1960 No. 6

JUNE, 1960

Price: \$1.00 per year.

INDEX NUMBERS OF FARM PRICES OF AGRICULTURAL PRODUCTS

(1935-39=100)

The index of farm prices of agricultural products increased for the third consecutive month to 239.7 points in June, 1.8 per cent higher than the revised May estimate of 235.4 points. This increase can be attributed in the main, to higher livestock prices, particularly prices for hogs, and to higher potatoe prices.

For the period August 1958 to July 1959 the index has been revised to include the recently announced final payment of 9.2 cents made on the 1958 western wheat crop.

INDEX NUMBERS OF FARM PRICES OF AGRICULTURAL PRODUCTS

(1935-39=100)

	Monthly Index			Annual Index		
	June <u>2</u> / 1960	May <u>2</u> / 1960	June 1959	1959 <u>3</u> / 1959	1958	1957
Prince Edward Island	341.1	337.6	282.3	232.7	203.4	197.0
Nova Scotia	259.1	252.8	234.1	226.8	216.8	212.6
New Brunswick	318.2	317.7	259.8	239.5	227.0	219.4
Quebec	279.6	276.0	274.2	273.1	274.9	264.8
Ontario	266.4	259.8	261.5	263.7	266.5	255.4
Manitoba	220.9	217.7	240.4	234.2	236.6	222.4
Saskatchewan	193.1	190.8	217.1	209.2	214.5	201.6
Alberta	211.2	206.6	242.3	231.2	236.4	223.6
British Columbia	265.3	261.3	263.9	262.7	263.2	260.2
CANADA <u>1</u> / 	239.7	235.4	247.9	243.0	245.5	234.2

1/ Excludes Newfoundland.

2/ Based on initial prices only for wheat, oats and barley in Manitoba, Saskatchewan and Alberta.

3/ For Manitoba, Saskatchewan and Alberta the index is based on initial prices only for wheat, oats and barley for the period August to December inclusive.

Prepared in Farm Finance Section, AGRICULTURE DIVISION.

5504-502-60

In comparing current index numbers with those prior to August 1959, the following points should be considered. Western grain prices used in the construction of the index prior to August 1, 1959 are final prices. Since August 1, 1959, only initial prices are available for wheat, oats and barley. Any subsequent participation payments will be added to the prices currently used and the index revised upward accordingly. An increase of 10 cents per bushel in the prices of western wheat, oats or barley would result in upward revisions in the indices for each of the Prairie Provinces and Canada approximately as follows, in points.

	<u>Manitoba</u>	<u>Saskatchewan</u>	<u>Alberta</u>	<u>Canada</u>
Wheat	6.2	9.3	8.1	4.0
Oats	1.0	1.1	1.2	0.5
Barley	2.3	0.5	0.4	0.4

For the period August 1959 to date the initial prices to western producers at Fort William - Port Arthur have been on the basis of \$1.40 per bushel for No. 1 Northern wheat, 60 cents per bushel for No. 2 C.W. oats, and 96 cents per bushel for No. 3 C.W. six-row barley. In addition to the payments made at the time of delivery, producer certificates are issued to the grower covering quantities and grades delivered. These certificates entitle producers to share in any surpluses accumulated by the Board through the sale of these grains delivered to the Board. Any participation payments made on these grains at a later date will be added to the prices currently used in the price index and the index revised upward accordingly.

Most of the price information used in compiling the index is obtained from reports furnished monthly by volunteer farm correspondents throughout Canada. The prices used in computing the index are, as closely as can be determined, the prices which are actually received by the farmers. Thus the storage, transportation, processing and handling charges which are not actually received by farmers are not included. On the other hand, subsidies, bonuses and premiums which can be attributed to specific products are all included to date.

The prices of wheat, oats, barley and flaxseed contain all Canadian Wheat Board payments announced to date including the recently announced final payment of 9.2 cents to be made on the 1958 wheat crop. All payments of this kind are included in the year in which earned not in the year in which paid.

In compiling the index, the fixed base weighted aggregative method has been used. Each commodity has been weighted by the annual average amounts sold in the five-year base period 1935-39. No adjustments for seasonal variation of the prices have been made. The index is based upon prices for about 50 farm products which contributed approximately 90 per cent of the total cash income received by farmers from the sale of farm products, during the base period. The series is subject to revisions as more complete data become available.
