

Advance bulletin

1971 CENSUS OF CANADA

Bulletin préliminaire

RECENSEMENT DU CANADA 1971

SUMMARY OF HOUSING CHARACTERISTICS (SAMPLE DATA)*

This advance report presents a summary of housing characteristics based on the sample data from the 1971 Census, for census divisions, urban centres of 10,000 population and over and census metropolitan areas.

More detailed information on dwellings will be issued at a later date as part of the regular volume series of final reports of the 1971 Census. The purpose of this advance report is to make available summary totals (for specified geographic areas) at an earlier date.

Definitions on which these statistics are based appear on page 2. Table 1 shows a comparison of some of the main items with the 1961 Census.

All figures in this report have been subjected to the confidentiality procedure introduced in the 1971 Census to prevent the possibility of associating small figures with any identifiable individual. Briefly, it involves the random rounding of all last or unit digits. Since totals are independently rounded, they do not necessarily equal the sum of rounded figures in distributions. Also, there may be slight differences between comparable figures in this report and those in other census bulletins. This technique will be described in the reports of the 1971 Census volume series.

Each bulletin of the 1971 Census volume series will include measures of reliability in the form of estimates of the mean square error for sets of characteristics covered in that bulletin. The user interested in obtaining an indication of the reliability of these advance data should refer to the appropriate bulletin in the volume series.

* Advance Report AH-2 includes additional data from 100 p.c. count.

CARACTÉRISTIQUES SOMMAIRES DU LOGEMENT (DONNÉES FRAGMENTAIRES*)

Ce bulletin préliminaire présente un sommaire des caractéristiques du logement d'après les données fragmentaires du recensement de 1971 pour les divisions de recensement, les centres urbains de 10,000 habitants et plus et les régions métropolitaines de recensement.

De plus amples détails sur les logements paraîtront à une date ultérieure dans la série des volumes du recensement de 1971. Le but de ce bulletin préliminaire est de publier le plus tôt possible les totaux sommaires de certaines régions géographiques.

Les définitions sur lesquelles sont fondées ces statistiques figurent à la page 2. Le tableau 1 donne une comparaison de certains des principaux points avec ceux du recensement de 1961.

La confidentialité de toutes les données présentées ici est assurée par la méthode utilisée au recensement de 1971 pour interdire la possibilité d'associer des chiffres de faible importance à une personne en particulier. En un mot, cette méthode consiste à arrondir au hasard tous les derniers chiffres, c'est-à-dire les chiffres représentant les unités. Ainsi, tous les chiffres ayant été arrondis individuellement, leur somme ne donne pas nécessairement les totaux indiqués. Il peut également y avoir de légères différences entre des chiffres comparables de ce bulletin et ceux d'autres bulletins du recensement. Une description de cette technique figurera dans les bulletins de la série des volumes du recensement de 1971.

Chaque bulletin de la série des volumes du recensement de 1971 renfermera des mesures de fiabilité sous forme d'estimations de l'erreur quadratique moyenne relativement aux groupes de caractéristiques observées. L'utilisateur désireux de connaître le degré de fiabilité de ces données préliminaires devra consulter le bulletin approprié de la série des volumes.

* Le bulletin préliminaire AH-2 comprend d'autres données intégrales.

DEFINITIONS

DÉFINITIONS

Dwelling

For census purposes a dwelling is a structurally separate set of living quarters with a private entrance from outside or from a common hallway or stairway inside the building.

Tenure

Refers to whether an occupied dwelling was owned or rented by some member of the household.

Refrigerator

Refers to a gas or electric-powered household facility designed and used for cold storage of food, including combination refrigerators with freezing compartments. Separate home freezers were not included.

Home freezer

Refers to a separate gas or electric-powered household facility designed and used for the storage of frozen food, exclusive of refrigerators and their freezer compartments.

Television

Refers to both portable, console and combination models, powered by either battery or regular electrical sources, and belonging to any member of the household including relatives and lodgers. Distinction was made between black and white and colour television.

Automobile

Passenger vehicles available for personal use by any member of the household (including non-relatives, such as lodgers).

Value

Refers to the amount expected by the owner if the dwelling were to be sold to a willing buyer.

Mortgage

Refers to an owner-occupied dwelling on which there are debts, other than those dwellings occupied by a farm operator who resides on the farm he operates.

A dwelling is considered mortgaged until it is fully paid for. Data were collected on the presence of mortgages and on the holder of the first mortgage, but not on the amounts of these mortgages.

Cash rent

Refers to the dollar amount required to secure occupancy, but not the ownership, of a dwelling for either the week or month prior to enumeration day.

Logement

Aux fins du recensement, un logement est un ensemble distinct de pièces d'habitation ayant une entrée privée donnant sur l'extérieur ou sur un corridor ou un escalier commun à l'intérieur.

Mode d'occupation

Indique si un logement occupé était possédé ou loué par un membre du ménage.

Réfrigérateur

Indique un appareil ménager, électrique ou à gaz, conçu et utilisé pour conserver les aliments au froid, y compris les réfrigérateurs avec compartiment de congélation. Les congélateurs distincts ne sont pas comptés.

Congélateur

Indique un appareil ménager, électrique ou à gaz, conçu et utilisé pour conserver les aliments congelés, à l'exclusion des réfrigérateurs et des compartiments de réfrigération des réfrigérateurs.

Téléviseur

Indique un téléviseur portatif, meuble ou combiné, électrique ou à piles, appartenant à un membre du ménage, y compris à un parent ou à un chambreur. On a fait la distinction entre les téléviseurs en noir et blanc et les télécouleurs.

Automobile

Voiture particulière disponible pour l'usage personnel d'un membre du ménage (y compris d'une personne non apparentée, comme un chambreur).

Valeur

Indique le montant que s'attendrait de recevoir le propriétaire s'il vendait le logement à un acheteur libre.

Hypothèque

Indique un logement occupé par son propriétaire et grevé de dettes, autre qu'un logement occupé par un exploitant agricole résidant dans la ferme qu'il exploite.

Un logement est considéré comme hypothéqué tant qu'il n'est pas entièrement payé. Les données recueillies concernent seulement l'existence d'une hypothèque et le détenteur de la première hypothèque; elles ne portent nullement sur le montant de l'hypothèque.

Loyer en espèces

Indique la somme versée pour avoir le droit d'occuper un logement (sans en être le propriétaire) pendant la semaine ou le mois précédent le jour du dénombrement.
