Data in many forms

Statistics Canada disseminates data in a variety of forms. In addition to publications, both standard and special tabulations are offered. Data are available on the Internet, compact disc, diskette, computer printouts, microfiche and microfilm, and magnetic tape. Maps and other geographic reference materials are available for some types of data. Direct online access to aggregated information is possible through CANSIM, Statistics Canada's machine-readable database and retrieval system.

How to obtain more information

Inquiries about this publication and related statistics or services should be directed to: Client Services Unit, Prices Division, Statistics Canada, Ottawa, Ontario, K1A 0T6 (telephone: (613) 951-9606), (fax (613) 951-1539), Internet: infounit@stacan.ca or to the Statistics Canada Regional Reference Centre in:

Ordering/Subscription information

All prices exclude sales tax

Catalogue no. 62-004-XPB, is published quarterly as a standard paper product for \$25.00 per issue or \$83.00 for four issues in Canada. Outside Canada the cost is US\$25.00 per issue and US\$83.00 for four issues.

Please order by mail, at Statistics Canada, Dissemination Division, Circulation Management, 120 Parkdale Avenue, Ottawa, Ontario, K1A 0T6; by phone, at (613) 951-7277 or 1 800 770-1033; by fax, at (613) 951-1584 or 1 800 889-9734; or by Internet, at order@statcan.ca. For changes of address, please provide both old and new addresses. Statistics Canada products may also be purchased from authorized agents, bookstores and local Statistics Canada offices.

Standards of service to the public

Statistics Canada is committed to serving its clients in a prompt, reliable and courteous manner and in the official language of their choice. To this end, the agency has developed standards of service which its employees observe in serving its clients. To obtain a copy of these service standards, please contact your nearest Statistics Canada Regional Reference Centre.

Des données sous plusieurs formes

Statistique Canada diffuse les données sous formes diverses. Outre les publications, des totalisations habituelles et spéciales sont offertes. Les données sont disponibles sur Internet, disque compact, disquette, imprimé d'ordinateur, microfiche et microfilm, et bande magnétique. Des cartes et d'autres documents de référence géographiques sont disponibles pour certaines sortes de données. L'accès direct à des données agrégées est possible par le truchement de CANSIM, la base de données ordinoingue et le système d'extraction de Statistique Canada.

Comment obtenir d'autres renseignements

Toute demande de renseignements au sujet de la présente publication ou au sujet de statistiques ou de services connexes doit être adressée à : Sous-section du service à la clientèle, Division des prix, Statistique Canada, Ottawa, Ontario, K1A 0T6 (téléphone : (613) 951-9606), (télécopieur : (613) 951-1539), Internet : infounit@stacan.ca ou à l'un des centres de consultation régionaux de Statistique Canada :

Note of appreciation

Canada owes the success of its statistical system to a long-standing partnership between Statistics Canada, the citizens of Canada, its businesses, governments and other institutions. Accurate and timely statistical information could not be produced without their continued cooperation and goodwill.

Note de reconnaissance

Le succès du système statistique du Canada repose sur un partenariat bien établi entre Statistique Canada et la population, les entreprises, les administrations canadiennes et les autres organismes. Sans cette collaboration et cette bonne volonté, il serait impossible de produire des statistiques précises et actuelles.

Symbols

The following standard symbols are used in Statistics Canada publications:

- .. figures not available.
- ... figures not appropriate or not applicable.
- nil or zero.
- amount too small to be expressed.
- ^P preliminary figures.
- ^r revised figures.
- x confidential to meet secrecy requirements of the Statistics Act.

Note on Cansim

CANSIM® (Canadian Socio-Economic Information Management System) is Statistics Canada's computerized data bank and its supporting software. Most of the data appearing in this publication, as well as many other data series are available from CANSIM via terminal, on computer printouts, or in machine readable form. Historical and more timely data, not included in this publication, are available from CANSIM.

For further information write to Marketing Division, Statistics Canada, Ottawa, K1A 0T6 or call (613) 951-8200.

® Registered Trade Mark of Statistics Canada.

Revisions

The indexes are subject of a two-stage revision. Quarterly, the indexes are revised for the preceding quarter. Annual revision takes place in the first quarter and is applicable to the indexes for the past two years.

This publication was prepared under the direction of:

- **Louis Marc Ducharme**, Director, Prices Division
- **François Bordé**, Chief, Goods & Services Producing Industries Section

The paper used in this publication meets the minimum requirements of American National Standard for Information Sciences – Permanence of Paper for Printed Library Materials, ANSI Z39.48 – 1984.

Signes conventionnels

Les signes conventionnels suivants sont employés uniformément dans les publications de Statistique Canada:

- .. nombres indisponibles.
- ... n'ayant pas lieu de figurer.
- néant ou zéro.
- nombres infimes.
- ^P nombres provisoires.
- ^r nombres rectifiés.
- x confidentiel en vertu des dispositions de la Loi sur la statistique relatives au secret.

Note concernant CANSIM

Le CANSIM® (Système canadien d'information socio-économique) est le système de Statistique Canada qui se compose d'une banque de données informatisées et de son logiciel de soutien. La plupart des données présentées dans cette publication et beaucoup d'autres données contenues dans le CANSIM peuvent être extraites par l'intermédiaire d'un terminal, sous forme d'imprimés d'ordinateur ou sous forme lisible par machine. Des données historiques et des données plus actuelles qui n'apparaissent pas dans cette publication sont disponibles de CANSIM.

Pour plus de renseignements, écrivez à la Division du marketing, Statistique Canada, Ottawa, K1A 0T6 ou téléphonez à (613) 951-8200.

® Marque déposée de Statistique Canada

Révisions

Les indices font l'objet d'une révision en deux temps. D'abord, l'indice d'un trimestre donné est révisé le trimestre suivant. Ensuite, une révision annuelle portant sur les deux années précédentes a lieu au premier trimestre.

Cette publication a été rédigée sous la direction de:

- **Louis Marc Ducharme**, Directeur, Division des prix
- **François Bordé**, Chef, Section des Industries de biens et de services

Le papier utilisé dans la présente publication répond aux exigences minimales de l'American National Standard for Information Sciences – "Permanence of Paper for Printed Library Materials", ANSI Z39.48 1984.

Highlights

Farm Input Price Index

First quarter 1998

Declining prices in seven of the nine categories pushed the Farm Input Price Index down 0.2% in the first quarter of 1998. Farmers in Eastern Canada benefited more from the lower prices (-1.4%).

By comparison, prices in Western Canada rose an average 0.8% on a quarterly basis, due mostly to higher costs for non-mortgage loans.

On a year-over-year basis, Canada's farmers paid only 1.4% more to do business. This is down significantly from the 2.6% annual price increase recorded in the fourth quarter of 1997.

(Figures for the first quarter of 1998 include estimated indexes for farm rent and property taxes. Also in this quarter, all indexes for the last two years were revised. The indexes for 1996 are now considered final.)

Second consecutive quarterly decrease

Although prices fell in seven of the nine input categories, the all-Canada total index dropped only 0.2% compared with the fourth quarter of 1997. Lower prices for prepared feed (-3.8%) and weanling pigs (-10.6%) contributed most to the quarterly decrease. However, these were significantly offset by higher prices elsewhere. Farmers paid more for grass-seed (+8.9%) and for potassium fertilizers (+2.5%). Also, the preliminary interest figures indicate the cost of non-mortgage interest rose again on a quarterly basis (+11.7%), resulting in an increase in the overall index for interest.

Farmers benefited from lower prices for building materials (-1.3%) and for supplies and services, particularly heating fuel (-3.1%) and electricity (-1.9%), compared with the previous three months.

Higher cattle prices pushed up the annual increase

On a national basis, farmers paid more annually in four of the nine categories. Similar to the fourth quarter of 1997, higher prices for feeder cattle (+21.2%) contributed most to the year-over-year increase to the total index. Those increases, however, were offset partially by lower prices for weanling pigs and egg-producing chicks.

Faits saillants

Indice des prix des entrées dans l'agriculture

Premier trimestre de 1998

Le recul des prix dans sept des neuf catégories a fait baisser l'indice total des prix des entrées dans l'agriculture de 0,2 % en trois mois. Les agriculteurs de l'Est ont profité davantage de la diminution de 1,4 % des prix.

En comparaison, les prix dans l'Ouest ont augmenté en moyenne de 0,8 % au cours du trimestre, surtout en raison des taux plus élevés des prêts non hypothécaires.

D'une année à l'autre, les agriculteurs canadiens n'ont payé que 1,4 % de plus pour mener leurs activités, ce qui est nettement inférieur à l'augmentation annuelle de 2,6 % des prix observée au quatrième trimestre de 1997.

Les chiffres du premier trimestre de 1998 comprennent les indices estimatifs des loyers agricoles et des taxes foncières. De plus, au cours de ce trimestre, tous les indices des deux dernières années ont fait l'objet d'une révision. Les indices de 1996 sont maintenant finalisés.

Deuxième diminution trimestrielle consécutive

Bien que les prix aient reculé dans sept des neuf catégories d'entrées, l'indice total n'a fléchi que de 0,2 % par rapport au quatrième trimestre de 1997. Les baisses de prix des aliments préparés (-3,8 %) et des porcelets sevrés (-10,6 %) ont contribué le plus à la diminution trimestrielle. Toutefois, ces baisses ont été largement atténuées par des hausses de prix ailleurs. Les agriculteurs ont payé plus cher les graines fourragères (+8,9 %) et les engrais de potassium (+2,5 %). En outre, les chiffres provisoires en ce qui a trait à l'intérêt révèlent que le coût de l'intérêt non hypothécaire a encore augmenté au cours du trimestre (+11,7 %), ce qui a entraîné une hausse de l'indice global de l'intérêt.

Les agriculteurs ont profité de la baisse des prix des matériaux de construction (-1,3 %) ainsi que des fournitures et des services, en particulier le combustible de chauffage (-3,1 %) et l'électricité (-1,9 %), par rapport aux trois mois précédents.

La hausse du prix des bovins a accentué l'augmentation annuelle

À l'échelle nationale, les agriculteurs ont fait face à une augmentation annuelle des prix dans quatre des neuf catégories. Comme au quatrième trimestre de 1997, la hausse du prix des bovins d'engraissement (+21,2 %) a contribué le plus à l'augmentation de l'indice total d'une année à l'autre. Les majorations de prix ont toutefois été partiellement compensées par la diminution de prix des porcelets sevrés et des poussins à oeufs.

Again, a higher index for non-mortgage loans pushed the interest index up on an annual basis (+18.4%). Farmers also faced price increases for new machinery.

On the other hand, farmers benefited from lower prices in the remaining input categories. Lower prices for nitrogen fertilizers helped to push the crop production index down. Price drops for heating fuel contributed to a 1.8% annual decrease in supply and services.

Estimated costs for farm rent were down 3.4%. Property taxes were estimated at 1.5% lower for the year.

Higher cattle and poultry prices for Western producers

In the West, farm input prices rose 1.6% on an annual basis, largely due to higher prices for feeder cattle (+23.5%). Farmers paid more for all inputs into animal production; the exceptions were weaning pigs (-30.9%) and prepared feed (-5.8%). Feeder livestock also carries more weight in the West's index than in the East's.

In the West, price declines in building materials (-4.2%), heating fuel (-8.8%) and nitrogen fertilizers (-14.2%) helped to offset significant increases in the cost of non-mortgage loans and in the estimate for property taxes on an annual basis.

In the East, where the overall annual price increase was marginally less (+1.3%), higher prices for tractors and other machinery pushed the machine and motor vehicles index up 1.4% compared with the same period a year earlier. Farm wages rose 2.4%, while the cost of interest jumped 16.2%, a result of higher costs for non-mortgage loans.

Farmers in Eastern Canada also faced higher prices for feeder cattle, but these were offset by lower prices for weaning pigs (-16.8%), egg-producing chicks (-5.1%) and prepared feed (-4.6%). Costs for property taxes and farm rent were also estimated to be significantly lower compared with the same period a year earlier.

Encore une fois, l'indice plus élevé des prêts non hypothécaires a fait augmenter l'indice annuel de l'intérêt (+18,4 %). Les agriculteurs ont également dû composer avec des hausses de prix des machines agricoles neuves.

Par ailleurs, les agriculteurs ont profité de la baisse des prix dans les autres catégories d'entrées. La réduction des prix des engrais d'azote a contribué au fléchissement de l'indice des cultures agricoles, tandis que la baisse des prix du combustible de chauffage a contribué au repli annuel de 1,8 % des prix des fournitures et des services.

Les coûts estimatifs des loyers agricoles et des taxes foncières ont été moins élevés de 3,4 % et de 1,5 % respectivement, pour l'année.

Hausse des prix des bovins et de la volaille pour les producteurs de l'Ouest

Dans l'Ouest, les prix des entrées dans l'agriculture ont augmenté de 1,6 % durant l'année, surtout en raison de la hausse des prix des bovins d'engraissement (+23,5 %). Les agriculteurs ont payé plus cher toutes les entrées dans l'élevage d'animaux, sauf les porcelets sevrés (-30,9 %) et les aliments préparés (-5,8 %). Les bovins d'engraissement pèsent également plus lourd dans l'indice de l'Ouest canadien que dans celui de l'Est.

Dans l'Ouest, les baisses de prix des matériaux de construction (-4,2 %), du combustible de chauffage (-8,8 %) et des engrais d'azote (-14,2 %) ont contribué à compenser d'importantes majorations du coût des prêts non hypothécaires et des taxes foncières estimatives pour l'année.

Dans l'Est, où l'augmentation annuelle globale des prix était légèrement inférieure (+1,3 %), la hausse des prix des tracteurs et d'autres machines agricoles s'est traduite par une augmentation de 1,4 % de l'indice des machines agricoles et des véhicules automobiles par rapport à la même période de l'année dernière. Les salaires agricoles ont augmenté de 2,4 % et le coût de l'intérêt a fait un bond de 16,2 % sous l'effet de la hausse des taux des prêts non hypothécaires.

Les agriculteurs de l'Est ont également payé plus cher les bovins d'engraissement, mais ces hausses ont été épongées par des diminutions de prix des porcelets sevrés (-16,8 %), des poussins à oeufs (-5,1 %) et des aliments préparés (-4,6 %). Les coûts estimatifs des taxes foncières et des loyers agricoles étaient également bien inférieurs à ceux de la même période de l'année dernière.

(1) The indexes are subject to a two-stage revision. Quarterly, the indexes are revised for the preceding quarter. Annual revision takes place in the first quarter and is applicable to the indexes for the past two years.

(1) Les indices font l'objet d'une révision en deux temps. D'abord, l'indice d'un trimestre donné est révisé le trimestre suivant. Ensuite, une révision annuelle portant sur les deux années précédentes a lieu au premier trimestre.

(1) The indexes are subject to two-stage revision. Quarterly, the indexes are revised for the preceding quarter. Annual revision takes place in the first quarter and is applicable to the indexes for the past two years.

(2) Selected items.

(3) Groups and sub-groups of commodities are identified by the type of print and by the spacing. For further detail, see appendix I and II.

(1) Les indices font l'objet d'une révision en deux temps. D'abord, l'indice d'un trimestre donné est révisé le trimestre suivant. Ensuite, une révision annuelle portant sur les deux années précédentes a lieu au premier trimestre.

(2) Certains items.

(3) Les groupes et sous-groupes de produits sont identifiés par le type de caractères d'imprimerie et par l'espacement. Pour plus d'explications, veuillez voir les appendices I ou II.

(1) Annual revision takes place in the first quarter and is applicable to the indexes for the past two years.

(1) Une révision annuelle portant sur les deux années précédentes a lieu au premier trimestre.

(2) The average rate for all outstanding loans of the corresponding type.

(2) Le taux moyen pour tous les prêts non remboursés du type correspondant.

TECHNICAL NOTES

FARM INPUT PRICE INDEX (1986=100)

1. Concepts, Data Description and Methods

The Farm Input Price Index (FIPI), 1986=100, measures the price changes of a basket of goods and services purchased by Canadian farmers for use in agricultural production. The basket is made up of the inputs bought by farmers in 1986. The index is calculated by comparing current prices for those inputs to the average of their prices in 1986.

The Farm Input Price Index is useful in transforming current dollar farm expenditures into constant dollars, which are an important component of analytical studies and econometric modelling. The FIPI and its details are also used to monitor price changes which are considered in the operations of marketing boards and in price stabilisation programmes.

The total FIPI represents the aggregate price change for all inputs into all kinds of farming operations. For a particular application, it may be more appropriate to select specific inputs and calculate a weighted average of them using the particular patterns of cost or expenditure that are more appropriate. Whatever basket is used, one should remember that the basket is fixed over time. For this reason, the index cannot measure changes in production costs due to changes in the mix of inputs used, or changes in productivity. Furthermore, comparisons of indexes between different regions for the same item or group of items only indicate differences in price movements over time, they cannot compare price levels in different parts of the country.

This FIPI series succeeds the previous series, 1981=100, covering the period 1981-1985, also the series 1971=100, covering the period 1971 to 1983, and the series 1961=100, covering the period 1961 to 1977. The earlier FIPI series have been converted to a 1986 time-base so that continuous indexes are available, wherever possible. In many cases this is from 1961. For looking at price movements before 1961, in some cases FIPI indexes follow some of the items found in the Price Index Numbers of Commodities and Services Used by Farmers 1935-1939=100 for the years 1913 to 1971.

Index formula

A general formula for an index made up of several items for the current period ($I_{t/0}$) is:

$$I_{t/0} = \frac{\sum p_t q_0}{\sum p_0 q_0} \times 100$$

where p_t is the price of an item in the current period, and p_0 , q_0 and $p_0 q_0$ are the price, quantity and value of expenditure of the item in the base (1986) period. This formula can be transformed to:

NOTES TECHNIQUES

INDICE DES PRIX DES ENTRÉES DANS L'AGRICULTURE (1986=100)

1. Concepts, description des données et méthodes

L'indice des prix des entrées dans l'agriculture (IPEA), établi sur la base de 1986=100, mesure la variation des prix des biens et des services qu'achètent les agriculteurs du Canada pour la production agricole. Le panier se compose des biens et des services achetés par les agriculteurs en 1986. Le calcul de l'indice est fondé sur la comparaison des prix courants de ces biens et services et de leurs prix moyens en 1986.

L'indice des prix des entrées dans l'agriculture permet de transformer les dépenses agricoles exprimées en dollars courants en dollars constants, qui sont un élément important des études analytiques et des modèles économétriques. L'IPEA et les détails qu'il renferme servent en outre à suivre l'évolution de ces prix qui sont utilisés par les offices de commercialisation et dans les programmes de stabilisation des prix.

Globalement, l'IPEA représente la variation d'ensemble des prix pour toutes les entrées dans tous les types de travaux agricoles. Cependant, dans certains cas particuliers, il pourrait être préférable de sélectionner des entrées spécifiques et de calculer une moyenne pondérée en se servant des schémas particuliers des coûts et des dépenses qui sont les plus pertinents. De plus, quel que soit le panier utilisé, il ne faut pas oublier que ce dernier est fixe dans le temps. L'indice ne saurait donc mesurer que les variations des coûts de production, attribuables à des changements de la composition des entrées, et non pas celles de la productivité. En outre, les comparaisons des indices de diverses régions pour un même article ou groupe d'articles ne révèlent que les divergences des mouvements de prix dans le temps et ne peuvent servir à rapprocher les niveaux de prix dans les diverses régions du pays.

Cette série fait suite à l'IPEA précédent établi sur la base de 1981=100 pour la période allant de 1981 à 1985, sur la base 1971=100, pour la période allant de 1971 à 1983, et à l'IPEA établi sur la base de 1961=100 pour la période allant de 1961 à 1977. Les séries antérieures ont été converties sur la base de 1986 afin d'assurer, dans la mesure du possible, l'uniformité des indices. Dans certains cas, la conversion est effectuée à partir de la base de 1961. En ce qui a trait aux mouvements de prix antérieurs à 1961, les indices de l'IPEA suivent quelquefois, certains des articles que l'on trouve dans les nombres-indices des prix des produits et services utilisés par les agriculteurs sur la base de 1935-1939=100, pour les années 1913 à 1971.

Formule de l'indice

La formule générale de l'indice de la période courante, composée de plusieurs articles, ($I_{t/0}$) est la suivante:

où p_t est le prix de l'article au cours de la période courante, p_0 , q_0 et $p_0 q_0$ représentent respectivement le prix, la quantité et la valeur de l'article figurant dans l'indice de la période de base (1986). Cette formule est ensuite convertie comme suit:

$$I_{t/0} = \sum (p_t / p_0) w$$

where

où

$$w = 100 \times \frac{p_0 q_0}{\sum p_0 q_0}$$

Expressed this way, the "w" is the percentage weight of an item – its percentage share in the total expenditure in the base period for all items in the index of which it is part.

Exprimé de cette façon, "w" est le poids en pourcentage d'un article – soit sa part en pourcentage des dépenses globales de la période de base pour tous les articles de l'indice dont il fait partie.

Composition of the basket

The definition of what should be included in the basket was last done in 1981. The main source of information for the weights of major groups and groups of items was Farm Operating Expenses and Depreciation Charges for 1986. More detailed weights, applying to the detailed composition of items in each group were estimated in 1981 from various additional sources, such as production statistics for both agriculture and manufacturing, and subsequently revalued to 1986 prices. With the publication of the expanded list of item indexes in 1992, many detailed weights in the expanded areas were re-estimated from the most recent available data on production and use. Tables of percentage weights are Appendixes 1 and 2 in this book.

Composition du panier

C'est en 1981 qu'on a procédé pour la dernière fois à la définition des articles qui composent le panier. Les dépenses d'exploitation agricole et d'amortissement de 1986 constituent la principale source d'information qui permet d'estimer les pondérations pour les groupes principaux et les groupes d'entrées. Les pondérations plus détaillées, qui servent à établir la composition exhaustive des articles de chaque groupe, ont été estimées en 1981 à partir de diverses sources additionnelles, notamment les statistiques sur la production agricole et manufacturière, et réévaluées par la suite en fonction des prix de 1986. La diffusion, en 1992, de la liste élargie d'articles a coïncidé avec la réévaluation de nombreuses pondérations détaillées dans les secteurs élargis à partir des données les plus récentes sur la production et l'utilisation. Les tableaux des pondérations en pourcentage figurent aux annexes 1 et 2 du présent ouvrage.

Sources of price information

Until 1992 the price information was derived from a variety of sources: direct farm suppliers (e.g. for farm machinery and seed); other price indexes such as the Industry Product Price Index (e.g. for fertilizer) and the Consumer Price Index (e.g. for car insurance); information collected by other divisions of Statistics Canada and other federal departments (e.g. for labour, feed, property taxes). In some cases, notably for custom work and farm rents, direct pricing is not available, so these indexes are imputed from other series.

Sources de renseignements sur les prix

Jusqu'en 1992, les renseignements sur les prix provenaient de diverses sources: les fournisseurs des agriculteurs (par exemple, les fournisseurs de machines agricoles et de semences), les autres indices de prix, notamment l'indice des prix des produits industriels (ex. engrais) et l'indice des prix à la consommation (ex. assurance des véhicules) et les renseignements recueillis par d'autres divisions de Statistique Canada et des ministères fédéraux (par exemple, les données relatives à la main d'oeuvre, aux aliments pour animaux, aux impôts fonciers). Dans certains cas, notamment celui du travail sur commande et des loyers agricoles, on impute ces indices à partir d'autres séries, le relevé direct des prix n'étant pas effectué.

Since the beginning of 1992, the sources of price information have been improved and extended, through a programme funded by Agriculture Canada. To provide more geographic detail, and to get more relevant prices, direct surveys of farm suppliers have been set up in the following areas: fertilizers, pesticides and fuels; building supplies, small tools and machinery and vehicle parts and repair. In almost all cases this pricing replaces poorer secondary sources. In addition the surveys of farm machinery and seed have been enlarged.

Depuis le début de 1992, on a amélioré et élargi les sources de données sur les prix dans le contexte d'un programme financé par Agriculture Canada. En vue d'accroître le nombre de détails géographiques et la pertinence des prix, on mène maintenant des enquêtes auprès des fournisseurs agricoles dans les domaines suivants: engrais, pesticides et carburants; fournitures de construction, petits outils et machinerie; pièces et réparations de véhicules. Dans presque tous les cas, ces relevés de prix remplacent des sources secondaires de moindre qualité. En outre, on a élargi les enquêtes sur la machinerie agricole et les semences.

Where possible, the prices used in the FIPI are transaction prices which correspond to those effectively paid by farmers, including the effect of all applicable taxes and subsidies. Because of the changes in sources, the FIPI from 1992 onward reflect more closely the movement of actual transaction prices.

Dans la mesure du possible, les prix utilisés dans l'IPEA sont les prix des transactions qui correspondent à ceux effectivement payés par les agriculteurs et tiennent compte notamment de toutes les taxes et subventions applicables. En raison des changements de sources, l'IPEA de 1992 et ceux des années subséquentes sont plus représentatifs du mouvement des prix réels des transactions.

Sample design

The samples of prices collected for the FIPI are designed to provide an index reliable at the level of detail shown in this publication. For this purpose, the samples are stratified to ensure that no important type of price change is omitted from the index. In this process, pricing categories are identified and split into sub-groups as needed to represent the commodity group. Samples are chosen to represent the price movement of each sub-group. As the number of price observations at this fine level of detail is more limited the reliability of the price movement is less than in the higher-level indexes shown here. Nevertheless, in most cases these detailed indexes are available to interested users.

The same design considerations apply geographically. Part of the expansion in 1992 was to put provincial indexes on as sound a base as the Eastern and Western Canada indexes were previously and to allow calculation of provincial FIPI totals. This has been done for each of the provinces from Quebec west. For the Atlantic Provinces as a whole the indexes are based on the same depth of coverage, but the individual provincial indexes in that region are based on thinner samples.

Timeliness and revisions

The indexes are published quarterly, about five weeks after the end of the reference quarter. Notice and summary figures are given in the Statistics Canada Daily Bulletin (Catalogue no. 11-001-XPB) and the data are available on CANSIM on that date. This publication is distributed about three weeks later.

In each quarter, indexes for the preceding quarter are subject to revision. Also, with the publication of the first quarter figure for each year, indexes for the preceding two years are subject to revision. These revisions mainly affect those indexes which are estimated in whole or part on annual data (property taxes, farm rent and interest).

Data availability

All publishable indexes are on CANSIM. Matrices 2050 to 2063 include more than 100 provincial or regional indexes covering more detail than is included in this publication. Matrices 550 to 582 include sub-provincial indexes for some items. A table showing which CANSIM matrices apply to which provinces is in Appendix 3.

Alternatively, users may get the additional detail from Prices Division.

In addition to index numbers the surveys of prices of fertilizers, pesticides and fuels, begun in 1992, provide estimates of average prices in different parts of the country, at different times of the year. These data may serve other needs than those satisfied by the time index series. Interested users should contact Prices Division. The average prices are also on Matrices 550 to 582.

Conception de l'échantillon

Les échantillons de prix relevés pour l'IPEA doivent permettre le calcul d'un indice fiable au niveau d'agrégation de la présente publication. À cette fin, les échantillons sont stratifiés pour faire en sorte qu'aucun type important de variation de prix ne soit omis de l'indice. À ce stade, on détermine les catégories de prix et on les répartit en sous-groupes au besoin pour représenter le groupe de produits. On sélectionne des échantillons pour illustrer les mouvements de prix dans chaque sous-groupe. Les observations de prix à ce niveau d'agrégation étant plus limitées, la fiabilité du mouvement des prix est donc inférieure à celle des indices de haut niveau. Néanmoins, dans la plupart des cas, les utilisateurs intéressés peuvent se procurer ces indices détaillés.

Les mêmes considérations relatives à la conception s'appliquent au niveau géographique. L'élargissement de 1992 consistait notamment à établir les indices provinciaux sur une base aussi solide que ne l'était antérieurement celle des indices de l'Est et de l'Ouest du Canada et à permettre le calcul des totaux provinciaux de l'IPEA. Ce qui a été fait pour chacune des provinces à l'ouest du Québec. Pour ce qui est des indices d'ensemble des provinces de l'Atlantique, la couverture est tout aussi étendue mais les indices provinciaux individuels de cette région sont fondés sur des échantillons moins grands.

Actualité des données et révisions

Les indices sont diffusés sur une base trimestrielle, environ cinq semaines après la fin du trimestre de référence. L'avis et le résumé paraissent dans Le Quotidien de Statistique Canada (n° 11-001-XPB au catalogue) et les données sont versées dans CANSIM le même jour. La présente publication est diffusée environ trois semaines plus tard.

À chaque trimestre, les indices du trimestre précédent font l'objet d'une révision. En outre, la révision des indices des deux années précédentes coïncide avec la diffusion des chiffres du premier trimestre de chaque année. Les révisions s'appliquent surtout aux indices estimés, intégralement ou partiellement, à partir des données annuelles (impôts fonciers, loyer agricole et intérêt).

Disponibilité des données

Tous les indexes qui peuvent être diffusés sont stockés dans CANSIM. Les matrices 2050 à 2063 contiennent plus de 100 indices provinciaux ou régionaux plus détaillés que la présente publication. Les matrices 550 à 582 comprennent les indices infra-provinciaux de certains articles. Vous trouverez à l'annexe 3 un tableau qui indique à quelle province correspondent les matrices de CANSIM.

Comme alternative, les utilisateurs peuvent obtenir des détails additionnels en s'adressant à la Division des prix.

Outre les chiffres des indices, les enquêtes sur les prix des engrais, des pesticides et des carburants, qui ont été mises en oeuvre en 1992, fournissent des estimations des prix moyens dans les différentes régions du pays, à diverses époques de l'année. Ces données peuvent répondre à des besoins autres que ceux qui sont comblés par la série des indices chronologiques. Les intéressés doivent communiquer avec la Division des prix. Les prix moyens sont également indiqués dans les matrices 550 à 582.

For further information

For data only, please contact the information unit at (613) 951-9606 or any regional office. For further information on concepts and methods, contact Vaclav Krabicka at (613) 951-3342. The addresses are on the inside front cover of this book.

Renseignements additionnels

Pour obtenir des données, veuillez communiquer avec la Sous-section de l'information et de l'analyse courante (613) 951-3350 ou avec n'importe quel bureau régional. Pour avoir plus de renseignements sur les concepts et les méthodes, vous êtes priés de vous adresser à Vaclav Krabicka au (613) 951-3342. Les adresses figurent dans la couverture avant intérieure de la présente publication.

Canada

Your essential tool for understanding agriculture in Canada

Voici l'outil essentiel pour la personne désireuse de comprendre l'agriculture canadienne

Whatever your interest in agriculture, the Census of Agriculture is your **Key Information Source** at Canada, provincial and small-area levels.

Peu importe la nature de votre intérêt dans le domaine de l'agriculture, le Recensement de l'agriculture est la **principale source d'information** à l'échelle du Canada, des provinces et des régions.

Census of Agriculture products and services are on track with your needs.

- Use **CUSTOM SERVICES** — such as custom tabulations and thematic maps — to gain unique insight and the competitive advantage. For information, call toll-free 1-800-465-1991 or (613) 951-2889.
- For speed and flexibility, key into the Census of Agriculture **CD-ROM** for all farm and farm operator variables.
- Look to **PUBLICATIONS** for easy-to-read tables and graphics plus straightforward analysis. The series includes *Historical Overview of Canadian Agriculture*, *Agricultural Profiles (Canada and provinces)*, *Profile of Canadian Farm Operators and Canadian Agriculture at a Glance*.

Des produits et services qui répondent à vos besoins.

- Utilisez nos **SERVICES PERSONNALISÉS** — par exemple les totalisations spéciales et les cartes thématiques — pour obtenir des renseignements exclusifs et avoir un avantage sur vos concurrents. Pour en savoir plus, téléphonez sans frais au 1-800-465-1991 ou au (613) 951-2889.
- Pour la rapidité et la souplesse, introduisez le **CD-ROM** du Recensement de l'agriculture pour avoir accès à toutes les variables des fermes et aux caractéristiques des exploitants agricoles.

SERVICES INDICATORS

For and About Businesses Serving the Business of Canada ...

At last, current data and expert analysis on this VITAL sector in one publication!

The services sector now dominates the industrial economies of the world. Telecommunications, banking, advertising, computers, real estate, engineering and insurance represent an eclectic range of services on which all other economic sectors rely.

Despite their critical economic role, however, it has been hard to find out what's happening in these industries. Extensive and time-consuming efforts have, at best, provided a collection of diverse bits and pieces of information ... an incomplete basis for informed understanding and effective action.

Now, instead of this fragmented picture, *Services Indicators* brings you a cohesive whole. An innovative quarterly from Statistics Canada, this publication **breaks new ground**, providing **timely** updates on performance and developments in:

- Communications
- Finance, Insurance and Real Estate
- Business Services

Services Indicators brings together analytical tables, charts, graphs and commentary in a stimulating and inviting format. From a wide range of key financial indicators including profits, equity, revenues, assets and liabilities, to trends and analysis of employment, salaries and output – PLUS a probing feature article in every issue, *Services Indicators* gives you the complete picture for the first time!

Finally, anyone with a vested interest in the services economy can go to *Services Indicators* for current information on these industries ... both **at-a-glance** and **in more detail than has ever been available before** – all in one unique publication.

If your business is serving business in Canada, or if you are involved in financing, supplying, assessing or actually using these services, *Services Indicators* is a turning point – an opportunity to forge into the future armed with the most current insights and knowledge.

Order YOUR subscription to *Services Indicators* today!

Services Indicators (catalogue no. 63-016-XPB) is \$116 (plus GST/HST and applicable PST) in Canada, US\$116 in the United States and US\$116 in other countries.

To order, write to Statistics Canada, Operations and Integration Division, Circulation Management, 120 Parkdale Avenue, Ottawa, Ontario, K1A 0T6, or contact the nearest Statistics Canada Regional Reference Centre listed in this publication.

If more convenient, fax your order to 1-800-889-9734 or (613) 951-1584 or call 1-800-267-6677 toll-free in Canada and the United States [(613) 951-7277 elsewhere] and charge to your VISA or MasterCard. Via Internet: order@statcan.ca. Visit our Web Site www.statcan.ca.

INDICATEURS DES SERVICES

Au sujet service d'information et à leur attention...

Enfin regroupées en une publication, des données courantes et des analyses éclairées sur ce secteur ESSENTIEL!

Le secteur des services domine à l'heure actuelle les économies industrielles du monde. Les télécommunications, les opérations bancaires, la publicité, l'informatique, l'immobilier, le génie et l'assurance représentent une gamme éclectique de services sur lesquels reposent tous les autres secteurs économiques.

En dépit de leur rôle critique sur le plan économique, il est toutefois difficile de savoir ce qui se passe dans ces branches d'activité. Des efforts considérables et fastidieux ont permis, au mieux, de rassembler une collection de renseignements fragmentaires divers... qui ne favorisent pas la compréhension avisée et la prise de mesures efficaces.

Remplacez maintenant ce tableau fragmentaire par l'image cohérente que vous offre *Indicateurs des services*. Cette publication trimestrielle innovatrice de Statistique Canada **pénètre dans un domaine inexploré**, fournissant des aperçus opportuns du rendement et des progrès dans les domaines suivants :

- Communications
- Finance, assurance et immobilier
- Services aux entreprises

Indicateurs des services rassemble des tableaux analytiques, des diagrammes, des graphiques et des observations en un mode de présentation stimulant et attrayant. En puisant à même une vaste gamme d'indicateurs financiers importants, allant notamment des profits, des capitaux propres, des recettes, de l'actif et du passif aux tendances et analyses de l'emploi, des salaires et de la production – à laquelle s'ajoute un article de fond exploratif dans chaque numéro, *Indicateurs des services* brosse pour la première fois un tableau complet!

Enfin, quiconque s'intéresse au secteur des services peut consulter *Indicateurs des services* pour trouver des renseignements courants sur ces branches d'activité... tant sous une forme sommaire qu'à un niveau de détail n'ayant jamais encore été offert – et ce, dans une même publication.

Si vous êtes de ceux qui fournissent des services aux entreprises canadiennes, ou si vous financez, fournissez ou évaluez ces services ou y avez en fait recours, *Indicateurs des services* représente un tournant – une chance de s'aventurer dans l'avenir en étant armé des réflexions et connaissances les plus actuelles.

Commandez dès aujourd'hui VOTRE abonnement à *Indicateurs des services*!

Indicateurs des services (n° 63-016-XPB au catalogue) coûte 116 \$ (plus TPS/TVH et la TVP en vigueur) au Canada, 116 \$ US aux États-Unis et 116 \$ US dans les autres pays.

Pour commander, écrivez à Statistique Canada, Division des opérations et de l'intégration, Gestion de la circulation, 120, avenue Parkdale, Ottawa (Ontario) K1A 0T6, ou communiquez avec le Centre régional de consultation de Statistique Canada le plus près (voir la liste qui figure dans la présente publication).

Si vous préférez, vous pouvez télécopier votre commande en composant le 1-800-889-9734 ou le (613) 951-1584 ou téléphoner sans frais du Canada et des États-Unis au 1-800-267-6677 [ou d'ailleurs au (613) 951-7277] et porter les frais à votre compte VISA ou MasterCard.
