## PREFACE

An extensive array of hospital statistics relating to facilities available, services provided, personnel employed, educational facilities and finances of general and allied special hospitals, mental institutions and tuberculosis sanatoria operating in Canada is prepared by the Hospital Unit of the Institution Section, Health and Welfare Division of Statistics Canada. A series of one quarterly and twelve annual reports are published, to provide users with a comprehensive presentation of these statistics.

Statistics on hospitals have been compiled by Statistics Canada since 1931 and have since been published in varying degrees of detail. The current list of publications specifically related to hospitals is as follows:<sup>1</sup>

Tuberculosis Statistics, Volume II, Institutional Facilities, Services and Finances — Statistique de la tuberculose, Volume II, Installations, services et finances des institutions	83 - 207

Statistics Canada wishes to express its indebtedness to the individual hospitals across the nation which have prepared and submitted data for inclusion in this national statistical program; to the provincial hospital plan authorities for the collection of the data, and; to the provincial hospital associations and the Canadian Hospital Association in their promotion of uniform accounting and recording practices.

The reader's attention is drawn to the fact that not all of the collected and tabulated data appear in published form. Inquiries with respect to data of this nature or to data contained in this publication are invited and should be forwarded to the Institutions Section of the Health and Welfare Division of Statistics Canada.

<sup>1</sup> In addition to these publications, the Manpower Unit of the Institutions Section prepares and publishes one annual and twelve occasional publications dealing with health manpower.

## PRÉFACE

La Sous-section des hôpitaux, Section des établissements, Division de la santé et du bien-être de Statistique Canada prépare un grand nombre de statistiques sur les installations disponibles, les services fournis, le personnel employé, l'équipement didactique et la situation financière des hôpitaux généraux et spéciaux divers et des hôpitaux pour malades mentaux et pour tuberculeux du Canada. Statistique Canada publie douze bulletins annuels et une série de bulletins trimestriels afin d'offrir aux utilisateurs des statistiques complètes dans ce domaine.

Depuis 1931, Statistique Canada recueille les statistiques sur les hôpitaux et les présente dans des publications plus ou moins détaillées. Voici la liste des publications sur les hôpitaux actuellement disponibles<sup>1</sup>:

Statistique Canada remercie les hôpitaux canadiens qui ont préparé et présenté les données pour qu'on puisse les intégrer dans le cadre du programme national de statistique; les administrateurs provinciaux de l'assurance-hospitalisation pour la collecte des données; les associations hospitalières provinciales et l'Association canadienne des hôpitaux pour leur effort d'uniformisation de la comptabilité et de la tenue des registres.

Nous attirons l'attention du lecteur sur le fait que Statistique Canada ne publie pas toutes les données recueillies et totalisées. Pour tout renseignement sur les données inédites ou sur les données de ce bulletin, s'adresser à la Section des établissements, Division de la santé et du bien-être, Statistique Canada.

<sup>1</sup> En plus de ces bulletins, la Sous-section de la main-d'œuvre de la Section des établissements rédige et publie un bulletin annuel et douze publications hors série sur le personnel sanitaire.

HOSPITAL CLASSIFICATION CHART 1969  
GRAPHIQUE DE LA CLASSIFICATION DES HÔPITAUX 1969

## EXPLANATORY NOTES AND GLOSSARY

### Hospital

An institution which is operated for the medical, surgical and/or obstetrical care of in-patients, and which is licensed or approved as a hospital by the federal and/or a provincial government, or by a municipality duly authorized under the laws of the province. Specifically excluded are institutions primarily for tuberculosis, or psychiatric disorders.

### Public Hospital

Recognised by the province as a "public hospital" which is not operated for profit and accepts all patients regardless of ability to pay.

### Type of Service

#### General

A hospital which provides primarily for the diagnosis and short-term treatment of patients for a wide range of diseases or injuries. The services of a general hospital are not restricted to a specific age group or sex.

**With long-term units**—Refers to a hospital with a group of beds or rooms or a separate wing or building which is recognized as a distinct and separate treatment unit of the hospital. Admission normally requires formal admission procedures even when transferred from another part of the hospital.

**Full-teaching**—A hospital which provides a full range of under-graduate programs to medical students.

**Partial teaching**—A hospital which provides medical teaching, but not a complete range of undergraduate programs to medical students.

#### Allied Special Hospitals

Includes children's, convalescent and/or rehabilitation, chronic and/or extended care and "other" hospitals.

**Children's**—A hospital which provides primarily for the diagnosis and short-term treatment of paediatric patients, generally 14 years of age and under.

**Convalescent and/or rehabilitation**—A hospital whose program is directed primarily to the recovery and rehabilitative phase of treatment for patients disabled by illness or injury.

**Chronic and/or extended care**—A hospital which provides primarily for the prolonged treatment of patients with chronic and long-term conditions.

## NOTES EXPLICATIVES ET TERMINOLOGIE

### Hôpital

Établissement donnant des soins médicaux, chirurgicaux ou obstétriques aux hospitalisés et détenant un permis ou une approbation du gouvernement fédéral ou provincial ou d'une municipalité autorisée à le faire par les lois d'une province. Ne comprend pas les établissements destinés avant tout au traitement de la tuberculose ou des troubles psychiatriques.

### Hôpital public

Hôpital reconnu comme tel par la province et établi dans un but non lucratif; il accepte tous les malades sans égard à leur capacité de payer.

### Genre de service

#### Hôpital général

Hôpital qui se spécialise dans le diagnostic et le traitement à court terme d'un grand nombre de maladies et de traumatismes. Les services d'un hôpital général ne sont pas restreints à un groupe d'âge ou à un sexe particulier.

**Services de soins à long terme**—Services d'un hôpital comprenant un groupe de lits ou de chambres ou une aile ou un bâtiment séparé qui est considéré comme quartier de traitement distinct. Pour y être admis, il faut en général remplir les formalités de demande d'admission, même s'il s'agit d'un transfert d'un autre quartier de l'hôpital.

**Enseignement complet**—Hôpital qui offre un éventail complet de programmes à l'intention des étudiants en médecine.

**Enseignement partiel**—Un hôpital qui offre l'enseignement médical mais non un éventail complet de programmes à l'intention des étudiants en médecine.

#### Hôpitaux spéciaux divers

Comprend pédiatrique, convalescence et (ou) réadaptation, chronique et (ou) soins prolongés et "autres" hôpitaux.

**Pédiatrique**—Hôpital qui se spécialise dans le diagnostic et le traitement à court terme des maladies chez les enfants, âgés généralement de 14 ans ou moins.

**Convalescence et (ou) réadaptation**—Hôpital qui s'occupe surtout du rétablissement et de la réadaptation des personnes rendues invalides par suite d'une maladie ou d'un traumatisme.

**Maladies chroniques et (ou) soins prolongés**—Hôpital qui se spécialise dans le traitement des malades souffrant de maladies chroniques ou dont l'état requiert des soins prolongés.

**Other**—A hospital which provides primarily for the treatment of a limited range of diseases or injuries, or which restricts admissions to a particular age group or sex. Examples of such specified categories may include orthopaedic, maternity, neurological, cancer hospitals. A hospital which provides a combination of various types of service and cannot be classified in any one of the foregoing categories is included in this group. "Other" also includes nursing stations and outpost hospitals.

Type of Unit	Genre d'unité
<b>Short-term</b>  Those units provided for patients who at the time of admission require extensive diagnostic and treatment services and/or skilled nursing care and comprehensive medical attention.	<b>Maladies aiguës</b>  Il s'agit des unités où sont traités les malades dont l'état, au moment de leur admission, requiert des services intensifs de diagnostic et de traitements et (ou) des soins infirmiers spécialisés et une attention médicale soutenue.
<b>Long-term</b>  <b>Convalescent and/or rehabilitation</b> —refers to units providing for the care and treatment of patients:  (a) who have passed the acute or emergency stage and whose condition can be improved by skilled nursing care and medical attention in a hospital and/or  (b) who have disabling conditions which may be improved by rehabilitation treatment in hospital.	<b>Maladies de longue durée</b>  <b>Convalescence et (ou) réadaptation</b> —désigne les unités servant aux soins et au traitement des malades:  (a) qui ont franchi le stade critique ou grave et dont l'état peut être amélioré par des soins infirmiers et médicaux spécialisés dans un hôpital, et (ou)  (b) dont l'état d'impotence peut être amélioré par des traitements de réadaptation à l'hôpital.
<b>Chronic and/or extended care</b> —refers to units providing for the care and treatment of patients suffering from chronic or long-term illnesses or conditions which require continued nursing care and medical attention in a hospital.  <b>Other</b> —refers to long-term units which do not clearly fall under the foregoing categories.	<b>Maladies chroniques et (ou) soins prolongés</b> —désigne les unités soignant les malades souffrant de maladies chroniques ou de longue durée, ou dont l'état requiert des soins infirmiers et médicaux continus dans un hôpital.  <b>Autres</b> —Lorsque les unités n'entrent pas dans les catégories ci-dessus.
<b>Subject Matter Terminology</b>  <b>Rated Bed (Bassinet) Capacity</b>  The number of beds and cribs (bassinets) which the hospital is designed to accomodate on the basis of established standards of floor area per bed (bassinet) as at December 31 of the reporting year.	<b>Terminologie de matière</b>  <b>Capacité théorique en lits (berceaux)</b>  Le nombre de lits et de berceaux que l'hôpital (par parquet établi) peut abriter au 31 décembre de l'année du rapport.
<b>In-patient</b>  A patient who is duly admitted to the hospital and to whom a bed, crib (bassinet) has been allocated (this excludes stillbirths as well as patients attending a day or night centre attached to the hospital).	<b>Hospitalisés</b>  Un malade qui est réglementairement admis à l'hôpital et à qui un lit ou un berceau a été assigné. Cette définition ne comprend pas les mort-nés ni les malades admis à une clinique diurne ou nocturne.
<b>Adults and children</b> —All in-patients except newborn.	<b>Adultes et enfants</b> —Tous les hospitalisés, sauf les nouveau-nés.
<b>Newborn</b> —An infant in-patient born alive in the hospital or postnatal newborn admitted with mother for maternity care.	<b>Nouveau-né</b> —Bébé né vivant à l'hôpital, ou nouveau-né admis après la naissance avec sa mère pour soins maternels.

### Patient-day

The period of service to an in-patient between the census-taking hours on two successive days; the day of admission is counted as a patient-day but the day of separation is not.

### Out-patient

An out-patient is a patient who receives the services of the hospital, but who is not admitted as an in-patient. This category includes private out-patients as well as patients attending a day or night centre.

### Operating Income

Operating income is the revenue that accrues during the year for the purpose of operation and maintenance of the hospital.

#### Income from Services to Patients

**Gross income**—This includes the amounts earned by the rendering of services to patients. These amounts are represented by the regular rates of the hospital charged for such services, regardless of the terms of any contract, agreement, or understanding as to the basis of rates to be paid.

**Net income**—Net income comprises the difference between gross income and deductions such as courtesy, rebates and free service, and bad debts, less recoveries.

#### Income from In-patient Services

**In-patient general services**—General services include accommodation and meals, routine nursing care, and all of the special services provided to in-patients, such as the use of the operating and delivery rooms, laboratory and radiology services, etc., which the hospital includes in its charges at the **basic standard ward daily rate**.

**Authorized charges**—an authorized charge is a per diem amount designated by a province to be charged to an insured in-patient for insured services at the standard ward level. This amount is in addition to the regular payment made by the Provincial Plan. Authorized charges apply only in certain provinces and may be locally known as co-insurance.

**In-patient additional services**—Differential charges for preferred accommodation over and above the standard ward daily rates when the patients' accounts have been charged for private or semi-private accommodation.

#### Income from Out-patient Services

Income from out-patient services consists of income from organized out-patients departments and other out-patient services.

### Journée d'hospitalisation

Période de soins à un hospitalisé entre les heures de vérification du rôle de deux jours successifs; le jour d'admission compte comme une journée d'hospitalisation, mais non le jour de départ.

### Malade externe

Le malade externe est celui qui, sans être hospitalisé, bénéficie des services d'un hôpital. Cette catégorie comprend les malades externes particuliers aussi bien que les malades qui fréquentent un centre de jour ou de soir.

### Revenus d'exploitation

Les revenus d'exploitation sont les revenus gagnés durant l'année aux fins de l'exploitation et de l'entretien de l'hôpital.

#### Revenus provenant des soins donnés aux malades

**Revenus bruts**—Ils comprennent les montants provenant des services fournis aux malades. Il s'agit des sommes que l'hôpital exige ordinairement pour ces services, quelles que soient les conditions de tout contrat, convention ou entente quant à la base du tarif exigible.

**Revenus nets**—Les revenus nets sont la différence entre les revenus bruts et les déductions, telles que faveurs, rabais et soins gratuits et mauvaises créances, moins les recouvrements.

#### Revenus provenant des services pour malades hospitalisés

**Soins généraux donnés aux malades hospitalisés**—Les soins généraux comprennent la chambre et les repas, les soins infirmiers ordinaires et tous les services spéciaux fournis aux hospitalisés, comme l'usage des salles d'opération et d'accouchement, les services de laboratoire et de radiologie, etc., qui sont compris dans le **taux quotidien de base de la salle commune**.

**Frais autorisés**—les frais autorisés sont les sommes journalières fixées par la province, que l'hôpital peut réclamer d'un hospitalisé assuré pour des services assurés, au tarif de la salle commune. Ce montant est en sus des paiements réguliers versés par le régime provincial. Les frais autorisés ne sont en vigueur que dans certaines provinces, où ils sont parfois connus sous le nom de coassurance.

**Soins supplémentaires donnés aux malades hospitalisés**—Suppléments pour lits "privés" ou "semi-privés" en sus du tarif de la salle commune, lorsque le prix du lit "semi-privé" ou "privé" a été porté au compte des malades.

#### Revenus provenant des services pour malades externes

Revenus des services pour malades externes comprend les revenus du service de consultation externe agréée et autres soins pour malades externes.

**Income from organized out-patient department—** This is the income of an organized unit, **recognized as such by the Provincial Plan**, set up and equipped as a separate department of the hospital. The main function of this unit is to provide special clinical facilities for medical diagnosis and treatment of out-patients. Some services may also be provided to in-patients.

**Grants**—These are monies received by the hospital from other than private sources, for Revenue Fund purposes only, such as maintaining services covering operating deficit and carrying on special research projects. These grants are in addition to and must be distinguished from any earnings derived from Provincial Plans or government departments to pay for the care of patients.

**Other income**—This includes donations, contributed services, investment income, rental of real estate, cash discounts on purchases, recoveries and sales, income from ancillary operations, and miscellaneous income.

**Contributed services**—Includes the value of donated services of full-time or part-time personnel (including members of religious orders) but excludes volunteer or campaign fund workers.

**Ancillary operations**—Includes income from operations such as a farm or garden, barber shop, florist shop, etc.

#### Statistical Measurements

**First Quartile (Q1)**—That value where 25 % of the hospitals have a ratio of this amount or less and 75 % have a higher ratio.

**Second Quartile (Q2)**—That value where 50 % of the hospitals have a ratio of this amount or less and 50 % have a higher ratio—commonly referred to as the median.

**Third Quartile (Q3)**—That value where 75 % of the hospitals have a ratio of this amount or less and 25 % have a higher ratio.

#### Notes:

1. Medians are not presented in the tables of this publication unless there are 3 or more hospitals reporting data for the indicators to which they relate. Similarly, there must be 8 or more reporting hospitals for the inclusion of first and third quartile values. No such limitations apply to the calculation of the mean.
2. Indicator values for hospitals located in the Yukon and Northwest Territories, notably federal hospitals, do not appear as such in tabular presentations due to the constraints imposed by tabular planning requirements—these values, however, are implicit in the Canada total.

**Consultation externe agréée**—Il s'agit ici des revenus de la consultation externe agréée **comme telle par le régime provincial**, établi et installé comme service distinct de l'hôpital. Le rôle principal de ce service est de fournir les services cliniques spéciaux pour le diagnostic et le traitement des malades externes. Il peut également fournir certains services aux malades hospitalisés.

**Subventions**—Sommes que l'hôpital a reçues d'autres sources que privées pour les seules fins du fonds d'administration général,—comme soins d'entretien,—vue de parer au déficit de gestion et d'effectuer des recherches spéciales. Ces subventions sont en sus et doivent être distinguées de toute recette provenant de régimes ou ministères provinciaux et destinées à payer le soin des malades.

**Autres revenus**—comprend les dons, services non rétribués du personnel, revenus de placements, location d'immeubles, escomptes au comptant sur achats, recouvrements et ventes, revenus des services annexes, et revenus divers.

**Services gratuits**—Comprend la valeur des services donnés par le personnel à plein temps ou à temps partiel (y compris les religieux) mais exclut les volontaires ou les participants de campagnes de souscription.

**Exploitations auxiliaires**—Comprend les revenus provenant d'exploitations telles que ferme ou jardin, salon de coiffure, boutique de fleuriste, etc.

#### Mesures statistiques

**Premier quartile (Q1)**—Valeur où 25 % des hôpitaux ont une proportion de ce montant ou moins et 75 % ont une proportion plus élevée.

**Deuxième quartile (Q2)**—Valeur où 50 % des hôpitaux ont une proportion de ce montant ou moins et 50 % ont une proportion plus élevée; communément appelée médiane.

**Troisième quartile (Q3)**—Valeur où 75 % des hôpitaux ont une proportion de ce montant ou moins et 25 % ont une proportion plus élevée.

#### Remarques:

1. Les tableaux de ce bulletin ne contiennent pas les médianes, à moins que trois hôpitaux ou plus ne fournissent des données sur les indicateurs en question. De même, pour qu'ils comprennent les premiers et troisièmes quartiles, il faut que huit hôpitaux ou plus fournissent les données correspondantes. Le calcul de la moyenne ne fait toutefois pas l'objet de restrictions semblables.
2. Les indicateurs des hôpitaux situés au Yukon et dans les Territoires de Nord-Ouest, notamment ceux des hôpitaux fédéraux, n'apparaissent pas comme tels dans les tableaux à cause des exigences de la planification des tableaux; ces données sont toutefois comprises dans le total pour le Canada.

## INTRODUCTION

This publication presents statistical information pertaining to the operating revenue, accounted on an accrual basis, of Canadian public general and allied special hospitals for the reporting year 1969. The report also contains an historic summary of basic revenue data pertaining to the public hospital system as a whole for the years 1954-1969 so that the revenues of general and allied special hospitals may be shown in their proper perspective within the context of total revenues. It should be noted that mental institutions and tuberculosis sanatoria are referred to for historical comparability only in Table 1 of this report. Complete financial coverage for these institutions is available in separate reports<sup>1</sup>.

This edition of the publication marks the first year in which the data for this report have been derived from the revised Annual Return of Hospitals - Form HS-2 - Financial which contains substantial changes over 1968 and earlier Annual Returns of Hospitals.

It is to be noted that 1969 also represents the first year in which publication contents, for the most part, have been presented in computerized format. The introduction of this method of presentation did require previously unencountered, time consuming exercises; consequently, in order to minimize the resulting untimeliness aspect, the statistical analysis, certain tabular statements and the graphical illustrations prefacing tabular presentations in previous year's publications have been purposefully omitted; these features, however, should be reinstated in future editions since the problems associated with the adoption of a new program occur principally in the year of inception.

### General Notes

It is to be remarked that, in conjunction with the various physical changes made to the publication, 1969 was also a year of conversion to a substantially reorganized hospital classification structure. In essence, the new classification - as utilized in the computerized format - makes a distinction, previously not made, between public general, teaching and non-teaching hospitals. Within the general non-teaching category, hospitals are divided into those with and without long-term units, both of which are further subdivided into reorganized bed size groupings; within the general, teaching category, hospitals are divided into full and partial teaching hospitals, which are also subdivided into bed size groupings.

<sup>1</sup> "Mental Health Statistics, Vol. III" (Catalogue 83-205). "Tuberculosis Statistics, Vol. II" (Catalogue 83-207) available from the Publications Distribution Unit, Financial Control Section, Statistics Canada or from Information Canada, Ottawa.

Le présent bulletin contient des renseignements statistiques sur les revenus d'exploitation des hôpitaux généraux publics et spéciaux divers du Canada pour 1969, selon la comptabilité d'exercice. Il contient aussi un sommaire chronologique des données de base sur les revenus de l'ensemble du système hospitalier public de 1954 à 1969; ainsi, les revenus des hôpitaux généraux et spéciaux divers peuvent être examinés dans le contexte de l'ensemble des revenus. Il convient de noter que seule le Tableau 1 du bulletin contient des données sur les établissements pour malades mentaux et pour tuberculeux afin de pouvoir établir des comparaisons chronologiques. D'autres bulletins<sup>1</sup> contiennent une analyse financière complète de ces établissements.

Cette année, pour la première fois, les données publiées dans ces bulletins sont extraites du Rapport d'activité des hôpitaux (révisé), Formule HS-2 - Finances; ce dernier renferme d'importantes modifications comparativement au Rapport d'activité des hôpitaux de 1968 et à ceux des années précédentes.

Il convient de noter que 1969 inaugure aussi la présentation de la majeure partie du contenu du bulletin sous forme d'imprimés d'ordinateur. Il a fallu consacrer beaucoup de temps à l'introduction de ce nouveau mode de présentation. C'est pourquoi, afin de diminuer le manque d'actualité qui en découle, on a omis à dessein l'analyse statistique, certains états présentés sous forme de tableaux et les illustrations graphiques qui précédaient les tableaux dans les publications antérieures. Ces éléments devront toutefois être réintroduits dans les prochains bulletins vu que les problèmes qui découlent de l'adoption d'un nouveau programme apparaissent surtout la première année.

### Généralités

Il faut remarquer qu'en plus des diverses transformations extérieures apportées au bulletin, 1969 a aussi été l'année d'adoption d'une profonde restructuration de la classification des hôpitaux. En substance, cette classification, - sous forme d'état mécanographique - fait une nouvelle distinction entre les hôpitaux généraux publics d'enseignement et les autres hôpitaux généraux publics. Les "autres hôpitaux généraux" sont subdivisés en hôpitaux avec ou sans services des maladies chroniques; ces deux catégories d'hôpitaux sont réparties à leur tour selon de nouvelles tranches de taille. Les hôpitaux généraux d'enseignement sont divisés en hôpitaux d'enseignement complet ou partiel, répartis à leur tour selon les tranches de taille.

<sup>1</sup> "La statistique de l'hygiène mentale, Vol. III" (Catalogue 83-205) et la "Statistique de la tuberculose, Vol. II" (Catalogue 83-207) sont en vente à la distribution des publications, Services financiers, Statistique Canada ou d'Information Canada, Ottawa.

Secondly, the 1969 hospital classification structure has discontinued the convention of including children's hospitals in the general hospital group; instead, these hospitals are now treated as a separate category, and, on a grouped basis, within the allied special hospital group.

The reader will observe that an unabridged hospital classification stub qualifying the abbreviated stub used in computerized tabulations is presented in the Glossary which appears in the preceding pages.

A general footnote applicable to tables presented in Section B, Operating Income Reported by Public General and Allied Special Hospitals should be noted at this time: in a number of these tables, no values are shown for hospitals with less than 50 beds due to the fact that in hospitals of this bed size, a detailed information breakdown was not required. This general notation is also applicable to other hospital categories which include hospitals with less than 50 beds, e.g., 1-99 beds, convalescent/rehabilitation, other, etc.

De plus, d'après la classification des hôpitaux de 1969, le groupe des hôpitaux généraux ne comprend plus les hôpitaux pour enfants. Ils forment plutôt maintenant une catégorie à part et, dans l'ensemble, ils se rattachent aux hôpitaux spécialisés.

On remarquera que les abréviations utilisées dans les tableaux d'ordinateur sont expliquées dans le glossaire (voir pages précédentes).

Il convient de noter le renvoi général qui se rapporte aux tableaux de Section B, Revenus d'exploitation des hôpitaux publics, généraux et spéciaux divers, répondants: certains tableaux ne comportent aucun chiffre pour les hôpitaux de moins de 50 lits étant donné qu'il ne fallait aucun renseignement détaillé sur les hôpitaux de cette taille. C'est aussi le cas des autres catégories d'hôpitaux qui comprennent des établissements de moins de 50 lits (ex.: 1-99 lits, convalescence et (ou) réadaptation, autres, etc.).
