THE CANADIAN BUREAU  
FOR THE STUDY OF MUNICIPALITY

**STATISTICS OF URBAN MUNICIPALITIES  
HAVING A POPULATION OF 5,000 AND OVER  
1922**

**PREFACE**

In 1920 reports were published dealing with municipal statistics of (a) Cities having 10,000 population or over; (b) Towns having a population of 3,000 to 10,000, and (c) Towns having a population of 1,000 to 3,000. For purposes of economy it was decided to regroup the municipalities so that only two reports would be necessary, one dealing with towns under 5,000 population, the other covering towns and cities of 5,000 and over.

The following report deals with statistics for 1922 of urban municipalities having a population of 5,000 and over throughout Canada. Schedules were sent out to 112 incorporated cities and towns, and returns were received and compiled for 82. To those Municipal Officials who furnished statistics, the Bureau extends its hearty thanks.

The report has been compiled under the direction of Colonel J. R. Munro, Chief of the Finance Statistics Branch.

R. H. COATS,  
Dominion Statistician.

**STATISTIQUES DES MUNICIPALITÉS URBAINES  
DE 5,000 ÂMES ET PLUS  
1922**

**PRÉFACE**

Il a été publié en 1920 des rapports contenant les statistiques municipales (a) des cités de 10,000 âmes et plus; (b) des villes de 3,000 à 10,000 âmes et (c) des villes de 1,000 à 3,000 âmes. Dans un but d'économie, on a décidé d'opérer un regroupement des municipalités, de manière à supprimer l'un de ces trois rapports; dorénavant, il n'y en aura plus que deux, l'un traitant des villes habitées par moins de 5,000 personnes et l'autre des villes et des cités dont la population atteint ou dépasse 5,000 âmes.

Le présent rapport concerne le second groupe de ces municipalités. Des questionnaires ont été envoyés à 112 villes et cités incorporées, mais 82 seulement d'entre elles ont fourni les informations requises; à celles-là le Bureau adresse ses remerciements.

Ce rapport a été dressé sous la direction du Colonel J. R. Munro, chef de la Section de la Statistique financière.

## INTRODUCTION

Un rapide coup d'œil sur le contenu de ce rapport permet d'en extraire les informations qui suivent, intéressant les 82 villes et cités de 5,000 âmes au moins, qui nous occupent.

En 1922, le total de l'évaluation des propriétés taxables de ces 82 villes et cités atteignait \$3,082,251,786, soit une valeur per capita de \$1,001.36. Dans les provinces, cette évaluation per capita des propriétés foncières s'établissait ainsi qu'il suit: île du Prince-Edouard \$521.58; Nouvelle-Ecosse \$572.06; Nouveau-Brunswick \$464.85; Québec \$1,029.71; Ontario \$980.93; Manitoba \$1,170.31; Saskatchewan \$1,022.67; Alberta \$1,009.71 et Colombie Britannique \$1,297.80. Les 64 cités et villes situées dans les provinces à l'est du Manitoba donnent une moyenne de \$957.94 per capita, comparativement à \$1,154.56 per capita pour les 18 villes et cités des provinces situées à l'ouest d'Ontario.

Si l'on envisage les recettes encaissées, on voit que la taxe directe, c'est-à-dire l'impôt foncier, les arrérages, la taxe scolaire, la taxe de capitation, l'impôt sur le revenu et autres taxes spéciales ont produit en 1922, pour l'ensemble de ces municipalités, une somme de \$110,856,625, représentant une taxe par tête de \$36.02. Considérant séparément chaque province, les recettes provenant des taxes encaissées par elle ont été de \$134,279 dans l'île du Prince-Edouard, \$3,064.307 dans la Nouvelle-Ecosse, \$1,803,411 dans le Nouveau-Brunswick, \$24,746,559 dans Québec, \$50,078,423 dans Ontario, \$9,530,903 dans le Manitoba, \$4,691,941 dans la Saskatchewan, \$8,138,798 dans l'Alberta et \$8,668,005 dans la Colombie Britannique, chiffres qui donnent un revenu par tête de \$11.19 dans l'île du Prince-Edouard, \$23.57 dans la Nouvelle-Ecosse; \$21.68 dans le Nouveau-Brunswick, \$25.98 dans Québec, \$41.02 dans Ontario, \$40.34 dans le Manitoba, \$47.50 dans la Saskatchewan, \$58.50 dans l'Alberta et \$42.18 dans la Colombie Britannique.

Les recettes ordinaires encaissées en 1922 par les villes et les cités se sont élevées à \$188,343,570 et les ressources extraordinaires ont produit \$116,965,198, soit un revenu per capita de \$61.19 pour les recettes ordinaires et \$38.00 pour les recettes extraordinaires.

L'état des dépenses nous apprend que, toutes ensemble, les agglomérations urbaines ayant répondu au questionnaire ont dépensé en 1922, une somme de \$228,908,889 à titre de dépenses ordinaires plus \$82,762,754 à titre de dépenses extraordinaires, soit \$74.37 par tête pour les premières et \$26.89 pour les secondes.

L'actif de ces villes et cités formait en 1922 la somme de \$966,598,343, soit \$314.03 per capita; cet actif se décompose ainsi qu'il suit: actif disponible \$245,165.969; autre actif producteur de revenus \$238,420,893; actif improductif \$483,011.480, soit une valeur per capita de \$79.65 pour la première catégorie, de \$77.46 pour la seconde et de \$156.92 pour la troisième.

Enfin, le passif des mêmes villes et cités en 1922 formait l'imposant total de \$791,506,024, soit une dette per capita de \$257.14. La plus grande partie de cette somme, soit \$681,473,772 ou \$221.40 par tête, est représentée par la dette consolidée.
