PREFACE

This report is the first of a series giving final population figures from the 1945 Census of Newfoundland. The tables herein show the population of Newfoundland according to districts and settlements without further classification except by sex. Other reports to follow in this series will give the population of Newfoundland classified by such subjects as age, marital status, religion, birthplace, literacy, schooling, etc.

Several historical tables have been included in this report to compare the 1945 results with available data from earlier censuses. These include tables to show the total population of Newfoundland at each census from 1836 to 1945, the population of the 25 districts of Newfoundland from 1921 to 1945, the population of settlements of 1,000 and over from 1901 to 1945, and the total population of Newfoundland by sex from 1901 to 1945. In addition, the population of all settlements, arranged alphabetically by districts, and classified by sex, is given for the Census of 1945.

The reports in this series represent final tabulated results compiled from the Census of Population, Agriculture and Fisheries, taken by the Newfoundland Government in 1945. These tabulations have been carried out in the Dominion Bureau of Statistics at the request of Newfoundland. Further reports are being compiled to show classifications of the population by occupations, industry, income, etc., as well as data relating to households and families, and summary compilations of the Census of Agriculture and Fisheries.

(1) Under the terms of the House of Assembly Act of 1932, 22 Geo.V., Chapter 7, 24 districts (exclusive of Labrador) were set up in Newfoundland. Previous to that date, there were 18 districts. The populations of these 18 districts from 1836 to 1911 are shown in Table 3, page 11 of Volume I of the 1935 Census of Newfoundland and Labrador.

Table 3.- Population by sex, showing the percentage of males and females, 1901-1945.

(1) For comparative purposes with earlier censuses, the settlements shown in this table comprise the same areas as those shown in Tables 30 and 31 of Volume I of the 1935 Census of Newfoundland.

(2) Refers to Bell Island as a whole, and includes such settlements as Lance Cove, Freshwater and West Mines (see page 8).

(3) The population shown for St. John's City represents the number living within the incorporated limits of the city. Figures sometimes given for St. John's include a one-mile strip outside the legal boundaries which, although not actually part of the city, has lately been included for such purposes as town planning, etc. This area includes parts of the following census sections: Boggy Hall, Freshwater Valley, Kilbride, Major's Path, Nagle's Hill, Quidi Vidi and Southside. The population of St. John's, including all of these sections, amounts to 57,496. Some of the sections extend beyond the one-mile fringe but it is not possible to show the population for the parts strictly within this limit.

(4) Formerly called Grand Falls Station.
