### **SYMBOLS**

The following standard symbols are used in Dominion Bureau of Statistics publications:

- .. figures not available.
- ... figures not appropriate or not applicable.
- nil or zero.
- amount too small to be expressed.
- Ⓟ preliminary figures.
- Ⓡ revised figures.

A. and C. — Adults and children.

### **SIGNES CONVENTIONNELS**

Les signes conventionnels suivants sont employés uniformément dans les publications du Bureau fédéral de la statistique.

- .. nombres indisponibles.
- ... n'ayant pas lieu de figurer.
- néant ou zéro.
- nombres infimes.
- Ⓟ nombres provisoires.
- Ⓡ nombres rectifiés.

A. et E. — Adultes et enfants.

# HOSPITAL STATISTICS

## LA STATISTIQUE HOSPITALIÈRE

1963

### Introduction

This report presents a preliminary summary of principal hospital statistics representing the 1,255 general and allied special hospitals (public, private and federal) operating in 1963. Estimation, based on submitted data, has been employed in certain areas of incomplete reporting in order to maintain total coverage of all hospitals. Final, more detailed information will be contained in later releases of Hospital Statistics, 1963 (Volumes I to VII, DBS Catalogue Nos. 83-210 to 83-216). Specifically excluded in this report are statistics relating to mental and tuberculosis institutions. In addition, the textual analysis is confined to public hospitals, which representing 87.2 per cent of the rated beds, accounted for the overwhelming majority of facilities and services provided during the year.

### Facilities and Services

There were 14 more public general and allied special hospitals operating in 1963 than in 1962. Rated bed capacity amounted to 111,480, an increase of 4.5 per cent. The ratio of rated beds in public hospitals per 1,000 population of Canada was 5.9 compared with 5.7 in the previous year. The estimated number of beds actually set up in public hospitals in 1963 was 111,200, representing a ratio of 1.00 per rated bed (1.01 in 1962).

Total patient-days for adults and children in public hospitals were 33,076,700, equivalent to an average daily population in hospital of 90,600 (87,600 in 1962). Provincial hospital insurance plans in 1963 were responsible for the payment of 93.8 per cent of these patient-days compared with 93.4 per cent in 1962. The rate of occupancy in public hospitals decreased to 82.2 per cent from 82.3 per cent.

Average length of stay of adults and children separated from public hospitals in 1963 was 11.5 days, a moderate gain in comparison with 1962 (11.3 days). In general hospitals, the length of stay tended to increase with the size of hospital, rising from 6.9 days in the 1-9 bed hospitals to 14.2 days in the 1,000 or more bed group.

The average number of paid hours of work by all staff of public hospitals per adult and child patient-day amounted to 12.2, a slight rise over the preceding year (12.1). Nursing staff accounted for 6.7 hours of the average (6.7 hours in 1962).

Total estimated personnel employed in public general and allied special hospitals in 1963 were 209,200, of which 89.8 per cent were classified as full-time (90.0 per cent in 1962). Nursing staff represented 56.6 per cent of the full-time employment (56.0 per cent).

### Introduction

Le présent rapport préliminaire récapitule les principales statistiques hospitalières qu'ont fournies les 1,255 hôpitaux généraux et spéciaux divers (publics, privés et fédéraux) qui étaient en activité en 1963. A partir des données soumises, on a utilisé des estimations pour certaines régions dont les déclarations étaient incomplètes, afin de couvrir l'ensemble des hôpitaux. Des renseignements définitifs et plus détaillés figureront à La Statistique hospitalière, 1963 (vol. I-VII, numéros de catalogue du B.F.S. 83-210 à 83-216). Le présent rapport laisse de côté les statistiques des institutions psychiatriques et de tuberculose. En outre, l'analyse du texte se limite aux hôpitaux publics, lesquels comptent 87.2 p. 100 de la capacité théorique et la grande majorité des installations et services utilisés durant l'année.

### Installations et services

En 1963, par rapport à 1962, il y avait 14 hôpitaux généraux ou spéciaux divers de plus en activité. Leur capacité théorique s'établissait à 111,480 lits, augmentation de 4.5 p.100. Le rapport de la capacité théorique des hôpitaux publics à 1,000 Canadiens était de 5.9, comparativement à 5.7 l'année précédente. Le nombre de lits dressés dans ces mêmes hôpitaux totalisait 111,200 en 1963, soit un rapport à la capacité théorique de 1 à 1 (1.01 en 1962).

Les journées d'hospitalisation des adultes et enfants se sont chiffrées par 33,076,700, ce qui équivalait à une moyenne quotidienne d'hospitalisés de 90,600 (87,600 en 1962). Les régimes provinciaux d'assurance-hospitalisation ont répondu pour le paiement de 93.8 p. 100 de ces journées, au regard de 93.4 en 1962. Le taux d'occupation a descendu de 82.3 à 82.2 p. 100.

L'hospitalisation moyenne des adultes et enfants qui ont partis en 1963 a atteint 11.5 jours, légère hausse sur 1962 (11.3). Dans les hôpitaux généraux, la durée de l'hospitalisation a tendu à s'accroître avec la taille de l'hôpital et elle a passé de 6.9 jours dans le groupe 1-9 lits à 14.2 dans celui de 1,000 lits ou plus.

La moyenne des heures de travail rémunérées du personnel, par journée d'hospitalisation d'adulte ou d'enfant, a atteint 12.2, légère hausse sur l'année précédente (12.1). Le personnel infirmier a compté pour une moyenne de 6.7 heures (6.7 en 1962).

Le personnel des hôpitaux publics (généraux et spéciaux divers) a été estimé à 209,200, dont 89.8 p. 100 étaient à plein temps (90.0 en 1962). Le personnel infirmier a figuré pour 56.6 p. 100 du personnel à plein temps (56.0).

**Finances**

Financial data are received only from public general and allied special hospitals in Canada. Total revenue fund income in 1963 was \$843,235,000 or \$26.51 per adult and child patient-day, while revenue fund expense of \$879,390,000 represented a cost of \$27.60 per patient-day. Corresponding averages for 1962 were: revenue \$23.98, expenditure \$24.82.

Salaries and wages accounted for 65.9 per cent of the revenue fund expenditure in 1963 (65.4 per cent in 1962), amounting to \$18.19 per patient-day (\$16.22). Cost per patient-day for medical and surgical supplies was \$0.86 compared with the 1962 figure of \$0.76. Drug cost amounted to \$1.08 per patient-day (\$0.99 in 1962), other supplies and expense (departmental) were \$5.46 (\$5.00) and other revenue fund expense was \$2.01 (\$1.85).

**Finances**

Le Bureau reçoit des données financières des seuls hôpitaux publics (généraux et spéciaux divers). En 1963, les revenus totaux du fonds d'administration générale se sont fixés à \$843,235,000 (\$26.51 par journée d'hospitalisation d'adulte ou d'enfant) et les dépenses de ce même fonds, à \$879,390,000 (\$27.60). Les moyennes correspondantes étaient respectivement de \$23.98 et de \$24.82 en 1962.

La rémunération a compté pour 65.9 p.100 des dépenses du fonds d'administration générale (65.4 en 1962), soit \$18.19 par journée d'hospitalisation (\$16.22). Le coût de la journée d'hospitalisation en fournitures médicales et chirurgicales s'est établi à 86c., comparativement à 76c. en 1962. Les frais en médicaments ont monté à \$1.08 par journée d'hospitalisation (99c. en 1962), les frais des services en fournitures diverses et leurs frais divers à \$5.46 (\$5) et les dépenses diverses du fonds d'administration générale à \$2.01 (\$1.85).

## GLOSSARY

### Public Hospital

Recognized by the province as a "public hospital", generally not operated for profit and accepting all patients regardless of their ability to pay.

### Private Hospital

Recognized by the province as a "private hospital", generally restricting its admissions to patients paying for care provided at rates determined by the management.

### Federal Hospital

Owned and operated by the Government of Canada; usually operated by the Department of National Health and Welfare, Department of National Defence or Veterans Affairs.

### General Hospital

Provides treatment and care for all types of diseases or at least a wide range of conditions.

### Allied Special

Includes chronic, convalescent, rehabilitation, maternity and other (communicable disease, orthopaedic, cancer) hospitals.

### Patient-Day

The period of service to an in-patient between the census-taking hours on two successive days; the day of admission is counted as a patient-day but the day of separation is not.

### Separation

The discharge or death of an in-patient.

### Revenue Fund Income

All revenue (whether or not actually received) that accrues during the year for the purpose of operation and maintenance of the hospital.

### Revenue Fund Expense

The cost, on an accrual basis, of operation and maintenance of the hospital during the year, regardless of the amounts of disbursements made.

### Other Supplies and Expenses

Includes expenses of the various hospital departments such as replacement of minor equipment, repair and maintenance of major and minor departmental equipment, general supplies and all other departmental expense.

### Other Revenue Fund Expense

Non-departmental expenses, including interest on bank loans, depreciation of buildings, building service equipment, special research projects and ambulance service.

## TERMINOLOGIE

### Hôpital public

Reconnu comme tel par la province, généralement établi dans un but non lucratif et recevant tous les malades sans égard à leur capacité de payer.

### Hôpital privé

Reconnu comme tel par la province et réservant d'ordinaire l'admission des malades à ceux qui paient pour les soins fournis suivant les taux déterminés par la direction.

### Hôpital fédéral

Propriété et sous la direction du gouvernement fédéral, d'ordinaire géré par le ministère de la Santé nationale et du Bien-être social, ou le ministère de la Défense nationale, ou le ministère des Anciens combattants.

### Hôpital général

Qui fournit traitement et soin à toutes sortes de maladies ou, au moins, à un grand nombre d'états pathologiques.

### Hôpitaux spéciaux divers

Qui comprennent les hôpitaux de maladies chroniques, les maisons de convalescence, les hôpitaux de réadaptation, les maternités et les autres hôpitaux (maladies contagieuses, orthopédie, cancer).

### Journée d'hospitalisation

Période de soins à un hospitalisé entre les heures de vérification de deux jours successifs; le jour d'admission compte comme une journée d'hospitalisation, mais non le jour de radiation.

### Radiation

Sortie ou décès d'un hospitalisé.

### Revenus du fonds d'administration générale

Tous les revenus (perçus ou non) accumulés durant l'année en vue du fonctionnement et de l'entretien de l'hôpital.

### Dépenses du fonds d'administration générale

Le coût, sur une base d'exercice, du fonctionnement et de l'entretien de l'hôpital durant l'année, quel que soit le montant des déboursés effectués.

### Autres dépenses en fournitures et autres dépenses

Dépenses des divers services hospitaliers, comme substitution de petit équipement, réparation et entretien d'équipement (gros ou petit), fournitures générales et toutes autres dépenses des services.

### Autres dépenses du fonds d'administration générale (hors services)

Les autres services comprennent les intérêts sur emprunts, l'amortissement des bâtiments, les dépenses pour agencements et installations des immeubles et les frais de recherches spéciales et d'ambulance.
