Data in many forms

Statistics Canada disseminates data in a variety of forms. In addition to publications, both standard and special tabulations are offered. Data are available on the Internet, compact disc, diskette, computer printouts, microfiche and microfilm, and magnetic tape. Maps and other geographic reference materials are available for some types of data. Direct online access to aggregated information is possible through CANSIM, Statistics Canada's machine-readable database and retrieval system.

How to obtain more information

Inquiries about this publication and related statistics or services should be directed to: Client Services Unit, Prices Division, Statistics Canada, Ottawa, Ontario, K1A 0T6 (telephone: (613) 951-9606), (fax (613) 951-2848), Internet: shadsan@stacan.ca or to the Statistics Canada Regional Reference Centre in:

Halifax	(902) 426-5331	Regina	(306) 780-5405
Montréal	(514) 283-5725	Edmonton	(403) 495-3027
Ottawa	(613) 951-8116	Calgary	(403) 292-6717
Toronto	(416) 973-6586	Vancouver	(604) 666-3691
Winnipeg	(204) 983-4020

Ordering/Subscription information

All prices exclude sales tax

Catalogue no. 62-004-XPB, is published quarterly in a paper version for \$25.00 per issue or \$83.00 for four issues in Canada. Outside Canada the cost is US\$25.00 per issue and US\$83.00 for four issues.

Please send orders to Statistics Canada, Operations and Integration Division, Circulation Management, 120 Parkdale Avenue, Ottawa, Ontario, K1A 0T6 or by dialling (613) 951-7277 or 1 800 700-1033, by fax (613) 951-1584 or 1 800 889-9734 or by Internet: order@statcan.ca. For change of address, please provide both old and new addresses. Statistics Canada publications may also be purchased from authorized agents, bookstores and local Statistics Canada offices.

Standards of service to the public

Statistics Canada is committed to serving its clients in a prompt, reliable and courteous manner and in the official language of their choice. To this end, the agency has developed standards of service which its employees observe in serving its clients. To obtain a copy of these service standards, please contact your nearest Statistics Canada Regional Reference Centre.

Des données sous plusieurs formes

Statistique Canada diffuse les données sous formes diverses. Outre les publications, des totalisations habituelles et spéciales sont offertes. Les données sont disponibles sur Internet, disque compact, disquette, imprimé d'ordinateur, microfiche et microfilm, et bande magnétique. Des cartes et d'autres documents de référence géographiques sont disponibles pour certaines sortes de données. L'accès direct à des données agrégées est possible par le truchement de CANSIM, la base de données ordinolinguistique et le système d'extraction de Statistique Canada.

Comment obtenir d'autres renseignements

Toute demande de renseignements au sujet de la présente publication ou au sujet de statistiques ou de services connexes doit être adressée à : Sous-section du service à la clientèle, Division des prix, Statistique Canada, Ottawa, Ontario, K1A 0T6 (téléphone : (613) 951-9606), (télécopieur : (613) 951-2848), Internet : shadsan@stacan.ca ou à l'un des centres de consultation régionaux de Statistique Canada :

Note of appreciation

Canada owes the success of its statistical system to a long-standing co-operation involving Statistics Canada, the citizens of Canada, its businesses, governments and other institutions. Accurate and timely statistical information could not be produced without their continued co-operation and goodwill.

Note de reconnaissance

Le succès du système statistique du Canada repose sur un partenariat bien établi entre Statistique Canada et la population, les entreprises, les administrations canadiennes et les autres organismes. Sans cette collaboration et cette bonne volonté, il serait impossible de produire des statistiques précises et actuelles.

Symbols

The following standard symbols are used in Statistics Canada publications:

- .. figures not available.
- ... figures not appropriate or not applicable.
- nil or zero.
- amount too small to be expressed.
- ^P preliminary figures.
- ^R revised figures.
- ~~X~~ confidential to meet secrecy requirements of the Statistics Act.

Note on Cansim

CANSIM® (Canadian Socio-Economic Information Management System) is Statistics Canada's computerized data bank and its supporting software. Most of the data appearing in this publication, as well as many other data series are available from CANSIM via terminal, on computer printouts, or in machine readable form. Historical and more timely data, not included in this publication, are available from CANSIM.

For further information write to Marketing Division, Statistics Canada, Ottawa, K1A 0T6 or call (613) 951-8200.

® Registered Trade Mark of Statistics Canada.

Revisions

The indexes are subject of a two-stage revision. Quarterly, the indexes are revised for the preceding quarter. Annual revision takes place in the first quarter and is applicable to the indexes for the past two years.

This publication was prepared under the direction of:

- **Louis Marc Ducharme**, Director, Prices Division
- **François Bordé**, Chief, Goods & Services Producing Industries Section

The paper used in this publication meets the minimum requirements of American National Standard for Information Sciences – Permanence of Paper for Printed Library Materials, ANSI Z39.48 – 1984.

Signes conventionnels

Les signes conventionnels suivants sont employés uniformément dans les publications de Statistique Canada:

- .. nombres indisponibles.
- ... n'ayant pas lieu de figurer.
- néant ou zéro.
- nombres infimes.
- ^P nombres provisoires.
- ^R nombres rectifiés.
- ~~X~~ confidentiel en vertu des dispositions de la Loi sur la statistique relatives au secret.

Note concernant CANSIM

Le CANSIM® (Système canadien d'information socio-économique) est le système de Statistique Canada qui se compose d'une banque de données informatisées et de son logiciel de soutien. La plupart des données présentées dans cette publication et beaucoup d'autres données contenues dans le CANSIM peuvent être extraites par l'intermédiaire d'un terminal, sous forme d'imprimés d'ordinateur ou sous forme lisible par machine. Des données historiques et des données plus actuelles qui n'apparaissent pas dans cette publication sont disponibles de CANSIM.

Pour plus de renseignements, écrivez à la Division du marketing, Statistique Canada, Ottawa, K1A 0T6 ou téléphonez à (613) 951-8200.

Révisions

Les indices font l'objet d'une révision en deux temps. D'abord, l'indice d'un trimestre donné est révisé le trimestre suivant. Ensuite, une révision annuelle portant sur les deux années précédentes a lieu au premier trimestre.

Cette publication a été rédigée sous la direction de:

- **Louis Marc Ducharme**, Directeur, Division des prix
- **François Bordé**, Chef, Section des Industries de biens et de services

Le papier utilisé dans la présente publication répond aux exigences minimales de l'"American National Standard for Information Sciences" – "Permanence of Paper for Printed Library Materials", ANSI Z39.48 1984.

Highlights

Farm Input Price Index

Third Quarter 1997

Eastern Canadian farmers, particularly those who raise animals, got a break on farm input prices over the past 12 months. In the third quarter of 1997, farm input prices in the East dropped 1.5% compared with the same period a year earlier. By comparison, prices in the West rose 1.5% since the third quarter of 1996, the result of higher prices for feeder cattle (+36.4%). Thus, there was virtually no annual change in the all-Canada total index (+0.1%). This was the first time since the third quarter of 1992 that the index recorded such a small year-over-year change.

The annual decline in the cost of interest (-15.7%) helped offset increases in hired farm labour, machinery and motor vehicles, and building and fencing.

Higher prices for machinery and motor vehicles contributed most to annual increase

On a national basis, farmers paid more in five of the seven input categories. (Property taxes and farm rents are priced only during the first quarter of each year, and are therefore not included in this quarter's input categories.) Higher prices for new machinery (+3.5%) contributed most to the year-over-year increase.

Farmers also faced higher prices for building and fencing due in large part to price increases for building materials. Farmers also paid more for farm labour. Producers paid more for feeder cattle (+34.3%) and artificial insemination (+12.9%). However, this was offset by lower prices for both prepared feed and grain feed compared with the same period a year earlier.

Higher prices for heating fuel helped push the annual index for supplies and services up 1.2%. Conversely, lower prices for fertilizers, particularly phosphoric fertilizers (-7.6%), contributed most to the decrease in crop production. Also, farmers continued to pay less for interest as a result of lower costs for non-mortgage loans.

Prices drop in the East, rise in the West

For the first time since the fourth quarter of 1991, Eastern farmers benefited from a drop in input prices. Farmers in the East paid substantially more for feeder cattle (+31.7%) on a year-over-year basis; however, that was offset by price decreases in broiler chicks, weanling pigs, and egg-producing chicks. Lower prices for prepared feed (-10.8%)

Faits saillants

Indice des prix des entrées dans l'agriculture

Troisième trimestre de 1997

Les agriculteurs de l'Est (en particulier ceux élevant des animaux) ont bénéficié de la baisse des prix des entrées dans l'agriculture au cours des 12 derniers mois. Au troisième trimestre de 1997, les prix des entrées dans l'agriculture de la région de l'Est ont diminué de 1,5% par rapport à la même période de 1996. Les agriculteurs de l'Ouest ont eux vu les prix augmenter de 1,5% depuis le troisième trimestre de 1996, à la suite d'une hausse des prix des bovins d'engraissement (+36,4%). Dans l'ensemble, il y a eu peu de changement annuel dans l'indice total (+0,1%). D'une année à l'autre, il s'agit de la première fois qu'un changement aussi minime est enregistré par l'indice depuis le troisième trimestre de 1992.

La baisse annuelle des coûts d'intérêts (-15,7%) a quant à elle contribué à neutraliser les augmentations des prix de la main-d'œuvre agricole salariée, des machines agricoles et véhicules automobiles et des bâtiments et clôtures.

Les prix élevés des machines agricoles et des véhicules automobiles contribuent à l'augmentation annuelle

À l'échelle nationale, les agriculteurs ont payé plus cher dans cinq des sept catégories d'entrées observées. (L'impôt foncier et le loyer agricole sont seulement évalués au cours du premier trimestre de chaque année.) Les prix plus élevés des nouvelles machines agricoles (+3,5%) ont le plus contribué à l'augmentation d'une année à l'autre.

Les agriculteurs ont également payé davantage pour la main-d'œuvre agricole et les bâtiments et clôtures, dans une large mesure à cause des prix plus élevés des matériaux de construction. Les producteurs ont payé plus cher les bovins d'engraissement (+34,3%) et l'insémination artificielle (+12,9%). Cette hausse a toutefois été compensée par une diminution des prix des aliments préparés ainsi que des céréales fourragères par rapport à la même période de 1996.

Les prix plus élevés du combustible de chauffage ont contribué à l'augmentation de 1,2% de l'indice annuel des fournitures et services. La baisse des prix des engrains, particulièrement des engrains phosphoriques (-7,6%), a le plus contribué à la régression de l'indice des cultures agricoles. En outre, les agriculteurs ont continué à payer moins d'intérêts en raison de la baisse des coûts des prêts non hypothécaires.

Baisse des prix dans l'Est et hausse dans l'Ouest

Pour la première fois depuis le quatrième trimestre de 1991, les agriculteurs de l'Est ont profité d'une diminution des prix des entrées. Les agriculteurs de l'Est ont payé sensiblement plus cher pour les bovins d'engraissement (+31,7%) par rapport à la même période de l'année dernière; cette augmentation a cependant été compensée par les baisses des prix des poussins

and grain feed (-36.1%) pushed the annual feed index down 14.6%. Once again, lower costs for non-mortgage loans also helped push down the annual cost of interest.

Compared with the third quarter of 1996, farmers in the East faced price increases for machinery and motor vehicles. Prices were up for supplies and services, due to higher prices for heating fuel, and farmers saw marginal increases in the prices of building materials and farm wages.

In the West, farmers faced price increases in 6 of the 7 input categories surveyed. For the third consecutive quarter, feeder cattle prices were the biggest contributors to the annual increase. Prices for artificial insemination rose 19.3% over the third quarter of 1996. These increases were offset by lower prices for prepared feed (-7.1%) and grain feed (-29.3%).

Western farmers paid more for hired farm labour and for new machinery. Higher prices for building materials (+37.5%) contributed most to the annual index for building and fencing. Western farmers also paid more for supplies and services, including heating fuel and custom work. On the other hand, farmers in the West benefited from lower prices for phosphoric fertilizers (-10.7%) and nitrogen fertilizers (-8.4%) on a year-over-year basis. Lower costs for non-mortgage loans helped push the annual cost of interest down 15.4%.

Marginal price increase on a quarterly basis

Nationally, farmers faced virtually no price changes in order to do business in the third quarter of 1997 compared with the second quarter. Input prices were unchanged in the East compared with a marginal 0.2% increase in the West.

With the exception of hired farm labour, farmers in the East experienced only slight increases in 3 of the 7 input categories.

Western farmers, however, benefited from price drops in 4 of the 7 input categories, but this was offset by quarterly price increases for feeder cattle (+9.1%), which carries more weight in the index in the West than in the East.

à griller, des porcelets sevrés et des poussins à oeufs. La chute des prix des aliments préparés (-10,8%) et des céréales fourragères (-36,1%) ont contribué à la baisse de l'indice annuel des aliments du bétail (-14,6%). La baisse des coûts des prêts non hypothécaires a contribué au repli des coûts d'intérêts pour l'année.

Dans l'Est, les agriculteurs ont payé davantage pour les machines agricoles et les véhicules à moteur par rapport au troisième trimestre de 1996. Les prix des fournitures et services ont augmenté en raison de la hausse des prix du combustible de chauffage. Les agriculteurs ont également subi de légères augmentations de prix en ce qui concerne les matériaux de construction et les salaires agricoles.

Dans l'Ouest, les agriculteurs ont vu les prix augmenter dans six des sept catégories d'entrées observées. Pour le troisième trimestre consécutif, le prix des bovins d'engraissement a constitué le principal facteur de l'augmentation annuelle. Les prix de l'insémination artificielle ont augmenté de 19,3% par rapport au troisième trimestre de 1996. Ces augmentations ont été compensées par une diminution des prix des aliments préparés (-7,1%) et des céréales fourragères (-29,3%).

Les agriculteurs de l'Ouest ont dû débourser davantage pour la main-d'œuvre agricole salariée et pour les nouvelles machines agricoles. La hausse des prix des matériaux de construction (+37,5%) a le plus contribué à la hausse de l'indice annuel des bâtiments et clôtures. Les agriculteurs de l'Ouest ont aussi payé davantage pour les fournitures et services, y compris le combustible de chauffage et le travail sur commande. Ceux-ci ont cependant profité d'une diminution des prix des engrains phosphoriques (-10,7%) et des engrains d'azote (-8,4%) par rapport à l'année précédente. Par ailleurs, la baisse des coûts des prêts non hypothécaires a contribué à la diminution de 15,4% des coûts d'intérêts annuels.

Une faible augmentation trimestrielle des prix

Au troisième trimestre de 1997, les dépenses d'exploitation des agriculteurs à l'échelle nationale sont demeurées pratiquement inchangées par rapport au trimestre précédent. Les prix des entrées n'ont pas changé dans l'Est et n'ont augmenté que de 0,2% dans l'Ouest.

Outre la main-d'œuvre agricole salariée, les agriculteurs de l'Est n'ont connu qu'une légère augmentation des prix dans seulement trois des sept catégories d'entrées.

Dans l'Ouest, les agriculteurs ont toutefois profité d'une diminution des prix dans 4 des 7 catégories d'entrées observées. Cette diminution a été contrebalancée par la hausse des prix des bovins d'engraissement comparativement au trimestre précédent (+9,1%); il en est résulté une plus grande incidence sur l'indice dans l'Ouest que dans l'Est du pays.

(1) The indexes are subject to a two-stage revision. Quarterly, the indexes are revised for the preceding quarter. Annual revision takes place in the first quarter and is applicable to the indexes for the past two years.

(1) Les indices font l'objet d'une révision en deux temps. D'abord, l'indice d'un trimestre donné est révisé le trimestre suivant. Ensuite, une révision annuelle portant sur les deux années précédentes a lieu au premier trimestre.

(1) The indexes are subject to two-stage revision. Quarterly, the indexes are revised for the preceding quarter. Annual revision takes place in the first quarter and is applicable to the indexes for the past two years.

(2) Selected items.

(3) Groups and sub-groups of commodities are identified by the type of print and by the spacing. For further detail, see appendix I and II.

- (1) Les indices font l'objet d'une révision en deux temps. D'abord, l'indice d'un trimestre donné est révisé le trimestre suivant. Ensuite, une révision annuelle portant sur les deux années précédentes a lieu au premier trimestre.
- (2) Certains items.
- (3) Les groupes et sous-groupes de produits sont identifiés par le type de caractères d'imprimerie et par l'espacement. Pour plus d'explications, veuillez voir les appendices I ou II.

(1) Annual revision takes place in the first quarter and is applicable to the indexes for the past two years.

(1) Une révision annuelle portant sur les deux années précédentes a lieu au premier trimestre.

(2) The average rate for all outstanding loans of the corresponding type.

(2) Le taux moyen pour tous les prêts non remboursés du type correspondant.

TECHNICAL NOTES

FARM INPUT PRICE INDEX (1986=100)

1. Concepts, Data Description and Methods

The Farm Input Price Index (FIFI), 1986=100, measures the price changes of a basket of goods and services purchased by Canadian farmers for use in agricultural production. The basket is made up of the inputs bought by farmers in 1986. The index is calculated by comparing current prices for those inputs to the average of their prices in 1986.

The Farm Input Price Index is useful in transforming current dollar farm expenditures into constant dollars, which are an important component of analytical studies and econometric modelling. The FIFI and its details are also used to monitor price changes which are considered in the operations of marketing boards and in price stabilisation programmes.

The total FIFI represents the aggregate price change for all inputs into all kinds of farming operations. For a particular application, it may be more appropriate to select specific inputs and calculate a weighted average of them using the particular patterns of cost or expenditure that are more appropriate. Whatever basket is used, one should remember that the basket is fixed over time. For this reason, the index cannot measure changes in production costs due to changes in the mix of inputs used, or changes in productivity. Furthermore, comparisons of indexes between different regions for the same item or group of items only indicate differences in price movements over time, they cannot compare price levels in different parts of the country.

This FIFI series succeeds the previous series, 1981=100, covering the period 1981-1985, also the series 1971=100, covering the period 1971 to 1983, and the series 1961=100, covering the period 1961 to 1977. The earlier FIFI series have been converted to a 1986 time-base so that continuous indexes are available, wherever possible. In many cases this is from 1961. For looking at price movements before 1961, in some cases FIFI indexes follow some of the items found in the Price Index Numbers of Commodities and Services Used by Farmers 1935-1939=100 for the years 1913 to 1971.

Index formula

A general formula for an index made up of several items for the current period ($I_{t/0}$) is:

$$I_{t/0} = \frac{\sum p_t q_o}{\sum p_o q_o} \times 100$$

where p_t is the price of an item in the current period, and p_o , q_o and $p_o q_o$ are the price, quantity and value of expenditure of the item in the base (1986) period. This formula can be transformed to:

NOTES TECHNIQUES

INDICE DES PRIX DES ENTRÉS DANS L'AGRICULTURE (1986=100)

1. Concepts, description des données et méthodes

L'indice des prix des entrées dans l'agriculture (IPEA), établi sur la base de 1986=100, mesure la variation des prix des biens et des services qu'achètent les agriculteurs du Canada pour la production agricole. Le panier se compose des biens et des services achetés par les agriculteurs en 1986. Le calcul de l'indice est fondé sur la comparaison des prix courants de ces biens et services et de leurs prix moyens en 1986.

L'indice des prix des entrées dans l'agriculture permet de transformer les dépenses agricoles exprimées en dollars courants en dollars constants, qui sont un élément important des études analytiques et des modèles économétriques. L'IPEA et les détails qu'il renferme servent en outre à suivre l'évolution de ces prix qui sont utilisés par les offices de commercialisation et dans les programmes de stabilisation des prix.

Globalement, l'IPEA représente la variation d'ensemble des prix pour toutes les entrées dans tous les types de travaux agricoles. Cependant, dans certains cas particuliers, il pourrait être préférable de sélectionner des entrées spécifiques et de calculer une moyenne pondérée en se servant des schémas particuliers des coûts et des dépenses qui sont les plus pertinents. De plus, quel que soit le panier utilisé, il ne faut pas oublier que ce dernier est fixe dans le temps. L'indice ne saurait donc mesurer que les variations des coûts de production, attribuables à des changements de la composition des entrées, et non pas celles de la productivité. En outre, les comparaisons des indices de diverses régions pour un même article ou groupe d'articles ne révèlent que les divergences des mouvements de prix dans le temps et ne peuvent servir à rapprocher les niveaux de prix dans les diverses régions du pays.

Cette série fait suite à l'IPEA précédent établi sur la base de 1981=100 pour la période allant de 1981 à 1985, sur la base 1971=100, pour la période allant de 1971 à 1983, et à l'IPEA établi sur la base de 1961=100 pour la période allant de 1961 à 1977. Les séries antérieures ont été converties sur la base de 1986 afin d'assurer, dans la mesure du possible, l'uniformité des indices. Dans certains cas, la conversion est effectuée à partir de la base de 1961. En ce qui a trait aux mouvements de prix antérieurs à 1961, les indices de l'IPEA suivent quelquefois, certains des articles que l'on trouve dans les nombres-indices des prix des produits et services utilisés par les agriculteurs sur la base de 1935-1939=100, pour les années 1913 à 1971.

Formule de l'indice

La formule générale de l'indice de la période courante, composée de plusieurs articles, ($I_{t/0}$) est la suivante:

où p_t est le prix de l'article au cours de la période courante, p_o , q_o et $p_o q_o$ représentent respectivement le prix, la quantité et la valeur de l'article figurant dans l'indice de la période de base (1986). Cette formule est ensuite convertie comme suit:

$$I_{t/0} = \sum (p_t/p_o)w$$

where

où

$$w = 100 \times \frac{p_o q_o}{\sum p_o q_o}$$

Expressed this way, the "w" is the percentage weight of an item – its percentage share in the total expenditure in the base period for all items in the index of which it is part.

Composition of the basket

The definition of what should be included in the basket was last done in 1981. The main source of information for the weights of major groups and groups of items was Farm Operating Expenses and Depreciation Charges for 1986. More detailed weights, applying to the detailed composition of items in each group were estimated in 1981 from various additional sources, such as production statistics for both agriculture and manufacturing, and subsequently revalued to 1986 prices. With the publication of the expanded list of item indexes in 1992, many detailed weights in the expanded areas were re-estimated from the most recent available data on production and use. Tables of percentage weights are Appendixes 1 and 2 in this book.

Sources of price information

Until 1992 the price information was derived from a variety of sources: direct farm suppliers (e.g. for farm machinery and seed); other price indexes such as the Industry Product Price Index (e.g. for fertilizer) and the Consumer Price Index (e.g. for car insurance); information collected by other divisions of Statistics Canada and other federal departments (e.g. for labour, feed, property taxes). In some cases, notably for custom work and farm rents, direct pricing is not available, so these indexes are imputed from other series.

Since the beginning of 1992, the sources of price information have been improved and extended, through a programme funded by Agriculture Canada. To provide more geographic detail, and to get more relevant prices, direct surveys of farm suppliers have been set up in the following areas: fertilizers, pesticides and fuels; building supplies, small tools and machinery and vehicle parts and repair. In almost all cases this pricing replaces poorer secondary sources. In addition the surveys of farm machinery and seed have been enlarged.

Where possible, the prices used in the FIPI are transaction prices which correspond to those effectively paid by farmers, including the effect of all applicable taxes and subsidies. Because of the changes in sources, the FIPI from 1992 onward reflect more closely the movement of actual transaction prices.

Exprimé de cette façon, "w" est le poids en pourcentage d'un article – soit sa part en pourcentage des dépenses globales de la période de base pour tous les articles de l'indice dont il fait partie.

Composition du panier

C'est en 1981 qu'on a procédé pour la dernière fois à la définition des articles qui composent le panier. Les dépenses d'exploitation agricole et d'amortissement de 1986 constituent la principale source d'information qui permet d'estimer les pondérations pour les groupes principaux et les groupes d'entrées. Les pondérations plus détaillées, qui servent à établir la composition exhaustive des articles de chaque groupe, ont été estimées en 1981 à partir de diverses sources additionnelles, notamment les statistiques sur la production agricole et manufacturière, et réévaluées par la suite en fonction des prix de 1986. La diffusion, en 1992, de la liste élargie d'articles a coïncidé avec la réévaluation de nombreuses pondérations détaillées dans les secteurs élargis à partir des données les plus récentes sur la production et l'utilisation. Les tableaux des pondérations en pourcentage figurent aux annexes 1 et 2 du présent ouvrage.

Sources de renseignements sur les prix

Jusqu'en 1992, les renseignements sur les prix provenaient de diverses sources: les fournisseurs des agriculteurs (par exemple, les fournisseurs de machines agricoles et de semences), les autres indices de prix, notamment l'indice des prix des produits industriels (ex. engrais) et l'indice des prix à la consommation (ex. assurance des véhicules) et les renseignements recueillis par d'autres divisions de Statistique Canada et des ministères fédéraux (par exemple, les données relatives à la main d'oeuvre, aux aliments pour animaux, aux impôts fonciers). Dans certains cas, notamment celui du travail sur commande et des loyers agricoles, on impute ces indices à partir d'autres séries, le relevé direct des prix n'étant pas effectué.

Depuis le début de 1992, on a amélioré et élargi les sources de données sur les prix dans le contexte d'un programme financé par Agriculture Canada. En vue d'accroître le nombre de détails géographiques et la pertinence des prix, on mène maintenant des enquêtes auprès des fournisseurs agricoles dans les domaines suivants: engrais, pesticides et carburants; fournitures de construction, petits outils et machinerie; pièces et réparations de véhicules. Dans presque tous les cas, ces relevés de prix remplacent des sources secondaires de moindre qualité. En outre, on a élargi les enquêtes sur la machinerie agricole et les semences.

Dans la mesure du possible, les prix utilisés dans l'IPEA sont les prix des transactions qui correspondent à ceux effectivement payés par les agriculteurs et tiennent compte notamment de toutes les taxes et subventions applicables. En raison des changements de sources, l'IPEA de 1992 et ceux des années subséquentes sont plus représentatifs du mouvement des prix réels des transactions.

Sample design

The samples of prices collected for the FIPI are designed to provide an index reliable at the level of detail shown in this publication. For this purpose, the samples are stratified to ensure that no important type of price change is omitted from the index. In this process, pricing categories are identified and split into sub-groups as needed to represent the commodity group. Samples are chosen to represent the price movement of each sub-group. As the number of price observations at this fine level of detail is more limited the reliability of the price movement is less than in the higher-level indexes shown here. Nevertheless, in most cases these detailed indexes are available to interested users.

The same design considerations apply geographically. Part of the expansion in 1992 was to put provincial indexes on as sound a base as the Eastern and Western Canada indexes were previously and to allow calculation of provincial FIPI totals. This has been done for each of the provinces from Quebec west. For the Atlantic Provinces as a whole the indexes are based on the same depth of coverage, but the individual provincial indexes in that region are based on thinner samples.

Timeliness and revisions

The indexes are published quarterly, about five weeks after the end of the reference quarter. Notice and summary figures are given in the Statistics Canada Daily Bulletin (Catalogue no. 11-001-XPB) and the data are available on CANSIM on that date. This publication is distributed about three weeks later.

In each quarter, indexes for the preceding quarter are subject to revision. Also, with the publication of the first quarter figure for each year, indexes for the preceding two years are subject to revision. These revisions mainly affect those indexes which are estimated in whole or part on annual data (property taxes, farm rent and interest).

Data availability

All publishable indexes are on CANSIM. Matrices 2050 to 2063 include more than 100 provincial or regional indexes covering more detail than is included in this publication. Matrices 550 to 582 include sub-provincial indexes for some items. A table showing which CANSIM matrices apply to which provinces is in Appendix 3.

Alternatively, users may get the additional detail from Prices Division.

In addition to index numbers the surveys of prices of fertilizers, pesticides and fuels, begun in 1992, provide estimates of average prices in different parts of the country, at different times of the year. These data may serve other needs than those satisfied by the time index series. Interested users should contact Prices Division. The average prices are also on Matrices 550 to 582.

Conception de l'échantillon

Les échantillons de prix relevés pour l'IPEA doivent permettre le calcul d'un indice fiable au niveau d'agrégation de la présente publication. À cette fin, les échantillons sont stratifiés pour faire en sorte qu'aucun type important de variation de prix ne soit omis de l'indice. À ce stade, on détermine les catégories de prix et on les répartit en sous-groupes au besoin pour représenter le groupe de produits. On sélectionne des échantillons pour illustrer les mouvements de prix dans chaque sous-groupe. Les observations de prix à ce niveau d'agrégation étant plus limitées, la fiabilité du mouvement des prix est donc inférieure à celle des indices de haut niveau. Néanmoins, dans la plupart des cas, les utilisateurs intéressés peuvent se procurer ces indices détaillés.

Les mêmes considérations relatives à la conception s'appliquent au niveau géographique. L'élargissement de 1992 consistait notamment à établir les indices provinciaux sur une base aussi solide que ne l'était antérieurement celle des indices de l'Est et de l'Ouest du Canada et à permettre le calcul des totaux provinciaux de l'IPEA. Ce qui a été fait pour chacune des provinces à l'ouest du Québec. Pour ce qui est des indices d'ensemble des provinces de l'Atlantique, la couverture est tout aussi étendue mais les indices provinciaux individuels de cette région sont fondés sur des échantillons moins grands.

Actualité des données et révisions

Les indices sont diffusés sur une base trimestrielle, environ cinq semaines après la fin du trimestre de référence. L'avis et le résumé paraissent dans Le Quotidien de Statistique Canada (n° 11-001-XPB au catalogue) et les données sont versées dans CANSIM le même jour. La présente publication est diffusée environ trois semaines plus tard.

À chaque trimestre, les indices du trimestre précédent font l'objet d'une révision. En outre, la révision des indices des deux années précédentes coïncide avec la diffusion des chiffres du premier trimestre de chaque année. Les révisions s'appliquent surtout aux indices estimés, intégralement ou partiellement, à partir des données annuelles (impôts fonciers, loyer agricole et intérêt).

Disponibilité des données

Tous les index qui peuvent être diffusés sont stockés dans CANSIM. Les matrices 2050 à 2063 contiennent plus de 100 indices provinciaux ou régionaux plus détaillés que la présente publication. Les matrices 550 à 582 comprennent les indices infra-provinciaux de certains articles. Vous trouverez à l'annexe 3 un tableau qui indique à quelle province correspondent les matrices de CANSIM.

Comme alternative, les utilisateurs peuvent obtenir des détails additionnels en s'adressant à la Division des prix.

Outre les chiffres des indices, les enquêtes sur les prix des engrains, des pesticides et des carburants, qui ont été mises en oeuvre en 1992, fournissent des estimations des prix moyens dans les différentes régions du pays, à diverses époques de l'année. Ces données peuvent répondre à des besoins autres que ceux qui sont comblés par la série des indices chronologiques. Les intéressés doivent communiquer avec la Division des prix. Les prix moyens sont également indiqués dans les matrices 550 à 582.

For further information

For data only, please contact the information unit at (613) 951-9606 or any regional office. For further information on concepts and methods, contact Vaclav Krabicka at (613) 951-3342. The addresses are on the inside front cover of this book.

Renseignements additionnels

Pour obtenir des données, veuillez communiquer avec la Sous-section de l'information et de l'analyse courante (613) 951-3350 ou avec n'importe quel bureau régional. Pour avoir plus de renseignements sur les concepts et les méthodes, vous êtes priés de vous adresser à Vaclav Krabicka au (613) 951-3342. Les adresses figurent dans la couverture avant intérieure de la présente publication.

Canada: A Portrait

A Memorable Journey Through Canada

A book to captivate everyone, *Canada: A Portrait* is a compelling record in words and pictures of the excitement and diversity of present-day Canada. This all-new edition of Statistics Canada's proven bestseller features a striking full-colour dustjacket reproduction of *Sweegrass*, the rich impressionistic painting by Canadian artist Frank Mayrs. Once you open its appealing cover, you will discover that *Canada: A Portrait* not only delights the eye, it stimulates the imagination. Each page is brimming with lively and intriguing facts, bringing to life the personality and charisma of Canada in a clear, easy-to-read and entertaining narrative.

From the important to the whimsical...

Canada: A Portrait presents you with the perfect opportunity to explore Canada at your leisure with just the turn of a page. Investigate the diverse regions of Canada from Mount Logan in the Yukon to the St. John River in New Brunswick. Delve into the heartbeat of Canada's society: Who are we? Where do we live? What do we believe in? See how the economy is evolving and what makes it tick. Learn about the activities enjoyed by today's Canadians, such as opera and hockey and home computers. *Canada: A Portrait* offers a complete examination of this unique country and reflects many interesting perspectives.

The Land, The People, The Society, Arts and Leisure, The Economy and Canada in the World

Six chapters provide a guided tour of both the physical and the human landscape of Canada. Each chapter is enriched with personal insights on "being Canadian," shared with you by such eminent people as Myriam Bédard, Gerhard Herzberg and Joe Schlesinger and is adorned with a gallery of imaginative pictorial images.

Share the *Canada: A Portrait* experience with your family, friends and colleagues

Its charming format, rich design, intriguing content and attractive price make this a keepsake volume, ideal both to give and to receive.

Canada: A Portrait is available for only \$39.95 in Canada (plus GST/HST, applicable PST and shipping and handling), US \$51.95 in the United States and US \$59.95 in other countries. To order, write to Statistics Canada, Operations and Integration Division, Circulation Management, 120 Parkdale Avenue, Ottawa, Ontario, K1A 0T6, or contact the nearest Statistics Canada Regional Reference Centre listed in this publication. Call toll-free: 1-800-267-6677 and use your Visa and MasterCard or fax your order to 1-800-889-9734.

Un portrait du Canada

Un voyage mémorable à travers le Canada

Un portrait du Canada captivera tout le monde. C'est un recueil irrésistible, en mots et en images, de tout ce qui fait le dynamisme et la diversité du Canada d'aujourd'hui. Cette nouvelle édition de l'indiscutable best-seller de Statistique Canada offre, sur la jaquette, un magnifique paysage impressionniste. Intitulé *Sweegrass*, de l'artiste canadien Frank Mayrs. Dès la première page, vous serez fasciné par la beauté des images et du texte et vous laisserez vagabonder votre imagination. Chaque page regorge de faits vivants et intrigants donnant vie au caractère et au magnétisme du Canada dans une langue claire, simple et prenante.

De l'important au fantaisiste...

Un portrait du Canada vous permet de visiter le pays durant vos moments libres simplement en tournant les pages. Du mont Logan (Yukon) à la rivière Saint-Jean (Nouveau-Brunswick), tâchez le pouls des différentes régions du Canada. Fouillez au cœur même de la société canadienne : Qui sommes-nous? Où vivons-nous? Quelles sont nos croyances? Voyez comment l'économie évolue et pourquoi elle tourne. Découvrez les activités préférées des Canadiens d'aujourd'hui : de l'opéra au hockey jusqu'à l'ordinateur familial. *Un portrait du Canada* offre un examen complet de ce pays unique reflétant des perspectives intéressantes.

Le territoire, La population, La société, Les arts et les loisirs, L'économie et Le Canada dans le monde

Un tour guidé du paysage physique et humain du Canada vous est offert en six chapitres, chacun est parsemé d'oeuvres pleines d'imagination et est enrichi d'un message personnel sur le fait «d'être Canadien». Ces messages sont partagés par d'éminents Canadiens tels que Myriam Bédard, Gerhard Herzberg et Joe Schlesinger.

Partagez cette expérience avec votre famille, vos amis et vos collègues

Son format attrayant, son design riche, son contenu intrigant et son prix alléchant font d'*Un portrait du Canada* un cadeau idéal à donner ou à recevoir.

Un portrait du Canada est en vente à seulement 39.95 \$ au Canada (TPS/TVA, TVP et frais de port et de manutention applicables en sus), 51.95 \$ US aux États-Unis et 59.95 \$ US dans les autres pays. Pour commander, écrivez à Statistique Canada, Division des opérations et de l'intégration, Direction de la circulation, 120, avenue Parkdale, Ottawa (Ontario) K1A 0T6 ou communiquez avec le Centre de consultation régional de Statistique Canada le plus près (la liste figure dans la présente publication). Ou encore, téléphonez sans frais au 1-800-267-6677 et portez les frais à votre compte VISA ou MasterCard ou télécopiez votre commande au 1-800-889-9734.

FIND STRENGTH IN NUMBERS!

Let us show you how to take advantage of the multitude of data available from Canada's leading statistical agency.

Statistics Canada is the first-hand source of information about Canada, its economy, its institutions and its people. We collect and maintain hundreds of databases of reliable information; from patterns in family expenditures to international trade statistics; from details on Canadians' health and educational qualifications to employment and labour trends. We can produce comprehensive profiles of Canada's society and economy using the data from over 400 surveys.

Our Advisory Services team of expert consultants is here to help you discover Statistics Canada. We will work with you to define your needs, sift through our vast resources and put together an information package designed to meet those needs. Our highly trained staff:

- can analyze and interpret your customized data packages
- provide you with ongoing support through our telephone enquiry service
- offer workshops and seminars on a wide range of topics

We can even conduct surveys tailored to your specialized requirements.

In today's complex social and economic climates, accurate and up-to-date information is an essential tool for performing such detail-intensive tasks as researching, planning, teaching or analyzing. Rely on the expertise at Statistics Canada to provide you with the information and services you need, quickly, professionally and cost effectively.

Découvrez comment tirer parti de la multitude de données offertes par le chef de file canadien en matière de statistiques.

Statistique Canada est la source directe des données sur le Canada, son économie, ses institutions et sa population. Nous compilons et tenons à jour des centaines de bases de données fiables, à partir des habitudes de dépense des familles aux statistiques sur le commerce international et des détails relatifs à la santé et aux niveaux d'instruction des Canadiens aux tendances de l'emploi et de la main-d'œuvre. Nous sommes en mesure de préparer des portraits descriptifs de la société et l'économie canadiennes à l'aide de données provenant de plus de 400 enquêtes.

L'équipe d'experts-conseils de nos services consultatifs est là pour vous aider à mieux connaître Statistique Canada. Nous travaillerons avec vous à définir vos besoins, à passer en revue nos vastes ressources et à rassembler des documents pouvant répondre à ces besoins. Notre personnel hautement qualifié :

- peut analyser et interpréter vos ensembles de données personnalisés
 - vous offre un appui constant grâce à notre service de renseignements téléphonique
 - organise des ateliers et des conférences sur une large gamme de sujets
- Nous pouvons même mener des enquêtes spécifiquement conçues pour répondre à des besoins particuliers.

Dans un contexte social et économique de plus en plus complexe, des renseignements exacts et à jour sont un outil essentiel pour mener à bien des tâches aussi précises que la recherche, la planification, l'enseignement ou l'analyse. Fiez-vous à l'expertise de Statistique Canada pour obtenir les renseignements et les services dont vous avez besoin de manière rapide, professionnelle et rentable.
