Travel Between Canada and the United States

October, 1956

1. Highway Traffic - October, 1956

The volume of highway traffic crossing the border between Canada and the United States was 6 per cent heavier in October than in the corresponding month of last year. Total border crossings into Canada numbered 1,433,000 compared with 1,348,200 in October 1955, a gain of approximately 84,800 vehicles. Aggregate crossings were made up of 688,200 foreign vehicles and 744,800 vehicles registered in Canada. There was an increase of 5 per cent in the number of foreign vehicles entering Canada and close to 8 per cent in the number of Canadian vehicles returning. Cumulative data for the first ten months show a gain of between 8 and 9 per cent in volume of traffic crossing the border into Canada. There was an advance of 5 per cent in the number of foreign vehicles entering Canada during the period and 13 per cent in the number of Canadian vehicles returning.

Foreign Vehicles

Entries of foreign vehicles advanced some 31,300 units when compared with the same month of 1956. Non-resident traffic was comprised of 164,700 entries on travellers' vehicle permits, 482,000 non-permit or local entries and 41,500 commercial vehicles.

The volume of traffic entering Canada on travellers' vehicle permits declined nearly 2 per cent or some 2,900 crossings when compared with October 1955. Cumulative entries for the first ten months of 1956 were 2 per cent lower than the same period of last year, the decrease amounting to 55,500 crossings.

Entries of non-permit or local traffic advanced 5 per cent for the month of October and 7 per cent during the first ten months of 1956. The number of crossings by foreign commercial vehicles increased 37 per cent in October and 27 per cent in the cumulative period.

Canadian Vehicles

Re-entries of vehicles registered in Canada showed an increase of some 53,500 when compared with October of last year. Returning Canadian vehicles were comprised of 130,200 units abroad more than 24 hours, 556,800 vehicles abroad for 24 hours or less and 57,800 commercial vehicles.

The volume of long-term Canadian traffic abroad more than 24 hours showed little change from the previous year, the increase amounting to some 500 crossings. Cumulative data for the first ten months show a gain of between 7 and 8 per cent during the period.

Short-term traffic abroad 24 hours or less advanced 9 per cent in October and 14 per cent in the first ten months. Crossings of commercial vehicles registered in Canada were 11 per cent heavier in October and 15 per cent higher for the cumulative period.

11. Traffic by Long Distance Common Carrier-September, 1956

Traffic by rail, through bus, boat and plane advanced between 1 and 2 per cent when compared with September 1955. There was an increase of 7 per cent in the number of foreign visitors entering Canada by these means of transportation and a decline of 4 per cent in the number of Canadians returning from visits to the United States during the month. Cumulative data from January to September inclusive, show a gain of 2 per cent over the previous year in the number of persons travelling by the above mentioned types of transportation.

Foreign Travellers

The number of non-residents entering Canada by common carrier advanced from 139,100 in September 1955 to 148,800 in September of this year or approximately 9,700 visits. Entries by rail were 1 per cent lower but all other types recorded a gain over the previous year. An increase of nearly 6 per cent appeared in the number of entries by bus and plane and a gain of close to 16 per cent in the number arriving by boat.

Cumulative data for the first three quarters of the year show an increase of between 1 and 2 per cent. The gain in the number of visitors arriving by boat and plane was sufficient to counter declines in the number using rail and bus transportation, leaving a net gain for all types of common carrier.

Canadian Travellers

Residents of Canada returning from visits to the United States in September numbered 120,000 compared with 125,400 in the same month of last year, a decline of 5,400 visits. Gains recorded in the number of re-entries by rail and plane were not sufficient to counter the decrease in the number of visitors returning by bus and boat.

Cumulative data for the first nine months of 1956 show a gain of 2 per cent in the number of Canadians returning from visits to the United States. Re-entries by plane were between 20 and 21 per cent heavier than the same period of 1955 and re-entries by rail were nearly 3 per cent higher than last year. A decline of 6 per cent appeared in the number of visitors returning from the United States by bus and boat during the period.

STATEMENT BY PORTS OF HIGHWAY TRAFFIC AT CANADIAN BORDER POINTS

OCTOBER

1956
