

## DOMINION BUREAU OF STATISTICS

OTTAWA - CANADA

Memorandum

Published by Authority of the Rt. Hon. C. D. Howe, Minister of Trade and Commerce

Price: \$1.00 per year

INDEX NUMBERS OF FARM PRICES OF AGRICULTURAL PRODUCTS, NOVEMBER 1955 1/-  
(1935-39 = 100)

The index of farm prices of agricultural products is estimated at 220.8 for the month of November, fractionally above the revised estimate of 220.7 for October. Lower prices for live stock were slightly more than offset by higher prices for dairy products, potatoes, and poultry and eggs.

INDEX NUMBERS OF FARM PRICES OF AGRICULTURAL PRODUCTS  
(1935-39 = 100)

	Monthly Index			Annual Index		
	Nov. <u>2</u> / 1955	Oct. <u>2</u> / 1955	Nov. <u>3</u> / 1954	<u>4</u> / 1954	1953	1952
Prince Edward Island	157.0	151.8	223.4	196.8	191.5	351.6
Nova Scotia	201.6	202.5	229.8	230.2	234.8	275.1
New Brunswick	186.6	176.6	229.0	211.8	213.2	344.5
Quebec	252.2	251.3	257.8	264.0	272.1	290.2
Ontario	245.3	245.2	245.8	252.8	263.8	286.2
Manitoba	209.4	211.2	204.7	222.7	245.3	266.8
Saskatchewan	190.9	189.9	176.3	201.2	228.7	245.9
Alberta	202.0	205.1	201.9	226.0	247.8	265.3
British Columbia	257.5	253.2	247.3	251.1	265.7	291.4
CANADA <u>1</u> /	220.8	220.7	219.8	233.6	250.4	274.4

1/ Excludes Newfoundland.

2/ Based on initial prices only for wheat, oats and barley in Manitoba, Saskatchewan and Alberta.

3/ Based on initial price only for wheat in Manitoba, Saskatchewan and Alberta.

4/ For Manitoba, Saskatchewan and Alberta, the index is based on initial price only for wheat for the period August to December inclusive.

5504-502-115

Prepared in Research Section, AGRICULTURE DIVISION.

In comparing current index numbers with those prior to August 1954 the following points should be considered. Prices for western grains used in the construction of the index prior to August 1, 1954 were final prices. On the other hand, only initial prices have been available for wheat for the period August 1, 1954 to date and for oats and barley for the period August 1, 1955 to date. Any subsequent participation payments made on the 1954 crop of wheat and the 1955 crops of wheat, oats and barley will be added to the prices currently used and the index revised upward accordingly. An increase of 10 cents per bushel in the prices of western wheat, oats or barley would result in upward revisions in the indices for each of the Prairie Provinces and Canada approximately as follows, in points:

	<u>Manitoba</u>	<u>Saskatchewan</u>	<u>Alberta</u>	<u>Canada</u>
Wheat .....	6.2	9.3	8.1	4.0
Oats .....	1.0	1.1	1.2	0.5
Barley .....	2.3	0.5	0.4	0.4

During the period August 1954 to date the initial prices to western producers for wheat have amounted to \$1.40 per bushel for No. 1 Northern, basis Fort William - Port Arthur. Since the first of August 1955, initial producer prices at the Lakehead for oats have been 65 cents per bushel for No. 2 C.W. and for barley 96 cents per bushel for No. 3 C.W. six-row. In addition to the payments made at the time of delivery producer certificates are issued to the grower covering quantities and grades delivered. These certificates entitle producers to share in any surpluses accumulated by the Board through the sale of these grains delivered to the Board. Any participation payments made on these grains at a later date will be added to the prices currently used in the price index and the index revised upward accordingly.

Most of the information used in compiling the index is obtained from reports furnished monthly by volunteer farm correspondents throughout Canada. The prices used in computing the index are, as closely as can be determined, the prices which are actually received by farmers. Thus the storage, transportation, processing and handling charges which are not actually received by farmers are not included. On the other hand, subsidies, bonuses and premiums which can be attributed to specific products are all included to date.

The prices of wheat, oats, barley and flaxseed contain all Canadian Wheat Board payments including the final payment of 6.4 cents per bushel for the 1953 wheat crop and the recently announced final payments of 5.4 and 5.8 cents per bushel made on the 1954 crops of oats and barley respectively. All payments of this kind are included in the year in which earned not in the year in which paid.

In compiling the index the fixed base weighted aggregative method has been used. Each commodity has been weighted by the annual average amounts sold in the five-year base period 1935-39. No adjustments for seasonal variation of the prices have been made. The index is based upon prices for about 50 farm products which contributed approximately 90 per cent to the total cash income received by farmers from the sale of farm products, during the base period. The series is subject to revisions as more complete data become available.
