This report presents final figures relating to household size, derived from the 1971 Census of Canada. It is one of a series comprising Volume II (Part I) of the 1971 Census.

Figures are shown for the following areas:

- (i) Canada and provinces, urban size groups, rural non-farm and rural farm (Table 2);
- (ii) census divisions (Table 3);
- (iii) incorporated cities, towns and other municipal subdivisions of 10,000 population and over (Table 4);
- (iv) census metropolitan areas (Table 5); and
- (v) census agglomerations of 25,000 population and over (Table 6).

Comparative figures for 1961 and 1966 are shown in Table 1 for Canada and provinces, incorporated cities, towns and villages of 1,000 population and over and other municipal subdivisions of 10,000 population and over.

All figures in this report have been subjected to a confidentiality procedure to prevent the possibility of associating small figures with any identifiable individual. The particular technique used is known as "random rounding". Under this method, all last or "unit" digits in a table (including all totals) are randomly rounded (either up or down) to "0" or "5". This technique provides the strongest possible protection against direct, residual, or negative disclosures without adding any significant error to the census data. However, since totals are independently rounded they do not necessarily equal the sum of individual rounded figures in distributions. Also, minor differences can be expected for corresponding totals and cell values in various census reports. Additional details on the random rounding technique may be obtained by writing to the Census User Inquiry Service, Statistics Canada, Ottawa K1A OT7.

INTRODUCTION

Ce bulletin qui fait partie d'une série du recensement de 1971 (volume II, partie I) présente les résultats définitifs du recensement du Canada de 1971 en ce qui concerne la taille des ménages.

Les chiffres sont publiés pour les secteurs suivants:

- i) Canada et provinces, régions urbaines par groupe de taille et régions rurales non agricoles et rurales agricoles (tableau 2);
- ii) divisions de recensement (tableau 3);
- iii) cités et villes constituées, et autres subdivisions municipales de 10,000 habitants et plus (tableau 4);
- iv) régions métropolitaines de recensement (tableau 5); et
- v) agglomérations de recensement de 25,000 habitants et plus (tableau 6).

Le tableau 1 donne les chiffres comparables de 1961 et 1966 pour le Canada et les provinces, les cités, villes et villages constitués de 1,000 habitants et plus et autres subdivisions municipales de 10,000 habitants et plus.

Par souci de confidentialité, tous les chiffres publiés ici ont été soumis à une formule qui garantit l'impossibilité d'associer des chiffres de faible importance à une personne reconnaissable. Cette technique particulière s'appelle l'"arrondissement aléatoire". Grâce à cette méthode, tous les derniers chiffres, c'est-à-dire les chiffres des unités, des tableaux (y compris tous les totaux) sont arrondis de façon aléatoire (vers le haut ou vers le bas) à "0" ou à "5". Cette technique assure la protection maximale contre la divulgation directe, négative ou par recouplements, sans ajouter d'erreur significative aux données. Toutefois, puisque les totaux sont arrondis séparément, ils ne sont pas nécessairement égaux à la somme des chiffres individuels arrondis dans les distributions. De même, il faut s'attendre que les totaux et les autres chiffres correspondants dans divers bulletins du recensement présentent quelques légères différences. On peut obtenir d'autres détails sur la technique d'arrondissement aléatoire en s'adressant au Service-utilisateurs, Direction du recensement, Statistique Canada, Ottawa K1A OT7.

DEFINITIONS

Household

For census purposes, a household consists of a person or group of persons occupying one dwelling. It usually consists of a family group with or without lodgers, employees, etc. However, it may consist of two or more families sharing a dwelling, of a group of unrelated persons or of one person living alone. Every person is a member of some household and there is a one-to-one relationship between households and occupied dwellings except in the case of certain special households, such as those of military and diplomatic personnel stationed overseas, from which no housing information was collected.

The census classifies households into two main groups: (1) the household which consists of one person or a small group of persons occupying an ordinary dwelling, usually spoken of as a private household, and (2) the "collective" type household which includes hotels, large lodging-houses of 10 or more lodgers, institutions, hospitals, or military camps, lumber camps and other establishments of a similar nature. Unless otherwise specified, these "collective" type households are excluded from household reports.

Dwelling

A dwelling is a structurally separate set of living quarters with a private entrance from outside or from a common hallway or stairway inside the building; i.e., the entrance must not be through someone else's living quarters.

DÉFINITIONS

Ménage

Aux fins du recensement, un ménage est formé d'une personne ou d'un groupe de personnes occupant un logement. Il se compose ordinairement d'un groupe familial, avec ou sans chambreurs, employés, etc. Il peut aussi se composer d'un groupe de personnes non apparentées, de deux familles ou plus partageant le même logement ou d'une personne seule. Toute personne est membre d'un ménage quelconque et le nombre de ménages est égal au nombre des logements occupés, sauf dans le cas de certains ménages spéciaux (les ménages des militaires et des membres du corps diplomatique en poste outre-mer, par exemple pour lesquels on n'a pas recueilli de données relatives au logement).

Les ménages sont divisés en deux groupes principaux: 1) les ménages privés composés d'une personne ou d'un petit groupe de personnes occupant un logement ordinaire, et 2) les ménages collectifs (hôtels, grandes maisons de chambres de 10 chambreurs ou plus, institutions, hôpitaux, camps militaires, camps de bûcherons et autres établissements semblables). Sauf indication contraire, ces ménages collectifs ne sont pas pris en compte dans les bulletins sur les ménages.

Logement

Ensemble structuralement distinct de pièces d'habitation ayant une entrée privée donnant sur l'extérieur ou sur un corridor ou un escalier commun à l'intérieur, c.-à-d. que l'entrée doit donner accès au logement sans qu'on ait à passer par les pièces d'habitation de quelqu'un d'autre.

Publications of the Census of Canada, 1971

This report is one of the Volume Series of publications of the 1971 Censuses of Population, Housing and Agriculture. Altogether, there are some 225 reports in this series prepared in such a way that by removal of their covers the contents can be combined to form the materials comprising the 6 volumes and 25 separate volume parts in the entire series. A hard-covered binder, suitably titled, is included in the composite price to purchasers of the complete set of reports for any given volume-part.

Catalogue of reports

A catalogue is available which describes the individual reports in the Volume Series of 1971 Census publications as well as reports in other series (i.e., Advance Series, Census Tract Series, and Special Series). The catalogue also includes a price list and an order form. A copy of this catalogue may be obtained from Publications Distribution, Statistics Canada, Ottawa K1A 0T6. For further information on census publications, address your inquiry to Information Division, Statistics Canada.

How to order reports

Orders for reports may be sent to Publications Distribution, Statistics Canada, Ottawa K1A 0T6, or to Publishing Division, Information Canada, Ottawa K1A 0S9. Enclose payment with your order in the form of a cheque or money order made payable to the Receiver General of Canada. If more convenient, census publications may be ordered from Information Canada bookstores in Halifax, Montreal, Ottawa, Toronto, Winnipeg, or Vancouver. For other details concerning deposit accounts, bulk orders, etc., contact Publications Distribution, Statistics Canada.

Other forms of publication

In addition to the tabulated results of the 1971 Census published in reports and bulletins, a large number of tables will be issued to users as copies of computer print-outs. These will also be available in microform. A variety of statistical tables may be purchased on computer "summary" tapes for further computer analysis by users. Details of the content, prices, and availability of census tabulations in these output media may be obtained from the User Inquiry Service, Census Division, Statistics Canada, Ottawa K1A 0T7.

Special tabulations

To the extent that confidentiality constraints permit, Statistics Canada will produce for users at cost, special tabulations not already included in the planned tabulation programme. A standard User's Request Form on which to outline precise tabulation requirements and to request time and cost estimates may be obtained from the User Inquiry Service of the Census Division of Statistics Canada.

Maps and geographic files

Large-scale maps may be purchased to show the boundaries of enumeration areas (i.e., the territory covered by each Census Representative in taking the census), as well as small-scale maps of census divisions and other statistical areas. Supporting documentation relating to the census geographic files (i.e., place names, codes, etc.) are available in tabular form identifying the component enumeration areas of administrative and statistical units (e.g., towns, villages, municipalities, tracts). Further details, including costs to users, may be obtained from the User Inquiry Service of the Census Division of Statistics Canada.
