CANADA
AGE

This bulletin presents final population figures of the 1941 Census by age groups and sex for Canada and the provinces, rural and urban, and for urban centres of 15,000 and over. It forms part of an initial series of reports being issued for each province separately, and for Canada as a whole, as final results become available.

The first bulletin in this series for each province, (Bulletin No. A-1), gives the final population by sex, for counties or census divisions, and also for cities, towns, villages, and rural sub-divisions. Bulletin No. A-1 for Canada as a whole summarizes the population, by sex, for all counties and census divisions, rural and urban. Other provincial bulletins in the series classify the population according to sex, by conjugal condition, age, racial origin, religion, birthplace, immigration and citizenship, language, schooling, etc., for the following areas: (a) the province as a whole, separating the rural and urban population, and giving comparative figures for 1931; (b) counties or census divisions, by rural and urban; and (c) urban centres of 5,000 and over. The Canada bulletins show these data for the areas as mentioned above in the first paragraph.

Cross-classifications of the population will appear in further series.

For most areas the increases in population shown in the final population figures as compared with the figures given in the preliminary announcements of population are due to the addition of men in the Armed Services not enumerated at their permanent homes on June 2, 1941. It should be noted also that the final population compilations were made after the completion of the transfer of persons, recorded on Absentee Household and Closed Dwelling Cards, to their permanent residence.

Definition of terms

Rural and Urban:- The term "urban" in the Census applies only to incorporated cities, towns and villages. The population of all unincorporated towns and villages is included in the rural population.

CANADA
AGE

Ce bulletin présente les chiffres définitifs du Recensement de 1941 sur la population rurale et urbaine, par groupe d'âge et sexe, pour le Canada et les provinces et pour les centres urbains de 15,000 âmes et plus. Il fait partie d'une série initiale de rapports émis pour chaque province séparément, et pour l'ensemble du Canada, à mesure que les chiffres définitifs seront connus.

Le premier bulletin de cette série pour chaque province (Bulletin no A-1) donne la population définitive par sexe, pour les comtés ou divisions de recensement, ainsi que pour les cités, villes, villages et subdivisions rurales. Le Bulletin no A-1 pour l'ensemble du Canada est un résumé de la population rurale et urbaine, par sexe, pour tous les comtés et divisions du recensement. Les autres bulletins provinciaux de cette série classifient la population d'après le sexe, l'état conjugal, l'âge, l'origine raciale, la religion, le lieu de naissance, l'immigration et la citoyenneté, la langue, l'instruction, etc., pour les régions suivantes: (a) l'ensemble de la province, distinction faite entre population rurale et population urbaine, avec chiffres comparatifs pour 1931; (b) comtés ou divisions de recensement, population rurale et urbaine; et (c) centres urbains de 5,000 et plus. Le bulletin portant sur le Canada donne ces chiffres pour les régions mentionnées ci-dessus au premier paragraphe.

Des classifications recoupées de la population paraîtront dans des séries subséquentes.

Pour la plupart des régions, les augmentations de population indiquées dans les chiffres définitifs en regard des chiffres des états préliminaires sont dues à l'addition des membres des forces armées qui n'avaient pas été énumérés à leur domicile permanent le 2 juin 1941. Il faut aussi noter que la compilation définitive de la population a été faite après que les personnes, inscrites sur les fiches de ménage absent ou d'habitation fermée, eurent été transférées à leur domicile permanent.

Définition des termes

Rural et urbain:- Le terme "urbain" pour les fins de recensement ne s'applique qu'aux cités, villes et villages incorporés. La population des villes et villages non incorporés est comptée avec la population rurale.
