GLOSSARY

Public Hospital

Recognized by the province as a "public hospital", generally not operated for profit and accepting all patients regardless of their ability to pay.

Private Hospital

Recognized by the province as a "private hospital", generally restricting its admissions to patients paying for care provided at rates determined by the management.

Federal Hospital

Owned and operated by the Government of Canada; usually operated by the Department of National Health and Welfare, Department of National Defence or Veterans Affairs.

General Hospital

Provides treatment and care for all types of diseases or at least a wide range of conditions.

Allied Special

Includes chronic, convalescent, rehabilitation and other (maternity, communicable disease, orthopaedic, cancer) hospitals.

Patient-day

The period of service to an in-patient between the census-taking hours on two successive days; the day of admission is counted as a patient-day but the day of separation is not.

Separation

The discharge or death of an in-patient.

Revenue Fund Income

All revenue (whether or not actually received) that accrues during the year for the purpose of operation and maintenance of the hospital.

Revenue Fund Expense

The cost, on an accrual basis, of operation and maintenance of the hospital during the year, regardless of the amounts of disbursements made.

Other Supplies and Expense

Departmental expenditure other than gross salaries and wages, medical and surgical supplies and drugs.

Other Revenue Fund Expense

Non-departmental expenditure such as interest on loans, depreciation, rentals and other miscellaneous expenses.

TERMINOLOGIE

Hôpital public

Reconnu comme tel par la province, généralement établi dans un but non lucratif et recevant tous les malades sans égard à leur capacité de payer.

Hôpital privé

Reconnu comme tel par la province et réservant d'ordinaire l'admission des malades à ceux qui paient pour les soins fournis suivant les taux déterminés par la direction.

Hôpital fédéral

Hôpital que possède et dirige le gouvernement fédéral, d'ordinaire géré par le ministère de la Santé nationale et du Bien-être social, ou le ministère de la Défense nationale, ou le ministère des Anciens combattants.

Hôpital général

Qui traite et soigne toutes sortes de maladies ou, au moins, un grand nombre d'états pathologiques.

Hôpitaux spéciaux divers

Qui comprennent les hôpitaux de maladies chroniques, les maisons de convalescence, les hôpitaux de réadaptation et les autres hôpitaux (les maternités, maladies contagieuses, orthopédie, cancer).

Journée d'hospitalisation

Période de soins à un hospitalisé entre les heures de vérification de deux jours successifs; le jour d'admission compte comme une journée d'hospitalisation, mais non le jour de départ.

Départ

Sortie ou décès d'un hospitalisé.

Revenus du fonds d'administration générale

Tous les revenus (perçus ou non) accumulés durant l'année en vue du fonctionnement et de l'entretien de l'hôpital.

Dépenses du fonds d'administration générale

Le coût, sur une base d'exercice, du fonctionnement et de l'entretien de l'hôpital durant l'année, quel que soit le montant des déboursés effectués.

Autres fournitures et dépenses

Dépenses des services, autres que frais de rémunération, de fournitures chirurgicales et médicales et de médicaments.

Autres dépenses du fonds d'administration générale

Les dépenses non afférentes aux services, comme intérêts sur emprunts, amortissement, loyers et autres dépenses.

HOSPITAL STATISTICS

LA STATISTIQUE HOSPITALIÈRE

1966

INTRODUCTION

Preliminary data contained in this report were taken from the Annual Returns of Hospitals (parts HS-1 and HS-2), which were submitted to the Dominion Bureau of Statistics by Canadian general and allied special hospitals. Not included is information relating to mental and tuberculosis institutions.

Estimates were made for non-coverage, so that data would be representative of all hospitals in operation and historical comparability would be maintained. Basic trends in the facilities, services and finances of Canadian hospitals from the year 1961 are presented in summary form in Table 1.

Facilities and Services

General and allied special hospitals in operation in 1966 numbered 1,274, a decrease of 9 from 1965 and comprised 1,028 public, 171 private and 75 federal. The total rated bed capacity of all hospitals advanced by 3,000 to 137,000, and the rate per 1,000 population was seen to increase slightly to 6.9 from 6.8. Hospitals classified as public general and allied special accounted for 122,400 or 89.3 per cent of the total bed capacity. The analysis of data in this report deals exclusively with this group. Beds actually set up and in use in these hospitals amounted to 122,500, representing roughly a 1 to 1 ratio in comparison with rated capacity.

Total patient-days of adults and children separated from public hospitals in 1966 reached 35,861,900. This was the equivalent of an average daily population in hospital of 98,400, marking an increase of 2,700 or 2.8 per cent in comparison with the 1965 average. The proportion of patient-days which were paid for by Provincial Hospital Insurance Plans was 95.4 per cent, up by 0.1 per cent over 1965. Percentage occupancy (based on rated beds) in 1966 amounted to 80.7 per cent, down 1.6 per cent from the 1965 figure.

Average duration of stay in hospital in 1966 was 11.7 days in the case of adults and children (11.6 in 1965) and 6.7 days for newborn (6.8). In general hospitals, average stay amounted to 10.2 days and tended to be longer in the larger hospitals, rising from 7.2 days in the 10-24 bed group to 13.2 in the 1,000 or more bed hospitals.

Les données provisoires qui figurent dans le présent rapport proviennent du rapport annuel (parties HS-1 et HS-2) que soumettent au Bureau fédéral de la statistique tous les hôpitaux généraux et spéciaux divers du Canada. Les données concernant les établissements pour malades mentaux et pour tuberculeux ne figurent pas cependant dans ce rapport.

Afin que les données représentent l'ensemble des hôpitaux en activité et pour que la comparabilité chronologique soit conservée, on a fait des estimations dans le cas des hôpitaux qui n'ont pas fait de rapport. Le tableau 1 fait le sommaire des principales tendances des installations, services et finances des hôpitaux canadiens depuis 1961.

Installations et services

Le nombre d'hôpitaux généraux et spéciaux divers en activité en 1966 s'élevait à 1,274, soit 9 de moins qu'en 1965, et comprenait 1,028 hôpitaux publics, 171 hôpitaux privés et 75 hôpitaux fédéraux. La capacité théorique globale en lits de l'ensemble des hôpitaux s'est accrue de 3,000 lits pour s'établir à 137,000 et le taux pour 1,000 habitants s'est accru légèrement en passant de 6.8 à 6.9. Les hôpitaux classés publics, généraux et spéciaux divers avaient 122,400 lits, soit 89.3 p. 100 de la capacité théorique globale. L'étude des données présentée dans le rapport concerne exclusivement ce groupe d'hôpitaux. Le nombre de lits réellement dressés et occupés dans ces hôpitaux atteignait 122,500, constituant à peu près un rapport de 1 à 1 en comparaison de la capacité théorique.

Le nombre total de journées d'hospitalisation des adultes et des enfants qui ont quitté les hôpitaux publics en 1966 s'élève à 35,861,900. Ce chiffre correspond à une moyenne quotidienne de 98,400 malades hospitalisés, soit une hausse de 2,700 ou 2.8 p. 100 sur celle de 1965. La proportion de journées d'hospitalisation défrayées par les régimes provinciaux d'assurance-hospitalisation a été de 95.4 p. 100, soit 0.1 p. 100 de plus qu'en 1965. Le taux d'occupation (fondé sur la capacité théorique) en 1966 atteint 80.7 p. 100, soit 1.6 p. 100 de moins qu'en 1965.

La durée moyenne du séjour en 1966 a été de 11.7 jours (11.6 en 1965) dans le cas des adultes et des enfants, et de 6.7 (6.8) jours pour les nouveau-nés. Dans les hôpitaux généraux, le séjour moyen atteint 10.2 jours et a tendance à être plus long dans les hôpitaux plus grands; il varie de 7.2 jours dans les hôpitaux de 10 à 24 lits à 13.2 dans les hôpitaux de 1,000 lits et plus.

Canadian public hospitals employed some 255,100 persons in 1966, of which 88.0 per cent were full-time staff. Total employment was up 7.0 per cent over 1965 and the proportion of full-time staff advanced by 1.3 per cent. The majority of full-time personnel were classified as nursing staff, accounting for 56.4 per cent (56.4 in 1965).

Paid hours of work per patient-day of care by all employees in public hospitals advanced to 13.3 from 13.0, with nursing staff contributing 7.4 hours of the total (7.7 in 1965). General and Special Nursing Services represented 43.2 per cent of the total hours worked (42.3 in 1965), followed by General Services 31.5 per cent (31.9), Supplemental Services 15.6 per cent (16.4) and Other Special 9.7 per cent (9.4).

Finances

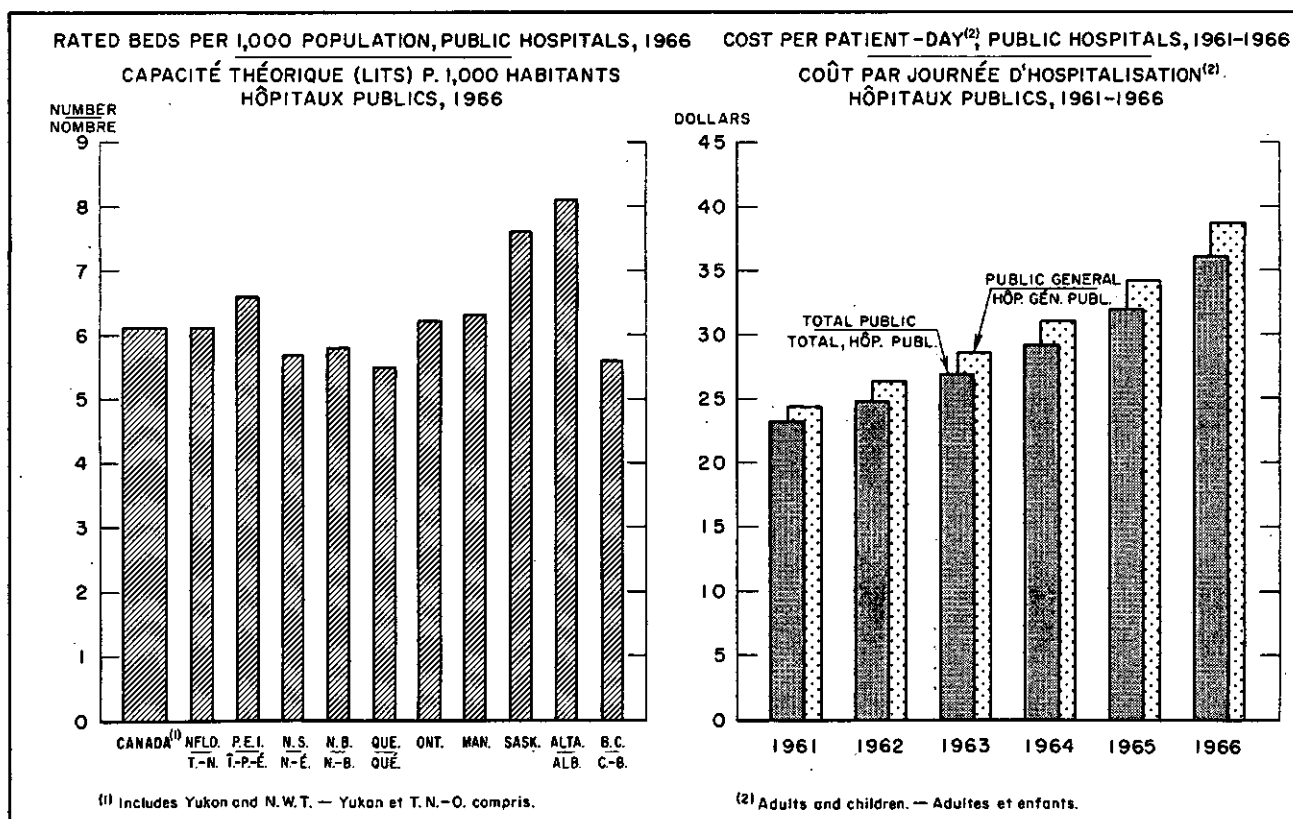

Only public hospitals are required to submit financial information to the Dominion Bureau of Statistics, and in 1966, general and allied special hospitals had an estimated Revenue Fund income of \$1,108,685,000 or \$34.26 per patient-day (\$30.53 in 1965). Principle source of income was net earnings from in-patients, representing 89.0 per cent of the total compared with 88.7 per cent the

Les hôpitaux publics au Canada employaient en 1966 quelque 255,100 personnes dont 88 p. 100 à plein temps. Le nombre total d'employés s'est accru de 7 p. 100 sur celui de 1965, et la proportion d'employés à plein temps s'est accrue de 1.3 p. 100. La plus grande partie des employés à temps complet faisait partie du personnel infirmier et formait 56.4 p. 100 du total (56.4 en 1965).

Le nombre d'heures de travail rémunérées du personnel des hôpitaux publics par journée d'hospitalisation est passé de 13 à 13.3, le personnel infirmier étant comptable de 7.4 heures (7.7 en 1965) du total. Les services généraux et spéciaux de soins infirmiers sont comptables de 43.2 p. 100 (42.3 en 1965), du total des heures de travail, les services généraux, de 31.5 (31.9) p. 100, les services supplémentaires, de 15.6 (16.4) p. 100 et les autres services spéciaux, de 9.7 (9.4) p. 100.

Finances

Seuls les hôpitaux publics sont tenus de soumettre un rapport financier au Bureau fédéral de la statistique et, en 1966, les hôpitaux généraux et spéciaux divers avaient un revenu estimatif du fonds d'administration générale s'élevant à \$1,108,685,000 ou à \$34.26 par journée d'hospitalisation (\$30.53 en 1965). La principale source de revenus était les soins aux hospitalisés et équivalait à 89 p. 100 du

previous year. Other sources of income were net earnings from out-patients of 5.2 per cent (5.4), grants 1.6 per cent (1.8) and all others 4.2 per cent (4.1).

Estimated Revenue Fund expenditures of public hospitals in 1966 were \$1,281,045,000, equivalent to \$36.00 per patient-day, an increase of 12.8 per cent over the 1965 average of \$31.92. Gross salaries and wages accounted for 65.7 per cent of the total compared with 65.1 per cent in 1965. Remaining components of cost comprised: drugs 3.7 per cent (3.8); medical and surgical supplies 3.0 per cent (3.1); other supplies and expense 21.2 per cent (21.3); non-departmental expense 6.4 per cent (6.7).

Total salaries and wages were distributed among hospital services as follows: General and Special Nursing 48.7 per cent (48.3); Other Special 12.5 per cent (11.9); Supplemental 8.8 per cent (8.9); General Services 30.0 per cent (30.9).

total comparativement à 88.7 l'année précédente. Les autres sources de revenu étaient les soins aux malades externes (5.2 p. 100 contre 5.4 en 1965), les subventions (1.6 p. 100 contre 1.8) et les autres sources (4.2 p. 100 contre 4.1).

Les dépenses du fonds d'administration générale des hôpitaux publics ont été estimées à \$1,281,045,000 en 1966 soit \$36 par journée d'hospitalisation, hausse de 12.8 p. 100 sur la moyenne (\$31.92) de 1965. La rémunération brute a retenu 65.7 p. 100 du total comparé à 65.1 en 1965. Les autres frais se répartissent ainsi: médicaments, 3.7 (3.8) p. 100; fournitures médicales et chirurgicales, 3 (3.1) p. 100; autres fournitures et dépenses, 21.2 (21.3) p. 100; dépenses autres que les services, 6.4 (6.7) p. 100.

La répartition de la rémunération parmi les services hospitaliers s'établit ainsi: services généraux et spéciaux de soins infirmiers, 48.7 (48.3) p. 100; autres services spéciaux, 12.5 (11.9) p. 100; services supplémentaires, 8.8 (8.9) p. 100; et services généraux, 30 (30.9) p. 100.

SYMBOLS

The following standard symbols are used in Dominion Bureau of Statistics publications:

- .. figures not available.
- ... figures not appropriate or not applicable.
- nil or zero.
- amount too small to be expressed.
- Ⓟ preliminary figures.
- * revised figures.

A and C -- Adults and children.

SIGNES CONVENTIONNELS

Les signes conventionnels suivants sont employés uniformément dans les publications du Bureau fédéral de la statistique.

- .. nombres indisponibles.
- ... n'ayant pas lieu de figurer.
- néant ou zéro.
- nombres infimes.
- Ⓟ nombres provisoires.
- * nombres rectifiés.

A. et E. -- Adultes et enfants.
