INTRODUCTION

This report presents final figures from the 1971 Census of Canada. The report is one of a series comprising Volume II, Part I of the 1971 Census.

Tables 66, 67, 68, 69, 71, 72, 73, 74 and 75 show income group of household head, classified by type of household, source of income, marital status, age and sex, occupation and schooling of household head. Table 70 relates to primary family households classified by major source of income showing primary family household income group.

The areas for which these figures are shown are as follows:

- (i) Canada (Tables 71, 72, 73, 74, 75);
- (ii) Canada and provinces (Tables 66, 69, 70). Table 66 includes urban and rural;
- (iii) census divisions (Table 67); and
- (iv) census metropolitan areas and census agglomerations of 25,000 population and over (Table 68).

The information in this report was collected on a 33 1/3% sample basis. As a result, the number of households for a given geographic area may differ from that shown in reports containing data collected on a 100% basis. The latter figures, of course, represent the official count of households (see Catalogue No. 93-702).

The 1971 Census figures in this report have been subjected to a confidentiality procedure to prevent the possibility of associating small figures with any identifiable individual. The particular technique used is known as "random rounding". Under this method, all last or "unit" digits in a table (including all totals) are randomly rounded (either up or down) to "0" or "5". This technique provides the strongest possible protection against direct, residual, or negative disclosures without adding any significant error to the census data. However, since totals are independently rounded they do not necessarily equal the sum of individual rounded figures in distributions. Also, minor differences can be expected for corresponding totals and cell values in various census reports.

Note: Coverage in 1961 was for non-farm private dwellings only (excluding Northwest Territories). Since farm income was not collected in 1961, these data are not directly comparable.

DEFINITIONS

Household: For census purposes, a household consists of a person or group of persons occupying one dwelling. It usually consists of a family group with or without lodgers, employees, etc. However, it may consist of two or more families sharing a dwelling, of a group of unrelated persons or of one person living alone. Every person is a member of some household and there is a one-to-one relationship between households and occupied dwellings except in the case of certain special households, such as those of military and diplomatic personnel stationed overseas, from which no housing information was collected.

The census classifies households into two main groups: (1) the household which consists of one person or a small group of persons occupying an ordinary dwelling, usually spoken of as a private household, and (2) the "collective" type household which includes hotels, large lodgings-houses of 10 or more lodgers, institutions, hospitals, or military camps, lumber camps and other establishments of a similar nature. Unless otherwise specified, these "collective" type households are excluded from household reports.

Head: For census purposes, every household must have a head. This is the husband if both husband and wife are present, the parent (regardless of age or dependency) if living with unmarried children, or any member of a group sharing a dwelling equally.

Total income: Refers to the total income received during 1970 from wages and salaries, business or professional practice, farm operations, family and youth allowances, government old age pensions, other government payments, retirement pensions from previous employment, bond and deposit interest and dividends, other investment sources, and other sources. In the case of primary family household income, it refers to the sum of the incomes received by all members of the primary family household 15 years and over.

Ce bulletin, qui fait partie du volume II, partie 1 du recensement du Canada de 1971, présente des chiffres définitifs du recensement de 1971.

Les tableaux 66, 67, 68, 69, 71, 72, 73, 74 et 75 donnent la tranche de revenu du chef de ménage, selon le genre de ménage, la source de revenu, l'état matrimonial, l'âge et le sexe, la profession et la scolarité du chef de ménage. Le tableau 70 a trait aux ménages avec famille principale, classés selon la principale source de revenu, par tranche de revenu.

Les chiffres sont publiés pour les secteurs suivants:

- i) Canada (tableaux 71, 72, 73, 74, 75);
- ii) Canada et provinces (tableaux 66, 69, 70). Le tableau 66 porte sur les régions urbaines et les régions rurales;
- iii) divisions de recensement (tableau 67); et
- iv) régions métropolitaines de recensement et agglomérations de recensement de 25,000 habitants et plus (tableau 68).

Les renseignements de la présente publication ont été recueillis sur un échantillon de 33 1/3 %. Il s'ensuit que le nombre de ménages pour une région géographique donnée n'est pas forcément le même que celui des publications dont les données sont intégrales. Bien entendu, c'est ce dernier chiffre qui représente le nombre officiel de ménages (voir la publication n° 93-702 au catalogue).

Par souci de confidentialité, les chiffres du recensement de 1971 publiés ici ont été soumis à une formule qui interdit la possibilité d'associer des chiffres de faible importance à une personne reconnaissable. Cette technique particulière s'appelle l'"arrondissement aléatoire". Grâce à cette méthode, tous les derniers chiffres, c'est-à-dire les chiffres des unités (y compris tous les totaux) des tableaux sont arrondis de façon aléatoire (vers le haut ou vers le bas) à "0" ou à "5". Cette technique assure la protection maximale contre la divulgation directe, négative ou par recoupements, sans ajouter d'erreur significative aux données. Toutefois, puisque les totaux sont arrondis séparément, ils ne sont pas nécessairement égaux à la somme des chiffres individuels arrondis dans les distributions. De plus, il faut s'attendre que les totaux et les autres chiffres correspondants dans divers bulletins du recensement présentent quelques légères différences.

Note: En 1961, seuls les logements privés non agricoles (à l'exclusion de ceux des Territoires du Nord-Ouest) ont été pris en compte. Comme on n'a pas recueilli de données sur le revenu agricole en 1961, ces chiffres ne sont pas directement comparables.

DÉFINITIONS

Ménage: Aux fins du recensement, un ménage est formé d'une personne ou d'un groupe de personnes occupant un même logement. Il se compose ordinairement d'un groupe familial, avec ou sans chambreurs, employés, etc. Il peut aussi se composer d'un groupe de personnes non apparentées, de deux familles ou plus partageant le même logement ou d'une personne seule. Tout le monde est membre d'un ménage et le nombre de ménages est égal au nombre de logements occupés, sauf dans certains cas particuliers, comme dans celui des militaires et des diplomates postés outre-mer, pour lesquels on n'a pas recueilli de renseignements relatifs au logement.

Les ménages sont divisés en deux groupes principaux: 1) les ménages composés d'une seule personne ou d'un petit groupe de personnes occupant un logement ordinaire, qu'on appelle ordinairement des ménages privés, et 2) les ménages "collectifs" qui sont les hôtels, les grandes maisons de chambres de 10 chambreurs ou plus, les institutions, les hôpitaux, les camps militaires, les camps de bûcherons et les autres établissements de nature semblable. Sauf indication contraire, ces ménages collectifs ne sont pas pris en compte dans les bulletins sur les ménages.

Chef: Aux fins du recensement, chaque ménage doit avoir un chef. Le chef est l'époux lorsque les deux conjoints sont présents, le père ou la mère (quel que soit l'âge ou le lien de dépendance) s'il n'y en a qu'un des deux avec des enfants non mariés, ou n'importe quel membre d'un groupe se partageant un logement à parts égales.

Revenu total: Revenu total, reçu en 1970, provenant de la rémunération, de l'exploitation d'une entreprise ou d'une ferme, de l'exercice d'une profession pour compte propre, d'allocations familiales et d'allocations aux jeunes, d'une pension de vieillesse de l'État, d'autres sources publiques, de pensions de retraite relatives à un emploi antérieur, d'intérêts d'obligations et de dépôts et de dividendes, d'autres placements, et d'autres sources. Dans le cas du revenu des ménages avec famille principale, le revenu total est la somme des revenus touchés par tous les membres du ménage avec famille principale de 15 ans et plus.

NOTE EXPLICATIVE

Dans le tableau 70, les composantes du revenu total qui ont été comparées afin de déterminer la principale source de revenu furent le revenu de l'emploi et les autres revenus. Dans ce bulletin, "autres revenus" représente la somme des allocations familiales et des allocations aux jeunes, pensions de vieillesse de l'Etat et des autres revenus provenant de sources publiques, des pensions de retraite relatives à un emploi antérieur, des intérêts d'obligations et de dépôts et des dividendes, des autres revenus de placements, et des autres revenus.

Les professions montrées dans le tableau 74 sont le regroupement des grands groupes de la classification des professions de 1971, comme suit:

Direction, administration et professions connexes	Grand groupe 11
Professions techniques, sociales et culturelles	
- sciences naturelles, génie et mathématiques	Grand groupe 21
- sciences sociales et secteurs connexes	Grand groupe 23
- religion	Grand groupe 25

EXPLANATORY NOTE

In Table 70 the components of income compared to determine major source were employment income and other income. In this bulletin, Other Income is the sum of family allowances, government old age pensions and other government income; retirement pensions from previous employment, bond and deposit interest and dividends, other investment income and other income.

The occupations shown in Table 74 represent groupings of the Major Groups in the 1971 occupation classification as follows:

Managerial, administrative and related occupations	Major group 11
Technological, social and cultural occupations	
- occupations in natural sciences, engineering and mathematics	Major group 21
- occupations in social sciences and related fields	Major group 23
- occupations in religion	Major group 25
- teaching and related occupations	Major group 27
- occupations in medicine and health	Major group 31
- artistic, literary, recreational and related occupations	Major group 33
Clerical and related occupations	Major group 41
Sales occupations	Major group 51
Service occupations	Major group 61
Farming, horticultural and animal husbandry occupations	Major group 71
- farmers	Minor group 711
Other primary occupations	
- fishing, hunting, trapping and related occupations	Major group 73
- forestry and logging occupations	Major group 75
- mining and quarrying including oil and gas field occupations	Major group 77
Processing occupations	Major group 81/82
Machining, product fabricating and construction trades occupations	
- machining and related occupations	Major group 83
- product fabricating, assembling and repairing occupations	Major group 85
- construction trades occupations	Major group 87
Other occupations	
- transport equipment operation occupations	Major group 91
- materials handling and related occupations, n.e.c.	Major group 93
- other crafts and equipment operating occupations	Major group 95
- occupations not elsewhere classified	Major group 99
Occupations not stated	Major group 00

DEFINITIONS – Continued

Average income figures for household heads are calculated on the basis of household heads reporting income, while average income figures for primary family households are calculated on the basis of total primary family households.

Employment income: Refers to the total of income received in 1970 as wages and salaries, net income from business or professional practice and net farm income.

Major source of income: Refers to that component which constitutes the largest portion of total income. For example, employment income (the total of income received in 1970 as wages and salaries, net income from business or professional practice and farm income), government transfer payments (the total of family and youth allowances, government old age pensions and other government income), and other income (the total of retirement pensions from previous employment, bond and deposit interest and dividends, other investment income, and other income).

Type of household: Refers to the basic division of households into family and non-family households. The term FAMILY HOUSEHOLD refers to a household containing at least one census family. ONE-FAMILY HOUSEHOLD refers to a single census family occupying one dwelling. The family may be that of the household head or one living as a related, lodger or other type of family with a household head who is a non-family person. A TWO-OR-MORE FAMILY HOUSEHOLD is one in which two or more census families occupy the same dwelling. One family may be that of the household head, or the household head may be a non-family person with whom two or more census families are residing.

The term NON-FAMILY HOUSEHOLD refers to one person living alone in a dwelling or a group of persons, occupying one dwelling, who do not constitute a census family.

Primary family: A census family in which the head of the family is also the head of the household. Members of a primary family are: the head of household, his wife and unmarried son and daughter. Unmarried grandson and grand-daughter, nephew and niece are included if they are under 21 years, for whom no guardianship pay is received and who are not living with their parents.

Marital status: Refers to the conjugal status of the household head such as single, married, widowed or divorced. Unless otherwise specified, data for "separated" are included with married.

Age: Age classifications in the census are based on the number of completed years of age at last birthday prior to June 1, 1971.

Occupation: Refers to the specific kind of work the person did on the job, as determined by the reporting of the kind of work, the description of the most important duties and the job title. Data relate to the respondent's job in the week prior to enumeration if he or she had a job during that week or to the job of longest duration since January 1, 1970 if not employed in that week. Persons with two or more jobs during the reference week were asked to give the information for the one at which they worked the most hours.

Schooling: Refers to the highest grade or year of elementary school, secondary school or university attended.

Definitions of these and other terms, including geographic terms, used technically in this report are discussed in the Introductory Report to Volume II, Part 1 (Catalogue No. 93-701).

MEASURES OF RELIABILITY

The estimates of the mean square error for the characteristics covered in this report were not available at the time of publication. They will be available in the introductory report to this volume (Catalogue Nos. 93-701 and 93-713). Those users requiring this information prior to the release of the introductory report should contact the Census User Inquiry Service.

DÉFINITIONS – fin

Le revenu moyen des chefs de ménage a été calculé selon le nombre de ceux qui ont déclaré un revenu, tandis que le revenu moyen des ménages avec famille principale a été calculé selon le nombre total de ménages avec famille principale.

Revenu de l'emploi: Revenu total reçu en 1970 sous forme de rémunération, de revenu net provenant de l'exploitation d'une entreprise ou de l'exercice d'une profession pour compte propre et de revenu agricole net.

Principale source de revenu: Élément qui constitue la plus grande part du revenu total, par exemple, le revenu de l'emploi (le total du revenu reçu en 1970 sous forme de rémunération, de revenu net provenant de l'exploitation d'une entreprise ou de l'exercice d'une profession pour compte propre et de revenu agricole), les transferts gouvernementaux (le total des allocations familiales et des allocations aux jeunes, des pensions de vieillesse de l'État et des autres revenus provenant de sources publiques), et les autres revenus (le total des pensions de retraite relatives à un emploi antérieur, des intérêts d'obligations et de dépôts et des dividendes, des autres revenus de placements, et des autres revenus).

Genre de ménage: Division fondamentale des ménages en ménages familiaux et ménages non familiaux. Un MÉNAGE FAMILIAL comprend au moins une famille de recensement. Un MÉNAGE UNIFAMILIAL se compose d'une seule famille de recensement occupant un logement. La famille peut être celle du chef de ménage ou une famille apparentée, chambrière ou autre, vivant avec un chef de ménage qui est une personne hors famille. Un MÉNAGE MULTIFAMILIAL se compose de deux ou plusieurs familles de recensement occupant le même logement. Une famille peut être celle du chef de ménage, ou le chef de ménage peut être une personne hors famille avec qui résident deux familles de recensement ou plus.

Le MÉNAGE NON FAMILIAL est constitué d'une personne vivant seule dans un logement ou d'un groupe de personnes partageant le même logement, sans toutefois constituer une famille de recensement.

Famille principale: Famille de recensement dont le chef est aussi le chef du ménage. Les membres d'une famille principale sont: le chef du ménage, son épouse et ses enfants célibataires. Les petits-enfants et les neveux et nièces célibataires sont compris s'ils ont moins de 21 ans, s'il n'est versé aucune rémunération pour leur garde et s'ils ne vivent pas avec leurs parents.

État matrimonial: État conjugal du chef de ménage: célibataire, marié, veuf ou divorcé. Sauf indication contraire, les personnes "séparées" sont comptées avec les personnes "mariées".

Âge: Nombre d'années révolues au dernier anniversaire avant le 1er juin 1971.

Profession: Genre de travail que faisait le recensé déterminé par l'indication du genre de travail, la description des fonctions principales et le titre de l'emploi. Les données portent sur l'emploi que le recensé occupait pendant la semaine précédant le dénombrement, s'il avait un emploi cette semaine-là, ou sur l'emploi de plus longue durée depuis le 1er janvier 1970, s'il n'avait pas d'emploi cette semaine-là. Les personnes ayant deux emplois ou plus pendant la semaine de référence devaient fournir les renseignements pour celui auquel elles avaient consacré le plus grand nombre d'heures.

Scolarité: Dernière année d'études primaires, secondaires ou universitaires.

Les définitions de ces termes et des autres termes techniques, y compris les termes géographiques, employés dans le présent bulletin sont étudiées dans l'Introduction au volume II, partie 1 (n° 93-701 au catalogue).

MESURES DE FIABILITÉ

Les estimations de l'erreur quadratique moyenne des caractéristiques données dans ce bulletin n'étaient pas connues au moment de la publication. Elles seront disponibles dans l'introduction de ce volume (nos 93-701 et 93-713 au catalogue). Les utilisateurs désireux de connaître ce renseignement avant la publication du bulletin d'introduction devront s'adresser au Service-utilisateurs du recensement.

Publications of the Census of Canada, 1971

This report is one of the Volume Series of publications of the 1971 Censuses of Population, Housing and Agriculture. Altogether, there are some 225 reports in this series prepared in such a way that by removal of their covers the contents can be combined to form the materials comprising the 6 volumes and 25 separate volume parts in the entire series. A hard-covered binder, suitably titled, is included in the composite price to purchasers of the complete set of reports for any given volume part.

Catalogue of reports

A catalogue is available which describes the individual reports in the Volume Series of 1971 Census publications as well as reports in other series (i.e., Advance Series, Census Tract Series, and Special Series). The catalogue also includes a price list and an order form. A copy of this catalogue may be obtained from Publications Distribution, Statistics Canada, Ottawa K1A 0T6. For further information on census publications, address your inquiry to Information Division, Statistics Canada.

How to order reports

Orders for reports may be sent to Publications Distribution, Statistics Canada, Ottawa K1A 0T6, or to Publishing Division, Information Canada, Ottawa K1A 0S9. Enclose payment with your order in the form of a cheque or money order made payable to the Receiver General of Canada. If more convenient, census publications may be ordered from Information Canada bookstores in Halifax, Montreal, Ottawa, Toronto, Winnipeg, or Vancouver. For other details concerning deposit accounts, bulk orders, etc., contact Publications Distribution, Statistics Canada.

Other forms of publication

In addition to the tabulated results of the 1971 Census published in reports and bulletins, a large number of tables will be issued to users as copies of computer print-outs. These will also be available in microform. A variety of statistical tables may be purchased on computer "summary" tapes for further computer analysis by users. Details of the content, prices, and availability of census tabulations in these output media may be obtained from the User Inquiry Service, Census Field, Statistics Canada, Ottawa K1A 0T7.

Special tabulations

To the extent that confidentiality constraints permit, Statistics Canada will produce for users at cost, special tabulations not already included in the planned tabulation programme. Requests should be sent to the Census User Inquiry Service specifying clearly the precise classifications or cross-classifications and the geographic areas. The exact categories for each characteristic and a rough table layout should be included.

Maps and geographic files

Large-scale maps may be purchased to show the boundaries of enumeration areas (i.e., the territory covered by each Census Representative in taking the census), as well as small-scale maps of census divisions and other statistical areas. Supporting documentation relating to the census geographic files (i.e., place names, codes, etc.) are available in tabular form identifying the component enumeration areas of administrative and statistical units (e.g., towns, villages, municipalities, tracts). Further details, including costs to users, may be obtained from the User Inquiry Service of the Census Field of Statistics Canada.

Publications du recensement du Canada de 1971

Le présent bulletin fait partie de la série des volumes des recensements de la population, du logement et de l'agriculture de 1971. Cette série compte au total environ 225 bulletins présentés de telle sorte qu'en retirant leur couverture l'utilisateur peut les réunir et constituer ainsi les 6 volumes de la série, qui comprennent 25 parties distinctes. Un auto-relieure à couverture rigide portant le titre approprié est compris dans le prix d'achat de la série complète des bulletins constituant une partie de volume.

Catalogue

On peut se procurer un catalogue qui décrit chaque bulletin de la série des volumes du recensement de 1971, ainsi que les bulletins des autres séries (série préliminaire, série des secteurs de recensement et série spéciale). Le catalogue contient également une liste de prix et une formule de commande. On peut obtenir un exemplaire de ce catalogue en s'adressant à la Distribution des publications, Statistique Canada, Ottawa K1A 0T6. Pour tout renseignement complémentaire sur les publications du recensement, s'adresser à la Division de l'information de Statistique Canada.

Commandes de bulletins

Les commandes de bulletins peuvent être envoyées à la Distribution des publications, Statistique Canada, Ottawa K1A 0T6, ou à la Division de l'édition, Information Canada, Ottawa K1A 0S9. Toute commande doit être accompagnée d'un chèque ou d'un mandat établi à l'ordre du Receveur général du Canada. On peut aussi commander les publications du recensement aux librairies d'Information Canada de Halifax, de Montréal, d'Ottawa, de Toronto, de Winnipeg et de Vancouver. Pour plus de détails sur les comptes de dépôt, les commandes en gros, etc., s'adresser à la Distribution des publications, Statistique Canada.

Autres formes de publication

En plus des diverses publications contenant les résultats du recensement de 1971, de nombreux tableaux seront mis à la disposition des utilisateurs sous forme d'états mécanographiés. Ces tableaux seront également disponibles en microcopie. Les utilisateurs désireux de faire des analyses par des moyens mécanographiques pourront également se procurer un large éventail de tableaux statistiques sur bandes "sommaries". Pour tout renseignement sur le contenu, le prix et la disponibilité des résultats du recensement sur ces supports, s'adresser au Service-utilisateurs, Secteur du recensement, Statistique Canada, Ottawa K1A 0T7.

Totalisations spéciales

Dans la mesure où le respect du secret des données le permettra, Statistique Canada établira, à l'intention des utilisateurs qui en acquitteront les frais, des totalisations spéciales qui ne font pas encore partie du programme d'exploitation prévu. Il faut envoyer les demandes au Service-utilisateurs des données du recensement en précisant bien les classements ou recoupements et les régions géographiques. Il faut inclure les catégories exactes pour chaque caractéristique et une ébauche de la disposition des tableaux.

Cartes et fichiers géographiques

Les utilisateurs pourront se procurer des cartes à grande échelle indiquant les limites des secteurs de dénombrement (c.-à-d. des territoires recensés par chaque représentant du recensement) ainsi que des cartes à petite échelle des divisions de recensement et des autres secteurs statistiques. Les documents constituant les fichiers géographiques (noms, codes, etc. géographiques) sont disponibles sous forme de tableaux présentant les différents secteurs de dénombrement qui constituent les unités administratives et statistiques (par ex., villes, villages, municipalités et secteurs de recensement). Pour plus de détails et pour une indication des frais, s'adresser au Service-utilisateurs du Secteur du recensement de Statistique Canada.
