## INTRODUCTION

The Census of Saskatchewan, taken as of date June 1, 1926, was the sixth taken under the direction of the Dominion Bureau of Statistics since the province was created out of the Northwest Territories as constituted in 1905.

The various tables resulting from the compilations of this census are given in this report in two main parts—Part I, Population and Part II, Agriculture.

*Population.*—In tables 1 to 19 comparisons are instituted with previous censuses as regards the main features of population statistics. In tables 20 to 54 the statistics are confined exclusively to the population enumerated at the 1926 Census.

*Agriculture.*—The statistics of farms and farm property (Tables 55-109) including data pertaining to number of farms, size and tenure of farms, condition of farm lands, domestic animals, farm values and farm facilities relate to June 1, 1926, while those relating to farm products, including field and animal products, refer to the calendar year 1925. The acreage under crop is shown for 1926 as well as for 1925.

## INTRODUCTION

Le recensement de la Saskatchewan, pris le 1er juin 1926, est le sixième fait sous la direction du Bureau Fédéral de la Statistique depuis que cette portion des Territoires du Nord-Ouest a été érigée en province en 1905.

Le dépouillement et la compilation de ce recensement ont donné naissance à un grand nombre de tableaux, qui sont publiés dans ce rapport en deux parties principales, la première partie étant consacrée à la population et la seconde partie à l'agriculture.

*Population.*—Les tableaux 1 à 19, établissent des comparaisons avec les recensements précédents au regard des principales statistiques de la population. Dans les tableaux 20 à 54 les statistiques sont confinées exclusivement à la population dénombrée au recensement de 1926.

*Agriculture.*—Tout ce qui concerne les exploitations agricoles, (Tableaux 55-109) notamment le nombre des fermes, leur superficie et leur amodiation, l'état des terres, les animaux domestiques, la valeur des exploitations agricoles et leur équipement se rapporte à la date du premier juin 1926, mais les données touchant aux produits agricoles, qu'il s'agisse de récoltes ou des produits animaux, se rapportent à l'année solaire 1925. L'étendue des emblavures est indiquée aussi bien pour 1926 que pour 1925.

## APPENDIX

### DIVISIONS OF SASKATCHEWAN FOR CENSUS PURPOSES

There being no fixed political divisions in Saskatchewan corresponding to counties in Eastern Canada, it has been found impracticable to compare, for rural parts, the data collected at any Census with that of a previous one for smaller areas than the province as a whole. To overcome this difficulty, the Bureau has divided the province for statistical purposes into "Census Divisions" each containing a certain number of rural municipalities, cities, towns and incorporated villages.

Maps are inserted, showing the boundaries of the "Divisions" by red lines; the municipalities contained within "Divisions" by heavy black lines and the townships within municipalities by faint black lines. The numbers enclosed in red circles on the maps refer to the numbers assigned to the "Divisions"; the black figures refer to municipalities and correspond to the numbers under which the Census data for these areas are given in the tables. When the municipality has a name, it, as well as the numerical designation, is printed in the stub to the tables.

The following schedule gives the rural municipalities by name and number (the latter in parenthesis), together with the cities, towns and villages comprised within each "Census Division". Unorganized Territorial Units are given by number only.

### DIVISIONS DE LA SASKATCHEWAN POUR FINS DE RECENSEMENT

La province de la Saskatchewan ne possédant pas de divisions territoriales comparables aux comtés des provinces de l'est du Canada, il n'était pas possible de comparer les données d'un recensement quelconque dans les régions rurales avec celles des recensements antérieurs, la seule comparaison praticable embrassant la province entière. Pour obvier à cet inconvénient, le Bureau a divisé cette province en "divisions de recensement" constituées au moyen d'un certain nombre de municipalités rurales, de cités, de villes et de villages incorporés.

Sur les cartes, ci-jointes les limites des divisions sont figurées par des lignes rouges, celles des municipalités qui sont contenues dans les divisions par d'épaisses lignes noires et celles des cantons par de minces lignes noires.

Les nombres entourés d'un cercle rouge sont les numéros donnés aux divisions; les chiffres en noir sont les numéros des municipalités; ils correspondent aux numéros sous lesquels les données de recensement relatives à ces territoires figurent dans les tableaux. Lorsque la municipalité a un nom, ce nom, accompagné d'un numéro, est imprimé sur la marge des tableaux.

On trouvera dans la liste qui suit l'énumération des municipalités rurales, par nom et numéro (ce dernier entre parenthèses) ainsi que les cités, villes et villages composant chacune des "divisions de recensement". Les unités des territoires inorganisés de la Saskatchewan sont indiquées simplement par un numéro.
