## PREFACE

Hospital statistics in Canada are published in a series of eight annual reports, each of which is concerned with a specific topic. These statistics are provided so that the reader may assess the facilities and services available, the labour force involved and the financial situation in Canadian hospitals.

Statistics on hospitals have been collected by the Dominion Bureau of Statistics since 1931 and have been published since then in varying degrees of detail. Until 1951, one volume contained the entire hospital statistical data. From 1952 to 1958 there were two, 1959-1960 there were six, and since 1961, eight volumes have been required to portray data of the hospital scene. These volumes are as follows:

Volume I—Hospital Beds	
Volume II—Hospital Services	
Volume III—Hospital Personnel	
Volume IV—Balance Sheets	
Volume V—Hospital Revenues	
Volume VI—Hospital Expenditures	
Volume VII—Hospital Indicators	
	Preliminary Annual Report

The Hospital Indicators publication (Volume VII) follows the pattern set for 1962, i.e., the arithmetic mean (group indicator) is shown for the entire standard classification, while the quartiles and median are shown for the general hospitals in total. Additional information is available on request regarding minimum and maximum values and the standard deviation of each indicator. Also certain indicators are produced but not published in Volume VII.

The Dominion Bureau of Statistics is indebted to the individual hospitals across the nation which have prepared their data for inclusion in a national statistical program; to the provincial hospital plan authorities for the collection of the data; to the provincial hospital associations and the Canadian Hospital Association for their promotion of uniform accounting and recording.

The report was prepared in the Institutions Section of the Health and Welfare Division of the Dominion Bureau of Statistics. Any inquiries with respect to data contained in this report or to unpublished data should be forwarded to this Section.

## PRÉFACE

La statistique des hôpitaux du Canada est publiée dans une série de huit rapports annuels dont chacun traite d'un sujet déterminé. Ces publications permettront au lecteur d'apprécier les installations et services disponibles, la main-d'oeuvre employée et la situation financière des hôpitaux canadiens.

Depuis 1931, le Bureau fédéral de la statistique recueille la statistique sur les hôpitaux et la présente en publications plus ou moins détaillées. Jusqu'en 1951, toutes les données statistiques afférentes aux hôpitaux tenaient en un seul volume. De 1952 à 1958, il est paru deux volumes, en 1959-1960 six, et depuis 1961, huit volumes sont nécessaires pour tracer un tableau complet de l'activité hospitalière. En voici les titres:

### Catalogue No.

#### Nº de catalogue

— Lits hospitaliers	83-210
— Services hospitaliers	83-211
— Personnel hospitalier	83-212
— Bilans hospitaliers	83-213
— Revenus hospitaliers	83-214
— Dépenses hospitalières	83-215
— Indicateurs hospitaliers	83-216
— Rapport annuel préliminaire	83-217

La publication consacrée aux indicateurs hospitaliers (Volume VII) suit le plan établi en 1962, à savoir que la moyenne arithmétique (indicateur collectif) est indiquée pour la classification type entière, tandis que les quartiles et la médiane sont donnés pour l'ensemble des hôpitaux généraux. On peut obtenir sur demande des renseignements supplémentaires concernant les valeurs minimales et maximales et la déviation moyenne de chaque indicateur. Certains autres indicateurs sont également calculés mais ne figurent pas au Volume VII.

Le Bureau fédéral de la statistique doit sa reconnaissance aux hôpitaux du pays qui ont préparé les données en vue de leur incorporation au programme national de statistique; aux administrateurs provinciaux de l'assurance-hospitalisation pour la collecte des données; aux associations hospitalières provinciales et à l'Association canadienne des hôpitaux pour leurs efforts en faveur de l'uniformité dans la comptabilité et la tenue des registres.

La Section des institutions (Division de la santé et du bien-être) du Bureau fédéral de la statistique a rédigé le présent rapport. On doit adresser à cette section les demandes de renseignements à l'égard des données contenues dans le présent rapport ou de données inédites.

## GLOSSARY

### Type of Hospital

#### Hospital

An institution which is operated for the medical, surgical and/or obstetrical care of in-patients, and which is licensed or approved as a hospital by the federal and/or a provincial government, or by a municipality duly authorized under the laws of the province. Specifically excluded are institutions primarily for tuberculosis, mental disease and mental defect.

#### Public Hospital

Recognized by the province as a "public hospital" which is not operated for profit and accepts all patients regardless of ability to pay.

#### Private Hospital

Recognized by the province as a "private hospital" which generally restricts its admissions to patients paying for the care provided at rates determined by the management.

#### Federal Hospital

A hospital owned and operated by the Government of Canada; operation will either be by the Department of National Health and Welfare, the Department of National Defence, or the Department of Veterans Affairs.

#### General Hospital

A hospital which provides for the treatment and care of all types of diseases or at least a wide range of conditions.

#### Chronic – Convalescent – Rehabilitation Hospital

Hospitals which primarily provide for the treatment of conditions requiring long-term care or for treatment of patients who are considered to be in the recovery stage of an illness, especially where this is a long-term process, and for those patients who are being rehabilitated.

#### Maternity Hospital

A hospital which primarily provides for the treatment and care of obstetrical patients and newborn infants.

#### Other Hospital

A hospital which primarily provides for the treatment of a particular type of disease, condition or case such as communicable disease, orthopaedic, neurological and cancer; or a hospital which provides a combination of various types of service which cannot be classified into chronic, convalescent, rehabilitation or maternity.

## TERMINOLOGIE

### Affectation de l'hôpital

#### Hôpital

Établissement donnant des soins médicaux, chirurgicaux ou obstétriques aux hospitalisés et détenant un permis ou une approbation du gouvernement fédéral ou provincial ou d'une municipalité autorisée à le faire par la province. Sont exclus, les établissements destinés avant tout à la tuberculose, aux maladies mentales et à la déficience mentale.

#### Hôpital public

Hôpital reconnu comme tel par la province et établi dans un but non lucratif; il accepte tous les malades sans égard à leur capacité de payer.

#### Hôpital privé

Hôpital reconnu comme tel par la province et réservant d'ordinaire l'admission des malades à ceux qui paient pour les soins fournis suivant les taux déterminés par la direction.

#### Hôpital fédéral

Hôpital que possède et dirige le gouvernement du Canada; d'ordinaire, l'administration relève du ministère de la Santé nationale et du Bien-être social, du ministère de la Défense nationale ou du ministère des Anciens combattants.

#### Hôpital général

Hôpital qui traite et soigne toutes sortes de maladies ou, au moins, un grand nombre d'états pathologiques.

#### Établissements de maladies chroniques, de convalescence et de réadaptation

Hôpitaux qui traitent, avant tout des états nécessitant des soins de longue durée ou des malades qui relèvent d'une maladie, surtout de longue durée, ou qui ont besoin de réadaptation.

#### Maternité

Hôpital destiné avant tout aux soins obstétriques ainsi qu'à ceux des nouveau-nés.

#### Hôpitaux divers

Hôpitaux destinés surtout au traitement d'états pathologiques particuliers ou de cas particuliers de maladie, comme maladie contagieuse, orthopédie, neurologie et cancer; c'est encore un hôpital qui a plusieurs affectations diverses ne pouvant être classées à maladies chroniques, convalescence, réadaptation ou maternité.

### Allied and Special Hospitals

Includes chronic, convalescent, rehabilitation, maternity and "other" hospitals.

### Size of Hospital

The size of a hospital in this report is determined by the rated bed capacity on December 31 of the reporting year.

### Patient Movement

#### In-patient

A patient who is duly admitted to the hospital and to whom a bed, crib or bassinet has been allocated. (This category excludes stillbirths as well as patients attending a day or night centre attached to the hospital).

**Adults and Children (A and C).** — All in-patients except newborn.

**Newborn (NB).** — An infant in-patient born alive in the hospital, or postnatal newborn admitted with mother for maternity care.

**Admission.** — The formal acceptance and reception of a person as an in-patient (including infants born alive in the hospital).

**Discharge.** — The official release by the hospital of a live in-patient.

**Death.** — The cessation of life of an in-patient after admission and before discharge (excludes stillbirths).

**Separation.** — The discharge or death of an in-patient.

**Patient-day.** — The period of service to an in-patient between the census-taking hours on two successive days; the day of admission is counted as a patient-day but the day of separation is not.

#### Out-patients

Patients who receive services of the hospital in attendance at the hospital, under the direction of the professional personnel of the hospital, but who are not admitted as in-patients. This category includes patients attending a day or night centre.

### Services

#### Laboratory Standard Unit

A measure of the workload of the laboratory — basically ten minutes of time, comprising seven minutes for technical procedures and three for other preparatory services (e.g., stenographic, glass washing, etc.).

### Autres hôpitaux spéciaux

Ces hôpitaux comprennent les institutions de maladies chroniques et de convalescence, de réadaptation, les maternités et les "autres hôpitaux".

#### Taille de l'hôpital

Dans le présent rapport, la capacité théorique (en lits), au 31 décembre de l'année de rapport, détermine la taille d'un hôpital.

### Mouvement hospitalier

#### Hospitalisé

Malade dûment admis à l'hôpital et auquel on y a réservé un lit ou berceau. N'entrent pas dans cette catégorie, les mort-nés, ni les malades qui visitent un centre de l'hôpital la nuit ou le jour.

**Adultes et enfants (A. et E.)** — Tous les hospitalisés, sauf les nouveau-nés.

**Nouveau-né (N. - N.)** — Bébé né vivant à l'hôpital, ou nouveau-né admis après la naissance avec sa mère pour soins maternels.

**Admission.** — Acceptation formelle et réception d'une personne comme hospitalisée (y compris le bébé né vivant à l'hôpital).

**Sortie.** — Congé officiel accordé à un hospitalisé vivant par l'hôpital.

**Décès.** — Cessation de la vie chez un hospitalisé après l'admission et avant sa sortie (exclure la mortinaissance).

**Départ.** — Sortie ou décès d'un hospitalisé.

**Journée d'hospitalisation.** — Période de soins à un hospitalisé entre les heures de vérification du rôle de deux jours consécutifs; le jour d'admission compte comme une journée d'hospitalisation, mais non le jour de départ.

#### Malades externes

Malades qui, sous la direction d'un personnel professionnel, reçoivent des soins dans un hôpital où ils se présentent sans y être hospitalisés. Cette catégorie comprend les malades qui se rendent à un service de nuit ou de jour.

### Services

#### Unité normalisée de laboratoire

Mesure du travail fait en laboratoire; la base est dix minutes, dont sept pour la technique et trois pour le travail préparatoire (ex.: sténographie, lavage des lamelles, etc.).

## Radiology

**Examination.** — The procedure involving one completed film or series of films, or one or more exposures for fluoroscopy, directed at one anatomical site or region of the body during one attendance of the patient at the X-ray department.

**Fluoroscopy.** — Examination by means of a fluoroscope.

**Standard Films.** — Films taken on standard X-ray equipment.

**Miniature Films.** — Fluorographic (photo fluoroscopic) films.

## Surgical

**Operation.** — Any major or minor surgical or other operative procedures performed on one or more anatomical sites or regions of a patient, or cystoscopy procedures carried out, or fractures set, during one attendance in an operating room or emergency unit of the hospital.

## Obstetrical

**Delivery.** — A patient delivered of a single live birth or stillbirth, or multiple live births or stillbirths, or a combination of these, resulting from one pregnancy.

**Live Births.** — Infants (including immatures) born alive in the hospital during the year or as defined in the legislation governing the vital statistics of the province for the year.

**Stillbirths.** — Foetal deaths of 28 or more weeks' gestation or as defined in the legislation governing the vital statistics of the province for the year.

**Immature Births.** — Infants born alive in the hospital during the year who weighed five and one-half ( $5\frac{1}{2}$ ) lbs. (2500 grams) or less at birth.

**Neonatal Deaths.** — Deaths of newborn (mature and immature) under 28 days of age.

## Organized Out-patient Department

A unit set up, equipped and staffed as a separate department of the hospital, under appropriate administrative direction, to receive and to provide care for patients who are not admitted as in-patients to the hospital.

## Emergency Unit

A unit set up to provide emergency care to persons suffering from injury, shock, or other acute conditions requiring emergency treatment.

## Radiologie

**Examen.** — Procédé comportant un film ou une série de films complétés, ou une ou plusieurs expositions à la fluoroscopie, relatifs à un siège anatomique du malade durant une présence au service de radiologie.

**Fluoroscopie.** — Examen au fluoroscope.

**Film ordinaire.** — Film pris par appareil ordinaire de rayon-X.

**Film petit format.** — Film fluorographique (photo-fluoroscopique).

## Chirurgie

**Opération.** — Toute intervention chirurgicale, grave ou légère, pratiquée sur un ou plusieurs sièges anatomiques d'un malade, ou tout examen à l'endoscope ou toute réduction de fractures au cours d'une présence dans une salle d'opération ou une salle d'urgence de l'hôpital.

## Obstétrique

**Accouchement.** — Délivrance d'une grossesse donnant naissance à un ou plusieurs enfants, vivants ou morts, ou comportant une combinaison de ces cas.

**Naissance vivante.** — Naissance de bébé vivant (prématuré ou non) à l'hôpital durant l'année, ou telle que définie par la législation provinciale régissant la statistique de l'état civil pour l'année courante.

**Mortinaissance.** — Expulsion d'un fœtus mort après 28 semaines de gestation ou plus, ou telle que définie par la législation provinciale régissant la statistique de l'état civil pour l'année courante.

**Naissance prématurée.** — Naissance de bébé vivant à l'hôpital durant l'année qui pesait cinq livres et demie ( $5\frac{1}{2}$  livres — 2,500 grammes) ou moins à la naissance.

**Mortalité néonatale.** — Décès de bébés (à terme ou prématurés) en moins de 28 jours depuis leur naissance.

## Service des malades externes (organisé)

Service établi, équipé et doté d'un personnel, à titre de service distinct de l'hôpital et sous une administration appropriée, aux fins de recevoir des malades non hospitalisés et de leur procurer des soins.

## Service d'urgence

Service établi pour donner des soins aux personnes souffrant de blessures de choc ou d'autres états aigus nécessitant un traitement urgent.

**Personnel****Full-time Staff**

Persons employed on a full-time basis at December 31, i.e., regularly employed throughout the full hospital workweek, whether or not the positions they fill are full or part-time positions.

**Part-time Staff**

Persons employed on a part-time basis at December 31, i.e., regularly employed on selected days or partial days in the hospital workweek, whether or not the positions they fill are full or part-time positions.

**Medical Staff**

All physicians and surgeons receiving remuneration from the hospital, including medical directors, radiologists and pathologists, residents and senior interns, junior interns and other medical staff.

**Selected Professional and Technical Staff**

Persons employed as: dietitians, medical record librarians, laboratory technologists, radiological technicians, physiotherapists, occupational therapists, pharmacists, psychologists, social workers. (Includes professionally qualified (see definition below) as well as unqualified persons).

**Nursing Staff**

All staff engaged in nursing, including directors and supervisors, graduate nurses, student nurses, nursing assistants, orderlies, ward aides, clerks and any other nursing staff.

**Other Staff**

Any hospital staff not already enumerated, professional or otherwise, employed in the administration, dietary, laundry, linen service and housekeeping departments, or in the operation and maintenance of physical plant.

**Professionally Qualified**

Those persons holding the professional or technical qualifications recognized by the appropriate associations as relevant to those positions specified in "Selected Professional and Technical Staff" above.

**Paid Hours****General Nursing Services**

Includes paid hours for all staff concerned with the provision of direct care to patients on the ward or nursery and nursing administration.

**Personnel****Personnel de plein temps**

Personnes employées à plein temps le 31 décembre, c.-à-d., employées régulièrement durant toute la semaine ouvrable, que leurs fonctions relèvent d'emplois à temps plein ou partiel.

**Personnel de temps partiel**

Personnes employées à temps partiel le 31 décembre, c.-à-d., employées régulièrement certains jours ou certaines journées incomplètes de la semaine ouvrable de l'hôpital, que les fonctions de ces personnes relèvent d'emplois à temps plein ou partiel.

**Personnel médical**

Tous les médecins et chirurgiens rémunérés par l'hôpital, y compris les directeurs médicaux, radiologues et pathologistes, résidents et internes séniors, internes juniors et autres membres du personnel médical.

**Certain personnel professionnel et technique**

Personnes employées comme diététistes, bibliothécaires et archivistes médicaux, techniciens diplômés de laboratoire, techniciens en radiologie, physiothérapeutes, ergothérapeutes, pharmaciens, psychologues et travailleurs sociaux (qu'ils aient ou non les qualités professionnelles reconnues, ainsi qu'on le définit plus bas).

**Personnel du nursing**

Ensemble du personnel affecté aux soins infirmiers (nursing), y compris les directrices et surveillantes, infirmières diplômées, élèves-infirmières, assistantes-infirmières, infirmiers, aides de salle, commis et tout autre personnel infirmier.

**Autre personnel**

Tous les autres membres du personnel hospitalier (professionnels ou non) qui n'ont pas déjà été énumérés et qui sont affectés à l'administration, à l'alimentation, au blanchissage, à la lingerie et à l'entretien ménager, ainsi qu'au fonctionnement ou à l'entretien des immeubles et du matériel (installation matérielle).

**Détenteurs de qualités professionnelles**

Personnes détenant des qualités professionnelles ou techniques qui sont reconnues par les associations dont relèvent professionnellement les emplois dénommés plus haut dans "Certain personnel professionnel et technique".

**Heures rémunérées****Services généraux de nursing**

Comprend les heures rémunérées de tout le personnel qui s'occupe du soin direct des hospitalisés dans les quartiers ou dans la pouponnière et de l'administration du nursing.

### **Special Nursing Services**

Includes paid hours for all staff assignments concerned with the provision of special treatment services in operating room, delivery room, emergency unit and central supply room.

### **Other Special Services**

Includes paid hours for all staff concerned with special diagnostic and therapeutic services such as pharmacy, laboratory, radiology, physiotherapy, special research projects, ambulance, organized out-patient department and other special services.

### **Supplemental Services**

Includes paid hours for all staff in medical records and medical library, nursing education, medical education, social service and other supplemental services.

### **General Services**

Includes paid hours for all staff concerned with the basic services of providing and maintaining the living arrangements of the hospital such as general administration, dietary, laundry, linen service and housekeeping, operation and maintenance of physical plant. Also includes paid hours for all staff engaged in activities not related to the care of patients such as flower, gift and barber shops, farms, etc. Excluded are paying cafeterias.

### **Training Facilities**

#### **First Year Student Capacity**

The number of new students (first year only) the school has the potential to accommodate each year.

#### **First Year Student Enrolment**

The actual number of new students (first year only) who enrolled during the year.

#### **Total Enrolment at December 31**

Includes all students enrolled at the end of the reporting year, including affiliates-out but excluding affiliates-in.

#### **Affiliate-out**

A person enrolled in the reporting hospital's school of nursing but who is receiving training in another hospital.

#### **Affiliate-in**

A person enrolled in an outside school of nursing but who is receiving training in the reporting hospital.

### **Services spéciaux du nursing**

Comprend les heures rémunérées de tout le personnel qui s'occupe des services de traitement spéciaux dans la salle d'opération, dans la salle d'accouchement au service d'urgence et au service central de distribution.

### **Autres services spéciaux**

Les heures rémunérées de l'ensemble du personnel employé aux services spéciaux de diagnostic et de thérapeutique (pharmacie, radiologie, physiothérapie), aux recherches spéciales, au service d'ambulance, au service organisé des malades externes et aux autres services.

### **Services supplémentaires**

Les heures rémunérées de l'ensemble du personnel chargé des archives et de la bibliothèque médicales, de l'enseignement du nursing, de l'enseignement médical, du service social et des autres services supplémentaires.

### **Services généraux**

Les heures rémunérées de l'ensemble du personnel rattaché aux services essentiels qui procurent et entretiennent les installations vitales de l'hôpital, notamment: administration générale, alimentation, blanchissage, lingerie et entretien ménager, fonctionnement et entretien des immeubles et du matériel. Les heures rémunérées de l'ensemble du personnel engagé dans des activités qui ne sont pas rattachées au soin des malades: boutiques de fleuristes, de cadeaux, salons de barbier, fermes et autres, sans les cafétérias payantes.

### **Moyens de formation**

#### **Capacité de première année**

Nombre de nouvelles élèves (première année seulement) que l'école peut accepter chaque année.

#### **Inscriptions à la première année**

Nombre réel de nouvelles étudiantes (première année seulement) inscrites durant l'année.

#### **Inscriptions totales au 31 décembre**

Toutes les étudiantes inscrites à la fin de l'année y compris les affiliées ailleurs, sans les affiliées d'ailleurs.

#### **Affiliées ailleurs**

Toute personne inscrite à une école d'infirmières d'un hôpital répondant mais qui reçoit sa formation dans un autre hôpital.

#### **Affiliées d'ailleurs**

Toute personne inscrite à une école d'infirmières de l'extérieur, mais qui reçoit sa formation dans l'hôpital répondant.

**Balance Sheets****Buildings and Building Service Equipment**

Includes all structures owned by the hospital and used in carrying out normal functions, as well as equipment added to heat, light, ventilate or otherwise make serviceable.

**Major Equipment**

Includes hospital equipment, other than building service equipment, which has an estimated useful life of 5 years or more and is usually moveable rather than affixed.

**Minor Equipment**

Includes hospital equipment with an estimated life of not more than 5 years, usually small in size, numerous in quantity, relatively low unit cost and no fixed location.

**Depreciation Expense**

Includes depreciation on land improvements, buildings and building service equipment and major equipment.

**Revenues****Revenue Fund**

The Revenue Fund is set up to record monetary activities associated with the day-to-day operations of the hospital in providing services to patients. It is sometimes called the Operating Fund.

**Revenue Fund Income**

Revenue Fund income is all revenue (whether or not actually received) that accrues during the year for the purpose of operation and maintenance of the hospital.

**Gross Earnings**

Gross earnings are the amounts earned by the rendering of services to patients. These amounts are represented by the regular rates charged for such services, regardless of the terms of any contract, agreement, or understanding as to the basis of rates to be paid.

**Net Earnings**

Net earnings comprise the difference between gross earnings and deductions such as rebates, courtesy, free service, and bad debts, less recoveries.

**General Services**

General services include the accommodation and meals, at the standard ward level, routine nursing care, and all of the special services provided to in-patients, such as the use of the operating and delivery rooms, laboratory and radiology

**Bilans hospitaliers****Bâtiments et matériel fixe**

Comprend l'ensemble des bâtiments que possède l'hôpital et qui servent aux fonctions régulières de celui-ci, de même que le matériel ajouté au chauffage, à l'éclairage et à la ventilation, ou mis en service de quelque manière.

**Gros matériel**

Comprend le matériel de l'hôpital autre que le matériel fixe, dont la durée estimative de service est de cinq ans ou plus et qui est habituellement amovible plutôt que fixe.

**Petit matériel**

Comprend le matériel de l'hôpital dont la durée estimative de service ne dépasse pas cinq ans, dont la taille est ordinairement petite, la quantité grande, le prix unitaire modique, et qui n'a pas d'emplacement fixe.

**Frais d'amortissement**

Comprend l'amortissement des aménagements de terrain, des bâtiments, du matériel fixe et du gros matériel.

**Revenus****Fonds d'administration générale**

Le fonds d'administration générale sert à enregistrer les opérations financières quotidiennes de l'hôpital relativement aux soins fournis aux malades. Ce fonds s'appelait autrefois le fonds de revenu.

**Revenus du fonds d'administration générale**

Ce sont tous les revenus (perçus ou non), accumulés durant l'année et servant au fonctionnement et à l'entretien de l'hôpital.

**Revenus bruts**

Sommes acquises par suite de soins aux malades. Ces sommes sont calculées suivant le tarif ordinaire de tels soins, sans égard aux stipulations d'un contrat, d'une entente ou d'un accord quant au tarif à exiger.

**Revenus nets**

Les revenus nets sont la différence entre les revenus bruts et les déductions, telles que rebais, faveurs, soins gratuits et mauvaises créances, moins les recouvrements.

**Soins généraux**

Les soins généraux comprennent le logement et les repas, au prix de la salle commune, les soins infirmiers ordinaires et tous les soins spéciaux fournis aux hospitalisés, — comme l'usage des salles d'opération et d'accouchement, ainsi que du labora-

services, etc., for which the hospital charges to the agency or category of persons responsible for payment of the basic inclusive daily rates.

#### **Additional Services**

Additional services include all services extended over and above standard ward care, mainly the differential to private and semi-private accommodation, non-benefit drugs and ambulance service.

#### **Grants**

These are monies received by the hospital from other than private sources, for revenue fund purposes only, such as maintaining services, covering operating deficit and carrying special research projects. These grants are in addition to and must be distinguished from any earnings derived from provincial plans or government departments to pay for the care of patients.

#### **Other Revenue Fund Income**

This includes investment income, contributed services of personnel, rentals, discounts on purchases, recoveries and sales, income from ancillary operations, and other unallocated income.

#### **Authorized Charges**

An authorized charge is a per diem amount designated by a province to be charged to an insured in-patient for insured services at the standard ward level. This amount is in addition to the regular payment made by the Provincial Plan. Authorized charges apply only in British Columbia, Alberta and the Northwest Territories.

#### **Expenditures**

##### **Revenue Fund Expense**

Revenue Fund Expense is the cost, on an accrual basis, of operating and maintaining the hospital during the year, regardless of the amounts of disbursements made during the year.

##### **Salaries and Wages**

Included are the gross salaries and wages earned during the year by all hospital personnel whether or not actually paid during the year. Gross salaries and wages comprise the following:

(1) Salaries, wages, and other remuneration<sup>1</sup> earned by paid personnel, including special allowances paid and perquisites supplied to such personnel; include also any earned fees or other remuneration, perquisites, and special allowances to physicians for services rendered to the hospital.

<sup>1</sup> Since 1963, for purposes of uniformity, remuneration paid radiologists and pathologists is classified as "other supplies and expenses".

toire et du service de radiologie, etc. — que l'hôpital débite au tarif de base à l'organisme ou aux personnes responsables du paiement.

#### **Soins supplémentaires**

Ces soins englobent tous ceux qui n'entrent pas dans la catégorie des soins ordinaires de salle, surtout les suppléments pour chambres privées ou semi-privées, les médicaments non assurés et le service d'ambulance.

#### **Subventions**

Sommes que l'hôpital a reçues d'autres sources que privées pour les seules fins du fonds d'administration générale, — comme soins d'entretien, — en vue de parer au déficit de gestion et d'effectuer des recherches spéciales. Ces subventions sont en sus et doivent être distinguées de toute recette provenant de régimes ou ministères provinciaux et destinée à payer le soin des malades.

#### **Autres revenus du fonds d'administration générale**

Sont compris ici, les revenus de placements, services gratuits du personnel, loyers, escomptes au comptant sur achats, recouvrements et ventes, revenus des exploitations auxiliaires et autres revenus non répartis.

#### **Frais autorisés**

Montants quotidiens destinés, par une province, à être débités, au tarif de salle commune, à un hospitalisé assuré pour des soins assurés. Cette somme vient en sus du paiement régulier fait par le régime provincial. Les frais autorisés ne s'appliquent qu'en Colombie-Britannique, en Alberta et dans les Territoires du Nord-Ouest.

#### **Dépenses**

##### **Dépenses du fonds d'administration générale**

Ces dépenses représentent le coût, sur une base d'exercice, du fonctionnement et de l'entretien de l'hôpital durant l'année, quels que soient les déboursés effectués.

##### **Rémunération**

La rémunération se dit des traitements et salaires bruts gagnés durant l'année par tout le personnel hospitalier (sauf celui qui est affecté aux recherches spéciales, au service d'ambulance et aux exploitations accessoires), que cette rémunération ait été ou non réellement versée. La rémunération comprend ce qui suit:

1) Les traitements, salaires et autres gratifications<sup>1</sup> gagnés par le personnel rémunéré, y compris les indemnités spéciales et les revenants-bons; sont compris aussi, les honoraires et autres gratifications revenants-bons et indemnités spéciales accordés à des médecins pour services rendus à l'hôpital.

<sup>1</sup> Pour les besoins de l'uniformité, la rémunération des radiologues et des pathologistes, depuis 1963, est classée sous "autres fournitures et dépenses".

(2) The value of contributed services of regular staff members working without pay, and of perquisites supplied to such personnel, calculated on the basis of salary scales for similar services in the community and supported by regular payroll records.

The distribution of the gross salary and wages of an employee working in more than one department of a hospital including allowances for student nurses and interns, normally are made proportionately to the numbers of paid hours of work done by the employee in each of the several departments; however, if the employee received separate remuneration for services in each department, these amounts are charged to the departments concerned.

#### **Other Supplies and Expenses**

Departmental expenditure other than gross salaries and wages, medical and surgical supplies and drugs.

#### **Other Revenue Fund Expenses**

Non-departmental expenditure such as interest on loans, depreciation, expenses for special research projects, ambulance service and other miscellaneous expenses.

2) La valeur des services gratuits du personnel régulier et de ses revenants-bons, calculée d'après l'échelle de la rémunération pour services semblables dans la localité et s'appuyant sur les entrées ordinaires aux bordereaux de paie.

La répartition de la rémunération brute d'un employé travaillant dans plus d'un service hospitalier, —y comprises allocations aux élèves-infirmières et aux internes,— doit ordinairement s'effectuer proportionnellement au nombre d'heures de travail rémunéré de l'employé dans chacun des services. Toutefois, si l'employé a reçu une rémunération distincte pour son travail dans chaque service, chacune de ces rémunérations est débitée au service concerné.

#### **Autres fournitures et dépenses**

Dépenses des services, autres que frais de rémunération, de fournitures chirurgicales et médicales et de médicaments.

#### **Autres dépenses du fonds d'administration générale**

Les dépenses non afférentes aux services, comme intérêts sur emprunts, amortissement, frais de recherches spéciales, frais du service d'ambulance et autres dépenses.

#### **SYMBOLS**

The following standard symbols are used in Dominion Bureau of Statistics publications:

- .. figures not available.
- ... figures not appropriate or not applicable.
- nil or zero.
- amount too small to be expressed.
- ▷ preliminary figures.
- ▷ revised figures.

A and C — Adults and children.

NB — Newborn.

#### **SIGNES CONVENTIONNELS**

Les signes conventionnels suivants sont employés uniformément dans les publications du Bureau fédéral de la statistique.

- .. nombres indisponibles.
- ... n'ayant pas lieu de figurer.
- néant ou zéro.
- nombres infimes.
- ▷ nombres provisoires.
- ▷ nombres rectifiés.

A. et E. — Adultes et enfants.

N.-N. — Nouveau-nés.

TEXTE ET GRAPHIQUES

## INTRODUCTION

This publication, Hospital Indicators 1964, which was initially published for 1961, provides a comprehensive analysis of hospital operation in Canada. The many ratios of hospital utilization, personnel, workloads, revenue and expenditure have been made possible through advanced methods of tabulation available to the Dominion Bureau of Statistics.

For each individual ratio or indicator presented in this report, there is an accompanying item count showing the number of hospitals which entered into the calculation. This figure can be compared with the actual number of operating hospitals as found in Table 1 to ascertain the coverage involved in any particular ratio. Hospitals are not included in the calculation if one of the factors required is missing, e.g., a hospital must show on its returns both expenditures and patient-days to arrive at a cost per diem rate. In addition, both the numerator and denominator of any indicator must have a value of one or more to be accepted into the calculation. Therefore, certain ratios such as the death rate per 1,000 separations, where a legitimate zero value is possible, are excluded from the indicator program.

In addition to the mean value (arithmetic mean) contained in the tables of this report, there are three additional measurements shown for public general hospitals: the first quartile, the median (or second quartile) and the third quartile.<sup>1</sup> These values, however, appear only in areas where 10 or more hospitals were involved, thereby excluding Prince Edward Island, Yukon and Northwest Territories. The following are definitions of these measurements:

**First quartile. ( $Q_1$ )**—that value where 25 per cent of the hospitals have a ratio of this amount or less and 75 per cent have a higher ratio.

**Median. ( $Q_2$ )**—that value where 50 per cent of the hospitals have a ratio of this amount or less and 50 per cent have a higher ratio.

**Third quartile. ( $Q_3$ )**—that value where 75 per cent of the hospitals have a ratio of this amount or less and 25 per cent have a higher ratio.

As an illustration of the meaning of these values, reference should be made to Chart 1 and Table 7. The middle 50 per cent of public general hospitals in Canada had an average length of stay of separations lying between 7.1 days ( $Q_1$ ) and 10.0 days ( $Q_3$ ). For 50 per cent of the hospitals, the average stay was 8.3 days or less (median), the other 50 per cent experiencing a longer length of stay. In comparison, the average or mean

La présente publication dite Indicateurs hospitaliers 1964, publiée la première fois en 1961, fournit une analyse détaillée de hospitalisation au Canada. Les nombreux quotients relatifs à l'utilisation des hôpitaux, au personnel, aux volumes de travail, aux revenus et dépenses ont été possibles grâce aux méthodes perfectionnées de calcul dont dispose le Bureau fédéral de la statistique.

Chaque quotient ou indicateur particulier contenu dans le présent rapport s'accompagne de la totalisation indiquant le nombre d'hôpitaux compris dans le calcul. La comparaison entre ce chiffre et le nombre réel d'hôpitaux en activité qui paraît au tableau 1 permet de constater quelle est la couverture dans le cas de tel ou tel quotient en particulier. Les hôpitaux n'entrent pas dans le calcul s'il manque l'un des facteurs nécessaires, i.e. les rapports d'un hôpital doivent comprendre les dépenses et les journées d'hospitalisation pour que soit calculé le taux du coût par jour. En outre, le numérateur et le dénominateur de tout indicateur doivent tous deux valoir au moins 1 pour entrer dans le calcul. Par conséquent, certains quotients, tels le taux de mortalité pour 1,000 départs dans lequel une valeur vraie d'ordre zéro est possible, sont exclus du programme des indicateurs.

Outre la valeur moyenne (moyenne arithmétique) comprise dans les tableaux du présent rapport, trois mesures supplémentaires sont indiquées pour les hôpitaux publics généraux: le premier quartile, la médiane (ou deuxième quartile) et le troisième quartile<sup>1</sup>. Toutefois, ces valeurs n'apparaissent que dans les régions où 10 hôpitaux ou plus sont en cause, excluant par le fait même l'Île-du-Prince-Édouard, le Yukon et les Territoires du Nord-Ouest. Voici les définitions de ces mesures:

**Premier quartile. ( $Q_1$ )**—valeur que le quotient de 25 p. 100 des hôpitaux ne dépasse pas et que le quotient de 75 p. 100 des hôpitaux dépasse.

**Médiane. ( $Q_2$ )**—valeur que le quotient de 50 p. 100 des hôpitaux ne dépasse pas et que le quotient de l'autre moitié des hôpitaux dépasse.

**Troisième quartile. ( $Q_3$ )**—valeur que le quotient de 75 p. 100 des hôpitaux ne dépasse pas et que le quotient de 25 p. 100 des hôpitaux dépasse.

La consultation du graphique 1 et du tableau 7 permet de voir clairement la signification de ces valeurs. Pour la moitié (centrale) des hôpitaux généraux publics du Canada la durée moyenne du séjour dans le cas des personnes sorties de l'hôpital s'établit entre 7.1 ( $Q_1$ ) et 10 jours ( $Q_3$ ). Le séjour moyen était de 8.3 jours ou moins (médiane) pour 50 p. 100 des hôpitaux et a été plus long pour l'autre moitié. En comparaison, la durée moyenne ou médiane du séjour

length of stay was 10.2 days, which shows the degree to which the mean can be influenced by relatively extreme values of some hospitals. Lengths of stay in excess of 10.0 days ( $Q_3$ ) were experienced by 25 per cent of the hospitals. The minimum and maximum values that occurred throughout the entire range of values were 3.6 days (Alberta) and 47.7 days (Ontario).

Data for the ratios calculated in this report were taken from the Annual Return of Hospitals, Parts I and II. All hospitals in Canada except mental, were required to submit Part I (Facilities and Services), while only public general and allied special hospitals and tuberculosis sanatoria submitted Part II (Finances). Tabular data are limited to general and allied special hospitals for facilities and services, and to public general and allied special hospitals for financial information.

In certain areas such as the distribution of patient-days by type of bed, and departmental breakdown of general and special nursing services, hospitals with less than 50 beds were unable to report in sufficient detail. For this reason, blanks are shown opposite these hospitals in ratio tables affected by such a situation.

---

<sup>1</sup> Medians and quartiles are available for other sub-totals, etc., as well as the standard deviation (a measure of variability from the mean value), minimum and maximum values, upon request to the Institutions Section, Dominion Bureau of Statistics, Ottawa.

a été de 10.2 jours, ce qui montre à quel degré la moyenne est influencée par les valeurs extrêmement élevées de certains hôpitaux. La durée de séjour a dépassé 10 jours ( $Q_3$ ) dans 25 p. 100 des hôpitaux. Les valeurs minimale et maximale qui se sont présentées dans toute l'étendue des valeurs ont été 3.6 jours (Alberta) et 47.7 jours (Ontario).

Les données nécessaires au calcul des quotients que renferme la présente publication proviennent des rapports annuels des hôpitaux (Parties I et II). Tous les établissements hospitaliers du Canada, sauf les institutions psychiatriques, doivent répondre à la première partie des questionnaires (installations et services), tandis que seuls les hôpitaux publics généraux et spéciaux divers et les sanatoriums antituberculeux répondent à la seconde partie (finances). Les tableaux ne concernent que les hôpitaux généraux et spéciaux divers dans le cas des installations et les données financières se rapportent aux hôpitaux publics généraux et spéciaux divers.

Pour certains sujets, notamment la répartition des journées d'hospitalisation par genre de lit et la ventilation par service général et spécial de nursing, les hôpitaux de moins de 50 lits ne peuvent fournir suffisamment de détails. Ceci explique les blancs laissés en regard des hôpitaux de moins de 50 lits dans les tableaux d'indicateurs que les circonstances susmentionnées peuvent influencer.

---

<sup>1</sup> La Section des institutions (Bureau fédéral de la statistique), fournit sur demande les médianes et les quartiles d'autres totaux partiels, de même que la déviation moyenne (mesure de variabilité autour de la valeur médiane) et les valeurs minimales et maximales.

GRAPHIQUE - I

**AVERAGE LENGTH OF STAY OF A AND C SEPARATIONS  
PUBLIC GENERAL HOSPITALS, BY PROVINCE, 1964**

**DURÉE MOYENNE DE L'HOSPITALISATION DANS LE CAS DES DÉPARTS (A. ET E.)  
HÔPITAUX GÉNÉRAUX PUBLICS, PAR PROVINCE, 1964**

25 per cent of hospitals have value between Q1 (first quartile).  
et minimum.

 25 p. 100 des hôpitaux accusent une valeur entre Q1 (1<sup>er</sup> quartile) et le minimum.

50 percent of hospitals have value between Q1 and Q3  
(first quartile and third quartile).

 50 p. 100 des hôpitaux accusent une valeur se situant entre Q1 et Q3 (1<sup>er</sup> et 3<sup>e</sup> quartiles).

25 per cent of hospitals have value between Q3 (third quartile).  
and maximum.

 25 p. 100 des hôpitaux accusent une valeur entre Q3 (3<sup>e</sup> quartile) et le maximum.

Median—50 per cent of hospitals have this value or less, while  
50 per cent have a higher value.

Médiane—50 p. 100 des hôpitaux accusent cette valeur ou moins  
50 p. 100 enregistrent une plus grande valeur.

Mean—common average

Moyenne—moyenne ordinaire.

(i) Includes P. E. I. and the Territories which are not shown separately since these measurements are not provided for provinces where fewer than 10 hospitals are involved in calculation.

(ii) Y compris l'Î-P.-É. et les Territoires qui n'entrent pas dans le calcul de l'indicateur séparément, car ces mesures n'intéressent pas les provinces où moins de 10 hôpitaux font l'objet des calculs.

Note: The trend in general hospitals is for the length of stay to increase as the size of hospital increases. This is due to larger hospitals admitting more complex cases and acting as referral centres.

Nota: Dans les hôpitaux généraux, la durée de l'hospitalisation tend à s'accroître avec la taille de l'hôpital, car les plus grands hôpitaux reçoivent des cas plus compliqués et servent de centres de renvoi.

Note: In certain areas lower occupancy rates may be due to large areas under renovation.

Nota: Dans certains secteurs, les taux d'occupation plus bas sont peut-être dus à de vastes travaux de rénovation.

<sup>1</sup> Average number.

Note: Ratio tends to increase with size of hospital due to more specialized and additional services available.

<sup>1</sup> Nombre moyen.

Note: Le rapport tend à s'accroître avec la taille de l'hôpital, étant donné que des services plus spécialisés et supplémentaires sont disponibles.

Note: Values may be higher in Newfoundland and the Northwest Territories due to the remoteness of these areas from supply depots.

Nota: Les valeurs peuvent être plus élevées à Terre-Neuve et dans les Territoires du Nord-Ouest à cause de la grande distance qui sépare ces régions des centres d'approvisionnement.

Note: Depreciation expense in larger hospitals may be lower than expected due to older buildings which may be fully depreciated.

Note: Les frais d'amortissement de grands hôpitaux peuvent être moins élevés qu'on pourrait s'y attendre à cause de plus vieux bâtiments qui seraient complètement amortis.

Note: Reason for relatively high value in 1-9 bed hospitals may be due to lack of departmentalization as found in larger hospitals. In such cases, these services would probably be included as general and special nursing. Also low occupancy rates, which nevertheless require basic standby service, may have an effect.

Note: Si les hôpitaux de 1-9 lits accusent des chiffres relativement élevés, c'est peut-être que leurs données ne se répartissent pas suivant divers services, comme dans le cas des grands hôpitaux. En occurrence ces services seraient compris dans les services généraux et spéciaux de nursing. Interviennent peut-être aussi les taux d'occupation moins élevés, qui exigent néanmoins la présence d'un service élémentaire.

<sup>1</sup> Operations are defined as any major or minor surgical or other operative procedures performed on one or more anatomical sites or regions of a patient, or cystoscopy procedures performed, or fractures set during one attendance in the operating room of the hospital.

L'opération se définit comme "l'intervention chirurgicale, grave ou légère, pratiquée sur un ou plusieurs sièges anatomiques du corps d'un malade, l'examen à l'endoscope et la réduction de fractures au cours d'une présence dans une salle d'opération de l'hôpital".

Note: Ratio is based on all types of admissions (A and C) to hospital. Note the high incidence in maternity hospitals.

Note: Le rapport se fonde sur le nombre total d'admissions (A. et E.) à l'hôpital. Remarquer l'incidence élevée dans les hôpitaux de maternité.

<sup>1</sup> Obstetrical patients who during the year were delivered of a single live birth or stillbirth, or multiple live births or stillbirths or a combination of these resulting from one pregnancy. The distribution of beds by type of unit was not available for the Province of Nova Scotia.

<sup>1</sup> Celles qui, à la suite d'une seule grossesse, ont accouché durant l'année d'un ou de plusieurs nés vivants ou (et) mort-nés. La Nouvelle-Ecosse ne fournit pas de la répartition des lits suivant leur affectation.

Note: This ratio includes work done for in-patients and out-patients both in the hospital and referred out as well as work referred in and procurement and handling of specimens.

Certain ratios are not suitable in the case of Saskatchewan where most hospitals do not report work referred out.

Hospitals in the provinces of Prince Edward Island, Nova Scotia and New Brunswick do not use the Federal schedule of unit values for clinical laboratory procedures.

Note: Le rapport comprend le travail fait à l'hôpital pour les hospitalisés et les malades externes, le travail confié ailleurs et d'ailleurs, l'acquisition et la manutention des spécimens.

Certains rapports ne s'appliquent pas à la Saskatchewan, où la plupart des hôpitaux ne déclarent pas le travail confié ailleurs.

Les hôpitaux de l'Île-du-Prince-Édouard, de la Nouvelle-Écosse et du Nouveau-Brunswick n'utilisent pas la liste fédérale des valeurs unitaires dans le travail clinique de laboratoire.

Note: This ratio is based on laboratory units done in the hospital for the patients of the hospital. It therefore excludes units referred out for the hospitals' patients and units referred in from outside the hospital.

Nota: Ce rapport se base sur les unités de laboratoire dans l'hôpital relativement à ses propres malades. Sont donc exclus, le travail fait ailleurs au profit des malades de l'hôpital et le travail confié d'ailleurs à l'hôpital.

Note: Many hospitals in New Brunswick refer much of the laboratory work to the Provincial laboratories. This is probably the reason for the New Brunswick ratio being less than one-half that of the Canada ratio.

Note: Au Nouveau-Brunswick, plusieurs hôpitaux confient une bonne part du travail de laboratoire aux laboratoires du gouvernement provincial. C'est probablement pourquoi le rapport du Nouveau-Brunswick équivaut à moins de la moitié de celui du Canada.

<sup>1</sup> Includes gross salaries and wages of the department and other supplies and expenses. This ratio reflects the effects of the provincial diagnostic centres in Manitoba, the high proportion of out-patient radiology and radiotherapy east of Manitoba and the regional council arrangements in Saskatchewan.

<sup>1</sup> Comprend la rémunération brute du service et les autres fournitures et dépenses. Ce rapport reflète les effets des centres provinciaux de diagnostic au Manitoba, la forte proportion de radiologie et de radiothérapie pour les malades externes des provinces à l'est du Manitoba et les dispositions prises par les conseils régionaux de la Saskatchewan.

<sup>1</sup> These account for a very small proportion of total supplemental services, one example being patient education programs.

<sup>1</sup> Ces services comptent pour peu sur l'ensemble des services supplémentaires; ex., les programmes d'éducation des malades.

## **D—GENERAL SERVICES**

All General Services  
General Administration  
Dietary  
Laundry, Linen and Housekeeping  
Operation and Maintenance of Physical Plant  
Ancillary Operations

---

## **D—SERVICES GÉNÉRAUX**

Tous services généraux  
Administration générale  
Alimentation  
Blanchissage, lingerie et entretien ménager  
Fonctionnement et entretien des immeubles  
et du matériel  
Exploitations accessoires
