# ◆INTRODUCTION◆

The purpose of this catalogue is to provide you with a comprehensive list and description of all products, surveys and services offered by the Industry Division. This will allow you to better meet the needs of clients who are interested in industry data. However, the production of industry data is not limited to Industry Division; consequently, some industry-related surveys/products conducted by other divisions have also been included in this catalogue. This provides you with a more complete listing of the kinds of industry data that are available.

The Industry Division is divided into four subject matter sections:

1. Energy
2. Manufacturing
3. Retail Trade
4. Wholesale Trade

This catalogue follows the organization of the division and therefore includes one chapter per subject matter. Each chapter is divided in four components:

- ◆ **Products** These represent data from a variety of sources including surveys  
(P) and administrative data and are not necessarily related to one survey in particular.
- ◆ **Surveys** Each survey is identified by its SDDS (Statistical Data  
(S) Documentation System) number and describes the data collected and disseminated by the section.
- ◆ **Services** These are usually survey specific and represent a special  
(C) combination of data that are not available in a standard products.  
Not all data collected in surveys are published, due to cost considerations, questionable demand and/or data quality. In some cases, these data can be disseminated as a service.

Most services are completed on a special request basis and are priced accordingly. Some of the data available can be produced in electronic format, upon request. Surveys for specific purposes/clients, such as additional questions pertaining to existing surveys are some of the services available from all sections of the division. (example 3.6C in the Retail Trade section and 4.2C in the Wholesale Trade section) Another service available is the design of a specific survey to meet the clients needs (example 4.3C in the Wholesale Trade section).

- ◆ **Related Surveys/Products (R)** These surveys are conducted outside the Industry Division and collect data relevant to a specific subject matter area. Each related survey is identified by its SDDS number and describes the data that are collected and disseminated. Other useful products are listed. These products represent compilations of data from various surveys conducted by Industry Division or by other divisions. Lists are not exhaustive, but they include the surveys/products perceived as most relevant to the subject.

The last chapter of the catalogue is entitled Related Surveys/Products. These surveys are conducted by other divisions and the products are produced from different surveys from various surveys. The list of surveys/products are general in nature and are relevant to all subject matter areas in Industry Division.

Included is a table of contents, a keyword index, and a list of all products/services that are mentioned within the text that specifies: product registration number, name, frequency, page reference, and prices for Canada, the United States and other countries.

## ◆ CODES USED IN THE CATALOGUE ◆

Each publication/product/service has a registration number. The first set of numbers identify the publication/product/service number. The three letters following the publication/product/service number identify certain qualities of the product.

---

34-252- <b>XPB</b>	Clothing Industries ( <b>A</b> )
45F0001 <b>XFB</b>	Flash - Refined Petroleum Products ( <b>M</b> )

---

◆ **Stage**                      The first letter represents the stage of the publication or product.

i.e. Preliminary      a product produced before final confirmation of data  
X                      Not relevant to this product

◆ **Delivery**                      The second letter represents the medium/mode which the product is delivered to the client:

i.e. Paper/Print      produced on paper  
Fax                      sent by facsimile  
Diskette              sent on diskette

◆ **Language**                      The third letter represents the language in which the product is delivered.

i.e. E                      English  
F                      French  
B                      Bilingual

◆ **Periodicity**                      The letters which appear in brackets after the publication title refer to the periodicity of the publication:

<b>A</b>	Annual	<b>SA</b>	Semi-annual (every six months)
<b>BE</b>	Biennial	<b>TE</b>	Triennial
<b>C</b>	Continuing	<b>TW</b>	Twice a year (not necessarily every six months)
<b>I</b>	One time only	<b>V</b>	Five times per year
<b>M</b>	Monthly	<b>X</b>	Every two months
<b>O</b>	Occasional	<b>Y</b>	Three times per year
<b>Q</b>	Quarterly		
<b>QN</b>	Quinquennial		
<b>S</b>	Seasonal		

◆ **Price**                      The prices of the products and services appear at the end of the catalogue. In some cases, the following codes appear instead of a numerical price:

i.e. SR                      Special Request - price is calculated based on required information.  
NC                      No Charge

## Energy Products ◆ P ◆

### 1.1P Energy Statistics Handbook

**Description:** The handbook is a comprehensive source of detailed information on the availability, production, and use of energy in Canada. Current monthly and historic annual energy data covering the last 10 years are provided. Data are organized and presented by energy type, with supporting sections on prices, conversion factors and economic indicators. Geographic detail is at the provincial level.

**Publications:** 57-601-XPB Energy Statistics Handbook (A) with (M)updates  
57-601-XDE Energy Statistics Handbook (English)  
57-601-XDF Energy Statistics Handbook (French)

**Release time:** The information is updated monthly. Released the last week of the reference month.

**Contact:** Irfan Hashmi  
Tel: (613) 951-3501

### 1.2P FLASH - Natural Gas

**Description:** This is a one page report that provides monthly estimates of the domestic sales of natural gas in thousands of cubic metres. National and provincial level breakdowns are provided with current month and cumulative data.

**Product number:** 45F0002XPE or 45F0002XPF  
45F0002XFE or 45F0002XFF

**Release time:** 30 days after the reference month

**Contact:** Gary Smalldridge  
Tel: (613) 951-3567

### **1.3P FLASH - Refined Petroleum Products**

**Description:** This is a one page report that provides monthly estimates of the domestic sales of refined petroleum products in thousands of cubic metres. National and provincial level breakdowns are provided with current month and cumulative data. Also included are the corresponding CANSIM matrix numbers for each refined petroleum product.

**Product number:** 45F0001XPB  
45F0001XFB

**Release time:** 30 days after the reference month

## ◆ Energy Surveys ◆ S ◆

## GENERAL

## 1.1S Industrial Consumption of Energy

Survey #2166

- Description:** A quarterly survey collects energy use and inventory data from large consumers of energy in Canada. Geographic detail is at the provincial level.
- An annual survey collects energy use by manufacturing industries. Data are available for all 2 digit SIC industries and for selected 4 and 5-digit industries. Energy use data are presented by energy form (coal, natural gas, electricity, middle distillates, propane, wood, etc.). Also available is information on the use of natural gas by purpose (fuel, production of electricity, production stream, and non-fuel use) and use of coal by type (bituminous and lignite). Geographic detail is at the national level.
- Details:**
- ◆ steam sales
  - ◆ type of fuel
  - ◆ consumption
- Publications:** 57-003-XPB Quarterly Report on Energy Supply-Demand in Canada (Q); *three other surveys contribute to this publication, please see 1.6S, 1.13S, 1.19S*
- Release time:** 7-8 months after the reference period
- Contact:** Serge Grenier  
Tel: (613) 951-3566

## COAL AND ELECTRICITY

## 1.2S Coal Mines

Survey #2177

- Description:** This annual survey collects data from all producing coal mines with annual sales of 1 million dollars or greater. Geographic detail is at the provincial level.
- Details:**
- ◆ supplies and materials purchased and used
  - ◆ employment and payroll
  - ◆ selected non-mining inputs by type
  - ◆ selected non-mining outputs
  - ◆ marketing expenses by type
  - ◆ coal mines, industry value by type of revenues
- Publications:** 26-206-XPB Coal Mines (A)
- Release time:** 12 months after the reference year
- Contact:** Serge Grenier  
Tel: (613) 951-3566

**1.3S Coke Monthly****Survey #2003**

- Description:** This monthly survey collects data on Canadian and imported coal used by Canadian coke plants and on the supply and disposition of coke produced. Geographic detail is at the provincial level.
- Publications:** 45-002-XPB Coal and Coke Statistics (M); *one other survey contributes to this publication, please see 1.8S*
- Release time:** 55 to 58 days after the reference month
- Contact:** Serge Grenier  
Tel: (613) 951-3566

**1.4S Electric Power Capability and Load****Survey #2181**

- Description:** This annual survey collects data from all generators of electricity and/or those which have imports, exports, or inter-provincial transactions in electricity. Data on both power and energy are reported for the current year and forecasted for the next five years and a tenth year. Geographic detail is at the provincial level.
- Details:**
- ◆ electric power capability
  - ◆ electric power peak load
  - ◆ energy available
- Publications:** 57-204-XPB Electric Power Capability and Load (A)
- Release time:** 10 months after the reference year
- Contact:** Serge Grenier  
Tel: (613) 951-3566

**1.5S Electric Utilities - Financial Reports****Survey #2001**

- Description:** This annual survey collects financial data from electric utilities in Canada. Geographic detail is at the provincial level.
- Details:**
- ◆ balance sheet data
  - ◆ revenue and expenses
  - ◆ taxes
- Publications:** 57-202-XPB Electric Power Annual Statistics (A); *two other surveys contribute to this publication, please see 1.6S, 1.10S*
- Release time:** 12 months after the reference year
- Contact:** Serge Grenier  
Tel: (613) 951-3566

**1.6S Electricity Supply/Disposition Quarterly****Survey #2194**

<b>Description:</b>	This quarterly survey collects data on the supply and disposition of electricity in Canada from utilities and industrial establishments which generate and/or distribute electric energy. Geographic detail is at the provincial level.	
<b>Details:</b>	<ul style="list-style-type: none"> <li>◆ type of generation</li> <li>◆ producers</li> <li>◆ sales</li> <li>◆ supply and disposition</li> </ul>	
<b>Publications:</b>	57-003-XPB	Quarterly Report on Energy Supply -Demand in Canada (Q); <i>three other surveys contribute to this publication, please see 1.1S, 1.13S, 1.20S</i>
	57-202-XPB	Electric Power Annual Statistics (A); <i>two other surveys contribute to this publication, please see 1.5S, 1.10S</i>
<b>Release time:</b>	Quarterly - 7months after the reference quarter Annual - 8-11 months after the reference year	
<b>Contact:</b>	Serge Grenier Tel: (613) 951-3566	

## 1.7S Generating Stations

**Survey #2193**

<b>Description:</b>	This annual survey collects data about electric generating equipment in electric generating stations in Canada. Geographic detail is at the provincial level.	
<b>Details:</b>	<ul style="list-style-type: none"> <li>◆ Generating capacity               <ul style="list-style-type: none"> <li>◆ electric power by type and by type of ownership</li> <li>◆ conventional thermal generating capacity, by type</li> <li>◆ steam plants, internal combustion, and combustion turbines by principal fuels</li> </ul> </li> </ul>	
<b>Publications:</b>	57-206-XPB	Electric Power Generating Stations (A)
<b>Release time:</b>	10 to 11 months after the reference year	
<b>Contact:</b>	Serge Grenier Tel: (613) 951-3566	

## 1.8S Monthly Coal

**Survey #2147**

<b>Description:</b>	This monthly survey collects data related to the activities of all producing coal mines in Canada. Geographic detail is at the provincial level.
---------------------	--

<b>Details:</b>	◆ coal mining by type ◆ coal dispositions ◆ coal mine output and production
<b>Publications:</b>	45-002-XPB Coal and Coke Statistics (M); <i>one other survey contributes to this publication, please see 1.3S</i>
<b>Release time:</b>	55 to 58 days after the reference month
<b>Contact:</b>	Serge Grenier Tel: (613) 951-3566

## 1.9S Monthly Electricity

Survey #2151

<b>Description:</b>	This monthly survey collects data on type of electricity generated and/or movement by: large generators of electricity in Canada (those which generate 20,000 or more MWh/year); and establishments which have imports, exports or inter-provincial transactions. There are approximately 50 industrial establishments and 50 utilities. Geographic detail is at the provincial level.
<b>Publications:</b>	57-001-XPB Electric Power Statistics (M)
<b>Release time:</b>	55 to 58 days after the reference month
<b>Contact:</b>	Serge Grenier Tel: (613) 951-3566

## 1.10S Thermal Generating Stations' Fuel Consumption

Survey #2196

<b>Description:</b>	This annual survey collects fuel consumption data from thermal generating plants in Canada. Geographic detail is at the provincial level.
<b>Details:</b>	◆ type of station ◆ fuels consumed
<b>Publications:</b>	57-202-XPB Electric Power Annual Statistics (A); <i>two other surveys contribute to this publication, please see 1.5S, 1.6S</i>
<b>Release time:</b>	12 months after the reference year
<b>Contact:</b>	Serge Grenier Tel: (613) 951-3566

## NATURAL GAS

### 1.11S Gas Utilities/Transportation and Distribution Systems - Annual

Survey #2180

<b>Description:</b>	This annual survey collects information from companies engaged in the selling of natural gas to ultimate consumers through distribution pipelines, and from those companies engaged in the transportation of natural gas by pipeline to local distribution systems. Geographic detail is at the provincial level.	
<b>Details:</b>	<ul style="list-style-type: none"> <li>◆ employment and payroll</li> <li>◆ natural gas sales</li> <li>◆ gas utilities <ul style="list-style-type: none"> <li>◆ by type of system-transport, distribution</li> <li>◆ property account data, by plant category</li> <li>◆ income statement and balance sheet data</li> <li>◆ compressor stations operated - number, type</li> </ul> </li> <li>◆ pipelines <ul style="list-style-type: none"> <li>◆ by material used in pipeline</li> <li>◆ distance by purpose of pipeline</li> </ul> </li> </ul>	
<b>Publications:</b>	57-205-XPB	Gas Utilities, Transport and Distribution Systems (A)
<b>Release time:</b>	10 months after the reference year	
<b>Contact:</b>	Gary Smalldridge Tel: (613) 951-3567	

### 1.12S Gas Utilities/Transportation and Distribution Systems - Monthly

Survey #2149

<b>Description:</b>	This monthly survey collects data from transmission and distribution companies primarily engaged in the selling of natural gas to ultimate consumers through distribution pipelines (distribution systems). Geographic detail is at the provincial level.	
<b>Details:</b>	<ul style="list-style-type: none"> <li>◆ sales</li> <li>◆ imports/exports</li> <li>◆ receipts and dispositions</li> </ul>	
<b>Publications:</b>	55-002-XPB	Gas Utilities (M)
<b>Release time:</b>	48 to 50 days after the reference month	
<b>Contact:</b>	Gary Smalldridge Tel: (613) 951-3567	

### 1.13S Natural Gas Disposition - Quarterly

Survey #2167

<b>Description:</b>	This survey collects data from gas utility companies. They allocate their sales of natural gas on a SIC basis. Geographic detail is at the provincial level.	
<b>Details:</b>	<ul style="list-style-type: none"> <li>◆ sales to manufacturing industries</li> </ul>	

- ◆ sales to transportation and utilities

**Publications:** 57-003-XPB Quarterly Report on Energy Supply-Demand in Canada (Q); *three other surveys contribute to this publication, please see 1.1S, 1.6S, 1.20S*

**Release time:** 7 months after the reference period

**Contact:** Gary Smalldridge  
Tel: (613) 951-3567

## PETROLEUM

### 1.14S Crude Petroleum and Natural Gas Production

Survey #2198

**Description:** This monthly survey collects of crude petroleum and natural gas producers, covers the production and final destination of crude oil, natural gas and natural gas liquids. Geographic detail is at the provincial level.

**Details:**

- ◆ production statistics
- ◆ supply and disposition of crude oil, natural gas
- ◆ processing plant products and supply
- ◆ gas use-reprocessing

**Publications:** 26-006-XPB Crude Petroleum and Natural Gas Production (M)

**Release time:** 55 to 58 days after the reference month

**Contact:** David Roeske  
Tel: (613) 951-3563

### 1.15S Crude Petroleum and Natural Gas Industry

Survey #2178

**Description:** This annual survey covers companies in the oil and gas exploration, development and production industry. Geographic detail is at the provincial level.

**Details:**

- ◆ oil and gas, sources and uses of funds
- ◆ oil and gas, geological areas of operation
- ◆ oil and gas, expenditures and operating costs

- ◆ oil and gas, employment and payroll

**Publications:** 26-213-XPB The Crude Petroleum and Natural Gas Industry (A)

**Release time:** 10 to 11 months after the reference year

**Contact:** Gary Smalldridge  
Tel: (613) 951-3567

### 1.16S Monthly Oil Pipeline Transport

**Survey #2148**

**Description:** This monthly survey covers the activities of the major pipelines carrying crude oil and equivalents, as well as liquefied petroleum gases such as propane, butane, and ethane between provinces. Data are collected by province for receipts, deliveries, imports, exports and inventories.

**Publications:** 55-001-XPB Oil Pipe Line Transport (M); *one other survey contributes to this publication, please see 1.18S*

**Release time:** 55 to 65 days after the reference month

**Contact:** Gary Smalldridge  
Tel: (613) 951-3567

### 1.17S Monthly Refined Petroleum Products

**Survey #2150**

**Description:** This monthly survey covers the activities of all Canadian refineries and of major distributors of refined petroleum products. Geographic detail is at the provincial level.

**Details:**

- ◆ refined petroleum products
  - ◆ supply and disposition
- ◆ crude petroleum and equivalent
  - ◆ supply and disposition
  - ◆ imports, by country of origin

- ◆ feedstocks and other materials charged

**Publications:** 45-004-XPB Refined Petroleum Products (M)  
**Release time:** 45 to 60 days after the reference month  
**Contact:** David Roeske  
Tel: (613) 951-3563

### 1.18S Oil Pipeline Transport - Annual

Survey #2179

**Description:** This annual survey collects information for companies primarily engaged in the collection and transportation of crude oil and liquefied petroleum gases to refineries and for export. Geographic detail is at the provincial level.

**Details:**

- ◆ operating revenue/expenses
- ◆ pumping stations
- ◆ employment and payroll
- ◆ pipeline length

## 2.7P Manufacturing Industries of Canada, National and Provincial Areas

**Description:** This annual publication presents a set of principal statistics (including value of shipments, value of materials used and employment by industry and industry group for Canada, the provinces, territories and regions. Also included are tables giving historical data, a list of industries ranked by shipment size and establishment counts by employment size. Tables showing statistics by type of organization and size of establishment have been included since 1977, except for the years 1983, 1987 and 1991. For the year 1987, data were shown in abbreviated format. Since reference year 1992, primary product specialization and coverage ratios are included. These ratios are measures of homogeneity and completeness, in terms of defining activities, of Standard Industrial Classification (SIC) industries as collected, compiled and published in the Annual Survey of Manufactures. The ratios are shown at the 4-digit SIC, major group, and all-manufacturing level. Ratios for 1988 to 1991 inclusively, have not been published but are available upon request. (see 2.19C)

### 2.1S   Monthly Survey of Manufacturing

Survey #2101

**Description:** The data produced are monthly estimates of the values of shipments, inventories, unfilled orders and new orders in manufacturing industries in Canada, based on the 1980 Standard Industrial Classification (SIC). In addition to Canada totals, data are classified into 22 major groups (2 digit SIC level) and by durable and non-durable goods producing industries. Selected individual industries are presented at the 3 and 4 digit SIC level of detail.

**Details:**

- ♦ inventory to shipments ratio, 2 digit SIC, Canada level, major group
- ♦ monthly percentage change in trend, all variables, 2 digit SIC Canada level

For all variables:

Canada level detail, not seasonally-adjusted

- ♦ 2, 3 and 4 digit SIC level
- ♦ durable/non-durable classification
- ♦ economic use group classification

Canada level detail, seasonally-adjusted

- ♦ 2 digit SIC level
- ♦ 3 digit SIC level in the transportation group
- ♦ durable/non-durable classification
- ♦ economic use group classification

Provincial level detail, not seasonally-adjusted, for Shipments only:

- ♦ 2, 3 and 4 SIC digit level
- ♦ durable/non-durable classification
- ♦ economic use group classification

## ANNUAL SURVEY OF MANUFACTURES - SERVICES

The Annual Survey of Manufactures collects data from 236 separate manufacturing industries at the four digit SIC level, as well as from the logging industry. The resulting database is extensive and contains industry specific information on many variables, such as: operating statistics; materials and supplies used; production; estimates of the value of manufacturers' shipments, inventories and orders; employee and payroll statistics; number of establishments; and census value-added. Manufacturing can respond to special requests that pertain to specific industries and require manipulation of the variables mentioned above. These requests are categorized using the headings listed below.

<u>Registration Number</u>	<u>Title</u>	<u>Fee or Charge</u>
32C0001	2.6C Food, Beverages and Tobacco	(SR)

## 2.14C COMMODITY SECTOR ESTIMATES from the Annual Survey of Manufactures

31C0021

<b>Description:</b>	A Harmonized System (HS) code is used to classify each commodity produced by an establishment. This coding system permits the identification of specified commodities or groups of commodities. Once a commodity group or sector is identified, a summary of principal statistics can be produced. This summary includes: number of establishments; cost of fuel and electricity; employee and payroll information; cost of materials and supplies; value of shipments; and census value added. Data are available for 1988, 1990, 1992., <b>1993 and 1994.</b>
<b>Fee or Charge:</b>	<b>From \$500;</b> further charges depend on complexity of request and number of commodity codes, subgroups and years selected.

**2.15C DESTINATION OF SHIPMENTS OF MANUFACTURERS, 1990****31C0008**

<b>Description:</b>	This database contains information on the first destination of shipments of manufacturers derived from the 1990 Annual Survey of Manufactures. For Canada and each province and territory, this report presents the value of shipments to each province and territory and outside Canada. The data are available for all manufacturing, for the 22 major groups of manufacturers, and for the 236 four-digit SIC industries, to the extent possible. The data are available in two separate tables: either the data are arranged for each geographic area (Canada, province, territory) showing shipments by major group and by industry to each destination; or the data are arranged for each industry, showing shipments from each geographic area of origin to each destination. The data were formerly disseminated in publication #31-530 <i>Destination of Shipments</i> , published from 1979 to 1984 (last year available).

**2.16C FUEL AND ENERGY CONSUMPTION DATA****31C0025**

<b>Description:</b>	Data collected include the value and quantity of fuel and electricity (including coal and coke, natural gas, gasoline, kerosene, diesel oil, light fuel oil, heavy fuel oil, liquefied petroleum gases, electricity and others)
---------------------	---

consumed by manufacturing industries. These data were formerly disseminated in publication #57-208 that was entitled *Consumption of Purchased Fuel and Electricity* which was canceled following the 1984 issue. From 1975 to 1984, this publication also contained data consumed by thermal electricity generating plants, and the mining and logging Industries.

- Custom services:**
- ◆ 1975 to 1984 - values and quantities for all manufacturing industries.
  - ◆ 1985 - values only for most manufacturing industries; values and quantities for 16 selected manufacturing industries
  - ◆ 1986 and 1990 - values only ,for most manufacturing SIC industries; values and quantities for 16 selected manufacturing industries.
  - ◆ 1987 to 1989 - data not available.
  - ◆ 1991 to date - values and quantities for all manufacturing industries.

## 2.17C NATIONAL AND PROVINCIAL PRINCIPAL STATISTICS from the Annual Survey of Manufactures

31C0023

**Description:** This database contains manufacturing principal statistics, by major group and industry, at the provincial level, the national level, and for the following regions: North (Yukon and Northwest Territories), the Atlantic provinces, and the Prairie provinces; from 1961 to date. These data are presently disseminated by the annual publication 31-203-XPB entitled *Manufacturing Industries of Canada: National and Provincial Areas*.

- Custom services:**
- ◆ for the years 1961 to date, a public tape is available containing the principal statistics that are released in publication 31-203-XPB.
    - ◆ Selected data \$40-\$3500
    - ◆ Most recent year \$40-\$1000
    - ◆ Entire tape \$3500
  - ◆ can produce principal statistics for:
    - ◆ Establishments by employment size \$100
    - ◆ Sub-industry groupings \$300

## 2.18C SUB-PROVINCIAL PRINCIPAL STATISTICS

**Description:** Manufacturing principal statistics collected include: number of establishments; hours paid, wages, and numbers of production and related workers; cost of fuel and electricity; cost of materials and supplies used; value of shipments of goods of own manufacture; census value added (manufacturing activity); salaries of administrative, sales and other

non-manufacturing employees; total number of employees; total salaries and wages; cost of materials, supplies and goods for resale; value of resale shipments and other revenue; census value added (total activity). Data are provided by Census Division or Economic Region within each province, for all publishable SIC industries and major industry groups. Data for Québec were compiled by the Bureau de la statistique du Québec covering economic regions, counties, census divisions, census metropolitan areas and municipalities. These data were formerly disseminated in publication #31-209 *Manufacturing Industries of Canada: Sub-provincial Areas* which was canceled following the 1986 issue.

## 2.19C PRIMARY PRODUCT SPECIALIZATION AND COVERAGE RATIOS from the Annual Survey of Manufactures

31F0002XPB

**Description:** These ratios are measures of the homogeneity and completeness, of defining activities of SIC industries as collected, compiled and published in the Annual Survey of Manufactures. The ratios are shown at the 4-

digit SIC level, major group and all manufacturing level. Data are available in a combined table for 1988 to 1993 inclusively (see 2.9P).

## 2.20C INDUSTRIAL ORGANIZATION AND CONCENTRATION IN MANUFACTURING INDUSTRIES

31C0024

**Description:** Concentration statistics summarize the size distribution of units within an industry. Numerous measures have been used for various purposes. This report presents data for the two most common: concentration ratios (CR) and Herfindahl indexes (HI), for years ranging from 1965 to the latest available. The CR and HI emphasize different aspects of the size distribution. The CR measures the importance of the largest enterprises directly while the Herfindahl index takes the entire size distribution of enterprises into account. These statistics are classified by the four digit 1980 SIC and are for Canada. These data were published as Table 1 in catalogue 31-402 *Industrial Organization and Concentration in Manufacturing, Mining and Logging Industries (1980)* and updates to 1986 were made available on a special request basis. Data for years up to and including 1992 are now available in printed format or on diskette.

## Retail Surveys ◆ S ◆

### 3.1S Annual Retail and Wholesale Trade Survey

Survey #2433

**Description:**

This annual survey collects data on revenue and expense items from wholesalers and retailers by trade group and by province. There are sixteen retail trade groups:

- ◆ supermarkets and grocery stores
- ◆ all other food stores
- ◆ drugs & patent medicine stores
- ◆ shoe stores
- ◆ general merchandise stores
- ◆ other retail stores
- ◆ men's clothing stores
- ◆ women's clothing stores
- ◆ other clothing stores
- ◆ household furniture & appliance stores
- ◆ other semi-durable goods stores
- ◆ household furnishings stores
- ◆ motor and recreational vehicle dealers
- ◆ gasoline service stations
- ◆ automotive parts, accessories, & services
- ◆ other durable goods stores

Profiles of these trade groups are provided for each individual province/territory and are comprised of: numbers of locations, total operating revenues, cost of goods sold, gross margin and employee earnings and benefits. At the national level for each trade group are the following performance indicators: ratios of sales to inventory, cost of goods sold to inventory, and gross and profit margins. Also provided at the national level are total operating revenues, numbers of locations for independent and chain stores, the number of retail businesses by trade group and total operating revenue by SIC (4 digit when possible).

**3.4S New Motor Vehicle Sales Survey****Survey #2402**

- Description:** This monthly survey collects sales data (in dollars and units) of new motor vehicles by type: commercial vehicles, buses and coaches, and passenger cars; by origin of manufacture: North America (Canada, United States and Mexico), Japan and other; and by province of sale. Where possible, data may be further divided between the Big 3 (Chrysler, Ford and General Motors combined) and foreign companies. Average price of vehicles sold and market share data are available by the same categories. Seasonally adjusted estimates are available at the national level for sales (in units and in dollars) by type of vehicle. Seasonally adjusted passenger car sales are also available by origin (North America and Overseas). Total annual sales estimates, based on the raw monthly data, are also available. These data are available by the same breakdowns as available for the unadjusted monthly series.

### 3.10C SMALL AREA RETAIL TRADE ESTIMATES

63C0021

**Description:** SARTRE (Small Area Retail Trade Estimates) is a system of developing user defined tabulations of retail sales and number of locations by one, two or three digit SIC, for incorporated retailers, et up to Census Sub-Division (CSD) or Forward Sortation Area (FSA)

level of geographic detail. These data are derived by integrating survey data on chain stores with tax data (for non-chain retailers). As this database includes all incorporated retailers, it is possible to provide aggregations of the data by FSA, CSD, Census Division (CD), Census Agglomeration (CA), and Census Metropolitan area (CMA). In addition, it is possible to generate tabulations based on user defined geographical areas, defined by a collection of six digit postal codes. Data are available for the 1989-93 reference years. Data for 1994 is expected to be available in the fall of 1996. Users should be aware that the data are for incorporated businesses only. Also, the Chain Location File contains businesses with four or more locations. Businesses with three or fewer locations will be deemed to be a single store, located at the address indicated on its corporate tax(T2) form.

**Fee or Charge:**

- ◆ The first component of the cost is a "data charge" and is based on the number of six digit postal codes for which the client requires data.

**Number of FSA Cost**

- ◆ 1-10 \$500 minimum
- ◆ 11-20 \$500 plus \$25 for each FSA in excess of 10
- ◆ 21-200 \$750 plus \$12.50 for each FSA in excess of 20

- ◆ The second component of the cost is a "geography surcharge" which will be added to the "data charge". This charge is based on the number of estimated units contained within the area.

**Units of Geographic Area Cost**

- ◆ 1-10 \$150
- ◆ 11-25 \$250
- ◆ 26-50 \$500
- ◆ 51-100 \$750
- ◆ 101-500 \$1,000
