## DOMINION BUREAU OF STATISTICS

OTTAWA - CANADA

MONTHLY

Published by Authority of the Hon. Gordon Churchill, Minister of Trade and Commerce

1959 No. 3

MARCH 1959

Price: \$1.00 per year.

## INDEX NUMBERS OF FARM PRICES OF AGRICULTURAL PRODUCTS

(1935-39=100)

A preliminary estimate places the index of farm prices for Canada 1/ at 237.4 for March, 2.3 points below the revised estimate of 239.7 for February. This decline, the second in succession since the first of year, is largely attributable to lower prices for cattle, calves and potatoes which more than offset some increase in prices for poultry and eggs.

## INDEX NUMBERS OF FARM PRICES OF AGRICULTURAL PRODUCTS

(1935-39=100)

	Mo	Annual Index				
	Mar. 2/ 1959	Feb. <u>2/</u> 1959	Mar. 3/ 1958	1958 4/	1957 5/	1956
Prince Edward Island	178.9	179.4	276.2	203.8	196.4	240.1
Nova Scotia	216.8	220.2	221.6	216.3	212.6	208.7
New Brunswick	211.5	210.4	261.6	226.8	219.4	235.1
Quebec	275.9	274.9	274.3	274.9	264.5	258.8
Ontario	262.6	268.1	266.9	266.8	255.4	250.5
Manitoba	227.7	229.2	227.2	227.8	220.1	227.0
Saskatchewan	199.6	200.7	202.9	201.8	198.0	208.5
Alberta	222.9	223.3	225.0	225.1	220.6	224.0
British Columbia	262.8	268.1	253.3	257.4	257.2	256.9
CANADA 1/	237.4	239.7	241.3	239.8	232.5	234.6

1/ Excludes Newfoundland.

2/ Based on initial prices only for wheat, oats and barley in Manitoba, Saskatchewan and Alberta.

3/ Based on initial price plus interim payment for wheat in Manitoba, Saskatchewan and Alberta.

4/ For Manitoba, Saskatchewan and Alberta the index is based on initial price plus interim payment for wheat for the period January to July inclusive, and on initial prices only for wheat, oats and barley for the period August to December inclusive.

5/ For Manitoba, Saskatchewan and Alberta the index is based on initial price plus interim payment for wheat, for the period August to December inclusive.

Prepared in Farm Finance Section, AGRICULTURE DIVISION.

In comparing current index numbers with those prior to August 1957, the following points should be considered. Western grain prices used in the construction of the index prior to August 1, 1957 are final prices. From August 1957 to July 1958 western wheat prices were initial plus interim payments. Since August 1, 1958, only initial prices are available for wheat, oats and barley. Any subsequent participation payments will be added to the prices currently used and the index revised upward accordingly. An increase of 10 cents per bushel in the prices of western wheat, oats or barley would result in upward revisions in the indices for each of the Prairie Provinces and Canada approximately as follows, in points:

	Manitoba	Saskatchewan	Alberta	Canada	
Wheat	6.2	9.3	8.1	4.0	
Oats	1.0	1.1	1.2	0.5	
Barley	2.3	0.5	0.4	0.4	

For the period August 1958 to date the initial prices to western producers at Fort William - Port Arthur have been on the basis of \$1.40 per bushel for No. 1 Northern wheat, 60 cents per bushel for No. 2 C.W. oats, and 96 cents per bushel for No. 3 C.W. six-row barley. In addition to the payments made at the time of delivery, producer certificates are issued to the grower covering quantities and grades delivered. These certificates entitle producers to share in any surpluses accumulated by the Board through the sale of these grains delivered to the Board. Any participation payments made on these grains at a later date will be added to the prices currently used in the price index and the index revised upward accordingly.

Most of the price information used in compiling the index is obtained from reports furnished monthly by volunteer farm correspondents throughout Canada. The prices used in computing the index are, as closely as can be determined, the prices which are actually received by the farmers. Thus the storage, transportation, processing and handling charges which are not actually received by farmers are not included. On the other hand, subsidies, bonuses and premiums which can be attributed to specific products are all included to date.

The prices of wheat, oats, barley and flaxseed contain all Canadian Wheat Board payments announced to date including the recently announced final payment to be made on the 1957 crops of oats and barley. All payments of this kind are included in the year in which earned not in the year in which paid.

In compiling the index, the fixed base weighted aggregative method has been used. Each commodity has been weighted by the annual average amounts sold in the five-year base period 1935-39. No adjustments for seasonal variation of the prices have been made. The index is based upon prices for about 50 farm products which contributed approximately 90 per cent of the total cash income received by farmers from the sale of farm products, during the base period. The series is subject to revisions as more complete data become available.
