PREFACE

Hospital statistics in Canada are published in a series of eight annual reports, each of which is concerned with a specific topic. These statistics are provided so that the reader may assess the facilities and services available, the labour force involved and the financial situation in Canadian hospitals.

Statistics on hospitals have been collected by the Dominion Bureau of Statistics since 1931 and have been published since then in varying degrees of detail. Until 1951, one volume contained the entire hospital statistical data. From 1952 to 1958 there were two, 1959-1960 there were six, and since 1961, eight volumes have been required to portray data of the hospital scene. These volumes are as follows:

| |
|-----------------------------------|
| Volume I - Hospital Beds |
| Volume II - Hospital Services |
| Volume III - Hospital Personnel |
| Volume IV - Balance Sheets |
| Volume V - Hospital Revenues |
| Volume VI - Hospital Expenditures |
| Volume VII - Hospital Indicators |
| Preliminary Annual Report |

PREFACE

La statistique des hôpitaux du Canada est publiée dans une série de huit rapports annuels dont chacun traite d'un sujet déterminé. Ces publications permettront au lecteur d'apprécier les installations et services disponibles, la main-d'œuvre employée et la situation financière des hôpitaux canadiens.

Depuis 1931, le Bureau fédéral de la statistique recueille la statistique sur les hôpitaux et la présente en publications plus ou moins détaillées. Jusqu'en 1951, toutes les données statistiques afférentes aux hôpitaux tenaient en un seul volume. De 1952 à 1958, il est paru deux volumes, en 1959-1960 six, et depuis 1961, huit volumes sont nécessaires pour tracer un tableau complet de l'activité hospitalière. En voici les titres:

Catalogue No.

Nº de catalogue

| | |
|-------------------------------|--------|
| - Lits hospitaliers | 83-210 |
| - Services hospitaliers | 83-211 |
| - Personnel hospitalier | 83-212 |
| - Bilans hospitaliers | 83-213 |
| - Revenus hospitaliers | 83-214 |
| - Dépenses hospitalières | 83-215 |
| - Indicateurs hospitaliers | 83-216 |
| - Rapport annuel préliminaire | 83-217 |

The Hospital Indicators publication (Volume VII) follows the pattern set for 1962, i.e., the arithmetic mean (group indicator) is shown for the entire standard classification, while the quartiles and median are shown for the general hospitals in total. Additional information is available on request regarding minimum and maximum values and the standard deviation of each indicator. Also certain indicators are produced but not published in Volume VII.

The Dominion Bureau of Statistics is indebted to the individual hospitals across the nation which have prepared their data for inclusion in a national statistical program; to the provincial hospital plan authorities for the collection of the data; to the provincial hospital associations and the Canadian Hospital Association for their promotion of uniform accounting and recording.

The report was prepared in the Institutions Section of the Health and Welfare Division of the Dominion Bureau of Statistics. Any inquiries with respect to data contained in this report or to unpublished data should be forwarded to this Section.

La publication consacrée aux indicateurs hospitaliers (Volume VII) suit le plan établi en 1962, à savoir que la moyenne arithmétique (indicateur collectif) est indiquée pour la classification type entière, tandis que les quartiles et la médiane sont donnés pour l'ensemble des hôpitaux généraux. On peut obtenir sur demande des renseignements supplémentaires concernant les valeurs minimales et maximales et la déviation moyenne de chaque indicateur. Certains autres indicateurs sont également calculés mais ne figurent pas au Volume VII.

Le Bureau fédéral de la statistique doit sa reconnaissance aux hôpitaux du pays qui ont préparé les données en vue de leur incorporation au programme national de statistique; aux administrateurs provinciaux de l'assurance-hospitalisation pour la collecte des données; aux associations hospitalières provinciales et à l'Association canadienne des hôpitaux pour leurs efforts en faveur de l'uniformité dans la comptabilité et la tenue des registres.

La Section des institutions (Division de la santé et du bien-être) du Bureau fédéral de la statistique a rédigé le présent rapport. On doit adresser à cette section les demandes de renseignements à l'égard des données contenues dans le présent rapport ou de données inédites.

| Table | |
| 1. Number of Operating Hospitals | 37 |
| 2. Rated Bed Capacity of Operating Hospitals | 37 |
| 3. Ratio of Beds Set Up to Rated Bed Capacity | 38 |
| 4. Rated Newborn Bassinets per Rated Obstetric Bed | 39 |
| 5. Adult and Child Admissions per Rated Bed | 40 |
| 6. Newborn Admissions per Rated Bassinet | 41 |
| 7. Average Length of Stay (A and C) | 42 |
| 8. Average Length of Stay (NB) | 43 |
| 9. Percentage of Total A and C Patient-days Charged to Provincial Plan | 44 |
| 10. Ratio of A and C Patients in Hospital at Year-end per 100 A and C Patients | 45 |
| 11. Number of A and C Patients in Hospital at Year-end per 100 Beds Set Up | 46 |
| 12. Percentage Occupancy (Rated Bed Capacity) | 47 |
| 13. Percentage Occupancy of Rated Medicine and Surgery Beds | 48 |
| 14. Percentage Occupancy (Rated Bassinets) | 49 |
| 15. Percentage Occupancy of Rated Obstetric Beds | 50 |
| 16. Percentage Occupancy (Beds Set Up) | 51 |
| 17. Full-time Personnel per 100 Rated Beds | 52 |
| 18. Personnel per 100 A and C Patients | 53 |
| 19. Total Nursing Personnel per 100 A and C Patients | 54 |
| 20. Full-time Personnel per 100 A and C Patients | 55 |
| 21. Full-time Nursing Personnel per 100 A and C Patients | 56 |
| 22. Paid Hours (All Departments) per Rated Bed | 57 |
| 23. Paid Hours (All Departments) per A and C Patient-day | 58 |
| 24. Paid Hours (All Departments) per Available Bed-day | 59 |
| 25. Percentage of Total Revenue Fund Income for Inven- tory of Supplies | 59 |
| 26. Inventory of Supplies per Rated Bed | 60 |
| 27. Percentage of Revenue Fund Assets for Inventory of Supplies | 60 |
| 28. Buildings and Building Service Equipment (Undepre- ciated Value) per Rated Bed | 61 |
| 29. Major Equipment (Undepreciated Value) per Rated Bed | 62 |
| 30. Minor Equipment per Rated Bed | 63 |
| 31. Depreciation Expense per A and C Patient-day | 63 |
| 32. Total Revenue Fund Income per A and C Patient-day | 64 |
| 33. Net In-patient Earnings per A and C Patient-day | 64 |
| 34. Ratio of Net Earnings from Patients to Revenue Fund Expenditure | 65 |

SYMBOLS

The following standard symbols are used in Dominion Bureau of Statistics publications:

- .. figures not available.
- ... figures not appropriate or not applicable.
- nil or zero.
- amount too small to be expressed.
- P preliminary figures.
- R revised figures.

A and C — Adults and children.

NB — Newborn.

SIGNES CONVENTIONNELS

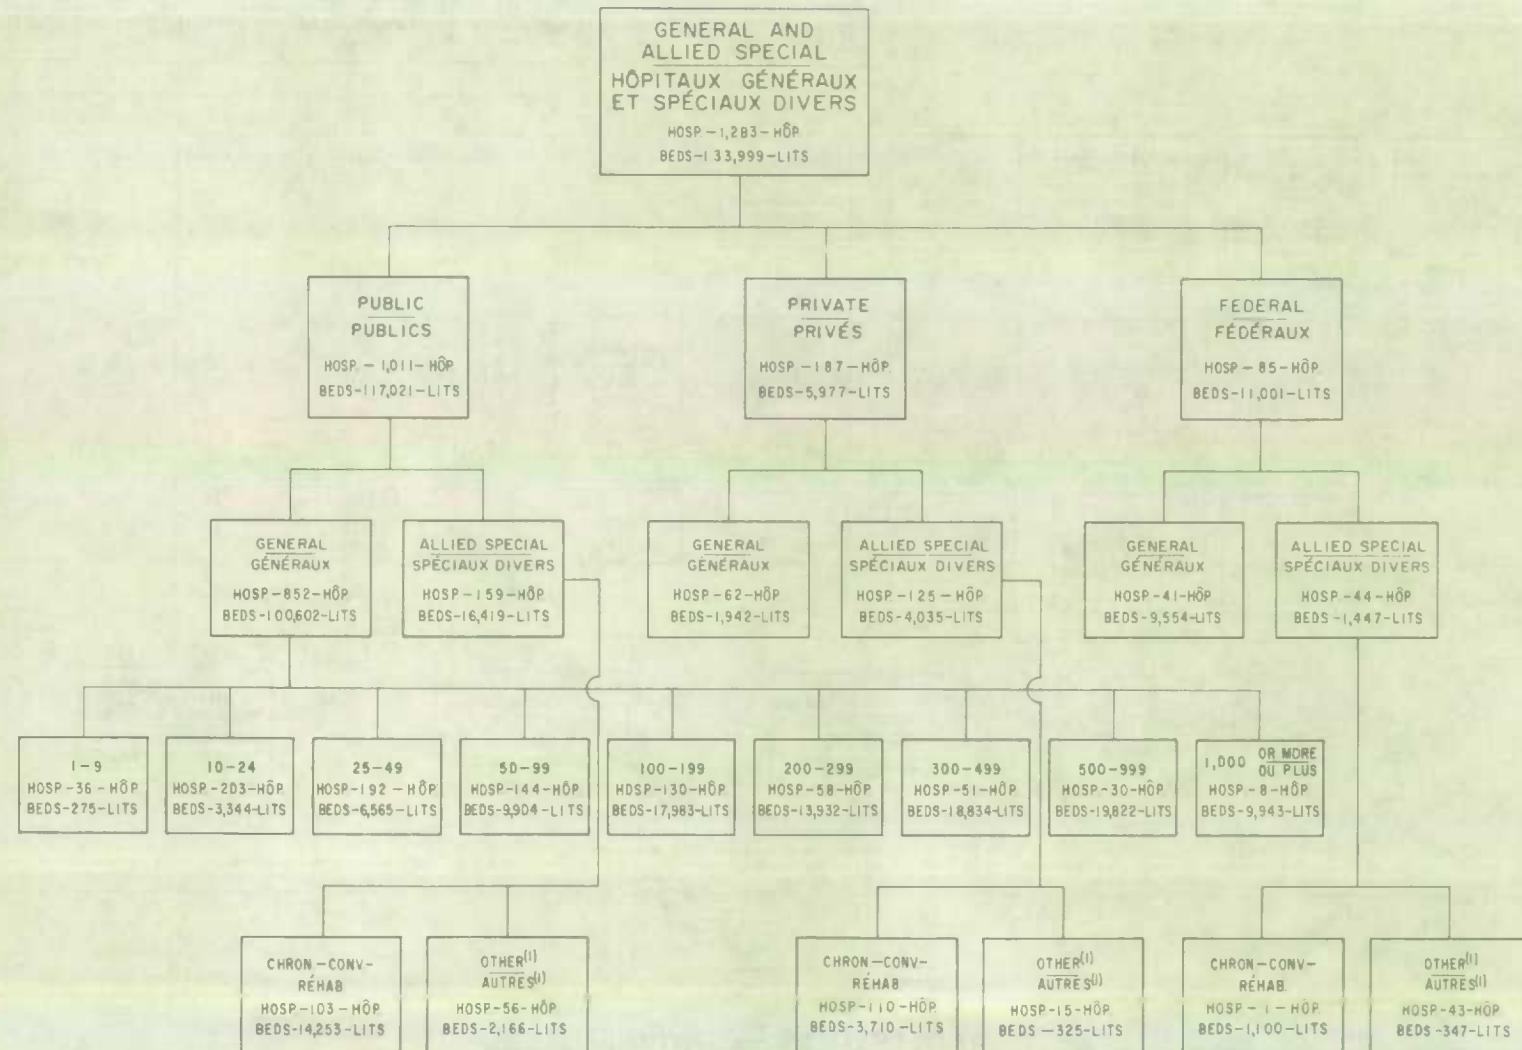

Les signes conventionnels suivants sont employés uniformément dans les publications du Bureau fédéral de la statistique.

- .. nombres indisponibles.
- ... n'ayant pas lieu de figurer.
- néant ou zéro.
- nombres infimes.
- P nombres provisoires.
- R nombres rectifiés.

A. et E. — Adultes et enfants.

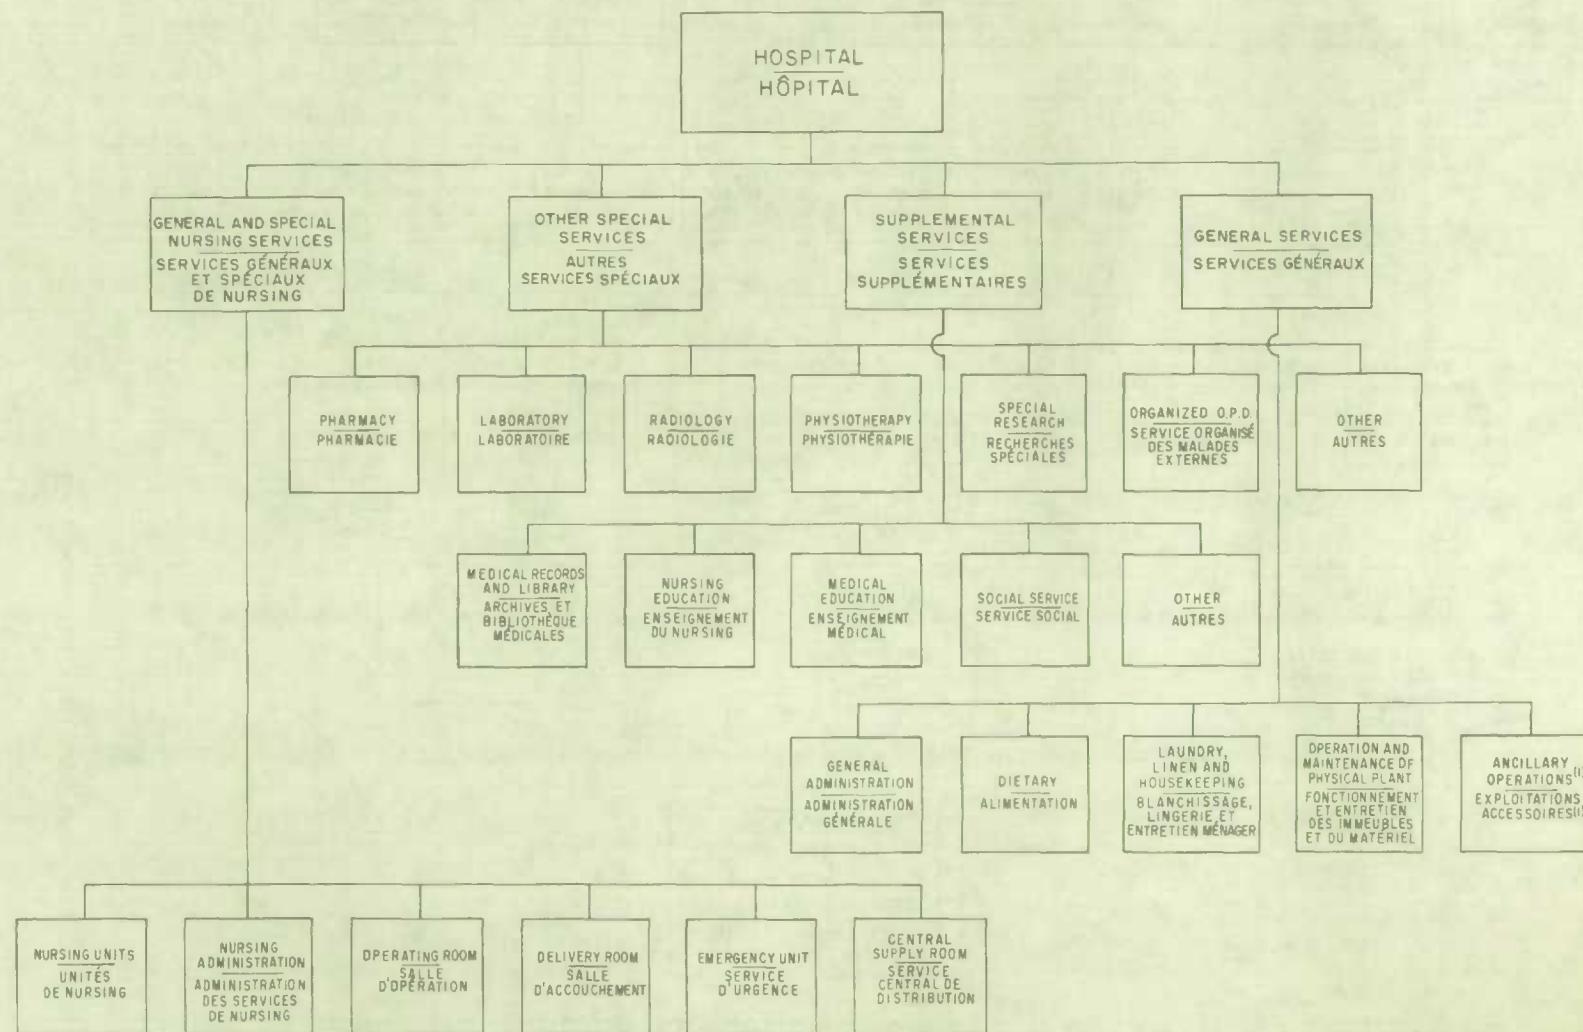

N.-N. — Nouveau-nés.

GLOSSARY

Type of Hospital

Hospital

An institution which is operated for the medical, surgical and/or obstetrical care of in-patients, and which is licensed or approved as a hospital by the federal and/or a provincial government, or by a municipality duly authorized under the laws of the province. Specifically excluded are institutions primarily for tuberculosis, mental disease and mental defect.

Public Hospital

Recognized by the province as a "public hospital" which is not operated for profit and accepts all patients regardless of ability to pay.

Private Hospital

Recognized by the province as a "private hospital" which generally restricts its admissions to patients paying for the care provided at rates determined by the management.

Federal Hospital

A hospital owned and operated by the Government of Canada; operation will either be by the Department of National Health and Welfare, the Department of National Defence, or the Department of Veterans Affairs.

General Hospital

A hospital which provides for the treatment and care of all types of diseases or at least a wide range of conditions.

Chronic – Convalescent – Rehabilitation Hospital

Hospitals which primarily provide for the treatment of conditions requiring long-term care or for treatment of patients who are considered to be in the recovery stage of an illness, especially where this is a long-term process, and for those patients who are being rehabilitated.

Other Hospital

A hospital which primarily provides for the treatment of a particular type of disease, condition or case such as maternity, communicable disease, orthopaedic, neurological and cancer; or a hospital which provides a combination of various types of service which cannot be classified into chronic, convalescent or rehabilitation.

TERMINOLOGIE

Affectation de l'hôpital

Hôpital

Établissement donnant des soins médicaux, chirurgicaux ou obstétriques aux hospitalisés et détenant un permis ou une approbation du gouvernement fédéral ou provincial ou d'une municipalité autorisée à le faire par la province. Sont exclus, les établissements destinés avant tout à la tuberculose, aux maladies mentales et à la déficience mentale.

Hôpital public

Hôpital reconnu comme tel par la province et établi dans un but non lucratif; il accepte tous les malades sans égard à leur capacité de payer.

Hôpital privé

Hôpital reconnu comme tel par la province et réservant d'ordinaire l'admission des malades à ceux qui paient pour les soins fournis suivant les taux déterminés par la direction.

Hôpital fédéral

Hôpital que possède et dirige le gouvernement du Canada; d'ordinaire, l'administration relève du ministère de la Santé nationale et du Bien-être social, du ministère de la Défense nationale ou du ministère des Anciens combattants.

Hôpital général

Hôpital qui traite et soigne toutes sortes de maladies ou, au moins, un grand nombre d'états pathologiques.

Établissements de maladies chroniques, de convalescence et de réadaptation

Hôpitaux qui traitent, avant tout des états requérant des soins de longue durée ou des malades qui relèvent d'une maladie, surtout de longue durée, ou qui ont besoin de réadaptation.

Autres hôpitaux

Hôpitaux qui se spécialisent dans le traitement de maladies, d'états pathologiques ou de cas d'un genre particulier, notamment maternité, maladies contagieuses, orthopédie, neurologie, cancer; ce sont encore les hôpitaux à affectations diverses qui ne peuvent être classés parmi les hôpitaux généraux, les hôpitaux de maladies chroniques, les maisons de convalescence ou de réadaptation.

Allied Special Hospitals

Includes chronic, convalescent, rehabilitation and "other" hospitals.

Size of Hospital

The size of a hospital in this report is determined by the rated bed capacity on December 31 of the reporting year.

Patient Movement

In-patient

A patient who is duly admitted to the hospital and to whom a bed, crib or bassinet has been allocated. (This category excludes stillbirths as well as patients attending a day or night centre).

Adults and Children (A and C). — All in-patients except newborn.

Newborn (NB). — An infant in-patient born alive in the hospital, or postnatal newborn admitted with mother for maternity care.

Admission. — The formal acceptance and reception of a person as an in-patient (including infants born alive in the hospital).

Discharge. — The official release by the hospital of a live in-patient.

Death. — The cessation of life of an in-patient after admission and before discharge (excludes stillbirths).

Separation. — The discharge or death of an in-patient.

Patient-day. — The period of service to an in-patient between the census-taking hours on two successive days; the day of admission is counted as a patient-day but the day of separation is not.

Out-patients

Patients who receive services of the hospital in attendance at the hospital, under the direction of the professional personnel of the hospital, but who are not admitted as in-patients. This category includes patients attending a day or night centre.

Services

Laboratory Standard Unit

A measure of the workload of the laboratory — basically ten minutes of time, comprising seven minutes for technical procedures and three for other preparatory services (e.g., stenographic, glass washing, etc.).

Autres hôpitaux spéciaux

Ces hôpitaux comprennent les institutions de maladies chroniques et de convalescence, de réadaptation et les "autres hôpitaux".

Taille de l'hôpital

Dans le présent rapport, la capacité théorique (en lits), au 31 décembre de l'année de rapport, détermine la taille d'un hôpital.

Mouvement hospitalier

Hospitalisé

Malade dûment admis à l'hôpital et auquel on y a réservé un lit ou berceau. N'entrent pas dans cette catégorie, les mort-nés, ni les malades qui visitent un centre de nuit ou de jour.

Adultes et enfants (A. et E.) — Tous les hospitalisés, sauf les nouveau-nés.

Nouveau-né (N.-N.) — Bébé né vivant à l'hôpital, ou nouveau-né admis après la naissance avec sa mère pour soins maternels.

Admission. — Acceptation formelle et réception d'une personne comme hospitalisée (y compris le bébé né vivant à l'hôpital).

Sortie. — Congé officiel accordé à un hospitalisé vivant par l'hôpital.

Décès. — Cessation de la vie chez un hospitalisé après l'admission et avant sa sortie (exclure la mortinaissance).

Départ. — Sortie ou décès d'un hospitalisé.

Journée d'hospitalisation. — Période de soins à un hospitalisé entre les heures de vérification du rôle de deux jours consécutifs; le jour d'admission compte comme une journée d'hospitalisation, mais non le jour de départ.

Malades externes

Malades qui, sous la direction d'un personnel professionnel, reçoivent des soins dans un hôpital où ils se présentent sans y être hospitalisés. Cette catégorie comprend les malades qui se rendent à un service de nuit ou de jour.

Services

Unité normalisée de laboratoire

Mesure du travail fait en laboratoire; la base est dix minutes, dont sept pour la technique et trois pour le travail préparatoire (ex.: sténographie, lavage des lamelles, etc.).

Radiology

Examination. — The procedure involving one completed film or series of films, or one or more exposures for fluoroscopy, directed at one anatomical site or region of the body during one attendance of the patient at the X-ray department.

Fluoroscopy. — Examination by means of a fluoroscope.

Standard Films. — Exposures of standard size X-ray film.

Miniature Films. — Fluorographic (photo fluoroscopic) film.

Surgical

Operation. — Any major or minor surgical or other operative procedures performed on one or more anatomical sites or regions of a patient, or endoscopic procedures performed, or fractures set, during one attendance in an operating room, cystoscopy room, or an emergency unit of the hospital.

Obstetrical

Delivery. — A patient delivered of a single live birth or stillbirth, or multiple live births or stillbirths, or a combination of these, resulting from one pregnancy.

Live Births. — Infants (including immatures) born alive in the hospital during the year or as defined in the legislation governing the vital statistics of the province for the year.

Stillbirths. — Foetal deaths of 28 or more weeks' gestation or as defined in the legislation governing the vital statistics of the province for the year.

Immature Births. — Infants born alive in the hospital during the year who weighed five and one-half ($5\frac{1}{2}$) lbs. (2500 grams) or less at birth.

Neonatal Deaths. — Deaths of newborn (mature and immature) under 28 days of age.

Organized Out-patient Department

A unit set up, equipped and staffed as a separate department of the hospital, under appropriate administrative direction, to receive and to provide care for patients who are not admitted as in-patients to the hospital.

Emergency Unit

A unit set up to provide emergency care to persons suffering from injury, shock, or other acute conditions requiring emergency treatment.

Radiologie

Examen. — Procédé comportant un film ou une série de films complétés, ou une ou plusieurs expositions à la fluoroscopie, relatifs à un siège anatomique du malade durant une présence au service de radiologie.

Fluoroscopie. — Examen au fluoroscope.

Film ordinaire. — Films pris sur des appareils radiographiques ordinaires.

Film petit format. — Films fluorographiques (photo-fluoroscopiques).

Chirurgie

Opération. — Toute intervention chirurgicale, grave ou légère, pratiquée sur un ou plusieurs sièges anatomiques d'un malade, l'examen à l'endoscope et la réduction de fractures ou cours d'une présence dans une salle d'opération, une salle de cystoscopie ou une salle d'urgence de l'hôpital.

Obstétrique

Accouchement. — Délivrance d'une grossesse donnant naissance à un ou plusieurs enfants, vivants ou morts, ou comportant une combinaison de ces cas.

Naissance vivante. — Naissance de bébé vivant (prématuré ou non) à l'hôpital durant l'année, ou telle que définie par la législation provinciale régissant la statistique de l'état civil pour l'année courante.

Mortinaissance. — Expulsion d'un fœtus mort après 28 semaines de gestation ou plus, ou telle que définie par la législation provinciale régissant la statistique de l'état civil pour l'année courante.

Naissance prématurée. — Naissance de bébé vivant à l'hôpital durant l'année qui pesait cinq livres et demie ($5\frac{1}{2}$ livres — 2,500 grammes) ou moins à la naissance.

Mortalité néonatale. — Décès de bébés (à terme ou prématurés) en moins de 28 jours depuis leur naissance.

Service des malades externes (organisé)

Service établi, équipé et doté d'un personnel, à titre de service distinct de l'hôpital et sous une administration appropriée, aux fins de recevoir des malades non hospitalisés et de leur procurer des soins.

Service d'urgence

Service établi pour donner des soins aux personnes souffrant de blessures de choc ou d'autres états aigus nécessitant un traitement urgent.

Personnel**Full-time Staff**

Persons employed on a full-time basis at December 31, i.e., regularly employed throughout the full hospital workweek.

Part-time Staff

Persons employed on a part-time basis at December 31, i.e., regularly employed on selected days or partial days in the hospital workweek.

Paid Medical Staff

All physicians, surgeons, interns, residents and dentists receiving remuneration from the hospital.

Selected Professional and Technical Staff

Persons employed as: dietitians, medical record librarians, laboratory technologists, radiological technicians, physiotherapists, occupational therapists, pharmacists, psychologists, social workers. (Includes professionally qualified (see definition below) as well as unqualified persons).

Nursing Staff

All staff engaged in nursing, including directors and supervisors, graduate nurses, student nurses, nursing assistants, orderlies, ward aides, clerks and any other nursing staff.

Other Staff

Any hospital staff not already enumerated, professional or otherwise, employed in the administration, dietary, laundry, linen service and house-keeping departments, or in the operation and maintenance of physical plant.

Professionally Qualified

Those persons holding the professional or technical qualifications recognized by the appropriate associations as relevant to those positions specified in "Selected Professional and Technical Staff" above.

Paid Hours**General Nursing Services**

Includes paid hours for all staff concerned with the provision of direct care to patients on the ward or nursery and nursing administration.

Personnel**Personnel de plein temps**

Personnes employées à plein temps le 31 décembre, c.-à-d., employées régulièrement durant toute la semaine ouvrable.

Personnel de temps partiel

Personnes employées à temps partiel le 31 décembre, c.-à-d., employées régulièrement certains jours ou certaines journées incomplètes de la semaine ouvrable de l'hôpital.

Personnel médical rémunéré

Tous les médecins, chirurgiens, internes, résidents et dentistes qui touchent une rémunération de l'hôpital.

Certain personnel professionnel et technique

Personnes employées comme diététistes, bibliothécaires et archivistes médicaux, techniciens diplômés de laboratoire, techniciens en radiologie, physiothérapeutes, ergothérapeutes, pharmaciens, psychologues et travailleurs sociaux (qu'ils aient ou non les qualités professionnelles reconnues, ainsi qu'on le définit plus bas).

Personnel du nursing

Ensemble du personnel affecté aux soins infirmiers (nursing), y compris les directrices et surveillantes, infirmières diplômées, élèves-infirmières, assistantes-infirmières, infirmiers, aides de salle, commis et tout autre personnel infirmier.

Autre personnel

Tous les autres membres du personnel hospitalier (professionnels ou non) qui n'ont pas déjà été énumérés et qui sont affectés à l'administration, à l'alimentation, au blanchissage, à la lingerie et à l'entretien ménager, ainsi qu'au fonctionnement ou à l'entretien des immeubles et du matériel (installation matérielle).

Détenteurs de qualités professionnelles

Personnes détenant des qualités professionnelles ou techniques qui sont reconnues par les associations dont relèvent professionnellement les emplois dénommés plus haut dans "Certain personnel professionnel et technique".

Heures rémunérées**Services généraux de nursing**

Comprend les heures rémunérées de tout le personnel qui s'occupe du soin direct des hospitalisés dans les quartiers ou dans la pouponnière et de l'administration du nursing.

Special Nursing Services

Includes paid hours for all staff assignments concerned with the provision of special treatment services in operating room, delivery room, emergency unit and central supply room.

Other Special Services

Includes paid hours for all staff concerned with special diagnostic and therapeutic services such as pharmacy, laboratory, radiology, physiotherapy, special research projects, ambulance, organized out-patient department and other special services.

Supplemental Services

Includes paid hours for all staff in medical records and medical library, nursing education, medical education, social service and other supplemental services.

General Services

Includes paid hours for all staff concerned with the basic services of providing and maintaining the living arrangements of the hospital such as general administration, dietary, laundry, linen service and housekeeping, operation and maintenance of physical plant. Also includes paid hours for all staff engaged in activities not related to the care of patients such as flower, gift and barber shops, farms, etc.

Training Facilities

First Year Student Enrolment

The actual number of new students (first year only) who enrolled during the year.

Total Enrolment at December 31

Includes all students enrolled at the end of the reporting year, including affiliates-out but excluding affiliates-in.

Affiliate-out

A person enrolled in the reporting hospital's school of nursing but who is receiving training in another hospital.

Affiliate-in

A person enrolled in an outside school of nursing but who is receiving training in the reporting hospital.

Services spéciaux du nursing

Comprend les heures rémunérées de tout le personnel qui s'occupe des services de traitement spéciaux dans la salle d'opération, dans la salle d'accouchement au service d'urgence et au service central de distribution.

Autres services spéciaux

Les heures rémunérées de l'ensemble du personnel employé aux services spéciaux de diagnostic et de thérapeutique (pharmacie, radiologie, physiothérapie), aux recherches spéciales, au service d'ambulance, au service organisé des malades externes et aux autres services.

Services supplémentaires

Les heures rémunérées de l'ensemble du personnel chargé des archives et de la bibliothèque médicales, de l'enseignement du nursing, de l'enseignement médical, du service sociale et des autres services supplémentaires.

Services généraux

Les heures rémunérées de l'ensemble du personnel rattaché aux services essentiels qui procurent et entretiennent les installations vitales de l'hôpital, notamment: administration générale, alimentation, blanchissage, lingerie et entretien ménager, fonctionnement et entretien des immeubles et du matériel. Les heures rémunérées de l'ensemble du personnel engagé dans des activités qui ne sont pas rattachées au soin des malades: boutiques de fleuristes, de cadeaux, salons de barbier, fermes et autres.

Moyens de formation

Inscriptions à la première année

Nombre réel de nouvelles étudiantes (première année seulement) inscrites durant l'année.

Inscriptions totales au 31 décembre

Toutes les étudiantes inscrites à la fin de l'année y compris les affiliées ailleurs, sans les affiliées d'ailleurs.

Affiliées ailleurs

Toute personne inscrite à une école d'infirmières d'un hôpital répondant mais qui reçoit sa formation dans un autre hôpital.

Affiliées d'ailleurs

Toute personne inscrite à une école d'infirmières de l'extérieur, mais qui reçoit sa formation dans l'hôpital répondant.

Balance Sheets**Buildings and Building Service Equipment**

Includes all structures owned by the hospital and used in carrying out normal functions, as well as equipment added to heat, light, ventilate or otherwise make serviceable.

Major Equipment

Includes hospital equipment, other than building service equipment, which has an estimated useful life of 5 years or more and is usually moveable rather than fixed.

Minor Equipment

Includes hospital equipment with an estimated life of not more than 5 years, usually small in size, numerous in quantity, relatively low unit cost and no fixed location.

Depreciation Expense

Includes depreciation on land improvements, buildings and building service equipment and major equipment.

Sinking Fund

Cash or investments, including bonds, debentures and stocks, held for the purpose of retiring a bond issue at some future date.

Improvement and Replacement Fund

Cash or investments set aside for extensions, improvements, or replacement of building, equipment and other plant assets.

Estimated Year-end Adjustment

The amount due to or from the Provincial Plan of the province and other agencies with respect to the adjustment of a surplus or deficit incurred during the year.

Revenues**Revenue Fund**

The Revenue Fund is set up to record monetary activities associated with the day-to-day operations of the hospital in providing services to patients. It is sometimes called the Current Fund or the Operating Fund.

Revenue Fund Income

Revenue Fund income is all revenue (whether or not actually received) that accrues during the year for the purpose of operation and maintenance of the hospital.

Bilans hospitaliers**Bâtiments et matériel fixe**

Comprend l'ensemble des bâtiments que possède l'hôpital et qui servent aux fonctions régulières de celui-ci, de même que le matériel ajouté au chauffage, à l'éclairage et à la ventilation, ou mis en service de quelque manière.

Gros matériel

Comprend le matériel de l'hôpital autre que le matériel fixe, dont la durée estimative de service est de cinq ans ou plus et qui est habituellement amovible plutôt que fixe.

Petit matériel

Comprend le matériel de l'hôpital dont la durée estimative de service ne dépasse pas cinq ans, dont la taille est ordinairement petite, la quantité grande, le prix unitaire modique, et qui n'a pas d'emplacement fixe.

Frais d'amortissement

Comprend l'amortissement des aménagements de terrain, des bâtiments, du matériel fixe et du gros matériel.

Fonds de remboursement de la dette

Comprend tout solde en argent et la valeur des placements du fonds de remboursement de la dette, y compris les obligations et (ou) actions conservées en vue de racheter plus tard une émission d'obligations.

Fonds d'amélioration et de renouvellement

Comprend tout solde en argent et la valeur des placements (obligations et (ou) actions) mis en réserve pour les rajouts, les améliorations et le remplacement de bâtiments, de matériel ou autre actif du fonds d'immobilisations.

Estimation de l'ajustement de fin d'année

Le montant dû à ou au régime d'assurance-hospitalisation de la province et des autres organismes ou à en recevoir, en ce qui trait à l'ajustement du surplus ou du déficit au cours de l'année

Revenus**Fonds d'administration générale**

Le fonds d'administration générale sert à enregistrer toute activité reliée au train-train quotidien de l'hôpital en vue de procurer des soins aux malades. Le fonds s'appelle parfois le fonds courant ou le fonds de revenu.

Revenus du fonds d'administration générale

Ce sont tous les revenus (perçus ou non), accumulés durant l'année et servant au fonctionnement et à l'entretien de l'hôpital.

Gross Earnings

Gross earnings are the amounts earned by the rendering of services to patients. These amounts are represented by the regular rates charged for such services, regardless of the terms of any contract, agreement, or understanding as to the basis of rates to be paid.

Net Earnings

Net earnings comprise the difference between gross earnings and deductions such as courtesy, rebates and free service, and bad debts less recoveries.

General Services

General services include the accommodation and meals, at the standard ward level, routine nursing care, and all of the special services provided to in-patients, such as the use of the operating and delivery rooms, laboratory and radiology services, etc., which the hospital includes in its charges at the basic standard ward daily rate.

Additional Services

Additional services include all in-patient services extended over and above standard ward care, mainly the differential to private and semi-private accommodation, non-benefit drugs and ambulance service.

Grants

These are monies received by the hospital from other than private sources, for revenue fund purposes only, such as maintaining services, covering operating deficit and carrying on special research projects. These grants are in addition to and must be distinguished from any earnings derived from Provincial Plans or government departments to pay for the care of patients.

Other Revenue Fund Income

This includes donations, investment income, contributed services of personnel, rentals, discounts on purchases, recoveries and sales, income from ancillary operations, and other unallocated income.

Authorized Charges

An authorized charge is a per diem amount designated by a province to be charged to an insured in-patient for insured services at the standard ward level. This amount is in addition to the regular payment made by the Provincial Plan. Authorized charges apply only in British Columbia, Alberta and the Northwest Territories.

Revenus bruts

Sommes acquises par suite de soins aux malades. Ces sommes sont calculées suivant le tarif ordinaire de tels soins, sans égard aux stipulations d'un contrat, d'une entente ou d'un accord quant au tarif à exiger.

Revenus nets

Les revenus nets sont la différence entre les revenus bruts et les déductions, telles que faveurs, rabais et soins gratuits et mauvaises créances, moins les recouvrements.

Soins généraux

Les soins généraux comprennent le logement et les repas, au prix de la salle commune, les soins infirmiers ordinaires et tous les soins spéciaux fournis aux hospitalisés, — comme l'usage des salles d'opération et d'accouchement, les services de laboratoire et de radiologie, etc., dont l'hôpital débite le taux quotidien global de base.

Soins supplémentaires

Ces soins englobent tous ceux qui n'entrent pas dans la catégorie des soins ordinaires de salle, surtout les suppléments pour chambres privées ou semi-privées, les médicaments non assurés et le service d'ambulance.

Subventions

Sommes que l'hôpital a reçues d'autres sources que privées pour les seules fins du fonds d'administration générale, — comme soins d'entretien, — en vue de parer au déficit de gestion et d'effectuer des recherches spéciales. Ces subventions sont en sus et doivent être distinguées de toute recette provenant de régimes ou ministères provinciaux et destinée à payer le soin des malades.

Autres revenus du fonds d'administration générale

Sont compris ici: les dons, les revenus de placements, services gratuits du personnel, loyers, escomptes au comptant sur achats, recouvrements et ventes, revenus des exploitations auxiliaires et autres revenus non répartis.

Frais autorisés

Montants quotidiens destinés, par une province, à être débités, au tarif de salle commune, à un hospitalisé assuré pour des soins assurés. Cette somme vient en sus de paiement régulier fait par le régime provincial. Les frais autorisés ne s'appliquent qu'en Colombie-Britannique, en Alberta et dans les Territoires du Nord-Ouest.

Contributed Services

Includes the value of donated services of full-time or part-time personnel (including members of religious orders) but excludes volunteer or campaign fund workers.

Ancillary Operations

Includes income from operations such as a farm or garden, barber shop, florist shop, etc.

Expenditures**Revenue Fund Expense**

Revenue Fund Expense is the cost, on an accrual basis, of operating and maintaining the hospital during the year, regardless of the amounts of disbursements made during the year.

Salaries and Wages

Included are the gross salaries and wages earned during the year by all hospital personnel whether or not actually paid during the year. Gross salaries and wages comprise the following:

(1) Salaries, wages, and other remuneration¹ earned by paid personnel, including special allowances paid and perquisites supplied to such personnel; includes also any earned fees or other remuneration, perquisites, and special allowances to physicians or therapists for services rendered to the hospital.

(2) The value of contributed services of regular staff members working without pay, and of perquisites supplied to such personnel, calculated on the basis of salary scales for similar services in the community and supported by regular payroll records.

The distribution of the gross salaries and wages of an employee working in more than one department of a hospital normally is made proportionately to the numbers of paid hours of work done by the employee in each of the several departments; however, if the employee received separate remuneration for services in each department, these amounts are charged to the departments concerned.

Other Supplies and Expense

Departmental expenditure other than gross salaries and wages, medical and surgical supplies and drugs.

Other Revenue Fund Expense

Non-departmental expenditure such as interest on loans, depreciation, rentals and other miscellaneous expenses.

¹ Since 1963, for purposes of uniformity, remuneration paid radiologists and pathologists is classified as "other supplies and expenses".

Services gratuits

Comprend la valeur des services donnés par le personnel à plein temps ou à temps partiel (y compris les religieux) mais exclut les volontaires ou les participants de campagnes de souscription.

Exploitations auxiliaires

Comprend les revenus provenant d'exploitations telles que ferme ou jardin, salon de coiffure, boutique de fleuriste, etc.

Dépenses**Dépenses du fonds d'administration générale**

Ces dépenses représentent le coût, sur une base d'exercice, du fonctionnement et de l'entretien de l'hôpital durant l'année, quels que soient les déboursés effectués.

Rémunération

La rémunération se dit des traitements et salaires bruts gagnés durant l'année par tout le personnel hospitalier. La rémunération comprend ce qui suit:

1) Les traitements, salaires et autres gratifications¹ gagnés par le personnel rémunéré, y compris les indemnités spéciales et les revenants-bons; sont compris aussi, les honoraires et autres gratifications revenants-bons et indemnités spéciales accordés à des médecins, ou thérapeutistes pour services rendus à l'hôpital.

2) La valeur des services gratuits du personnel régulier et de ses revenants-bons, calculée d'après l'échelle de la rémunération pour services semblables dans la localité et s'appuyant sur les entrées ordinaires aux bordereaux de paie.

La répartition de la rémunération brute d'un employé travaillant dans plus d'un service hospitalier doit ordinairement s'effectuer proportionnellement au nombre d'heures de travail rémunéré de l'employé dans chacun des services. Toutefois, si l'employé a reçu une rémunération distincte pour son travail dans chaque service, chacune de ces rémunérations est débitée au service concerné.

Autres fournitures et dépenses

Dépenses des services, autres que frais de rémunération, de fournitures chirurgicales et médicales et de médicaments.

Autres dépenses du fonds d'administration générale

Les dépenses non afférentes aux services, comme intérêts sur emprunts, amortissement, loyers et autres dépenses.

¹ Pour les besoins de l'uniformité, la rémunération des radiologues et des pathologistes, depuis 1963, est classée sous "autres fournitures et dépenses".

TEXT AND CHARTS

PARTIE I
TEXTE ET GRAPHIQUES

INTRODUCTION

Hospital Indicators, 1965, contains a comprehensive collection of indicators or ratios designed to portray the scope of hospital activity in Canada, from a statistical point of view. Source of the information presented in this volume was the Annual Return of Hospitals form HS-1 (Facilities and Services) and form HS-2 (Finances), from which selected items were extracted, matched together and through advanced methods of computer tabulation produced as a set of statistical measurements as outlined below. A wide range of data are shown in table form covering many facets of hospital operation, extending into the areas of utilization, staffing, workloads, revenues, expenditures and balance sheets.

The number of hospitals, or coverage, associated with any particular indicator in this report may be obtained by comparing the item count showing the number of hospitals which entered into the calculation, with the actual number of hospitals in operation as found in Table 1. To be included in calculation of any indicator, a hospital's return must show both the numerator and denominator involved, e.g., both rated beds and patient-days must be reported before an occupancy rate can be determined. Moreover, both the numerator and denominator must have a value greater than zero, so that certain calculations, such as deaths per 1,000 separations (where a zero can be a legitimate answer) are of necessity excluded from the indicator program. In such cases, the ratio, to be meaningful, would be better obtained from the summary statistics contained in Volume 1 of the Hospital Statistics series.

Basically, the format or table design as contained in the report presents average or arithmetic mean values for public general hospitals by province and bed-size groups. Allied special hospitals are also shown as well as private and federal, where applicable. In addition three other useful measures of statistical analysis are given for public general hospitals; the first quartile, the median (or second quartile) and the third quartile.¹ However, tabulation procedures require at least 10 hospitals for quartile production, thereby excluding Prince Edward Island, Yukon and the Northwest Territories. Following are definitions of the quartiles and the way in which the values should be interpreted.

First Quartile (Q_1).—That value where 25 per cent of the hospitals have a ratio of this amount or less and 75 per cent have a higher ratio.

Second Quartile (Q_2).—That value where 50 per cent of the hospitals have a ratio of this amount or less and 50 per cent have a higher ratio—commonly referred to as the median.

¹ Medians and quartiles are available for other sub-totals, as well as the standard deviation (a measure of variability from the mean value), and minimum and maximum values, upon request to the Institutions Section, Dominion Bureau of Statistics, Ottawa.

L'édition 1965 des Indicateurs hospitaliers (1965) comprend une vaste collection d'indicateurs ou quotients qui dépeignent le champ de l'activité hospitalière au Canada, du point de vue statistique. La source des données présentées ici est le Rapport annuel des hôpitaux, —formules HS-1 (Installations et services) et HS-2 (Finances)—, d'où certains postes sont extraits, appariés et, grâce aux méthodes perfectionnées de l'ordination, présentés en une série de mesures statistiques expliquées plus loin. Un grand assortiment de données sont présentées sous forme de tableaux; elles couvrent de nombreux aspects de l'entreprise hospitalière, dans les domaines de l'utilisation, du personnel, des volumes de travail, des revenus, des dépenses et des bilans.

On peut connaître le nombre d'hôpitaux, c.-à-d. la couverture, apparentés à un indicateur particulier du rapport en comparant le total qui représente le nombre d'hôpitaux compris dans le calcul d'un poste au nombre réel d'hôpitaux en activité que donne le tableau 1. Pour entrer dans le calcul d'un indicateur, le rapport d'un hôpital doit indiquer le numérateur et le dénominateur en cause; par exemple, la déclaration des nombres tant de la capacité théorique en lits que des journées d'hospitalisation est la condition préalable au calcul du taux d'occupation. Par ailleurs, le numérateur et le dénominateur doivent tous deux valoir au moins 1, de telle sorte que certains calculs, tels que les décès pour 1,000 départs (où une valeur vraie d'ordre zéro est possible), sont nécessairement exclus du programme des indicateurs. Dans des cas semblables, pour que le quotient ait une signification, il vaut mieux le tirer du Volume I de la statistique hospitalière.

Fondamentalement, le format ou plan des tableaux du rapport présente les valeurs moyennes ou moyennes arithmétiques pour les hôpitaux généraux publics, par province et par groupe de taille. Il donne également un aperçu des hôpitaux spéciaux divers, ainsi que des établissements privés et fédéraux, selon le cas. De plus, trois autres mesures utiles d'analyse statistique sont données pour les hôpitaux généraux publics: le premier quartile, la médiane (ou deuxième quartile) et le troisième quartile¹. Toutefois, les procédés de calcul exigent au moins dix hôpitaux pour l'obtention des quartiles; l'Île-du-Prince-Édouard, le Yukon et les Territoires du Nord-Ouest sont donc exclus. Suivent les définitions des quartiles et la manière dont ces valeurs doivent être interprétées.

Premier quartile (Q_1).—Valeur que le quotient de 25 p. 100 des hôpitaux ne dépasse pas et que le quotient de 75 p. 100 des hôpitaux dépasse.

Deuxième quartile (Q_2).—Valeur que le quotient de 50 p. 100 des hôpitaux ne dépasse pas et que le quotient de l'autre moitié des hôpitaux dépasse; communément dénommée (médiane).

¹ La Section des Institutions (Bureau fédéral de la statistique, Ottawa), fournit sur demande les médianes et les quartiles d'autres totaux partiels, de même que la déviation moyenne (mesure de la variabilité autour de la valeur médiane) et les valeurs minimales et maximales.

Third Quartile (Q_3). — That value where 75 per cent of the hospitals have a ratio of this amount or less and 25 per cent have a higher ratio.

An illustration of the interpretation of these values may be made by reference to Chart 1 and Table 42. The inter-quartile range (middle 50 per cent) of public general hospitals in Canada had a cost per separation somewhere between \$175.09 (Q_1) and \$304.53 (Q_3). For 50 per cent of the hospitals, the ratio amounted to \$227.16 or less (median), the other half experiencing a higher rate. By comparison, the average or mean cost per separation was \$349.69, which is an indication of the degree to which the average can be influenced by extreme values occurring in some cases. Expense per separation in excess of \$304.53 (Q_3) was applicable to 25 per cent of the hospitals. Minimum and maximum rates that occurred among reported data were \$70.14 and \$1,530.74, respectively.

It will be noticed that in certain instances, such as the departmental breakdown for General and Special Nursing Services or distribution of patient-days by type of bed, blanks have been inserted in the tables. This indicates the fact that many of the smaller hospitals (under 50 beds) are unable to report information in sufficient detail as it affects these areas.

Troisième quartile (Q_3). — Valeur que le quotient de 75 p. 100 des hôpitaux ne dépasse pas et que le quotient de 25 p. 100 des hôpitaux dépasse.

La consultation du graphique 1 et du tableau 42 apporte l'interprétation de ces valeurs. L'écart interquartiles (moitié centrale) des hôpitaux généraux publics au Canada présentait un coût par départ quelque part entre \$175.09 (Q_1) et \$304.53 (Q_3). Dans le cas de 50 p. 100 des hôpitaux, le quotient a atteint \$227.16 ou moins (médiane) et davantage pour l'autre moitié des établissements. Par contre, le coût moyen par départ a été de \$349.69, ce qui montre à quel point la moyenne peut être influencée par les valeurs extrêmes accusées dans certains cas. Les dépenses par départ, supérieures à \$304.53 (Q_3) sont applicables à 25 p. 100 des hôpitaux. Les taux minimaux et maximaux rencontrés dans les rapports ont été, respectivement, de \$70.14 et \$1,530.74.

Dans certains cas, tels que la répartition par service pour les services généraux et spéciaux de nursing ou la répartition des journées d'hospitalisation par genre de lit, on a laissé des blancs. On signale ainsi le fait que plusieurs petits hôpitaux (moins de 50 lits) ne peuvent déclarer des renseignements assez détaillés dans ces domaines.

Note: The trend in general hospitals is for the length of stay to increase as the size of hospital increases. This is due to larger hospitals admitting more complex cases and acting as referral centres.

Nota: Dans les hôpitaux généraux, la durée de l'hospitalisation tend à s'accroître avec la taille de l'hôpital, car les plus grands hôpitaux reçoivent des cas plus compliqués et servent de centres de renvoi.

¹ Average number.

Note: This ratio reflects the effect the holiday season has on the hospital patient-load at year-end.

¹ Nombre moyen.

Nota: Ce rapport reflète l'effet, sur la population hospitalière, des fêtes saisonnières de fin d'année.

Note: In certain areas lower occupancy rates may be due to large areas under renovation.

Note: Dans certains secteurs, les taux d'occupation plus bas sont peut-être dus à de vastes travaux de rénovation.

¹ Average number.

Note: Ratio tends to increase with size of hospital due to more specialized and additional services available.

¹ Nombre moyen.

Nota: Le rapport tend à s'accroître avec la taille de l'hôpital, étant donné que des services plus spécialisés et supplémentaires sont disponibles.

Note: Values may be higher in Newfoundland, Yukon and the Northwest Territories due to the remoteness of these areas from supply depots.

Note: Les valeurs peuvent être plus élevées à Terre-Neuve, Yukon et dans les Territoires du Nord-Ouest à cause de la grande distance qui sépare ces régions des centres d'approvisionnement.

| Chron. — Conv. — Réhab. | — | — | 0.31 | 0.47 | 0.60 | 0.68 | 0.57 | — | 1.14 | 1.21 | — | — | 0.72 |
| Other — Autres | — | — | 4.11 | — | 1.21 | 4.32 | — | — | 7.77 | 1.65 | — | — | 2.35 |
| All public — Tous publics | 1.84 | 1.63 | 1.71 | 1.80 | 1.41 | 1.69 | 1.11 | 1.64 | 1.51 | 1.57 | — | 3.34 | 1.56 |

Note: Depreciation expense in larger hospitals may be lower than expected due to older buildings which may be fully depreciated.

Note: Les frais d'amortissement de grands hôpitaux peuvent être moins élevés qu'on pourrait s'y attendre à cause de plus vieux bâtiments qui seraient complètement amortis.

Note: Reason for relatively high value in 1-9 bed hospitals may be due to lack of departmentalization as found in larger hospitals. In such cases, these services would probably be included as general and special nursing. Also low occupancy rates, which nevertheless require basic standby service, may have an effect.

Note: Si les hôpitaux de 1-9 lits accusent des chiffres relativement élevés, c'est peut-être que leurs données ne se répartissent pas suivant divers services, comme dans le cas des grands hôpitaux. En occurrence ces services seraient compris dans les services généraux et spéciaux de nursing. Interviennent peut-être aussi les taux d'occupation moins élevés, qui exigent néanmoins la présence d'un service élémentaire.

¹ Operations are defined as any major or minor surgical or other operative procedures performed on one or more anatomical sites or regions of a patient, or cystoscopy procedures performed, or fractures set during one attendance in the operating room of the hospital.

¹ L'opération se définit comme "l'intervention chirurgicale, grave ou légère, pratiquée sur un ou plusieurs sièges anatomiques du corps d'un malade, l'examen à l'endoscope et la réduction de fractures au cours d'une présence dans une salle d'opération de l'hôpital".

¹ Obstetrical patients who during the year were delivered of a single live birth or stillbirth, or multiple live births or stillbirths or a combination of these resulting from one pregnancy. The distribution of beds by type of unit was not available for the Province of Nova Scotia.

¹ Celles qui, à la suite d'une seule grossesse, ont accouché durant l'année d'un ou de plusieurs nés vivants ou (et) mort-nés. La Nouvelle-Écosse ne fournit pas la répartition des lits suivant leur affectation.

Note: This ratio includes work done for in-patients and out-patients both in the hospital and referred out as well as work referred in and procurement and handling of specimens.

Certain ratios are not suitable in the case of Saskatchewan where most hospitals do not report work referred out.

Hospitals in the provinces of Prince Edward Island, Nova Scotia and New Brunswick do not use the Federal schedule of unit values for clinical laboratory procedures.

Note: Le rapport comprend le travail fait à l'hôpital pour les hospitalisés et les malades externes, le travail confié ailleurs et d'ailleurs, l'acquisition et la manutention des spécimens.

Certains rapports ne s'appliquent pas à la Saskatchewan, où la plupart des hôpitaux ne déclarent pas le travail confié ailleurs.

Les hôpitaux de l'Île-du-Prince-Édouard, de la Nouvelle-Écosse et du Nouveau-Brunswick n'utilisent pas la liste fédérale des valeurs unitaires dans le travail clinique de laboratoire.

TABLE 96. Percentage of Hospitals' Laboratory Units Done for In-patients, 1965
 TABLEAU 96. Pourcentage des unités de laboratoire effectuées à l'hôpital pour les hospitalisés, 1965

| Category, type of hospital and size Catégorie, affection et taille des hôpitaux | Nfld. T.-N. | P.E.I. I. P.-É. | N.S. N.-É. | N.B. | Qué. | Ont. | Man. | Sask. | Alta. Alb. | B.C. C.-B. | Yukon | N.W.T. T. N.-O. | Canada |

| Mean — Moyenne: | | | | | | | | | | | | | |
| Chron. — Conv. — Réhab. | 100.0 | — | 81.8 | 100.0 | 94.4 | 99.2 | 96.4 | — | 99.6 | 100.0 | — | — | 96.5 |
| Other — Autres | — | — | 100.0 | — | 87.5 | 73.6 | — | — | 95.6 | 91.0 | — | — | 83.5 |
| All public — Tous publics | 71.4 | 75.8 | 75.1 | 89.8 | 86.9 | 90.3 | 88.4 | — | 92.3 | 88.6 | — | 69.7 | 88.2 |
| Private — Privés (hospitals reporting — hôpitaux répondants) | — | — | — | — | — | — | — | — | — | — | — | — | — |
| Federal — Fédéraux (hospitals reporting — hôpitaux répondants) | 1 | — | 3 | 1 | 1 | 3 | 4 | — | 5 | 5 | 1 | 2 | 26 |
| Mean — Moyenne | 46.3 | — | 78.6 | 92.7 | 91.4 | 77.6 | 84.8 | — | 75.8 | 85.2 | 75.2 | 74.7 | 82.4 |

Note: This ratio is based on laboratory units done in the hospital for the patients of the hospital. It therefore excludes units referred out for the hospitals' patients and units referred in from outside the hospital.

Nota: Ce rapport se base sur les unités de laboratoire dans l'hôpital relativement à ses propres malades. Sont donc exclus, le travail fait ailleurs au profit des malades de l'hôpital et le travail confié d'ailleurs à l'hôpital.

| Chron., Conv., Réhab. | — | — | — | — | — | — | — | — | — | — | — | — | — |
| Other — Autres | — | — | — | — | — | — | — | — | — | — | — | — | — |
| All private — Tous privés | — | — | — | — | — | 8.6 | — | — | — | — | — | — | 8.6 |
| Federal — Fédéraux (hospitals reporting — hôpitaux répondants) | 1 | — | 2 | 1 | 1 | 5 | 3 | 2 | 3 | 4 | 1 | 2 | 25 |
| Mean — Moyenne | ... | — | 34.1 | 37.4 | 41.3 | 25.2 | 42.8 | 36.3 | 20.1 | 23.0 | 31.5 | 19.8 | 27.6 |

Note: Many hospitals in New Brunswick refer much of the laboratory work to the Provincial laboratories. This is probably the reason for the New Brunswick ratio being less than one-half that of the Canada ratio.

Note: Au Nouveau-Brunswick, plusieurs hôpitaux confient une bonne part du travail de laboratoire aux laboratoires du gouvernement provincial. C'est probablement pourquoi le rapport du Nouveau-Brunswick équivaut à moins de la moitié de celui du Canada.

¹ Includes gross salaries and wages of the department and other supplies and expenses. This ratio reflects the effects of the provincial diagnostic centres in Manitoba, the high proportion of out-patient radiology and radiotherapy east of Manitoba and the regional council arrangements in Saskatchewan.

¹ Comprend la rémunération brute du service et les autres fournitures et dépenses. Ce rapport reflète les effets des centres provinciaux de diagnostic au Manitoba, la forte proportion de radiologie et de radiothérapie pour les malades externes des provinces à l'est du Manitoba et les dispositions prises par les conseils régionaux de la Saskatchewan.
