## Data in many forms

Statistics Canada disseminates data in a variety of forms. In addition to publications, both standard and special tabulations are offered. Data are available on the Internet, compact disc, diskette, computer printouts, microfiche and microfilm, and magnetic tape. Maps and other geographic reference materials are available for some types of data. Direct online access to aggregated information is possible through CANSIM, Statistics Canada's machine-readable database and retrieval system.

## How to obtain more information

Inquiries about this publication and related statistics or services should be directed to: Client Services Unit, Prices Division, Statistics Canada, Ottawa, Ontario, K1A 0T6 (telephone: (613) 951-9606), (fax (613) 951-1539), Internet: [infounit@stacan.ca](mailto:infounit@stacan.ca) or to the Statistics Canada Regional Reference Centre in:

Halifax	(902) 426-5331	Regina	(306) 780-5405
Montréal	(514) 283-5725	Edmonton	(403) 495-3027
Ottawa	(613) 951-8116	Calgary	(403) 292-6717
Toronto	(416) 973-6586	Vancouver	(604) 666-3691
Winnipeg	(204) 983-4020		

You can also visit our World Wide Web site:

## Ordering/Subscription information

### All prices exclude sales tax

Catalogue no. 62-004-XPB, is published quarterly as a standard paper product for \$25.00 per issue or \$83.00 for four issues in Canada. Outside Canada the cost is US\$25.00 per issue and US\$83.00 for four issues.

Please order by mail, at Statistics Canada, Dissemination Division, Circulation Management, 120 Parkdale Avenue, Ottawa, Ontario, K1A 0T6; by phone, at (613) 951-7277 or 1 800 770-1033; by fax, at (613) 951-1584 or 1 800 889-9734; or by Internet, at [order@statcan.ca](mailto:order@statcan.ca). For changes of address, please provide both old and new addresses. Statistics Canada products may also be purchased from authorized agents, bookstores and local Statistics Canada offices.

## Standards of service to the public

Statistics Canada is committed to serving its clients in a prompt, reliable and courteous manner and in the official language of their choice. To this end, the agency has developed standards of service which its employees observe in serving its clients. To obtain a copy of these service standards, please contact your nearest Statistics Canada Regional Reference Centre.

## Des données sous plusieurs formes

Statistique Canada diffuse les données sous formes diverses. Outre les publications, des totalisations habituelles et spéciales sont offertes. Les données sont disponibles sur Internet, disque compact, disquette, imprimé d'ordinateur, microfiche et microfilm, et bande magnétique. Des cartes et d'autres documents de référence géographiques sont disponibles pour certaines sortes de données. L'accès direct à des données agrégées est possible par le truchement de CANSIM, la base de données ordinolingué et le système d'extraction de Statistique Canada.

## Comment obtenir d'autres renseignements

Toute demande de renseignements au sujet de la présente publication ou au sujet de statistiques ou de services connexes doit être adressée à : Sous-section du service à la clientèle, Division des prix, Statistique Canada, Ottawa, Ontario, K1A 0T6 (téléphone : (613) 951-9606), (télécopieur : (613) 951-1539), Internet : [infounit@stacan.ca](mailto:infounit@stacan.ca) ou à l'un des centres de consultation régionaux de Statistique Canada :

## Renseignements sur les commandes et les abonnements

### Les prix n'incluent pas la taxe de vente

Le produit n° 62-004-XPB au catalogue paraît trimestriellement en version imprimée standard au coût de 25 \$ le numéro ou 83 \$ pour 4 numéros au Canada. À l'extérieur du Canada, le coût est de 25 \$US le numéro ou 83 \$US pour 4 numéros.

Veuillez commander par la poste, en écrivant à Statistique Canada, Division de la diffusion, Gestion de la circulation, 120, avenue Parkdale, Ottawa (Ontario) K1A 0T6; par téléphone, en composant le (613) 951-7277 ou le 1 800 770-1033; par télécopieur, en composant le (613) 951-1584 ou le 1 800 889-9734; ou par Internet, en vous rendant à [order@statcan.ca](mailto:order@statcan.ca). Lorsque vous signez un changement d'adresse, veuillez nous fournir l'ancienne et la nouvelle adresses. On peut aussi se procurer les produits de Statistique Canada auprès des agents autorisés, dans les librairies et dans les bureaux régionaux de Statistique Canada.

## Normes de service à la clientèle

Statistique Canada s'engage à fournir à ses clients des services rapides, fiables et courtois et dans la langue officielle de leur choix. À cet égard, notre organisme s'est doté de normes de service à la clientèle qui doivent être observées par les employés lorsqu'ils offrent des services à la clientèle. Pour obtenir une copie de ces normes de service, veuillez communiquer avec le centre de consultation régional de Statistique Canada le plus près de chez vous.

## **ERRATA**

Catalogue no. 62-004-XPB quarterly

### **Farm input price index**

**Second Quarter 1998**

The data contained in table 1 of the second quarter 1998 issue relate to the third quarter. The attached errata sheets show the correct data for Table 1, Farm Input Price Indexes (1986=100), summary for the second quarter 1998. Please insert these sheets into your second quarter publication.

## **ERRATUM**

N° 62-004-XPB au catalogue trimestriel

### **Indice des prix des entrées dans l'agriculture**

**Deuxième trimestre de 1998**

Les données apparaissant au tableau 1 du deuxième trimestre de 1998 de cette publication se rapportent au troisième trimestre. Les errata ci-joints montre les données corrigées du tableau 1, Indice des prix des entrées dans l'agriculture (1986=100), sommaire pour le deuxième trimestre de 1998. Veuillez insérer ces errata dans votre publication du deuxième trimestre.

## Note of appreciation

*Canada owes the success of its statistical system to a long-standing partnership between Statistics Canada, the citizens of Canada, its businesses, governments and other institutions. Accurate and timely statistical information could not be produced without their continued cooperation and goodwill.*

## Note de reconnaissance

*Le succès du système statistique du Canada repose sur un partenariat bien établi entre Statistique Canada et la population, les entreprises, les administrations canadiennes et les autres organismes. Sans cette collaboration et cette bonne volonté, il serait impossible de produire des statistiques précises et actuelles.*

## Symbols

The following standard symbols are used in Statistics Canada publications:

- .. figures not available.
- ... figures not appropriate or not applicable.
- nil or zero.
- amount too small to be expressed.
- <sup>p</sup> preliminary figures.
- <sup>r</sup> revised figures.
- x confidential to meet secrecy requirements of the Statistics Act.

## Note on Cansim

CANSIM® (Canadian Socio-Economic Information Management System) is Statistics Canada's computerized data bank and its supporting software. Most of the data appearing in this publication, as well as many other data series are available from CANSIM via terminal, on computer printouts, or in machine readable form. Historical and more timely data, not included in this publication, are available from CANSIM.

For further information write to Marketing Division, Statistics Canada, Ottawa, K1A 0T6 or call (613) 951-8200.

® Registered Trade Mark of Statistics Canada.

## Revisions

The indexes are subject of a two-stage revision. Quarterly, the indexes are revised for the preceding quarter. Annual revision takes place in the first quarter and is applicable to the indexes for the past two years.

This publication was prepared under the direction of:

- **Louis Marc Ducharme**, Director, Prices Division
- **François Bordé**, Chief, Goods & Services Producing Industries Section

The paper used in this publication meets the minimum requirements of American National Standard for Information Sciences – Permanence of Paper for Printed Library Materials, ANSI Z39.48 – 1984.

## Signes conventionnels

Les signes conventionnels suivants sont employés uniformément dans les publications de Statistique Canada:

- .. nombres indisponibles.
- ... n'ayant pas lieu de figurer.
- néant ou zéro.
- nombres infimes.
- <sup>p</sup> nombres provisoires.
- <sup>r</sup> nombres rectifiés.
- x confidentiel en vertu des dispositions de la Loi sur la statistique relatives au secret.

## Note concernant CANSIM

Le CANSIM® (Système canadien d'information socio-économique) est le système de Statistique Canada qui se compose d'une banque de données informatisées et de son logiciel de soutien. La plupart des données présentées dans cette publication et beaucoup d'autres données contenues dans le CANSIM peuvent être extraites par l'intermédiaire d'un terminal, sous forme d'imprimés d'ordinateur ou sous forme lisible par machine. Des données historiques et des données plus actuelles qui n'apparaissent pas dans cette publication sont disponibles de CANSIM.

Pour plus de renseignements, écrivez à la Division du marketing, Statistique Canada, Ottawa, K1A 0T6 ou téléphonez à (613) 951-8200.

## Highlights

### Farm Input Price Index

#### Third quarter 1998

The all-Canada Farm Input Price Index was down 1.8% in the third quarter compared with the same period in 1997, due to declining prices in five of the seven input categories surveyed. This was the second consecutive quarter where farmers have benefitted from lower prices, mostly as a result of lower prices for inputs into animal production such as feeder cattle and feed. The decrease occurred despite a 25.2% increase in the cost of interest.

Although the overall index fell 1.0% between the second and third quarters of 1998, farmers in the West benefitted more from lower prices.

#### Lower prices for feeder cattle contribute most to annual decrease

Nationally, farmers benefitted from lower prices for inputs into animal production such as feeder cattle (-3.1%) and grain feed (-11.3%) compared with the same period a year earlier. Those decreases, however, were offset partially by higher prices for broiler chicks (+3.1%) and artificial insemination (+1.9%).

Lower prices for fertilizer, particularly nitrogen fertilizer (-13.5%), contributed most to the decrease in crop production. Farmers paid less for supplies and services, such as heating fuel and electricity, and also benefitted from lower prices for building materials, which contributed to the annual decrease in building and fencing.

On the other hand, a higher index for non-mortgage loans pushed the preliminary interest index up on an annual basis (+25.2%). Farmers continued to pay higher prices for powered machinery (+2.8%), such as tractors and combines, and non-powered machinery (+3.2%) on a year-over-year basis. These increases, however, were offset by lower prices for gasoline (-12.0%) and diesel fuel (-14.3%).

#### Lower cattle, fertilizer prices for Western farmers

In the West, farm input prices fell 1.6% on an annual basis, largely due to lower prices for feeder cattle (-6.7%) and weanling pigs (-32.9%). Prices were also down for inputs into crop production - a result of lower prices for nitrogen fertilizers (-13.9%).

## Faits Saillants

### Indice des prix des entrées dans l'agriculture

#### Troisième trimestre de 1998

Au troisième trimestre, la baisse des prix dans cinq des sept catégories d'entrées observées s'est traduite par un recul de 1,8 % de l'indice des prix des entrées dans l'agriculture à l'échelle du Canada par rapport à la période correspondante de l'année précédente. Il s'agit du deuxième trimestre consécutif où les agriculteurs ont profité d'une baisse des prix; celle-ci est attribuable en grande partie à la baisse des prix des entrées dans l'élevage d'animaux, comme les bovins d'engraissement et les aliments pour animaux. Cette diminution est survenue en dépit d'une augmentation de 25,2 % des frais d'intérêt.

L'indice d'ensemble a chuté de 1,0 % du deuxième au troisième trimestre de 1998, mais ce sont les agriculteurs de l'Ouest qui ont profité le plus de la baisse des prix.

#### La baisse des prix des bovins d'engraissement a contribué en grande partie à la diminution annuelle

À l'échelle nationale, les agriculteurs ont profité d'une baisse des prix des entrées dans l'élevage d'animaux tels que les bovins d'engraissement (-3,1 %) et les céréales fourragères (-11,3 %) comparativement à la même période l'an dernier. Toutefois, ces diminutions ont été compensées en partie par une hausse des prix des poussins à griller (+3,1 %) et de l'insémination artificielle (+1,9 %).

La baisse des prix des engrains, en particulier des engrains d'azote (-13,5 %), a contribué le plus au recul des cultures agricoles. Les agriculteurs ont déboursé moins pour les fournitures et services, comme le combustible de chauffage et l'électricité. Ils ont également profité d'une baisse des prix des matériaux de construction, laquelle a contribué à la diminution annuelle des coûts des bâtiments et clôtures.

Par contre, l'indice plus élevé pour les prêts non hypothécaires s'est traduit par une hausse de l'indice de l'intérêt provisoire sur une base annuelle (+25,2 %). D'une année à l'autre, les agriculteurs ont continué de payer plus cher les machines motorisées (+2,8 %), comme les tracteurs et les moissonneuses, ainsi que les machines non motorisées (+3,2 %). Ces augmentations ont toutefois été compensées par une baisse des prix de l'essence (-12,0 %) et du carburant diesel (-14,3 %).

#### Baisse des prix des bovins et des engrains pour les agriculteurs de l'Ouest

Dans l'Ouest, les prix des entrées dans l'agriculture ont chuté de 1,6 % annuellement, phénomène attribuable en grande partie à la baisse des prix des bovins d'engraissement (-6,7 %) et des porcelets sevrés (-32,9 %). Les prix des entrées des cultures agricoles sont également en baisse, par suite d'une diminution des prix des engrains d'azote (-13,9 %).

Once again, prices were down for supplies and services, such as heating fuel and electricity, compared with the third quarter of 1997. Along with lower prices for hired farm labour, farmers in the West benefitted from lower prices for building materials, which contributed to the decrease in building and fencing. Preliminary interest figures indicate that farmers faced higher costs for non-mortgage loans, which resulted in an increase in the overall cost of interest.

In the East, where the overall price decrease was marginally more (-2.0%), lower prices for weanling pigs (-16.8%) and prepared feed (-14.7%) pushed the animal production index down on an annual basis. The prices for feeder cattle, however, were up 1.5% compared with the same period a year earlier. Farm wages rose 2.3% and the preliminary figures indicate that the cost of interest jumped as a result of higher costs for non-mortgage loans.

#### **Farmers benefit from lower prices for cattle and grain feed on a quarterly basis**

For Canada as a whole, farm input prices fell 1.0% compared with the second quarter of 1998. Prices fell in five of the seven input categories surveyed. Lower prices for feeder cattle and grain feed helped push the animal production index down (-3.2%).

Farmers benefitted from lower prices for hired farm labour and for supplies and services compared with the previous quarter.

Western producers benefitted most from the quarterly decrease (-1.5%) compared with producers in the East (-0.5%). Although both regions benefitted from lower prices for inputs into animal production, in particular feeder cattle and feed, the animal production index carries more weight in the West than in the East.

Comparativement au troisième trimestre de 1997, les prix ont fléchi à nouveau pour les fournitures et services, comme le combustible de chauffage et l'électricité. En plus d'avoir profité d'une baisse des prix de la main-d'œuvre agricole salariée, les agriculteurs de l'Ouest ont pu retirer les avantages d'une baisse des prix des matériaux de construction, ce qui a contribué à une diminution des coûts des bâtiments et clôtures. Pour ce qui est de l'intérêt, les chiffres provisoires indiquent que les agriculteurs ont dû faire face à une hausse du coût des prêts non hypothécaires, ce qui a donné lieu à une augmentation des frais d'intérêt globaux.

Dans l'Est, où la diminution globale des prix était légèrement supérieure (-2,0 %), la baisse des prix des porcelets sevrés (-16,8 %) et des aliments préparés (-14,7 %) s'est traduite par une baisse de l'indice annuel de l'élevage d'animaux. Les prix des bovins d'engraissement étaient toutefois en hausse de 1,5 % comparativement à la même période l'année dernière. Les salaires agricoles ont augmenté de 2,3 % et les chiffres provisoires indiquent que le coût des intérêts a augmenté par suite d'une augmentation du coût des prêts non hypothécaires.

#### **Les agriculteurs ont profité d'une baisse trimestrielle des prix des bovins et des céréales fourragères**

À l'échelle nationale, les prix des entrées dans l'agriculture ont chuté de 1,0 % au troisième trimestre comparativement au deuxième. Les prix ont chuté dans cinq des sept catégories d'entrées observées. La baisse des prix des bovins d'engraissement et des céréales fourragères a contribué à la baisse de l'indice de l'élevage d'animaux (-3,2 %).

Par rapport au trimestre précédent, les agriculteurs ont profité d'une baisse des prix de la main-d'œuvre agricole salariée et des fournitures et services.

Les producteurs de l'Ouest ont profité davantage de la diminution trimestrielle (-1,5 %) que les producteurs de l'Est (-0,5 %). Bien que les deux régions aient profité d'une baisse des prix des entrées dans l'élevage d'animaux, en particulier des bovins d'engraissement et des céréales, l'indice de l'élevage d'animaux occupe une place plus importante dans l'Ouest que dans l'Est.

(1) The indexes are subject to a two-stage revision. Quarterly, the indexes are revised for the preceding quarter. Annual revision takes place in the first quarter and is applicable to the indexes for the past two years.

(1) Les indices font l'objet d'une révision en deux temps. D'abord, l'indice d'un trimestre donné est révisé le trimestre suivant. Ensuite, une révision annuelle portant sur les deux années précédentes a lieu au premier trimestre.

(1) The indexes are subject to two-stage revision. Quarterly, the indexes are revised for the preceding quarter. Annual revision takes place in the first quarter and is applicable to the indexes for the past two years.

(2) Selected items.

(3) Groups and sub-groups of commodities are identified by the type of print and by the spacing. For further detail, see appendix I and II.

(1) Les indices font l'objet d'une révision en deux temps. D'abord, l'indice d'un trimestre donné est révisé le trimestre suivant. Ensuite, une révision annuelle portant sur les deux années précédentes a lieu au premier trimestre.

(2) *Certains items.*

(3) Les groupes et sous-groupes de produits sont identifiés par le type de caractères d'imprimerie et par l'espacement. Pour plus d'explications, veuillez voir les appendices I ou II.

(1) Annual revision takes place in the first quarter and is applicable to the indexes for the past two years.

(1) Une révision annuelle portant sur les deux années précédentes a lieu au premier trimestre.

(2) The average rate for all outstanding loans of the corresponding type.

(2) Le taux moyen pour tous les prêts non remboursés du type correspondant.

## TECHNICAL NOTES

### FARM INPUT PRICE INDEX (1986=100)

#### 1. Concepts, Data Description and Methods

The Farm Input Price Index (FIFI), 1986=100, measures the price changes of a basket of goods and services purchased by Canadian farmers for use in agricultural production. The basket is made up of the inputs bought by farmers in 1986. The index is calculated by comparing current prices for those inputs to the average of their prices in 1986.

The Farm Input Price Index is useful in transforming current dollar farm expenditures into constant dollars, which are an important component of analytical studies and econometric modelling. The FIFI and its details are also used to monitor price changes which are considered in the operations of marketing boards and in price stabilisation programmes.

The total FIFI represents the aggregate price change for all inputs into all kinds of farming operations. For a particular application, it may be more appropriate to select specific inputs and calculate a weighted average of them using the particular patterns of cost or expenditure that are more appropriate. Whatever basket is used, one should remember that the basket is fixed over time. For this reason, the index cannot measure changes in production costs due to changes in the mix of inputs used, or changes in productivity. Furthermore, comparisons of indexes between different regions for the same item or group of items only indicate differences in price movements over time, they cannot compare price levels in different parts of the country.

This FIFI series succeeds the previous series, 1981=100, covering the period 1981-1985, also the series 1971=100, covering the period 1971 to 1983, and the series 1961=100, covering the period 1961 to 1977. The earlier FIFI series have been converted to a 1986 time-base so that continuous indexes are available, wherever possible. In many cases this is from 1961. For looking at price movements before 1961, in some cases FIFI indexes follow some of the items found in the Price Index Numbers of Commodities and Services Used by Farmers 1935-1939=100 for the years 1913 to 1971.

#### Index formula

A general formula for an index made up of several items for the current period ( $I_{t/0}$ ) is:

$$I_{t/0} = \frac{\sum p_t q_o}{\sum p_o q_o} \times 100$$

where  $p_t$  is the price of an item in the current period, and  $p_o$ ,  $q_o$  and  $p_o q_o$  are the price, quantity and value of expenditure of the item in the base (1986) period. This formula can be transformed to:

## NOTES TECHNIQUES

### INDICE DES PRIX DES ENTRÉS DANS L'AGRICULTURE (1986=100)

#### 1. Concepts, description des données et méthodes

L'indice des prix des entrées dans l'agriculture (IPEA), établi sur la base de 1986=100, mesure la variation des prix des biens et des services qu'achètent les agriculteurs du Canada pour la production agricole. Le panier se compose des biens et des services achetés par les agriculteurs en 1986. Le calcul de l'indice est fondé sur la comparaison des prix courants de ces biens et services et de leurs prix moyens en 1986.

L'indice des prix des entrées dans l'agriculture permet de transformer les dépenses agricoles exprimées en dollars courants en dollars constants, qui sont un élément important des études analytiques et des modèles économétriques. L'IPEA et les détails qu'il renferme servent en outre à suivre l'évolution de ces prix qui sont utilisés par les offices de commercialisation et dans les programmes de stabilisation des prix.

Globalement, l'IPEA représente la variation d'ensemble des prix pour toutes les entrées dans tous les types de travaux agricoles. Cependant, dans certains cas particuliers, il pourrait être préférable de sélectionner des entrées spécifiques et de calculer une moyenne pondérée en se servant des schémas particuliers des coûts et des dépenses qui sont les plus pertinents. De plus, quel que soit le panier utilisé, il ne faut pas oublier que ce dernier est fixe dans le temps. L'indice ne saurait donc mesurer que les variations des coûts de production, attribuables à des changements de la composition des entrées, et non pas celles de la productivité. En outre, les comparaisons des indices de diverses régions pour un même article ou groupe d'articles ne révèlent que les divergences des mouvements de prix dans le temps et ne peuvent servir à rapprocher les niveaux de prix dans les diverses régions du pays.

Cette série fait suite à l'IPEA précédent établi sur la base de 1981=100 pour la période allant de 1981 à 1985, sur la base 1971=100, pour la période allant de 1971 à 1983, et à l'IPEA établi sur la base de 1961=100 pour la période allant de 1961 à 1977. Les séries antérieures ont été converties sur la base de 1986 afin d'assurer, dans la mesure du possible, l'uniformité des indices. Dans certains cas, la conversion est effectuée à partir de la base de 1961. En ce qui a trait aux mouvements de prix antérieurs à 1961, les indices de l'IPEA suivent quelquefois, certains des articles que l'on trouve dans les nombres-indices des prix des produits et services utilisés par les agriculteurs sur la base de 1935-1939=100, pour les années 1913 à 1971.

#### Formule de l'indice

La formule générale de l'indice de la période courante, composée de plusieurs articles, ( $I_{t/0}$ ) est la suivante:

où  $p_t$  est le prix de l'article au cours de la période courante,  $p_o$ ,  $q_o$  et  $p_o q_o$  représentent respectivement le prix, la quantité et la valeur de l'article figurant dans l'indice de la période de base (1986). Cette formule est ensuite convertie comme suit:

$$I_{t/0} = \sum (p_t/p_o)w$$

where

$$w = 100 \times \frac{p_o q_o}{\sum p_o q_o}$$

ou

Expressed this way, the "w" is the percentage weight of an item – its percentage share in the total expenditure in the base period for all items in the index of which it is part.

### Composition of the basket

The definition of what should be included in the basket was last done in 1981. The main source of information for the weights of major groups and groups of items was Farm Operating Expenses and Depreciation Charges for 1986. More detailed weights, applying to the detailed composition of items in each group were estimated in 1981 from various additional sources, such as production statistics for both agriculture and manufacturing, and subsequently revalued to 1986 prices. With the publication of the expanded list of item indexes in 1992, many detailed weights in the expanded areas were re-estimated from the most recent available data on production and use. Tables of percentage weights are Appendixes 1 and 2 in this book.

### Sources of price information

Until 1992 the price information was derived from a variety of sources: direct farm suppliers (e.g. for farm machinery and seed); other price indexes such as the Industry Product Price Index (e.g. for fertilizer) and the Consumer Price Index (e.g. for car insurance); information collected by other divisions of Statistics Canada and other federal departments (e.g. for labour, feed, property taxes). In some cases, notably for custom work and farm rents, direct pricing is not available, so these indexes are imputed from other series.

Since the beginning of 1992, the sources of price information have been improved and extended, through a programme funded by Agriculture Canada. To provide more geographic detail, and to get more relevant prices, direct surveys of farm suppliers have been set up in the following areas: fertilizers, pesticides and fuels; building supplies, small tools and machinery and vehicle parts and repair. In almost all cases this pricing replaces poorer secondary sources. In addition the surveys of farm machinery and seed have been enlarged.

Where possible, the prices used in the FPI are transaction prices which correspond to those effectively paid by farmers, including the effect of all applicable taxes and subsidies. Because of the changes in sources, the FPI from 1992 onward reflect more closely the movement of actual transaction prices.

Exprimé de cette façon, "w" est le poids en pourcentage d'un article – soit sa part en pourcentage des dépenses globales de la période de base pour tous les articles de l'indice dont il fait partie.

### Composition du panier

C'est en 1981 qu'on a procédé pour la dernière fois à la définition des articles qui composent le panier. Les dépenses d'exploitation agricole et d'amortissement de 1986 constituent la principale source d'information qui permet d'estimer les pondérations pour les groupes principaux et les groupes d'entrées. Les pondérations plus détaillées, qui servent à établir la composition exhaustive des articles de chaque groupe, ont été estimées en 1981 à partir de diverses sources additionnelles, notamment les statistiques sur la production agricole et manufacturière, et réévaluées par la suite en fonction des prix de 1986. La diffusion, en 1992, de la liste élargie d'articles a coïncidé avec la réévaluation de nombreuses pondérations détaillées dans les secteurs élargis à partir des données les plus récentes sur la production et l'utilisation. Les tableaux des pondérations en pourcentage figurent aux annexes 1 et 2 du présent ouvrage.

### Sources de renseignements sur les prix

Jusqu'en 1992, les renseignements sur les prix provenaient de diverses sources: les fournisseurs des agriculteurs (par exemple, les fournisseurs de machines agricoles et de semences), les autres indices de prix, notamment l'indice des prix des produits industriels (ex. engrais) et l'indice des prix à la consommation (ex. assurance des véhicules) et les renseignements recueillis par d'autres divisions de Statistique Canada et des ministères fédéraux (par exemple, les données relatives à la main d'oeuvre, aux aliments pour animaux, aux impôts fonciers). Dans certains cas, notamment celui du travail sur commande et des loyers agricoles, on impute ces indices à partir d'autres séries, le relevé direct des prix n'étant pas effectué.

Depuis le début de 1992, on a amélioré et élargi les sources de données sur les prix dans le contexte d'un programme financé par Agriculture Canada. En vue d'accroître le nombre de détails géographiques et la pertinence des prix, on mène maintenant des enquêtes auprès des fournisseurs agricoles dans les domaines suivants: engrais, pesticides et carburants; fournitures de construction, petits outils et machinerie; pièces et réparations de véhicules. Dans presque tous les cas, ces relevés de prix remplacent des sources secondaires de moindre qualité. En outre, on a élargi les enquêtes sur la machinerie agricole et les semences.

Dans la mesure du possible, les prix utilisés dans l'IPEA sont les prix des transactions qui correspondent à ceux effectivement payés par les agriculteurs et tiennent compte notamment de toutes les taxes et subventions applicables. En raison des changements de sources, l'IPEA de 1992 et ceux des années subséquentes sont plus représentatifs du mouvement des prix réels des transactions.

## Sample design

The samples of prices collected for the FIFI are designed to provide an index reliable at the level of detail shown in this publication. For this purpose, the samples are stratified to ensure that no important type of price change is omitted from the index. In this process, pricing categories are identified and split into sub-groups as needed to represent the commodity group. Samples are chosen to represent the price movement of each sub-group. As the number of price observations at this fine level of detail is more limited the reliability of the price movement is less than in the higher-level indexes shown here. Nevertheless, in most cases these detailed indexes are available to interested users.

The same design considerations apply geographically. Part of the expansion in 1992 was to put provincial indexes on as sound a base as the Eastern and Western Canada indexes were previously and to allow calculation of provincial FIFI totals. This has been done for each of the provinces from Quebec west. For the Atlantic Provinces as a whole the indexes are based on the same depth of coverage, but the individual provincial indexes in that region are based on thinner samples.

## Timeliness and revisions

The indexes are published quarterly, about five weeks after the end of the reference quarter. Notice and summary figures are given in the Statistics Canada Daily Bulletin (Catalogue no. 11-001-XPB) and the data are available on CANSIM on that date. This publication is distributed about three weeks later.

In each quarter, indexes for the preceding quarter are subject to revision. Also, with the publication of the first quarter figure for each year, indexes for the preceding two years are subject to revision. These revisions mainly affect those indexes which are estimated in whole or part on annual data (property taxes, farm rent and interest).

## Data availability

All publishable indexes are on CANSIM. Matrices 2050 to 2063 include more than 100 provincial or regional indexes covering more detail than is included in this publication. Matrices 550 to 582 include sub-provincial indexes for some items. A table showing which CANSIM matrices apply to which provinces is in Appendix 3.

Alternatively, users may get the additional detail from Prices Division.

In addition to index numbers the surveys of prices of fertilizers, pesticides and fuels, begun in 1992, provide estimates of average prices in different parts of the country, at different times of the year. These data may serve other needs than those satisfied by the time index series. Interested users should contact Prices Division. The average prices are also on Matrices 550 to 582.

## Conception de l'échantillon

Les échantillons de prix relevés pour l'IPEA doivent permettre le calcul d'un indice fiable au niveau d'agrégation de la présente publication. À cette fin, les échantillons sont stratifiés pour faire en sorte qu'aucun type important de variation de prix ne soit omis de l'indice. À ce stade, on détermine les catégories de prix et on les répartit en sous-groupes au besoin pour représenter le groupe de produits. On sélectionne des échantillons pour illustrer les mouvements de prix dans chaque sous-groupe. Les observations de prix à ce niveau d'agrégation étant plus limitées, la fiabilité du mouvement des prix est donc inférieure à celle des indices de haut niveau. Néanmoins, dans la plupart des cas, les utilisateurs intéressés peuvent se procurer ces indices détaillés.

Les mêmes considérations relatives à la conception s'appliquent au niveau géographique. L'élargissement de 1992 consistait notamment à établir les indices provinciaux sur une base aussi solide que ne l'était antérieurement celle des indices de l'Est et de l'Ouest du Canada et à permettre le calcul des totaux provinciaux de l'IPEA. Ce qui a été fait pour chacune des provinces à l'ouest du Québec. Pour ce qui est des indices d'ensemble des provinces de l'Atlantique, la couverture est tout aussi étendue mais les indices provinciaux individuels de cette région sont fondés sur des échantillons moins grands.

## Actualité des données et révisions

Les indices sont diffusés sur une base trimestrielle, environ cinq semaines après la fin du trimestre de référence. L'avis et le résumé paraissent dans Le Quotidien de Statistique Canada (n° 11-001-XPB au catalogue) et les données sont versées dans CANSIM le même jour. La présente publication est diffusée environ trois semaines plus tard.

À chaque trimestre, les indices du trimestre précédent font l'objet d'une révision. En outre, la révision des indices des deux années précédentes coïncide avec la diffusion des chiffres du premier trimestre de chaque année. Les révisions s'appliquent surtout aux indices estimés, intégralement ou partiellement, à partir des données annuelles (impôts fonciers, loyer agricole et intérêt).

## Disponibilité des données

Tous les index qui peuvent être diffusés sont stockés dans CANSIM. Les matrices 2050 à 2063 contiennent plus de 100 indices provinciaux ou régionaux plus détaillés que la présente publication. Les matrices 550 à 582 comprennent les indices infra-provinciaux de certains articles. Vous trouverez à l'annexe 3 un tableau qui indique à quelle province correspondent les matrices de CANSIM.

Comme alternative, les utilisateurs peuvent obtenir des détails additionnels en s'adressant à la Division des prix.

Outre les chiffres des indices, les enquêtes sur les prix des engrains, des pesticides et des carburants, qui ont été mises en oeuvre en 1992, fournissent des estimations des prix moyens dans les différentes régions du pays, à diverses époques de l'année. Ces données peuvent répondre à des besoins autres que ceux qui sont comblés par la série des indices chronologiques. Les intéressés doivent communiquer avec la Division des prix. Les prix moyens sont également indiqués dans les matrices 550 à 582.

**For further information**

For data only, please contact the information unit at (613) 951-9606 or any regional office. For further information on concepts and methods, contact Vaclav Krabicka at (613) 951-3342. The addresses are on the inside front cover of this book.

**Renseignements additionnels**

Pour obtenir des données, veuillez communiquer avec la Sous-section de l'information et de l'analyse courante (613) 951-3350 ou avec n'importe quel bureau régional. Pour avoir plus de renseignements sur les concepts et les méthodes, vous êtes priés de vous adresser à Vaclav Krabicka au (613) 951-3342. Les adresses figurent dans la couverture avant intérieure de la présente publication.

## Your essential tool for understanding agriculture in Canada

**W**

hatever your interest in agriculture, the Census of Agriculture is your **Key Information Source** at Canada, provincial and small-area levels.

### Census of Agriculture products and services are on track with your needs.

- Use **CUSTOM SERVICES** — such as custom tabulations and thematic maps — to gain unique insight *and* the competitive advantage. For information, call toll-free 1-800-465-1991 or (613) 951-2889.
- For speed and flexibility, key into the Census of Agriculture **CD-ROM** for all farm and farm operator variables.
- Look to **PUBLICATIONS** for easy-to-read tables and graphics plus straightforward analysis. The series includes *Historical Overview of Canadian Agriculture*, *Agricultural Profiles (Canada and provinces)*, *Profile of Canadian Farm Operators* and *Canadian Agriculture at a Glance*.

### Get the complete picture with the 1996 Census of Agriculture

To order the CD-ROM, call toll-free 1-800-465-1991 or (613) 951-2889.

To order publications, write to Statistics Canada, Operations and Integration Division. Circulation Management, 120 Parkdale Ave., Ottawa, Ontario, K1A 0T6, or contact the nearest Statistics Canada Reference Centre listed in this publication. If more convenient, fax your publications order to (613) 951-1584 or call toll-free 1-800-267-6677 and use your VISA or MasterCard. Via Internet: [order@statcan.ca](mailto:order@statcan.ca)

## Voici l'outil essentiel pour la personne désireuse de comprendre l'agriculture canadienne

**P**eu importe la nature de votre intérêt dans le domaine de l'agriculture, le Recensement de l'agriculture est la **principale source d'information** à l'échelle du Canada, des provinces et des régions.

### Des produits et services qui répondent à vos besoins.

- Utilisez nos **SERVICES PERSONNALISÉS** — par exemple les totalisations spéciales et les cartes thématiques — pour obtenir des renseignements exclusifs et avoir un avantage sur vos concurrents. Pour en savoir plus, téléphonez sans frais au 1-800-465-1991 ou au (613) 951-2889.
- Pour la rapidité et la souplesse, introduisez le **CD-ROM** du Recensement de l'agriculture pour avoir accès à toutes les variables des fermes et aux caractéristiques des exploitants agricoles.
- Consultez les **PUBLICATIONS** pour trouver des tableaux et des graphiques faciles à lire et des analyses précises. La série comprend les publications suivantes : *Aperçu historique de l'agriculture canadienne*, *Profils agricoles (Canada et provinces)*, *Profil des exploitants agricoles canadiens* et *Un coup d'œil sur l'agriculture canadienne*.

### Pour un tour d'horizon, ayez recours aux données du Recensement de l'agriculture de 1996

Pour commander le CD-ROM, téléphonez au 1-800-465-1991 ou au (613) 951-2889.

Pour commander les publications, écrivez à Statistique Canada, Division des opérations et de l'intégration, Direction de la circulation, 120, av. Parkdale, Ottawa (Ontario) K1A 0T6, ou adressez-vous au centre des services-conseils de Statistique Canada le plus proche de chez vous et dont la liste figure dans cette publication. Vous pouvez aussi envoyer votre commande par télécopieur, au (613) 951-1584, ou téléphoner sans frais au 1-800-267-6677 et donner votre numéro de carte VISA ou MasterCard.
