Dominion Statistician: Chief, Finance Statistics Branch: R. H. Coats, LL.D., F.R.S.C., Colonel J. R. Munro.

#### PUBLIC DEET OF CANADA

Statistics of the aggregate public debt of Canada are herewith presented, those for the Dominion Government covering its fiscal year ended March 31st, 1936, while those of the provincial governments represent their respective fiscal years ending in 1936 as follows: Prince Edward Island Dec. 31st, Mova Scotia Nov. 30th, New Brunswick Oct. 31st, Quebec June 30th, Ontario, Alberta and British Columbia Mar. 31st, Manitoba and Saskatchewan April 30th. The debt of Municipal Governments is the liability for the year 1935. This is the latest available information for municipal debt.

The Aggregate Public Debt of Canada. - Table 1 gives in summary form the total aggregate net direct debt of the Dominion, Provincial and Municipal governments, amounting to \$5.535,744,794, with guaranteed indirect debt of the Dominion and Provincial governments totalling \$1,503,346,744. There are no statistics available as to indirect debt of municipalities in Canada. The grand aggregate of direct and indirect debt of the Dominion and Provincial governments for 1936 with direct debt of municipalities for 1935 (latest available) amounted to \$7,039,091,538.

With regard to the items summarized in Table 1, explanatory notes and details are as follows:

Dominion net direct debt, notes on page 1 and details, Table 2.

Dominion funded debt, classified notes on page 1 and details, Table 3.

Dominion guaranteed or indirect debt, notes on page 2 and details, Table 4.

Provincial net direct liabilities, notes on page 2 and details, Table 5.

Provincial indirect liabilities, notes on page 13 and details, Table 5.

Direct liabilities of municipalities less sinking funds, etc., notes on page 2 and details Table 6.

Net Direct Debt of Dominion Government. - This is the first item shown in the Summary Table 1. It is arrived at by taking the gross liabilities less sinking funds offsetting the funded debt payable in London and then deducting "Active Assets" as follows: cash assets; gold bullion account; advances to provinces for housing loans and unemployment relief. harbour commissions and Canadian Farm Loan Board; advances to foreign governments; railway accounts; soldier and general land settlement and other miscellaneous current accounts. A detailed analysis of net debt will be found in Table 2, which is a reproduction of the Balance Sheet of the Dominion Government as at March 31, 1936.

Funded Debt of the Dominion Government. - The analysis of this debt on March 31st, 1936 will be found in Table 3, showing the portion payable in Canada, in Canada and New York, in London, and in New York. Sinking funds are deducted from the gross funded debt and the net amount constitutes net funded debt as shown under liabilities in Table 2. In any discussion of payments of principal and interest it is necessary to use Table 3 because of the varying rates of interest and exchange. It will be readily understood that fluctuations in the rate of exchange are constantly taking place and in consequence payment of debt and interest thereon, payable elsewhere than in Canada, must be governed by the rate of exchange current on the day that such debt falls due, for instance payment of debt in New York on March 31st, 1936 was practically at par and in London it was at a premium of about eleven cents on the pound sterling, while on March 31st, 1937 the New York rate was practically par and the rate in London was at a premium of about two cents on the pound sterling.

Guaranteed Debt of the Dominion Government. - Table 4 gives the details of this debt showing where principal and interest are payable.

Certain interest rates run as high as 6 to 62 per cent so that refunding at lower rates of interest should be possible when existing contracts expire.

It will be seen that some \$216,000,000 of railway securities is guaranteed as to interest only. In other words the government can never be called upon to pay the principal sum.

Debts of Provincial Governments. - Table 5 analyses the public debt of provincial governments for the year 1936. In it will be found details of the total net direct liabilities as given in summary Table 1.

The total gross bonded debt less sinking funds offsetting same gives the net bonded or detenture debt as \$1.320.691.244. To this are added the treasury bills outstanding totalling \$232.928.298 making the net funded debt \$1,553,619.542. To this sum must be added the Other Direct Liabilities made up of loans, savings deposits, accounts payable, bank overdrafts, etc., amounting to \$180.100.165, giving a grand total of direct liabilities (less sinking funds above mentioned) \$1.733.719.707. There is a further offset to these direct liabilities consisting of available or realizable assets amounting to \$649.612.505. Taking this latter sum from the total direct liabilities leaves the net direct liabilities at \$1.084,107,202.

In addition to the direct liabilities there were also indirect or contingent liabilities in each province with the exception of Prince Edward Island. These liabilities arise largely out of guarantees of railway, municipal and other obligations. The totals for each province are shown on Table 5.

Descriptive notes on both direct and indirect provincial liabilities will be found immediately following Table 5.

Gross Bonded Debt and Total Mirect Liabilities of All Municipalities. - There are over 4,300 municipalities in Canada, the great majority of which have certain rights of borrowing money as well as of taxing the people to pay back the principal and interest of any loans incurred. The Canadian cities in particular have exercised their borrowing priveleges as their gross bonded indebtedness in 1935 represented \$1,103,283,809 out of a grand total for all municipalities of \$1,446,120,276.

Table 6 gives an analysis of Municipal Debt in Canada.

There are no statistics obtainable to give a complete statement of available or realizable assets of municipalities throughout Canada, nor is there any information concerning indirect liabilities.

The total direct liabilities less sinking funds are shown for all municipalities in five provinces but incomplete figures are given in the other four provinces, the whole totalling \$1,445,537.075.

In addition to the available assets shown most of the provinces had partially secured loans and advances in connection with Unemployment Relief, while Alberta had partially secured Loans and Advances, and Sale of Contracts for School Lands Fund amounting to over \$12,000,000 and British Columbia had partially secured Projects, Loans and Advances amounting to over \$60,000,000.

<sup>2/</sup> Ontario does not consider Dominion Debt Account; Common School Fund; Quebec Turnpike; and, Plant, Live Stock and Equipment, "available assets".

#### NOTES ON DIRECT LIABILITIES OF PROVINCIAL GOVERNMENTS IN CANADA

(a) Direct Revenue-Producing Debt. - Of the total bonded debt of the provinces, a considerable portion is due to the investment in, or loans to, public utilities, boards and commissions, which are of a revenue-producing character and which reimburse the provinces by annual interest payments on the money so invested. In Table 5 the column dealing with "Available or Realizable Assets" includes these investments. The approximate values placed by the various provincial governments (with the exception of British Columbia) on some of such principal revenue-producing investments is evidenced in the following table. British Columbia considers many similar investments as subject to realization and classifies them under non-revenue bearing assets, the values therefore have not been shown in Table 5 but these Projects, Loans and Advances, largely the P.G.E. Railway, amounted to over \$60,000,000.

|  | -   |             |

(b) Indirect Revenue-Producing Debt. - In addition to the direct revenue-producing debt of utilities, boards and commissions there is a large portion of provincial debt which can be considered as producing revenue indirectly, namely, debentures to meet highway expenditure. While there is no direct revenue from the highways and roads, their construction nevertheless stimulates industries, opens up new territory, and undoubtedly encourages tourist traffic.

The total revenue from the taxation of gasolene together with that from the licensing of motor vehicles was \$47,600.000 for the provincial fiscal years ending in 1934, while the motor tourist expenditure in Canada was estimated at slightly over \$202,000,000 in 1935.

#### NOTES ON INDIRECT LIABILITIES OF PROVINCIAL GOVERNMENTS FOR THE YEAR 1936.

All provincial governments with the exception of Prince Edward Island have what are known as indirect or contingent liabilities. They constitute government guarantees for loans to or bonds issued by railways, municipalities, corporations, or other institutions. In the event of non-payment of this debt by the companies issuing the bonds provincial governments are liable. There is generally, however, good security and the liabilities guaranteed are never included in the balance sheet with direct provincial debt. The following notes describe the nature of the bonds guaranteed by each individual province.

Mova Scotia. - Loans to the municipalities of Inverness and Cape Breton; town of Canso; Bonds for Halifax Exhibition; Loans to Locarno, Stormont and Renada Gold Mines and United Goldfields, Accounts Payable of Inverness Coal Mines; Loans to Fundy Coal Co., Co-operative Fruit Growers Finance Co.; Farm Settlement Loan and Lake Thomas Syndicate, also guarantees of uncompleted contracts - New Annex Building.

New Brunswick. - Bonds, of the Town of Campbellton, Railway Companies, New Brunswick Cold Storage, Farmers' Co-operative Creamery, and Roman Catholic Hospital.

Quebec. - Debenture and Loan Guarantees to Municipalities of Three Rivers, Terrebonne, Ste. Agathe, Riviere du Loup, Grand'Mere; Hull Court House; Technical Schools in Hull, Montreal, Quebec and Three Rivers; Corporation of Lake St. Louis Bridge; Bank Loans to Quebec Liquor Commission; Cooperative Federee de Quebec; Producteurs de sucre d'erable; Cie de Conserves; Societe Cooperative Agricole de Grondines. Portneuf; Valleyfield Canning Co., and Societe Cooperative de Tabac de Farnham and Societe Cooperative des Jardiniere Maraichers.

Ontario. - Bonds or Debentures of the municipalities of Teck, Capreol, Cochrane, Englehart, Haileybury, Kapuskasing, Matheson, Timmins, Sturgeon Falls, Sudbury; Hydro Electric Power Commission (\$98,000,000); T. & N.O. and Sandwich, Windsor and Amherstburgh Hailways; Niagara and Presqu'le Park Commission; Toronto and Western Universities; Municipal Housing Act in certain cities and towns; Department of Education Act and Amendments; Packers and Dairy Co-operative Associations.

Manitoba. - Guarantees of Principal and Interest of Municipalities, Canadian Northern Railway and Farm Loans Association.

In addition, interest only is guaranteed on certain municipal debentures and rentals of leased railways to Northern Pacific Railway Co., as well as Provincial Savings Office liability to Depositors.

Saskatchewan. - Guarantees to principal and interest of Railway Debentures, Drainage District Debentures, Advancement of Agricultural and Educational Interests, Saskatchewan Power Commission (operating account); Superannuation Account (Interest accrued) and Dominion Government Seed Grain Advances.

Alberta. - Guaranteed Bonds and Debentures of Irrigation and Drainage Districts and University of Alberta; guaranteed Bank Loans of Co-operative Credit Societies, Hail Insurance Board, Irrigation Matricts, Marketing Association, Cities of Calgary and Medicine Hat and Miscellaneous.

British Columbia. - Guarantees Canadian Northern Pacific Railway Co. (\$40,157,523) new operated by Canadian National Railway (British Columbia Government holds first mortgage on all Canadian Northern Pacific lines within Province); Pacific Great Eastern Railway Co. (\$20,160,000); Vancouver and District Joint Sewerage and Drainage Board; Agricultural Credit Commission; West Nicomem Dyking District. Sinking funds have been established in connection with the four last named guarantees. There is also a small guarantee pursuant to "Department of Industries Act, 1919".

TABLE 6. - DEBT OF ALL CANADIAN MUNICIPALITIES BY PROVINCES, YEAR 1935.
