PREFACE

The Dominion Bureau of Statistics has published statistics on hospital accommodation, services, personnel and finances in a series of annual reports since 1932. Up to and including the year 1952 each annual report consisted of a single volume. From 1953 to 1958 inclusive the more extensive range of data produced required that the annual report be published in two volumes.

With the introduction of new reporting forms in 1959 to accommodate in one return the information requirements of the provinces and the Department of National Health and Welfare, associated with the introduction of the federal-provincial hospital insurance program, further expansion of the annual report has become necessary. The present publication accordingly represents one volume of a set of seven which make up the Annual Report of Hospitals for the year 1959 and each subsequent year. The titles of these volumes, which appear on the cover of the Annual Report as sub-titles, are as follows:

Volume I—Hospital Beds	
Volume II—Hospital Services	
Volume III—Hospital Personnel	
Volume IV—Hospital Balance Sheet Statistics	
Volume V—Hospital Revenues	
Volume VI—Hospital Expenditures	
Volume VII—Summary of Hospital Statistics	

The Dominion Bureau of Statistics acknowledges with gratitude the co-operation of hospitals, provincial hospital authorities, the Department of National Health and Welfare, hospital associations, and individuals who have contributed to the publication of the Annual Report.

The Report is prepared in the Institutions Section of the Health and Welfare Division of the Dominion Bureau of Statistics. Comments on the contents or inquiries about additional information should be directed to the Institutions Section.

WALTER E. DUFFETT,
Dominion Statistician.

PRÉFACE

Le Bureau fédéral de la statistique publie depuis 1932 une série statistique de rapports annuels touchant le logement, les services, le personnel et les finances des hôpitaux. Jusqu'à 1952, inclusivement, chaque Rapport annuel formait un volume, mais de 1953 à 1958, inclusivement, une plus grande quantité de données en ont exigé deux.

Depuis l'introduction de nouvelles formules de déclaration, en 1959, pour grouper dans une seule formule tous les renseignements exigés par les provinces et le ministère de la Santé nationale et du Bien-être social et vu l'introduction du régime fédéral-provincial d'assurance-hospitalisation, il a fallu élargir encore les cadres du Rapport annuel. En conséquence, la présente publication n'est que le premier volume d'une série de sept, série qui constitue le Rapport annuel sur les hôpitaux pour 1959 et les années à suivre. Voici les titres de chacun des volumes qui paraissent sur la couverture du Rapport annuel comme sous-titres:

Catalogue number
— Lits hospitaliers 83-210
— Services hospitaliers 83-211
— Personnel hospitalier 83-212
— Statistique des bilans hospitaliers 83-213
— Recettes hospitalières 83-214
— Dépenses hospitalières 83-215
— Résumé de la statistique hospitalière 83-216

Le Bureau fédéral de la statistique remercie les hôpitaux, les autorités hospitalières provinciales, le ministère de la Santé nationale et du Bien-être social, les associations hospitalières et les particuliers dont la collaboration a permis la publication du Rapport annuel.

C'est la Section des institutions (Division de la santé et du bien-être) du Bureau fédéral de la statistique qui rédige ce rapport. Tout commentaire ou toute demande de renseignements additionnels doivent donc être adressés à cette Section.

WALTER E. DUFFETT,
Statisticien du Dominion.

INTRODUCTION

This publication dealing with Revenue Fund income of Canadian public hospitals for the year 1959 is the fifth in a series of related hospital statistics. The data was compiled from the "Annual Return of Hospitals, Part II", submitted through provincial authorities by individual public hospitals in Canada.

With the introduction of more extensive returns handling and screening has increased, causing delay in publication. It was therefore decided to forego a detailed analysis of the data covering the calendar year 1959 in order to make the statistics available for general use. In future, however, analytical comments will again be provided as part of the publication.

Of the information sought from the hospitals, particular emphasis was placed on the financial aspect of hospital operations. This publication provides tabulations on income with regard to the hospitals' day-to-day operation which, in accordance with the "Canadian Hospital Accounting Manual", is reported in the revenue fund.

In 1959, 963 public hospitals were operating in Canada, 88% of these submitted financial reports.

Data corresponding with previous years is presented in the historical tables, number 1 and 2, by hospital type and by provinces.

Summary statistics covering the calendar year 1959 show the number of hospitals reporting, bed capacity and revenue by hospital type and size in Table 3, and revenue by province and source of income in Table 4.

Detailed information on hospital income is compiled in Tables 5 to 13. For the convenience of the reader all these tables were arranged to follow a uniform stub, facilitating quick comparisons and cross references. It lists hospitals by type, as general or allied special, and provides a further breakdown of general hospitals by size-groups based on the rated bed capacity of the institutions.

La présente publication, traitant des recettes du Fonds d'administration budgétaire des hôpitaux publics du Canada en 1959, est le cinquième d'une série de volumes portant sur des statistiques hospitalières similaires. Les données proviennent du "Rapport annuel des hôpitaux, Partie II", soumis par les hôpitaux publics du Canada par l'entremise des autorités provinciales.

Comme les questionnaires sont devenus plus complexes, leur examen et leur triage prend plus de temps et retardent d'autant la publication des résultats. On a donc décidé d'omettre l'analyse détaillée des données relatives à l'année civile 1959 afin de hâter la publication de cette statistique. Dorénavant, toutefois, des commentaires, analytiques accompagneront la publication.

Parmi les renseignements désirés des hôpitaux, on s'est surtout intéressé à l'aspect financier de leur fonctionnement. La présente publication renseigne sur leur revenu par rapport à leur fonctionnement au jour le jour, lequel, selon le "Manuel de comptabilité des hôpitaux du Canada", paraît au Fonds d'administration budgétaire.

En 1959, le Canada comptait 963 hôpitaux publics, dont 88 p.100 ont soumis des rapports financiers.

Les données relatives aux années précédentes paraissent dans les tableaux chronologiques, numéros 1 et 2, selon le genre d'hôpital et par province.

La statistique récapitulative visant l'année civile 1959 indique le nombre d'hôpitaux répondants, la capacité (lits) et les recettes selon le genre d'hôpital et sa taille (tableau 3) et les recettes selon leur provenance et par province (tableau 4).

Des renseignements détaillés sur les revenus des hôpitaux paraissent aux tableaux 5 à 13. Afin d'accompagner le lecteur, tous ces tableaux ont un talon uniforme, ce qui facilite les comparaisons et les références recoupées. Ce talon énumère les hôpitaux selon le genre (généraux ou spéciaux divers) et répartit aussi les hôpitaux généraux par groupes de même taille d'après la capacité théorique.

SYMBOLS

The interpretation of the symbols used in the tables throughout this publication is as follows:

- .. figures not available.
- nil or zero.
- amount too small to be expressed.

SIGNES CONVENTIONNELS

Signification des signes utilisés dans les tableaux de la présente publication:

- .. nombres indisponibles.
- néant ou zéro.
- nombres infimes.

¹ Territories excluded throughout; Newfoundland excluded 1932-1952; chronic hospitals excluded 1946-1949; figures may not cross-check because of rounding. Comparable figures for 1942-1945 are given in Table 2, Volume II, 1955. — Sauf pour les hôpitaux des Territoires pour toutes les années observées et ceux de Terre-Neuve pour 1932-1952. On exclut les hôpitaux pour maladies chroniques pour 1946-1949. Vu l'arrondissement des chiffres, la contre-épreuve peut être impossible. Le tableau 2 du volume II (1955) donne les chiffres comparables pour 1942-1945.

² Net earnings. — Revenus nets.
