INTRODUCTION

This report provides a cross-classification of religious denomination by ethnic groups and sex. It supplements previous 1961 Census reports on this subject in the Volume I series which provided basic distributions of religious denominations (Bulletin 1.2-6) and a cross-classification of religion by age groups (Bulletin 1.3-3).

Table 110 shows this information for Canada by rural farm, rural non-farm and urban according to detailed ethnic groups. In the tables for provinces, cities and towns of 30,000 and over and metropolitan areas (Tables 111 to 113) a broader classification by ethnic groups is used.

In the 1961 Census, enumerators were instructed to record the specific religious body, denomination, sect or community reported in answer to the question "What is your religion?" Thus census figures do not measure church membership or indicate the degree of affiliation with any religious body. Also, enumerators were instructed to accept without question the denomination reported by respondents. They were to enquire more fully when "Christian", "Protestant", "Believer", etc., were reported but were to accept these if a specific denomination could not be given.

In the census a person's ethnic group is traced through his father. In 1961, each person was asked the question "To what ethnic or cultural group did you or your ancestor (on the male side) belong on coming to this continent?" The language spoken at that time by the person, or his paternal ancestor, was used as an aid in the determination of the person's ethnic group. Special instructions were provided in cases where the language criterion was not applicable.

Le présent rapport regroupe les religions par groupe ethnique et sexe. Il complète les rapports antérieurs du recensement de 1961 sur le même sujet, contenus dans la série du 1er volume, qui donnent les répartitions de base des religions (Bulletin 1.2-6) et un classement regroupé des religions par groupe d'âge (Bulletin 1.3-3).

Le tableau 110 contient ces renseignements pour le Canada par région rurale agricole et non agricole, et région urbaine selon les groupes ethniques détaillés. Les tableaux des provinces, cités et villes de 30,000 habitants et plus et zones métropolitaines (tableaux 111 à 113) contiennent un classement plus large par groupe ethnique.

Au recensement de 1961, l'agent recenseur devait inscrire la religion, la confession ou le secte déclarée en réponse à la question "Quelle est votre religion?" Les chiffres du recensement ne mesurent donc pas les effectifs d'une religion ni le degré d'adhésion à une religion. L'agent recenseur devait aussi noter sans demander de précision la religion déclarée, sauf à la réponse "chrétien", "protestant", "croyant", etc., qu'il devait également noter si le répondant ne pouvait préciser davantage.

Au recensement, le groupe ethnique d'une personne se détermine d'après celui de son père. En 1961, on a posé à chaque personne la question: "A quel groupe ethnique ou culturel appartenait votre ascendant paternel (ou vous-même) lors de son arrivée en Amérique?" La langue parlée à ce moment-là par la personne, ou par son ancêtre paternel, a aidé à déterminer son groupe ethnique. Des directives spéciales visaient les cas où la langue ne pouvait servir de critère.
