INTRODUCTION

This report gives final figures from the 1971 Census on labour market activity. Table 20 includes all persons 15 years and over showing weeks worked in 1970, full- or part-time, classified by sex, age group and school attendance, for Canada and provinces. Table 21 includes those persons 15 years and over, who worked in 1970, showing weeks worked classified by sex, level of schooling and age group, for Canada. Table 22 is restricted to females 15 years and over who worked in 1970. This table shows weeks worked in 1970 classified by marital status, for Canada.

The information in this report was collected on a 33 1/3% sample basis. As a result, the population for a given geographic area may differ from that shown in reports containing data collected on a 100% basis. The latter figures, of course, represent the official population counts (see Catalogue No. 92-715).

The 1971 Census figures in this report have been subjected to a confidentiality procedure to prevent the possibility of associating small figures with any identifiable individual. The particular technique used is known as "random rounding". Under this method, all last or "unit" digits in a table (including all totals) are randomly rounded (either up or down) to "0" or "5". This technique provides the strongest possible protection against direct, residual, or negative disclosures without adding any significant error to the census data. However, since totals are independently rounded they do not necessarily equal the sum of individual rounded figures in distributions. Also, minor differences can be expected for corresponding totals and cell values in various census reports.

Ce bulletin présente les chiffres définitifs du recensement de 1971 en ce qui concerne l'activité sur le marché du travail. Le tableau 20 comprend toutes les personnes de 15 ans et plus selon le sexe, le groupe d'âge et la fréquentation scolaire, par nombre de semaines travaillées en 1970, à plein temps ou à temps partiel, pour le Canada et les provinces. Le tableau 21 donne le nombre de personnes de 15 ans et plus qui ont travaillé en 1970, selon le sexe, le niveau de scolarité et le groupe d'âge, par nombre de semaines travaillées, pour le Canada. Le tableau 22 est limité aux femmes de 15 ans et plus qui ont travaillé en 1970. Ce tableau indique le nombre de semaines travaillées en 1970 selon l'état matrimonial, pour le Canada.

Les renseignements de la présente publication ont été recueillis sur un échantillon de 33 1/3 %. Il s'ensuit que les chiffres de population pour une région géographique donnée ne sont pas forcément les mêmes que ceux des publications dont les données sont intégrales. Bien entendu, ce sont ces dernières données qui représentent les chiffres officiels de population (voir la publication n° 92-715 au catalogue).

Par souci de confidentialité, les chiffres du recensement de 1971 publiés ici ont été soumis à une formule qui interdit la possibilité d'associer des chiffres de faible importance à une personne reconnaissable. Cette technique particulière s'appelle l'"arrondissement aléatoire". Grâce à cette méthode, tous les derniers chiffres, c'est-à-dire les chiffres des unités (y compris tous les totaux) des tableaux sont arrondis de façon aléatoire (vers le haut ou vers le bas) à "0" ou à "5". Cette technique assure la protection maximale contre la divulgation directe, négative ou par recoupements, sans ajouter d'erreur significative aux données. Toutefois, puisque les totaux sont arrondis séparément, ils ne sont pas nécessairement égaux à la somme des chiffres individuels arrondis dans les distributions. De plus, il faut s'attendre que les totaux et les autres chiffres correspondants dans divers bulletins du recensement présentent quelques légères différences.

DEFINITIONS

Age: Classifications are based on the number of completed years of age at last birthday prior to June 1, 1971.

Marital status (i.e., single, married, widowed and divorced): Totals shown under the heading "Married" include all married persons whether living together or living apart for any reason unless a divorce has been obtained.

School attendance: Refers to either full-time or part-time attendance at any type of educational institution since September 1970.

Level of schooling: Refers to the highest grade or year of elementary school, secondary school or university ever attended excluding post-secondary non-university education. Individuals may have completed vocational training, either apprenticeship or other full-time courses, in addition to the schooling shown.

Weeks worked in 1970: Refers to the number of weeks in 1970 during which the respondent worked even for a few hours. Includes weeks of paid vacation or sick leave or paid absence on training courses. "Work" implies work for "pay or profit", self-employment, unpaid family work on family farm or business, and work for payment "in kind" in a non-family enterprise.

Weeks worked in 1970, full-time or part-time: Persons who worked in 1970 were asked to report whether the weeks reported were mainly full weeks of work or mainly weeks in which they worked only part of a week. (Persons working only one day a week were instructed to mark "Part-time".) Persons with a part-time job for part of the year and a full-time job for another part of the year were to report the information for the job at which they worked the most weeks. Full-time work was defined as work for the full work week for the normal work hours.

Work experience: Refers to work experience prior to the census date derived from information on "when last worked" and on whether or not the person worked in 1970 as indicated by the reporting of some weeks worked in 1970.

The estimates of the mean square error for the characteristics covered in this report were not available at the time of publication. They will be available in the introductory report to this volume (Catalogue No. 94-771). Those users requiring this information prior to the release of the introductory report should contact the Census User Inquiry Service.

DÉFINITIONS

Âge: Nombre d'années révolues au dernier anniversaire avant le 1^{er} juin 1971.

État matrimonial (c.-à-d. célibataire, marié, veuf et divorcé): Le total "Mariés" comprend toutes les personnes dont le conjoint est vivant, qu'elles vivent ensemble ou qu'elles soient séparées pour quelque raison que ce soit, à moins d'avoir obtenu un divorce.

Fréquentation scolaire: Fréquentation à plein temps ou à temps partiel de n'importe quel genre d'établissement d'enseignement depuis septembre 1970.

Niveau de scolarité: Dernière année d'études primaires, secondaires ou universitaires, sans mention de la formation postsecondaire non universitaire. À remarquer qu'on peut avoir fait un cours professionnel (apprentissage ou autre cours à plein temps) en plus de la scolarité indiquée.

Semaines travaillées en 1970: Nombre de semaines au cours desquelles le recensé a travaillé, ne fût-ce que quelques heures, en 1970. Sont comprises les semaines de vacances payées, de congé de maladie ou d'absences payées pour des cours de formation. "Travail" s'entend du travail "contre rémunération ou en vue d'un bénéfice", d'un emploi autonome, du travail sans rémunération dans une ferme ou une entreprise familiale ainsi que du travail contre paiement en nature dans une entreprise non familiale.

Semaines travaillées en 1970, à plein temps ou à temps partiel: Les personnes qui ont travaillé en 1970 devaient indiquer si leurs semaines de travail étaient surtout des semaines entières ou surtout des semaines partielles. (Les personnes qui n'avaient travaillé qu'une journée par semaine devaient indiquer "à temps partiel".) Les personnes qui avaient un emploi à temps partiel pendant une partie de l'année et un emploi à plein temps pendant l'autre partie devaient répondre pour l'emploi qu'elles avaient occupé le plus grand nombre de semaines. Travailler à plein temps, selon la définition, c'est travailler une semaine complète pour le nombre normal d'heures de travail.

Antécédents de travail: On détermine les antécédents de travail à partir des renseignements recueillis sur la date du dernier travail recoupés avec les renseignements obtenus sur le nombre de semaines travaillées en 1970.

Les estimations de l'erreur quadratique moyenne des caractéristiques données dans ce bulletin n'étaient pas connues au moment de la publication. Elles seront disponibles dans l'introduction de ce volume (n^o 94-771 au catalogue). Les utilisateurs désireux de connaître ce renseignement avant la publication du bulletin d'introduction devront s'adresser au Service-utilisateurs du recensement.

Publications of the Census of Canada, 1971

This report is one of the Volume Series of publications of the 1971 Censuses of Population, Housing and Agriculture. Altogether, there are some 225 reports in this series prepared in such a way that by removal of their covers the contents can be combined to form the materials comprising the 6 volumes and 25 separate volume parts in the entire series. A hard-covered binder, suitably titled, is included in the composite price to purchasers of the complete set of reports for any given volume part.

Catalogue of reports

A catalogue is available which describes the individual reports in the Volume Series of 1971 Census publications as well as reports in other series (i.e., Advance Series, Census Tract Series, and Special Series). The catalogue also includes a price list and an order form. A copy of this catalogue may be obtained from Publications Distribution, Statistics Canada, Ottawa K1A 0T6. For further information on census publications, address your inquiry to Information Division, Statistics Canada.

How to order reports

Orders for reports may be sent to Publications Distribution, Statistics Canada, Ottawa K1A 0T6, or to Publishing Division, Information Canada, Ottawa K1A 0S9. Enclose payment with your order in the form of a cheque or money order made payable to the Receiver General of Canada. If more convenient, census publications may be ordered from Information Canada bookstores in Halifax, Montreal, Ottawa, Toronto, Winnipeg, or Vancouver. For other details concerning deposit accounts, bulk orders, etc., contact Publications Distribution, Statistics Canada.

Other forms of publication

In addition to the tabulated results of the 1971 Census published in reports and bulletins, a large number of tables will be issued to users as copies of computer print-outs. These will also be available in microform. A variety of statistical tables may be purchased on computer "summary" tapes for further computer analysis by users. Details of the content, prices, and availability of census tabulations in these output media may be obtained from the User Inquiry Service, Census Field, Statistics Canada, Ottawa K1A 0T7.

Special tabulations

To the extent that confidentiality constraints permit, Statistics Canada will produce for users at cost, special tabulations not already included in the planned tabulation programme. Requests should be sent to the Census User Inquiry Service specifying clearly the precise classifications or cross-classifications and the geographic areas. The exact categories for each characteristic and a rough table layout should be included.

Maps and geographic files

Large-scale maps may be purchased to show the boundaries of enumeration areas (i.e., the territory covered by each Census Representative in taking the census), as well as small-scale maps of census divisions and other statistical areas. Supporting documentation relating to the census geographic files (i.e., place names, codes, etc.) are available in tabular form identifying the component enumeration areas of administrative and statistical units (e.g., towns, villages, municipalities, tracts). Further details, including costs to users, may be obtained from the User Inquiry Service of the Census Field of Statistics Canada.

Catalogue

On peut se procurer un catalogue qui décrit chaque bulletin de la série des volumes du recensement de 1971, ainsi que les bulletins des autres séries (série préliminaire, série des secteurs de recensement et série spéciale). Le catalogue contient également une liste de prix et une formule de commande. Les utilisateurs désireux de faire des analyses par des moyens mécanographiques pourront également se procurer un large éventail de tableaux statistiques sur bandes "sommaires". Pour tout renseignement sur le contenu, le prix et la disponibilité des résultats du recensement sur ces supports, s'adresser au Service-utilisateurs, Secteur du recensement, Statistique Canada, Ottawa K1A 0T7.

Totalisations spéciales

Dans la mesure où le respect du secret des données le permettra, Statistique Canada établira, à l'intention des utilisateurs qui en acquitteront les frais, des totalisations spéciales qui ne font pas encore partie du programme d'exploitation prévu. Il faut envoyer les demandes au Service-utilisateurs des données du recensement en précisant bien les classements ou recoupements et les régions géographiques. Il faut inclure les catégories exactes pour chaque caractéristique et une ébauche de la disposition des tableaux.

Cartes et fichiers géographiques

Les utilisateurs pourront se procurer des cartes à grande échelle indiquant les limites des secteurs de dénombrement (c.-à-d. des territoires recensés par chaque représentant du recensement) ainsi que des cartes à petite échelle des divisions de recensement et des autres secteurs statistiques. Les documents constituant les fichiers géographiques (noms, codes, etc. géographiques) sont disponibles sous forme de tableaux présentant les différents secteurs de dénombrement qui constituent les unités administratives et statistiques (par ex., villes, villages, municipalités et secteurs de recensement). Pour plus de détails et pour une indication des frais, s'adresser au Service-utilisateurs du Secteur du recensement de Statistique Canada.
