Shipping Report: Part VI, Commodity Flow Charts for Selected Commodities. (approx. 25 pp.) Charts illustrating the movements of wheat, other grain, pulpwood, iron ore, bituminous coal, gypsum, newsprint, and fuel oil, loaded and unloaded, in International Seaborne and Coastwise Shipping75
54-205	Water Transportation. (approx. 22 pp.) Statistics on the for-hire water transportation industry — number of vessels, number and salaries and wages of employees, revenue and expense, quantity and cost of fuel and lubricating oils consumed, property, number of deaths or injuries caused by accidents, number and value of ships destroyed or lost at sea, for operators of owned and/or chartered vessels, by revenue class and by division; number of vessels, property, revenue and expense, for owners of vessels chartered bareboat to others50

Remittances should be in the form of cheque or money order, made payable to the Receiver General of Canada and forwarded to the Publications Distribution, Dominion Bureau of Statistics, Ottawa, or to the Queen's Printer, Hull, P.Q.

- nil or zero.
- amount too small to be expressed.
- Ⓟ preliminary figures.
- Ⓡ revised figures.

INTRODUCTION

This publication presents statistics on the origin and destination of eight commodities which are of the greatest significance in tonnage terms of Canada's annual waterborne traffic. Similar information can be tabulated for other commodities upon request to the Chief, Transportation Section, Dominion Bureau of Statistics, Ottawa; when a special tabulation is required, any charges are calculated for labor and machine time at cost.

Source

Shipping statistics are compiled from reports completed by operators or agents of vessels arriving and departing Canadian ports. All vessels are required to submit reports except naval or fishing vessels, and craft of less than fifteen registered net tons. Customs officials act as agents for the Dominion Bureau of Statistics in collecting forms at customs ports; returns for non-customs ports are forwarded through the nearest customs office. Operating data are collected for vessels calling at coastal and Great Lakes ports, but regions such as Lake Winnipeg and the MacKenzie River are not included in the survey.

Treatment of Data

Only data relating to those vessels which are engaged in port-to-port transportation of goods and/or passengers for compensation have been included; all intra-port movements have been excluded.

The term "international seaborne shipping" is used for vessels classed as being in foreign service, that is when (1) the vessel arrives from or departs for a foreign port; (2) cargo is loaded for or unloaded from a foreign port; or (3) the registry of

the vessel is other than Canadian or British Commonwealth (even though the vessel may have sailed between two Canadian ports).

A vessel is classed as being in coasting service if (1) it is of Canadian or British Commonwealth registry, sails between two Canadian ports, and loads or unloads no foreign freight; or if (2) it is of foreign registry, but is granted a waiver to engage in coasting service. On a voyage, a vessel's arrival and departure could easily alternate between foreign or coastwise in view of the variety that is possible in vessel movements.

In this publication, the term "other grain" refers to barley, corn, oats and rye; also, iron ore includes the titanium ore (which has an iron content) mined at Havre St. Pierre.

Because of shrinkage and other reasons, loading and unloading figures for a particular commodity do not always agree; for statistical purposes, however, they are required to be the same.

When using Table 29, the cargo tons loaded refer to the volume shipped from a port in the second column to the destination specified in the third column; an unloading figure reverses these roles to destination and origin respectively.

Appendix A consists of a list of the geographic areas of origin or destination of the commodities which are loaded and unloaded at Canadian ports in international shipping.

It should be noted that due to corrections made throughout the year, statistics contained in this publication may differ from that released as preliminary data in the monthly *Shipping Statistics*.

Analysis of Data

In 1966, the eight selected commodities composed 68.4 per cent of all cargoes handled in international seaborne shipping, and 61.4 per cent of the coastwise unloadings; in the previous year these were 68.0 per cent and 58.2 per cent respectively.

International Shipping

Of the 83,987,072 tons shipped from Canada in 1966, 62,558,454 tons or 74.5 per cent involved the eight selected commodities; unloadings from abroad totalled 53,020,249 tons, of which 31,220,317 tons or 58.9 per cent consisted of these commodities.

Iron ore for other countries from Canadian ports declined to 32,916,948 tons from 33,460,919 tons in 1965; at Bell Island mining operations ceased during 1966, and 564,684 tons were shipped against 1,152,306 tons in the previous year. Sept-Îles and Pointe Noire loaded 16,934,951 tons, mostly for the United States, compared to 16,566,225 tons in 1965, while Port Cartier followed in second place with 9,222,917 tons and 9,093,794 tons in the two years. Ontario ports shipped 4,047,186 tons of ore in 1966, continuing a downward trend from 4,439,447 tons in 1965 and 5,300,875 tons in 1964; the province, especially Hamilton and Sault Ste Marie, has been receiving less American ores during this period. Japan was the destination for 1,889,447 tons of ore from Pacific ports compared to 1,955,955 tons in 1965.

International loadings of wheat rose 17.4 per cent to 15,807,704 tons from 13,457,870 tons in 1965; meanwhile, unloadings increased to 757,391 tons from 652,438 tons. The largest volume moved to the U.S.S.R. (4.2 million tons, up approximately one-third), Communist China (2.8 million tons, up about sixty per cent), and the United Kingdom (1.9 million tons, down about fifteen per cent). Loadings at the two Maritime ports, Halifax and Saint John were again in excess of a million tons, but had contracted by about three per cent. Montreal loaded almost one million tons more for a total of 3,407,739 tons in 1966, Baie Comeau roughly eleven per cent higher at 2,466,308 tons, and Sorel to 1,362,543 tons from 863,025 tons in 1965; Russian shipments helped considerably in inflating these totals. On the Pacific coast, Vancouver shipped 4,246,672 tons, some 557,850 tons higher than 1965 due to movements to Japan and mainland China, which together received almost three-quarters of this traffic. New Westminster, Prince Rupert and Victoria all reported gains, their exports aggregating over a million tons.

Bituminous coal brought into Canada advanced to 15,654,652 tons from 15,306,625 tons in the previous year. Hamilton and Sault Ste. Marie led in tonnage imported, mainly for heavy industry; at Hamilton 3,157,117 tons were unloaded (3,205,618 tons in 1965) and 2,303,619 tons at the latter port (2,267,964 tons in 1965). The next most important consuming areas were Port Credit at 2,265,516 tons

and Toronto at 1,770,145 tons. Exports from Port Moody and Vancouver to Japan rose to 1,011,282 tons from 924,777 tons in the previous year.

In 1966, fuel oil shipments to Canada rose to 7,850,162 tons from 7,458,567 tons during the previous year. Of this volume, Venezuela supplied 3,248,238 tons or 41.4 per cent of the total, while the Netherlands Antilles was the origin for a further 2,938,028 tons or 37.4 per cent. The largest unloading centre was Montreal, where 2,198,631 tons were discharged in 1966, against 2,144,661 tons in the preceding year; following are Quebec with 913,236 tons and Halifax with 758,454 tons.

Loadings of gypsum dropped by three per cent to 4,709,891 tons during 1966; all of this tonnage was destined for the United States, and over three-quarters was shipped from Halifax and Hantsport. Mexican gypsum into New Westminster totalled 77,000 tons out of all imports of 79,048 tons. Waterborne newsprint exports rose to 3,862,629 tons from 3,393,739 in the previous year, with generally higher movements from the more important shipping centers. The United States received 2,740,592 tons during 1966 and 2,370,306 tons in 1965, continuing to be the largest market for this product.

Other grain loadings dropped to 2,231,430 tons from 3,030,068 tons in 1965 with reduced shipments, notably of corn, to Europe; unloadings of these grains contracted to 1,831,530 tons from 2,271,539 tons in the preceding year due to a decline in American grains imported, of which a substantial portion is later shipped abroad. Pulpwood loaded in international shipping dipped by under three per cent from 1965 to 1,782,764 tons during the year. Increased were Ontario exports to the United States, aggregating somewhat over one hundred thousand tons, and British Columbia traffic at about three quarters of a million tons; loadings at Quebec and Maritime ports, mostly for Europe, had however declined during 1966.

Coastwise Shipping

During the year, the eight commodities published in this report totalled 37,275,696 tons, or 61.4 per cent of the 60,685,949 tons of freight unloaded at Canadian ports in domestic shipping; the corresponding proportion of 1965 traffic was 58.2 per cent.

Movements of wheat in 1966 coastwise shipping rose in volume to 12,730,806 tons from 10,283,290 tons in the previous year. Domestic shipments expanded in line with increased exports from ports along the St. Lawrence River, and the major originating center, Port Arthur-Fort William, reported 11,679,185 tons in 1966 against 10,351,364 tons in 1965. Receiving ports, in order of tonnage discharged, commence with Montreal with over four million tons, followed by Baie Comeau with

1,958,221 tons, Sorel with 1,462,870 tons, Quebec with 813,710 tons, and Trois-Rivières with 812,212 tons.

Reported unloadings of pulpwood in 1966 moved upwards by 16.1 per cent to 8,307,940 tons due to traffic at Pacific ports, which accounted for 70.0 per cent of these movements. Pulpwood originating at Vancouver totalled 2,383,750 tons in 1966 and 1,879,067 tons in the previous year, while 1,095,733 tons left New Westminster in 1966 and 929,442 tons in 1965. Of Eastern ports, only Forestville can approach these volumes; 823,321 tons were loaded during the year compared to 852,188 tons in 1965, mainly for Quebec City.

Fuel oil unloadings rose in 1966 to 7,985,520 tons from 7,483,639 tons in the preceding year. From the facilities at Montreal, 2,442,728 tons were transported, mainly through Quebec and Ontario; the next largest disributing ports were Sarnia with 1,449,268 tons, Halifax with 1,278,325 tons, and Vancouver with 1,004,101 tons.

In coastwise traffic, iron ore (including titanium ore which has an iron content) advanced to 4,468,157 tons from 3,824,269 tons in 1965. Hamilton received 2,012,221 tons of this commodity mainly from Sept-Îles and Pointe Noire compared to a total of 1,029,079 tons in 1965 and an almost insignificant 55,334 tons of domestic ore in 1964.

During the year Sault Ste. Marie received 524,838 tons, of which 501,334 tons was ore through Port Arthur-Fort William. Titanium ore into Sorel declined to 999,579 tons from 1,425,015 tons in 1965 due in part to a strike in the mining area at Havre St. Pierre.

Coastal movements of other grains increased to 1,646,341 tons from 1,581,969 tons in 1965; of these unloadings, 1,470,626 tons originated at Port Arthur-Fort William. Bituminous coal in domestic shipping jumped to 1,351,089 tons from 983,888 tons in 1965; Sydney's contribution as an originating port was 1,309,317 tons, of which 833,583 tons went into the Great Lakes.

Gypsum traffic dropped to 394,001 tons from 537,767 tons in 1965 with reduced shipments into Montreal from Halifax being an important factor. Domestic newsprint amounted to 391,842 tons compared to 477,755 tons in 1965; almost all of this activity is on the Pacific coast, where, of the major shippers, Powell River and Ocean Falls reported declines, and Duncan Bay more than doubled its volume.

Statistical Highlights

The items in the following table provide a statistical picture of the highlights of origin and destination data for the eight selected commodities.

Total loadings for foreign countries	62,558,454
Total unloadings from foreign countries	31,220,317
Total unloadings in coastwise shipping	37,275,696
Loadings of selected commodities as a percentage of total loadings at all Canadian ports for foreign countries	74.5
Unloadings of selected commodities as a percentage of total unloadings at all Canadian ports from foreign countries	58.9
Unloadings of selected commodities as a percentage of total unloadings in coastwise shipping %	61.4
Total loadings for U.S. Atlantic and Gulf ports	13,898,227
Total loadings for U.S. Great Lakes ports	18,705,282
Total loadings for Other European ports	11,608,006
Total unloadings from U.S. Great Lakes ports	22,141,676
Total unloadings from Central America and Antilles ports	3,252,119
Total loadings for Quebec ports	7,837,687
Total loadings for Ontario ports	17,080,255
Total loadings for British Columbia ports	7,577,276
Total unloadings from Ontario ports	10,580,426
Total unloadings from Quebec ports	16,198,076
Total unloadings from British Columbia ports	7,577,276
