PREFACE

An extensive array of hospital statistics relating to facilities available, services provided, personnel employed, educational facilities and finances of general and allied special hospitals, mental institutions and tuberculosis sanatoria operating in Canada is prepared by the Hospitals Section of the Health Division of Statistics Canada. A series of one quarterly and eleven annual reports are published, to provide users with a comprehensive presentation of these statistics.

Statistics on hospitals have been compiled by Statistics Canada since 1931 and have since been published in varying degrees of detail. The current list of publications specifically related to hospitals is as follows:¹

	Catalogue
Hospital Indicators – Indicateurs des hôpitaux – Q. – T.	83 - 001
List of Canadian Hospitals and Related Institutions – Liste des hôpitaux canadiens et des établissements et installations connexes	83 - 201
Volume I – Hospital Beds – Lits d'hôpitaux	83 - 210
Volume II – Hospital Services – Services hospitaliers	83 - 211
Volume III – Hospital Personnel – Personnel hospitalier	83 - 212
Volume IV – Balance Sheets – Bilans hospitaliers	83 - 213
Volume V – Hospital Revenues – Revenus hospitaliers	83 - 214
Volume VI – Hospital Expenditures – Dépenses hospitalières	83 - 215
Volume VII – Hospital Indicators – Indicateurs hospitaliers	83 - 216
Preliminary Annual Report – Rapport annuel préliminaire	83 - 217
Mental Health Statistics, Volume III, Institutional Facilities, Services and Finances – La statistique de l'hygiène mentale, Volume III, Installations, services et finances des institutions	83 - 205
Tuberculosis Statistics, Volume II, Institutional Facilities, Services and Finances – Statistique de la tuberculose, Volume II, Installations, services et finances des institutions	83 - 207

Statistics Canada wishes to express its indebtedness to the individual hospitals across the nation which have prepared and submitted data for inclusion in this national statistical program; to the provincial hospital plan authorities for the collection of the data, and; to the provincial hospital associations and the Canadian Hospital Association in their promotion of uniform accounting and recording practices.

The reader's attention is drawn to the fact that not all of the collected and tabulated data appear in published form. Inquiries with respect to data of this nature or to data contained in this publication are invited and should be forwarded to the Hospitals Section of the Health Division of Statistics Canada.

¹ In addition to these publications, the Health Manpower Section of the Health Division prepares and publishes a number of annual and occasional publications dealing with health manpower.

SYLVIA OSTRY,
Chief Statistician of Canada.

PRÉFACE

La Section des hôpitaux de la Division de la santé de Statistique Canada prépare un grand nombre de statistiques sur les installations disponibles, les services fournis, le personnel employé, l'équipement didactique et la situation financière des hôpitaux généraux et spéciaux divers et des hôpitaux pour malades mentaux et pour tuberculeux du Canada. Statistique Canada publie onze bulletins annuels et une série de bulletins trimestriels afin d'offrir aux utilisateurs des statistiques complètes dans ce domaine.

Depuis 1931, Statistique Canada recueille les statistiques sur les hôpitaux et les présente dans des publications plus ou moins détaillées. Voici la liste des publications sur les hôpitaux actuellement disponibles¹ :

Statistique Canada remercie les hôpitaux canadiens qui ont préparé et présenté les données pour qu'on puisse les intégrer dans le cadre du programme national de statistique; les administrateurs provinciaux de l'assurance-hospitalisation pour la collecte des données; les associations hospitalières provinciales et l'Association canadienne des hôpitaux pour leur effort d'uniformisation de la comptabilité et de la tenue des registres.

Nous attirons l'attention du lecteur sur le fait que Statistique Canada ne publie pas toutes les données recueillies et totalisées. Pour tout renseignement sur les données inédites ou sur les données de ce bulletin, s'adresser à la Section des hôpitaux de la Division de la santé, Statistique Canada.

¹ En plus de ces bulletins, la Section de la main-d'oeuvre de la Division de la santé rédige et publie un certain nombre de publications annuelles et hors série sur le personnel sanitaire.

Le statisticien en chef du Canada,
SYLVIA OSTRY.

HOSPITAL CLASSIFICATION CHART 1972
GRAPHIQUE DE LA CLASSIFICATION DES HÔPITAUX 1972

(1) Includes orthopaedic, maternity, neurological, cancer, nursing stations and outpost hospitals. - Comprend les hôpitaux d'orthopédie, maternité, neurologie et du cancer, les postes de soins infirmiers et les hôpitaux étoignés.

(2) Includes nursing homes temporarily approved for chronic care. - Comprend les maisons de repos qui figurent provisoirement pour soins chroniques.

GLOSSARY

Hospital

An institution which is operated for the medical, surgical and/or obstetrical care of in-patients, and which is licensed or approved as a hospital by the federal and/or a provincial government, or by a municipality duly authorized under the laws of the province. Specifically excluded are institutions primarily for tuberculosis, or psychiatric disorders.

Type of Hospital

Public Hospital

Recognized by the province as a “public hospital” which is not operated for profit and accepts all patients regardless of ability to pay.

Private Hospital

Recognized by the province as a “private hospital” which generally restricts its admissions to patients paying for the care provided at rates determined by the management.

Federal Hospital

A hospital owned and operated by the Government of Canada; operation will either be by Health and Welfare Canada, the Department of National Defence, or the Department of Veterans Affairs.

Type of Service

General

No long-term units – Refers to a hospital which provides primarily for the diagnosis and short-term treatment of patients for a wide range of diseases or injuries. The services of a general hospital are not restricted to a specific age group or sex.

With long-term units – Refers to a hospital with a group of beds or rooms or a separate wing or building which is recognized as a distinct and separate treatment unit of the hospital. Admission normally requires formal admission procedures even when transferred from another part of the hospital.

Full medical teaching hospital – Applies to a hospital which provides medical education programs, approved by the appropriate authorities, for the major (not only elective) clinical instruction in at least the medical disciplines of internal medicine and general surgery to undergraduate medical students in their final two years.

TERMINOLOGIE

Hôpital

Établissement donnant des soins médicaux, chirurgicaux ou obstétriques aux hospitalisés et détenant un permis ou une approbation du gouvernement fédéral ou provincial ou d'une municipalité autorisée à le faire par les lois d'une province. Ne comprend pas les établissements destinés avant tout au traitement de la tuberculose ou des troubles psychiatriques.

Genre d'hôpital

Hôpital public

Hôpital reconnu comme tel par la province et établi dans un but non lucratif; il accepte tous les malades sans égard à leur capacité de payer.

Hôpital privé

Hôpital reconnu comme tel par la province et où ne sont admis en règle générale que les malades qui paient pour les soins dispensés aux tarifs fixés par la direction.

Hôpital fédéral

Hôpital appartenant au gouvernement du Canada et dirigé par lui; l'administration relève soit de la Santé et Bien-être social Canada, soit du ministère de la Défense nationale, ou du ministère des Anciens combattants.

Genre de service

Hôpital général

Sans unités de soins à long terme – S'applique à un hôpital qui se spécialise dans le diagnostic et le traitement à court terme d'un grand nombre de maladies et de traumatismes. Les services d'un hôpital général ne sont pas restreints à un groupe d'âge ou à un sexe particulier.

Avec unités de soins à long terme – S'applique à un hôpital comprenant un groupe de lits ou de chambres ou une aile ou un bâtiment séparé qui est considéré comme quartier de traitement distinct. Pour y être admis, il faut en général remplir les formalités de demande d'admission, même s'il s'agit d'un transfert d'un autre quartier de l'hôpital.

Hôpital d'enseignement médical complet – Hôpital qui offre des programmes d'enseignement médical, dûment approuvés par les autorités compétentes, pour la formation clinique des étudiants effectuant leurs deux dernières années d'études dans les disciplines majeures (non pas seulement facultatives), dont la médecine interne et la chirurgie générale.

Partial medical teaching hospital – Applies to a hospital which provides postgraduate medical education programs, approved by the appropriate authorities, in at least one residency program in a medical specialty.

Allied Special Hospitals

Includes children's, convalescent and/or rehabilitation, chronic and/or extended care and other hospitals.

Children's – A hospital which provides primarily for the diagnosis and short-term treatment of paediatric patients, generally 14 years of age and under.

Convalescent and/or rehabilitation – A hospital whose program is directed primarily to the recovery and rehabilitative phase of treatment for patients disabled by illness or injury.

Chronic and/or extended care – A hospital which provides primarily for the prolonged treatment of patients with chronic and long-term conditions.

Other – A hospital which provides primarily for the treatment of a limited range of diseases or injuries, or which restricts admissions to a particular age group or sex. Examples of such specified categories may include orthopaedic, maternity, neurological, cancer hospitals. A hospital which provides a combination of various types of service and cannot be classified in any one of the foregoing categories is included in this group. "Other" also includes nursing stations and outpost hospitals.

Hôpital d'enseignement médical partiel – Hôpital qui offre des programmes réguliers d'enseignement, dûment approuvés par les autorités compétentes, aux diplômés en médecine dans au moins un programme de résidence d'une spécialité médicale.

Hôpitaux spéciaux divers

Ces hôpitaux comprennent les institutions de maladies chroniques, de convalescence et (ou) de réadaptation, pour malades chroniques et (ou) soins prolongés et les autres hôpitaux.

Hôpital pédiatrique -- Hôpital qui se spécialise dans le diagnostic et le traitement à court terme des maladies chez les enfants, âgés généralement de 14 ans ou moins.

Convalescence et (ou) réadaptation – Hôpital qui s'occupe surtout du rétablissement et de la réadaptation des personnes rendues invalides par suite d'une maladie ou d'un traumatisme.

Maladies chroniques et (ou) soins prolongés
Hôpital qui se spécialise dans le traitement des malades souffrant de maladies chroniques ou dont l'état requiert des soins prolongés.

Autres – Hôpital qui se spécialise dans le traitement d'un nombre restreint de maladies ou de traumatismes, ou qui n'admet que les malades d'un groupe d'âge ou d'un sexe particulier (par ex. orthopédie, maternité, neurologie, cancer). L'hôpital qui offre divers genres de services et qui ne peut être classé dans aucune des catégories susmentionnées est compris dans ce groupe. "Autres" comprend en outre les postes de soins infirmiers et les hôpitaux éloignés.

Type of Operation

Lay

Applies to a voluntary hospital, operated by a voluntary lay body (under provincial laws and regulations).

Religious

Applies to a voluntary hospital operated by a religious organization (under provincial laws and regulations).

Red Cross

Applies to a voluntary hospital operated by the Canadian Red Cross Society or one of the provincial branches.

Genre d'opération

Société laïque

Désigne un hôpital dirigé par un organisme bénévole laïque (en conformité des lois et règlements de la province).

Organisme religieux

Désigne un hôpital de création bénévole dirigé par une organisation religieuse (en conformité des lois et règlements de la province).

Croix-rouge

Désigne un hôpital de création bénévole dirigé par la société canadienne de la Croix-rouge ou par une de ses sections provinciales.

Municipal

Applies to a hospital operated by a city, county, municipality, or other municipal government, or by a union or combination of municipal governments, or by a district or other which is empowered to levy taxes or to otherwise operate after the fashion of a municipality. Municipal operation would be indicated if the members of the governing body of the hospital are appointed, elected or otherwise controlled by the municipal body or electorate.

Provincial

Applies to a hospital operated by a branch division, or department of a provincial or territorial government, or by a provincially-controlled institution such as a university.

Federal

Applies to a hospital operated by the Government of Canada or a Crown Corporation. Operation will generally be conducted by one of the departments or agencies, e.g., Health and Welfare Canada, the Department of National Defence, or the Department of Veterans Affairs.

Industrial

Applies to a hospital operated by an industrial or commercial enterprise to provide care to employees only, or to employees and other members of the industrial community.

Proprietary

Applies to a hospital operated by an individual or group on a profit-making basis.

Type of Unit

Short-term

Those units provided for patients who at the time of admission require extensive diagnosis and treatment services and/or skilled nursing care and comprehensive medical attention.

Long-term

Convalescent and/or rehabilitation – Refers to units providing for the care and treatment of patients:

- (a) who have passed the acute or emergency stage and whose condition can be improved by skilled nursing care and medical attention in a hospital, and/or
- (b) who have disabling conditions which may be improved by rehabilitation treatment in hospital.

Municipalité

Désigne un hôpital dirigé par l'un des organismes suivants, soit: une ville, un village, un comté, une municipalité ou autre administration municipale, une union ou association de municipalités ou un district ou autre corps constitué autorisé à lever des impôts ou à agir comme une municipalité. L'exploitation peut être considérée comme municipale si les membres du conseil d'administration de l'hôpital sont nommés, élus ou autrement subordonnés à l'autorité municipale ou à l'électorat.

Gouvernement provincial

Désigne un hôpital dirigé par un département, par une division ou par un ministère d'un gouvernement provincial ou territorial ou par une institution relevant de la province, une université par exemple.

Gouvernement fédéral

Désigne un hôpital dirigé par le gouvernement du Canada ou par une société de la Couronne. La direction en est ordinairement confiée à un ministère ou organisme, par exemple, Santé et Bien-être social Canada, soit du ministère de la Défense nationale, ou du ministère des Anciens combattants.

Industriel

Désigne un hôpital dirigé par une entreprise industrielle ou commerciale en vue de dispenser des soins hospitaliers à ses employés seulement ou à toute la localité industrielle.

Organisme à but lucratif

Désigne un hôpital dirigé par un particulier ou groupe de particuliers sur une base lucrative.

Genre d'unité

Maladies aiguës

Unités où sont traités les malades dont l'état, au moment de leur admission, requiert des services intensifs de diagnostic et de traitement et (ou) des soins infirmiers spécialisés et une attention médicale soutenue.

Maladies de longue durée

Convalescence et (ou) réadaptation – Désigne les unités servant aux soins et au traitement des malades:

- (a) qui ont franchi le stade critique ou grave et dont l'état peut être amélioré par des soins infirmiers et médicaux spécialisés dans un hôpital, et (ou)
- (b) dont l'état d'impotence peut être amélioré par des traitements de réadaptation à l'hôpital.

Chronic and/or extended care – Refers to units providing for the care and treatment of patients suffering from chronic or long-term illnesses or conditions which require continued nursing care and medical attention in a hospital.

Other – Refers to long-term units which do not clearly fall under the foregoing categories.

Subject Matter Terminology

Rated Bed (Bassinets) Capacity

The number of beds and cribs (bassinets) which the hospital is designed to accommodate on the basis of established standards of floor area per bed (bassinets) as at December 31 of the reporting year.

Beds (Bassinets) Set Up

The number of beds and cribs (bassinets) actually set up in the hospital, and available for accommodation of in-patients at December 31, whether or not actually occupied by a patient at that time.

In-patient

A patient who is duly admitted to the hospital and to whom a bed, crib (bassinets) has been allocated (this excludes stillbirths as well as patients attending a day or night centre attached to the hospital).

Adults and children – All in-patients except newborn.

Newborn – An infant in-patient born alive in the hospital or postnatal newborn admitted with mother for maternal care.

Admission – The formal acceptance and reception of a person (including an infant born alive in the hospital) as an in-patient.

Discharge – The official departure from the hospital of a live in-patient.

Death – The cessation of life of an in-patient after admission and before discharge (excludes stillbirths).

Separation – The discharge or death of an in-patient.

Patient-day

The period of service to an in-patient between the census-taking hours on two successive days; the day of admission is counted as a patient-day but the day of separation is not.

Maladies chroniques et (ou) soins prolongés – Désigne les unités soignant les malades souffrant de maladies chroniques ou de longue durée, ou dont l'état requiert des soins infirmiers et médicaux continus dans un hôpital.

Autres – Désigne les unités qui n'entrent pas dans les catégories ci-dessus.

Glossaire des termes techniques

Capacité en lits (ou berceaux) théorique

Le nombre de lits (berceaux) d'adultes et d'enfants (nouveau-nés) que l'hôpital peut abriter au 31 décembre de l'année du rapport suivant les normes d'aire de parquet par lit (berceau).

Lits (berceaux) dressés

Nombre de lits (berceaux) d'adultes et d'enfants (nouveau-nés) installés dans l'hôpital et disponibles pour recevoir des malades hospitalisés au 31 décembre, qu'ils soient occupés ou non à ce moment-là.

Malade hospitalisé

Malade qui est réglementairement admis à l'hôpital et à qui un lit ou un berceau a été assigné. Cette définition ne comprend pas les mort-nés ni les malades admis à une clinique diurne ou nocturne.

Adultes et enfants – Tous les malades hospitalisés sauf les nouveau-nés.

Nouveau-né – Bébé né vivant à l'hôpital ou admis avec sa mère après la naissance pour recevoir des soins maternels.

Admission – Acceptation officielle et réception d'une personne en vue de l'hospitalisation (y compris un enfant né vivant à l'hôpital).

Sortie – Départ officiel de l'hôpital d'une personne vivante qui a été hospitalisée.

Décès – Fin de la vie d'un malade hospitalisé après son admission et avant sa sortie (sauf les mort-nés).

Départ – Sortie ou décès d'un malade hospitalisé.

Journée d'hospitalisation

Période de soins fournis à un hospitalisé entre les heures du recensement quotidien de deux jours consécutifs; le jour de l'admission compte comme journée d'hospitalisation, mais non le jour de la sortie.

Total Days' Stay

The accumulated patient-days since **admission**, of adults and children and newborn who were discharged from the hospital or who died in the hospital during the year, even if admitted in the previous year.

Patient-days During Year

The total volume of in-patient care, expressed in patient-days, of the hospital **during** year.

Average Patient Load

The average number of patients in hospital on any particular day expressed either on an individual or aggregate hospital basis.

Rated Bed Turnover

The number of adult and children admissions per rated bed (beds and cribs).

Percentage Occupancy

The number of actual patient-days recorded during the year expressed as a percentage of the potential patient-days in that year based either on rated bed capacity or actual beds set up.

Statistical Measurements

First Quartile (Q1) – That value where 25% of the hospitals have a ratio of this amount or less and 75% have a higher ratio.

Second Quartile (Q2) – That value where 50% of the hospitals have a ratio of this amount or less and 50% have a higher ratio.

Third Quartile (Q3) – That value where 75% of the hospitals have a ratio of this amount or less and 25% have a higher ratio.

Notes:

1. Medians are not presented in the tables of this publication unless there are three or more hospitals reporting data for the indicators to which they relate. Similarly, there must be eight or more reporting hospitals for the inclusion of first and third quartile values. No such limitations apply to the calculation of the mean.
2. Indicator values for hospitals located in the Yukon and Northwest Territories, notably Federal hospitals, do not appear as such in tabular presentations due to the constraints imposed by tabular planning requirements – these values, however, are implicit in the Canada total.

Durée du séjour

Journées d'hospitalisation accumulées depuis leur **admission**, des adultes, enfants et nouveau-nés qui sont sortis de l'hôpital ou y sont morts durant l'année, même si leur admission remonte à une année antérieure.

Journée d'hospitalisation au cours de l'année

Volume des soins dispensés **au cours** de l'année aux malades hospitalisés, en journées d'hospitalisation.

Nombre moyen de malades

Nombre moyen de malades à l'hôpital un jour donné, exprimé sur une base individuelle ou pour l'ensemble des hôpitaux.

Mouvement des malades par lit théorique

Nombre d'admissions d'adultes et d'enfants par lit théorique (lits et berceaux).

Taux d'occupation

Nombre de journées d'hospitalisation enregistrées au cours de l'année en pourcentage du potentiel d'hospitalisation durant cette même année, basé sur la capacité en lits théorique sur le nombre de lits dressés.

Mesures statistiques

Premier quartile (Q1) – Valeur où 25 % des hôpitaux ont une proportion de ce montant ou moins, et 75 % ont une proportion plus élevée.

Deuxième quartile (Q2) – Valeur où 50 % des hôpitaux ont une proportion de ce montant ou moins, et 50 % ont une proportion plus élevée; communément appelée médiane.

Troisième quartile (Q3) – Valeur où 75 % des hôpitaux ont une proportion de ce montant ou moins, et 25 % ont une proportion plus élevée.

Remarques:

1. Les tableaux de ce bulletin ne contiennent pas les médianes, à moins que trois hôpitaux ou plus ne fournissent des données sur les indicateurs en question. De même, pour qu'ils comprennent les premiers et les troisièmes quartiles, il faut que huit hôpitaux ou plus fournissent les données correspondantes. Le calcul de la moyenne ne fait toutefois pas l'objet de restrictions semblables.
2. Les indicateurs des hôpitaux situés au Yukon et dans les Territoires du Nord-Ouest, notamment ceux des hôpitaux fédéraux, n'apparaissent pas comme tels dans les tableaux à cause des exigences de la planification des tableaux; ces données sont toutefois comprises dans le total pour le Canada.

- . . . n'ayant pas lieu de figurer.
- néant ou zéro.
- - nombres infimes.
- P nombres provisoires.
- † nombres rectifiés.

INTRODUCTION

This publication presents statistical information pertaining to the utilization of hospital beds and movement of patients in Canadian general and allied special hospitals during the year 1972. While comprehensive coverage for mental institutions and tuberculosis sanatoria are presented in other annual publications,¹ limited data relating to these particular institutions have been included in Part I (General Tabular Presentation – 1972 – All Hospitals) in order to provide an aggregate portrait of the hospital industry.

This edition of the publication represents the fourth year in which data for this report have been derived from the revised Annual Return of Hospitals – Part I (HS-1, Facilities and Services).

The reader will note that an unabbreviated hospital classification stub qualifying the abbreviated stub used in the computerized tabulations is presented in the Glossary which appears in the preceding pages.

Three general footnotes applicable to the tables presented in this report should be observed at this time: firstly, data relating to private chronic hospitals in Ontario include both the approved and non-approved sections² of contract nursing homes and subsequently may slightly overstate chronic care activity; secondly, in a number of the tables presented here, some items of information are not shown for hospitals with less than 50 beds, due to the fact that a detailed information breakdown was frequently not available in hospitals of this bed size – this general notation is also applicable to other hospital categories which include hospitals with less than 50 beds, e.g., 1-99 beds, convalescent/rehabilitation, other, etc.; lastly, indicator values shown represent only those hospitals which were in operation for the entire year and which reported non-zero data for all component items constituting the specific indicators.

ALL GENERAL AND ALLIED SPECIAL HOSPITALS

Operating Hospitals

As at December 31, 1972, the total number of general and allied special hospitals in operation in Canada was 1,260. The rated bed capacity of these hospitals stood at 153,492 beds or 7.0 beds per 1,000 population.

¹ *Mental Health Statistics, Vol. III* (catalogue 83-205). *Tuberculosis Statistics, Vol. II* (Catalogue 83-207) available from the Publications Distribution Unit, Financial Control Section, Statistics Canada or from Information Canada, Ottawa.

² Of the 1,239 rated beds in contract nursing homes, 571 have been approved for chronic care.

Le présent bulletin contient des renseignements statistiques sur l'utilisation des lits d'hôpitaux et le mouvement des malades dans les hôpitaux généraux et spéciaux divers du Canada en 1972. D'autres bulletins annuels contiennent des données détaillées sur les hôpitaux pour malades mentaux et pour tuberculeux¹, les quelques données sur ces établissements ont été incluses dans la partie I (Présentation tabulaire générale – 1972 – ensemble des hôpitaux) en vue de donner une vue d'ensemble des hôpitaux.

Cette année, pour la quatrième fois, les données publiées dans ce bulletin sont extraites du Rapport d'activité des hôpitaux (révisé) partie I, (formule HS-1 – Installations et services).

On remarque que les abréviations utilisées dans les tableaux d'ordinateur sont expliquées dans le glossaire (voir pages précédentes).

Il convient de noter à ce point trois renvois généraux qui se rapportent aux tableaux présentés dans ce bulletin: premièrement, les données se rapportant aux hôpitaux privés pour maladies chroniques de l'Ontario s'appliquent à la fois aux sections approuvées ou non approuvées² des foyers pour soins chroniques et par conséquent exagèrent quelque peu les activités dans ces établissements; deuxièmement, certains tableaux ne donnent pas le détail des renseignements pour les hôpitaux de moins de 50 lits, étant donné que cette information n'était pas disponible ou requise des établissements de cette taille – c'est également le cas des autres catégories d'hôpitaux qui comprennent des établissements de moins de 50 lits, p. ex., 1-99 lits, convalescence et (ou) réadaptation, autres, etc.; en dernier lieu, il est à remarquer que les valeurs obtenues dans le calcul des indicateurs représentent les hôpitaux qui furent en activité pour l'année entière et rapportèrent des données non équivalentes à zéro pour tous les éléments constitutifs de chaque indicateur.

TOUS LES HÔPITAUX GÉNÉRAUX ET SPÉCIAUX DIVERS

Hôpitaux en activité

Au 31 décembre 1972, les hôpitaux généraux et spéciaux divers en activité au Canada étaient au nombre de 1,260. La capacité théorique totale de ces hôpitaux était de 153,492 lits, soit 7.0 lits pour 1,000 habitants.

¹ *La statistique de l'hygiène mentale, Vol. III* (catalogue 83-205) et *Statistique de la tuberculose, Vol. II* (catalogue 83-207), qui sont en vente à la Distribution des publications, Section du contrôle financier, Statistique Canada et chez Information Canada, Ottawa.

² Des 1,239 lits (capacité théorique) qui sont logés dans les foyers pour maladies chroniques, 571 ont été approuvés pour ce genre de soin.

There were some changes during the year 1972, which affected the data concerning operating hospitals. The number of operating hospitals was two less than the number of operating hospitals during the same period in 1971. Both public and federal hospitals witnessed increases. Public hospitals increased from 1,043 in 1971 to 1,051 in 1972; and, federal hospitals increased from 94 in 1971 to 97 in 1972. The total number of private hospitals decreased from 125 in 1971 to 112 hospitals in 1972, a decrease of 10.4%. This shift from private to public can be attributed to the provincial governments concern over duplication of health services. Of the 13 private hospitals which closed in 1972, seven were in the province of Ontario, five in Quebec, and one in Manitoba.

Utilization – Public General Hospitals

This presentation is based on data from 861 public general hospitals that submitted their annual returns to Statistics Canada for the year ending December 31, 1972. This represents 99.9% of all operating public general hospitals and 99.9% of their beds. In 1972, the operating public general hospitals numbered 862 and their rated bed capacity totalled 117,300 (see Table 17).

Of all the total 898 general hospitals (including private and federal general hospitals) that reported in 1972, public general hospitals represented 95.9% of the hospitals; 94.7% of the rated bed capacity and 97.9% of the admissions.

Admissions to general and allied special hospitals that reported numbered 3,682,175 a 3.6% increase over the 1971 figure of 3,555,838. The rate of admission per 1,000 population for 1972 is 168.7. But, in public general hospitals alone, the rate per 1,000 population is 156.0. And, of course, public general hospitals accounted for 92.5% of all the total of 3,682,175 admissions reported by general and allied special hospitals. There is no doubt, therefore, that a large volume of services are being provided in public general hospitals.

Occupancy Rate

For the past four years the percentage occupancy rate has been generally increasing slightly. However, in the period of 1972, a change in this pattern has occurred with occupancy being lower on both rated beds and beds set up respectively when compared with the same period of the previous ten years (see Statement 5).

This is an important reversal as a lower occupancy rate spreads a hospital's fixed expenses over a smaller number of patients and hence increases the

Il s'est produit en 1972 quelques changements qui ont modifié les chiffres portant sur les hôpitaux en activité. Il y avait en 1972 deux hôpitaux de moins qu'en 1971. Les hôpitaux publics et fédéraux étaient plus nombreux. Les hôpitaux publics, au nombre de 1,043 en 1971, sont passés à 1,051 en 1972; et les hôpitaux fédéraux sont passés de 94 en 1971 à 97 en 1972. Le nombre total d'hôpitaux privés est passé de 125 en 1971 à 112 en 1972, soit une baisse de 10.4 %. Cette tendance en faveur des hôpitaux publics est probablement due à la préoccupation des gouvernements provinciaux au sujet du double emploi des services de santé. Des 13 hôpitaux privés qui ont fermé leurs portes en 1972, sept étaient situés dans la province d'Ontario, cinq au Québec et un au Manitoba.

Utilisation – Hôpitaux généraux publics

Le présent exposé se fonde sur les données relatives à 861 hôpitaux généraux publics qui ont envoyé leur déclaration annuelle à Statistique Canada pour l'année se terminant le 31 décembre 1972. Ce chiffre représente 99.9 % de tous les hôpitaux généraux publics en activité et 99.9 % des lits disponibles. En 1972, les hôpitaux généraux publics en activité étaient au nombre de 862 et leur capacité théorique était de 117,300 lits (voir tableau 17).

Les hôpitaux généraux publics représentaient 95.9 % des 898 hôpitaux généraux (y compris les hôpitaux généraux privés et fédéraux) qui ont renvoyé leur déclaration en 1972; ils représentaient également 94.7 % des lits et 97.9 % des admissions.

Les admissions dans les hôpitaux généraux et spéciaux divers qui ont fait leur déclaration se chiffraient à 3,682,175, soit une augmentation de 3.6 % par rapport à 1971 (3,555,838). Le taux d'admission pour 1,000 habitants était de 168.7 en 1972. Si l'on ne considère que les hôpitaux généraux publics, ce taux était de 156.0. Et, bien entendu, la proportion des admissions dans des hôpitaux généraux publics par rapport à la totalité des admissions dans des hôpitaux généraux et spéciaux divers était très forte, soit 92.5 % des 3,682,175 admissions. L'ampleur des services fournis dans les hôpitaux généraux publics ne fait donc aucun doute.

Taux d'occupation

Au cours des quatre dernières années, le taux d'occupation avait généralement augmenté peu à peu. Mais, au cours de la période d'enquête de 1972, cette progression s'est arrêtée et le taux d'occupation a baissé, par rapport à la capacité théorique et au nombre de lits dressés, si on le compare avec la même période au cours des dix années précédentes (voir état 5).

Ce changement est important car un taux d'occupation plus faible entraîne une répartition des dépenses fixes de l'hôpital sur un plus petit nombre de malades, donc

average fixed expenses per patient-day, which consequently affects the cost per patient-day to increase, all things being equal.

Among the factors that have affected the occupancy rate are the number of beds available, the number of admissions and the number of days each patient stays in the hospital. The decreased occupancy rate in 1972 was caused by a combination of these factors. The average length of stay in hospitals decreased also from 9.94 in 1971 to 9.65 days in 1972, while rated bed capacity increased at almost the same rate as admissions (see Statement 5).

The increase in hospital beds, combined with an increased rate of admissions and a lower average number of patients per day has resulted in lower occupancy in Canadian public general hospitals in 1972.

augmente la moyenne des dépenses fixes par journée d'hospitalisation et par conséquent, toutes choses étant par ailleurs égales, pour le coût d'une journée d'hospitalisation.

Le nombre de lits disponibles, le nombre d'admissions et le nombre de jours que chaque malade a passé à l'hôpital sont quelques-uns des facteurs qui ont influé sur le taux d'occupation. La baisse du taux d'occupation en 1972 s'explique par une combinaison de ces facteurs. La durée moyenne de séjour dans les hôpitaux a baissé également pour passer de 9.94 jours en 1971 à 9.65 jours en 1972, tandis que la capacité théorique augmentait à peu près au même rythme que les admissions (voir état 5).

L'augmentation du nombre de lits et des admissions, combinée à la baisse du nombre moyen de journées d'hospitalisation, a entraîné cette baisse du taux d'occupation dans les hôpitaux généraux publics du Canada en 1972.

STATEMENT 5. Statistical Summary of Public General Hospitals in Canada, 1971 - 1972

ÉTAT 5. Sommaire statistique des hôpitaux publics généraux du Canada, 1971 - 1972

Description	1971	1972	Percentage change - Variation procentuelle
Number of hospitals operating - Nombre d'hôpitaux en activité	859	862	+ 0.3
Number of hospitals reporting - Nombre d'hôpitaux répondants	859	861	+ 0.2
Rated bed capacity - Lits (capacité théorique)	115,385	117,300	+ 1.7
Beds set up - Lits dressés	115,220	116,475	+ 1.1
Admissions	3,366,669	3,405,032	+ 1.1
Separations - Départs	3,367,451	3,408,282	+ 1.2
Patient-days - Journées d'hospitalisation	33,618,804	33,131,616	- 1.5
Percentage occupancy based on rated bed capacity - Taux d'occupation (fondé sur la capacité théorique)	79.9	78.2	- 2.2
Percentage occupancy, beds set up - Short-term units - Taux d'occupation, lits dressés, unités de soins pour maladies aiguës	79.7	78.3	- 1.8
Percentage occupancy, beds set up - Long-term units - Taux d'occupation, lits dressés, unités de soins pour maladies de longue durée	84.5	85.0	+ 0.6
Average daily occupancy - Moyenne d'occupation par jour	107.3	105.1	- 2.1
Cost per patient-day - Coût par journée d'hospitalisation \$	65.58	73.26	+ 11.7

Percentage Occupancy (Based on Rated Bed Capacity)
Taux d'occupation (fondé sur la capacité théorique)

¹ In many cases, information is not available for the Yukon separately from the Northwest Territories prior to 1962. Throughout this table, where the symbol “..” appears instead of figures for the Yukon, the data shown for the Northwest Territories include information for the Yukon. — Souvent, pour les années précédant 1962, on ne dispose pas d’une statistique du Yukon distincte de celle des Territoires du Nord-Ouest; le signe conventionnel “..” remplace alors les chiffres dans le présent tableau.

² Rated beds and cribs. — Nombre théorique de lits d’adultes et d’enfants.

³ Estimated Population of Canada by Province at June 1, 1972, Statistics Canada, Catalogue 91-201. — Population estimative du Canada par province le 1er juin 1972, Statistique Canada, catalogue 91-201.

⁴ Adults and children. — Adultes et enfants.

⁵ Includes estimates. — Comprend une estimation.

⁶ The average number of patients on an aggregate basis for institutions as a group on any given day. — Nombre moyen des malades hospitalisés dans l’ensemble des établissements à n’importe quel moment.

⁷ See footnote 2, Table 12. — Voir renvoi 2 au tableau 12.

¹ In many cases, information is not available for the Yukon separately from the Northwest Territories prior to 1962. Throughout this table, where the symbol “..” appears instead of figures for the Yukon, the data shown for the Northwest Territories include information for the Yukon. — Souvent, pour les années précédant 1962, on ne dispose pas d’une statistique du Yukon distincte de celle des Territoires du Nord-Ouest; le signe conventionnel “..” remplace alors les chiffres dans le présent tableau.

² Beds and cribs. — Lits (d’adultes et d’enfants).

¹ Beds and cribs. - Lits (d'adultes et d'enfants).

² Includes extended care hospitals. - Comprend les hôpitaux pour soins prolongés.

³ Includes children's hospitals from 1969 to 1972 classified under general hospitals in previous years. - Comprend les hôpitaux pédiatriques de 1969 à 1972 désignés sous hôpitaux généraux dans les années précédentes.

Note: Components may not add to total due to rounding. - **Nota:** Les chiffres ayant été arrondis, il est possible que la somme des différents postes ne corresponde pas au total.
